Subject: FW: [PS.Academics.RSB] Reminder Call for 2011 Publications

Hi John,

I am entering your publications and wanted to confirm if any research lead to these publications was done at ANU. One of them has a present address listed as ANU so thought to ask.

Please let me know soon as I am in the process of entering into ARIES.

Thanks
Gagan

Hi John,

I have only received two publications for this year from you. The publications are listed below.

2011 Segonzac, Cecile Hierarchy and roles of pathogen-associated molecular pattern-induced responses in nicotiana benthamiana C1: Journal article meeting HERDC requirements

2011 Rathjen, John The receptor-like kinase serk3/bak1 is required for basal resistance against the late blight pathogen Phytophthora infestans in Nicotiana benthamiana ExtC1: HERDC journal article not researched at ANU

If you have more to add on to this list for 2011 then please send PDF's.

Thanks
Gagan

Hi Gagan:
I can't remember if I've done this or not – please could you remind me?
Thanks
John

Subject: [PS.Academics.RSB] Reminder Call for 2011 Publications

Hello Everyone,

Could you please forward me your 2011 publications so I can enter them into ARIES. Please attach electronic copies for all your publications.

I would appreciate it if you could do this as soon as possible, as entering articles into AIRES is time consuming and the final date is coming up soon.

If you are not sure what you have/haven't sent during the year, please send them all again. I can check quickly on AIRES and they will not get doubled-up as it will only accept the same title once.

Procedure for submitting your publications for 2011

- Send me an electronic copy of publications as they are published, I will be entering them into ARIES throughout the year.
- Include in the email relevant FOR code(s) and SEO code(s), please select 6 digit codes. If you select more than one code, please advise the split eg. 50/50, 25/75.

  Please use the link below to access codes:

  FOR Codes

SEO codes

- If submitting a book, book chapter or conference paper, please make sure you provide copies of the relevant verification documents. Checklists of the verification materials required are available at the following link.
- If you would like your accepted publications included in the RSB newsletter, please send the details directly to Sharyn.Wragg@anu.edu.au

For all Lab leaders, could I please ask you to take this opportunity to update your Research I.D.
Please forward this email to any Visitors (past and present) and research students in your area who may have eligible publications for 2011.
Also if you have already sent me your publications for 2011 then please ignore this message.
If you have questions, or are not clear on any part of this process, please do not hesitate to contact me for clarification.

Everyone's assistance in this matter is greatly appreciated.

Thanks
Gagan
