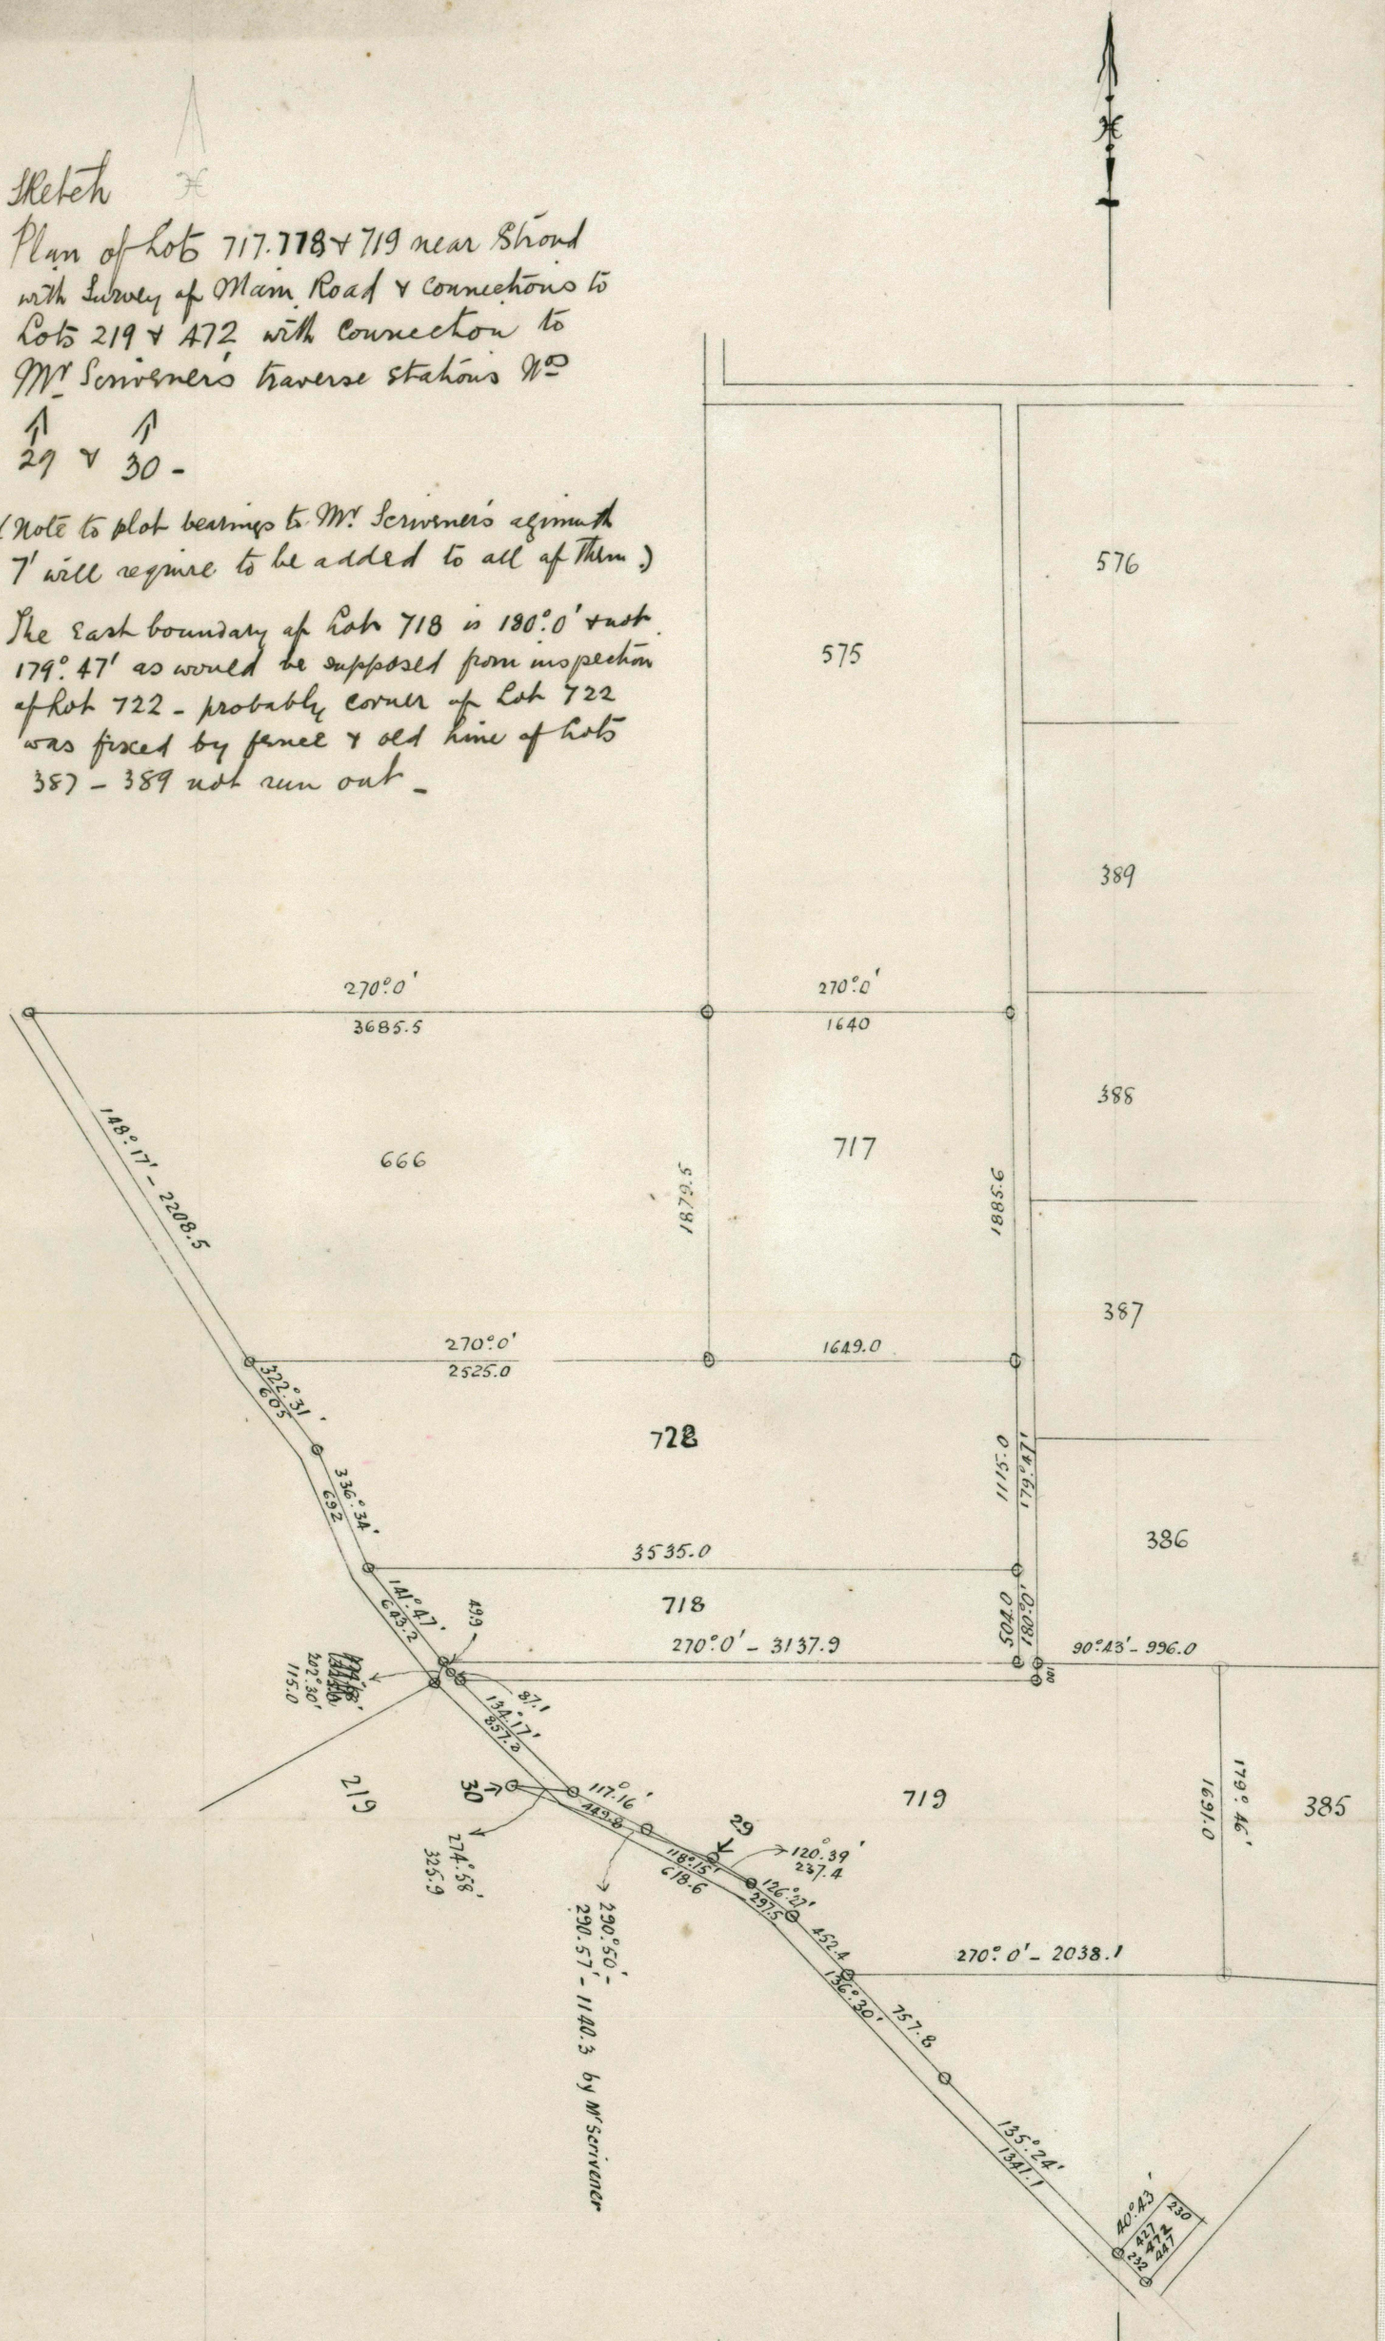
Sketch

Plan of Lots 717. 718 & 719 near Shoal with Survey of Main Road & connections to Lots 219 & 472 with connection to Mr Scrivener's traverse stations No 29 & 30 -

(Note to plot bearings to Mr Scrivener's azimuth 7' will require to be added to all of them.)


The East boundary of Lot 718 is 180°.0' not 179°.47' as would be supposed from inspection of Lot 722 - probably corner of Lot 722 was fixed by fence & old line of Lots 387 - 389 not run out -
