   'the Committee' means the Admissions Committee established under the next succeeding rule.

3. There shall be an Admissions Committee consisting of such persons as the Board of the School of General Studies appoints.

4. (1) The Committee may at such times as it thinks fit call for applications for admission in relation to a particular year.
   (2) An application for admission shall be in such form, and contain such information, as the Committee requires.

5. (1) A person may be admitted to the University for the purpose of undertaking a course of study for a specified bachelors degree or of undertaking a specified unit, part unit or subject prescribed for such a course if there is evidence which in the opinion of the Committee indicates that he has the capacity and educational background to pursue his studies successfully.
   (2) In arriving at its opinion the Committee shall be guided by standards of capacity and educational qualifications from time to time prescribed by the Board of the School of General Studies.
   (3) The Committee may withhold admission to the University from any applicant.

6. (1) Notwithstanding the rules from time to time governing the courses of study for bachelors degrees, a person is not eligible, in any year, to commence such a course of study or to undertake a unit, part unit or subject prescribed for such a course of study unless he has, in relation to that year, been admitted to the University in accord­ance with these Rules.
   (2) A person admitted, in relation to any year, to the University for the purpose of undertaking a course of study for a specified bachelors degree remains eligible to undertake that course subject to compliance by him with the rules from time to time governing that course of study or, where he has not completed that course of study, subject to the Statutes and Rules, to undertake the course of study for another bachelors degree.
   (3) A person admitted to the University for the purpose of undertak­ing a specified unit, part unit or subject prescribed for a course of study for a bachelors degree is eligible to undertake that unit, part unit or subject only in the year in relation to which he is also admitted.

7. (1) The Committee shall cause to be given to each applicant for admission whom it has admitted to the University in accordance with these Rules notice in writing of his admission.
   (2) The notice referred to in the last preceding sub-rule shall specify the year in relation to which, and the purpose for which, the admission is effective.

Part II — Examinations in Units for Bachelors Degrees and Diplomas

2. The examination of the performance of candidates in a unit shall, subject to any directions of the Board of the School of General Studies, be conducted in such manner as the faculty responsible directs, and at such time and place as the faculty responsible or the Academic Registrar, at the request of the faculty responsible, directs.

3. A person is not eligible to be examined in a unit unless he has enrolled for that unit and has complied with the requirements of such rules; as are applicable to his taking that unit.

(c) it otherwise appears to an invigilator that the performance of a candidate in the examination has been thus adversely affected,

the invigilator shall, as soon as possible after the completion of the examination, so inform the Academic Registrar in writing.

(3) Where a candidate considers that his performance in an examination other than an examination of the kind referred to in sub-rule (2) has been adversely affected by illness or other cause in the course of the examination, he may, before the conclusion of the examination, so notify the Academic Registrar.

(4) Upon receiving a notification under sub-rule (1), sub-rule (2) or sub-rule (3) the Academic Registrar shall furnish a report to the dean of the faculty responsible who shall transmit the report to the examiners.

(4) Where the examiners' reports differ, the faculty may invite the examiners to consult, or consult further, with the object of resolving their differences or submitting a joint report, or may take such other action as it thinks fit.

12. (1) Unless the faculty concerned otherwise determines, a thesis or other work submitted for the degree of master shall be in the English language.

(2) Except with the permission of the faculty concerned, a candidate shall furnish to the Academic Registrar three typewritten or printed copies of his thesis or other work, one of which shall be lodged by the faculty with the Librarian after it has been accepted for the degree for which it was submitted.

(3) The form of typewriting or printing in which copies of a thesis or other work are to be furnished shall be as determined by the Board of the School of General Studies.

13. Where it is provided by any rules made under the Enrolment, Courses and Degrees Statute that a candidate for the degree of master shall be examined for that degree in a manner other than by the submission of a thesis or other work, or shall be examined on the subject of his thesis or other work, the examination shall be held at such time and place as the faculty concerned, subject to any directions of the Board of the School of General Studies, determines.

Courses of Study (Degree of Bachelor of Arts (Asian Studies)) Rules

1. (1) In these Rules, unless the contrary intention appears—
the Faculty means the Faculty of Asian Studies;
unit value, in relation to a unit of Asian Civilization, means the value
attributed to a unit by a figure appearing opposite a unit under the
third or fifth column in the Table in sub-rule 7(2).

(2) For the purposes of these Rules, a major consists of a sequence
of three units, and a sub-major consists of a sequence of two units,
approved in accordance with these Rules.

2. The degree of Bachelor of Arts (Asian Studies) may be conferred
as a pass degree or as a degree with honours.

3. (1) A candidate for the degree shall, before commencing his
course, secure the approval of the Faculty to his proposed choice of
units for the degree and the order in which he proposes to take those
units and shall thereafter secure the approval of the Faculty to any
proposed alterations in the choice and order of the units to be so
taken.

(2) The number of units that a candidate may take in any year shall
be determined by the Faculty.

4. (1) Subject to the next succeeding sub-rule, a candidate shall
not be admitted to examination in a unit of the course unless the unit
forms part of a course that has been approved by the Faculty and is
in accordance with these Rules and the candidate has attended such
classes and performed such work in that unit as are required by the
head of the appropriate department.

(2) A candidate may, in special circumstances, with the approval of
the Faculty, be admitted to examination in a unit not forming part of
his approved course.

4A. Where, after the commencement of these Rules, an amendment
relating to the courses of study that may be taken by candidates for
the pass degree of Bachelor of Arts (Asian Studies) or the degree with
honours is made to these Rules, the amendment does not apply to a
candidate who, before the making of the amendment, completed one
or more units of a course of study approved by the Faculty, unless—

(5) The value, for the purpose of these Rules, of a unit or subject offered by a faculty other than the Faculty of Economics is — 

(a) in the case of a unit offered by the Faculty of Science — such number of points as is the value of that unit for the purposes of the Courses of Study (Degree of Bachelor of Science) Rules; and

(b) in any other case — such number of points as is determined by the Faculty.

(6) A unit from another faculty shall be taken in accordance with the Courses of Study (Degree of Bachelor of Arts) Rules, the Courses of Study (Degree of Bachelor of Arts (Asian Studies)) Rules, the Courses of Study (Degree of Bachelor of Laws) Rules, or the Courses of Study (Degree of Bachelor of Science) Rules, as the case requires.

(7) Notwithstanding anything contained in these Rules —

(a) a candidate may not receive credit —

(i) for both Mathematics for Economists and Applied Mathematics I, Mathematical Methods or Pure Mathematics I; or

(ii) except with the permission of the Faculty for more than two points in respect of first-year units offered by a faculty other than the Faculty of Economics unless those units are units that are offered by the Faculty of Science and taken in pursuance of sub-rule (3) of the last preceding rule;

(b) a candidate may not, except with the permission of the Faculty, receive credit for more than eight points in respect of first-year units taken by him;

(c) a candidate who takes the approved major set out as group 5 in the table in rule 8 of these Rules shall not receive credit for —

(i) more than six points in respect of units specified in that group or, if he has completed units the total
value of which is fourteen points and has been accepted provisionally as a candidate for the degree with honours in Political Science, more than eight points in respect of those units; or

(ii) any unit from another faculty other than Applied Mathematics I, Mathematical Methods or Pure Mathematics I;

(d) a candidate shall not take Statistics AO1 or Statistics AO2 concurrently with, or after completion of, Applied Mathematics II, Pure Mathematics II or Statistics BO1;

(e) a candidate shall not take Statistics AO3 —

(i) concurrently with, or after completion of, Applied Mathematics I, Mathematical Methods, Pure Mathematics I or Statistics BO1; or

(ii) if the Faculty requires him to take Statistics AO1 in its stead;

(l) a candidate shall not receive credit for more than six points in respect of units referred to in paragraph (e) of sub-rule (1);

(g) a candidate who receives credit for six points in respect of units referred in paragraph (e) of sub-rule (1) shall not receive credit in respect of units referred to in paragraphs (b), (c) and (d) of sub-rule (1); and

(h) a candidate shall not—

(i) take the subject Introductory Business Law unless he has completed six points in respect of Economics units;

(ii) take the subject Business Organisations unless he has completed the subject Introductory Business Law; or

(iii) take the subject Taxation Law and Practice unless he has completed the subject Introductory Business Law and has completed, or is concurrently taking, the subject Business Organisations.

(8) In the application of sub-paragraph (ii) of paragraph (a) and paragraph (b), of the last preceding sub-rule, Applied Mathematics I and Pure Mathematics I shall be deemed not to be first-year units.

(9) In the application of sub-paragraph (ii) of paragraph (a) of sub-rule (7) of this rule, Mathematical Methods shall be deemed not to be a first-year unit.

(10) For the purposes of sub-rules (7), (8) and (9) —

(a) a reference in any of those sub-rules to Mathematical Methods shall be read as including the combination Pure Mathematics AO1 and AO2;

(b) a reference in any of those sub-rules to Pure Mathematics I shall be read as including a combination comprising any two of Pure Mathematics AO3, AO4, AO5(H) and AO6(H); and

(c) the reference in paragraph (7)(d) to Pure Mathematics II shall be read as including any two of Pure Mathematics BO1, BO2, BO3, BO4, BO5(H), BO6(H), BO7(H) and BO8(H).
(11) Incompatible units in Pure Mathematics: A half-unit specified in the first column of the following table shall be taken to be incompatible with the half-units specified in the second column of that table in relation to the first-mentioned half-unit.

10. (1) With the permission of the head of the department in which a unit is taken, a candidate may enrol for honours in a unit.

(2) A candidate who has enrolled for honours in a unit may only sit for an honours examination in that unit with the approval of the head of the department in which the unit is taken.

10A. The performance of a candidate in a unit shall be classified as 'high distinction', 'distinction', 'credit', 'pass with merit', 'pass' or 'fail'.

11. Except with the permission of the Faculty, a candidate shall not be admitted to the pass degree unless —

The degree with honours

11. A candidate for the degree of Bachelor of Laws with honours shall comply with the preceding rules of these Rules and shall, in addition satisfy the requirements of these Rules with respect to the Final Honours Examination.

12. (1) The Final Honours Examination shall consist of 2 parts, Part A and Part B.
(2) Part A shall be constituted, in the case of a candidate other than a prescribed candidate, by all subjects taken by the candidate in pursuance of rule 4.

(3) Part A shall be constituted, in the case of a prescribed candidate, by all subjects taken by the candidate in pursuance of rule 4A.

(4) Part B shall comprise a paper, of approximately 10,000 words, prepared by the candidate on a research topic approved by the Faculty.

(5) 70% of the total marks for the Final Honours Examination shall be allocated to Part A and 30% of the marks for the Final Honours Examination shall be allocated to Part B.

(6) Where a candidate has failed a subject referred to in rule 4 or rule 4A at his first attempt, for the purposes of ascertaining the mark to be allocated to Part A, the mark obtained at that first attempt shall be treated as the candidate's mark for that subject.

(7) Where the Faculty has, in pursuance of rule 15, granted credit to a candidate for a subject towards the degree of Bachelor of Laws, the Faculty shall, for the purposes of ascertaining the mark to be allocated to Part A, determine the mark that is to be treated as the candidate's mark for that subject.

(8) The Faculty may refuse to admit a candidate to the degree of Bachelor of Laws with honours where—
   (a) the candidate has failed 1 or more of the subjects that constitute Part A; or
   (b) the candidate has not attained a satisfactory standard in Part B.

13. (1) A candidate (other than a prescribed candidate) shall not be admitted to Part B of the Final Honours Examination unless, in the opinion of the Faculty, he has attained a satisfactory standard in the subjects taken by him in pursuance of sub-rules 4(1), 4(2) and 4(3) and in any other subjects taken by him in pursuance of rule 4.

(1A) A prescribed candidate shall not be admitted to Part B of the Final Honours Examination unless, in the opinion of the Faculty, he has attained a satisfactory standard in the subjects taken by him in pursuance of sub-rules 4A(3) and 4A(4) and in any other subjects taken by him in pursuance of rule 4A.

(1B) Where a candidate has failed a subject referred to in rule 4 or rule 4A at his first attempt, in determining whether the candidate has attained a satisfactory standard in that subject for the purposes of admission to Part B of the Final Honours Examination, the mark obtained at that first attempt shall be treated as the candidate's mark for that subject.

(1C) Where a prescribed candidate completed, before the commencement of this sub-rule, a subject taken under rule 4 for which he has not received credit under rule 4A, the Faculty may, for the purposes of determining whether the candidate should be admitted to Part B of the Honours Examination, have regard to the results obtained by the candidate in those subjects.

(2) The Faculty shall consider the eligibility of a candidate to be admitted to Part B of the Final Honours Examination as soon as possible after the candidate has sat for the annual examinations for all subjects taken by him under sub-rule 4(3), or 4A(4).
(2A) Notwithstanding the preceding provisions of this rule, the Faculty may admit to Part B of the Final Honours Examination a candidate who—

(a) was not eligible under those provisions to be so admitted; and

(b) has so performed in the subjects taken by him under sub-rule 4(4), or 4A(5) as, in the opinion of the Faculty, to justify his being so admitted.

(2B) Notwithstanding the preceding provisions of this rule the Faculty may, on such terms and conditions as it thinks fit, admit to Part B of the Final Honours Examination a candidate who was not eligible under those provisions to be so admitted, but whose results the Faculty considered to have been adversely affected by special circumstances.

(3) The Faculty may, at its discretion, and on such terms and conditions as it thinks fit, admit to Part B of the Final Honours Examination a candidate who has transferred to the University from the law school of another university and who has attained at the University a satisfactory standard in the subjects taken by him under rule 4 or 4A.

(4) A candidate who is admitted to Part B of the Final Honours Examination shall submit the research paper referred to in sub-rule 12(4) to the Faculty on or before the prescribed date in the final year of his course of study for the degree of Bachelor of Laws.

(5) Where, because of course variations, a candidate will be attempting in his final year fewer subjects than those specified in sub-rule 4(4), or 4A(5), the Faculty may, at its discretion, require submission of the research paper on or before the prescribed date in the year preceding the final year of his course.

(5AA) For the purposes of sub-rules (4) and (5), 'the prescribed date' means—

(a) in relation to a full-time student—15 March;

and

(b) in relation to a part-time student—15 May.

(5A) The Faculty may, in such circumstances as it thinks fit, fix a date for the submission by a candidate of a research paper that is later than the date specified in such of sub-rules (4) and (5) as applies in relation to that candidate.

(6) Unless the Faculty otherwise decides, a candidate for the degree of Bachelor of Laws with honours shall not be permitted to attempt Part B of the Final Honours Examination more than once.

(6A) Where a candidate who has previously attempted Part B of the Final Honours Examination is permitted to attempt that part of that examination again, the research paper prepared by the candidate in pursuance of sub-rule 12(4) shall be on a topic other than a topic previously approved by the Faculty in respect of that candidate for the purposes of that sub-rule.

(6B) Notwithstanding anything in the preceding provisions of this rule, the Faculty may refuse to admit a candidate to Part B of the Final Honours Examination if he has failed a subject referred to in rule 4 or 4A.
(7) In this rule, 'final year' means, in relation to a candidate, the year in which, if he successfully completes all of the subjects taken by him in that year, he will have completed all of the subjects required to be taken by him for the purpose of rule 4 or 4A.

14. (1) There shall be 3 classes of honours—first class; second class, division A; and second class, division B.

(2) A candidate who has been so classified and has qualified for the degree of Bachelor of Laws may be admitted to the degree of Bachelor of Laws with honours.

**Admission to status**

15. (1) The Faculty may grant to a candidate who has performed work or passed a subject—
   (a) in another faculty; or
   (b) at another university in Australia, or at another university outside Australia approved by the Faculty, being work performed, or a subject passed, after matriculation at that university,
   such credit for that work or subject towards the Degree of Bachelor of Laws as the Faculty determines.

(1A) Unless in a particular case the Faculty otherwise determines, a candidate shall not be granted credit for work performed, or a subject passed, more than 10 years before the date on which the candidate applied for credit for that work or subject.

(2) Where the Faculty so grants credit to a candidate, the Faculty shall determine the further subjects, the taking of which in the opinion of the Faculty constitutes a work load that is not less than the work load of a full-time final year student, that the candidate is required to take to satisfy the requirements of these Rules for the degree.

(2A) Where the Faculty grants credit to a candidate under this rule, the Faculty shall fix a time, not being more than 10 years from the date of admission of the candidate to the course for the degree of Bachelor of Laws in the University, within which the candidate must comply with the requirements of these Rules.

(3) The Faculty may grant a candidate credit for Legal Method where the candidate has performed work or passed a subject or subjects in law at a tertiary institution, other than a university if—
   (a) the institution is approved by the Faculty; and
   (b) the standard required by the institution in that work or subject or those subjects is, in the opinion of the Faculty, satisfactory.

(3A) The Faculty may grant to a candidate who has passed a subject relating to an area of law as part of a degree course offered by a college of advanced education approved by the Faculty for the purposes of this sub-rule such credit for that subject towards the degree of Bachelor of Laws as the Faculty determines, having regard to the content of that subject and the standard at which it was taught.

(4) The Faculty may grant credit to a candidate for subjects completed in the course for articled clerks conducted for the Council of Legal Education of Victoria by the Royal Melbourne Institute of Technology where the candidate had completed that course and has also been admitted as a barrister or solicitor of the Supreme Court of a State or Territory.

(5) A candidate referred to in sub-rule (4) shall be required to complete not less than 8 subjects as determined by Faculty, in order to qualify for the degree of Bachelor of Laws and the subjects so
determined shall not include a subject that is equivalent to a subject that the candidate completed in the Council of Legal Education course.

(6) For the purposes of sub-rule (5), 2 elective subjects the total subject value of which is 2 points shall be deemed to be 1 subject only.

Amendments

16. Where, after the commencement of this rule, an amendment of these Rules that affects the courses of study that may be taken by candidates for the degree of Bachelor of Laws or the degree of Bachelor of Laws with honours is made, the amendment does not apply to such a candidate who, before the making of the amendment, had completed 1 or more subjects of a course of study approved by the Faculty, unless—

(a) the student elects that the amendment apply to him and submits to the Faculty proposed alterations to his course that are in accordance with these Rules as so amended and the Faculty approved those alterations; or

(b) the Faculty otherwise determines.

Courses of Study (Degree of Bachelor of Science) Rules

1. (1) In these Rules, unless the contrary intention appears—
the Faculty' means the Faculty of Science;
'the table' means the table in sub-rule 5(2).

2. The degree of Bachelor of Science may be conferred as a pass degree or as a degree with honours.

2A. The Faculty may grant to a candidate who has performed work in another faculty, or part of the University or another tertiary educational institution such credit for that work towards the pass degree or honours degree of Bachelor of Science as the Faculty determines.

The pass degree

3. Subject to rule 11, a candidate for the pass degree of Bachelor of Science shall, unless he has been admitted to advanced status or the Faculty otherwise permits, pursue his studies for at least 3 years in accordance with these Rules.

4. (1) Subject to this rule and rules 8 and 11, to complete the course for the pass degree a candidate shall pass units set out or referred to in rule 5 the total value of which is not less than 20 points.

(2) Subject to sub-rules (3) and (4), the course shall include—
(a) units from Group A in the table the total value of which is not less than 6 points;
(b) units from Group B in the table the total value of which is not less than 2 points;
(c) units from Group C in the table the total value of which is not less than 4 points;
(d) units from all or any of Group B, C or D in the table the total value of which is not less than 4 points; and
(e) units from all or any of Group A, Group B, Group C, Group D or Group E in the table the total value of which is not less than 4 points.

(3) For the purposes of paragraph (2)(e), a candidate may not count more than 2 points in respect of units or subjects offered by a faculty other than the Faculty of Science, being units or subjects that are first-year units or subjects within the meaning of the Rules in accordance with which those units or subjects are, by virtue of sub-rule 5(4), required to be taken.

(4) A candidate may not count for the purposes of a paragraph of sub-rule (2) a point that he has counted for the purposes of another paragraph of that sub-rule notwithstanding that the unit in respect of which that point was obtained is a unit that is set out in more than 1 of the groups, or in more than 1 of the parts of a group, in the table.

5. (1) The units for the pass degree of Bachelor of Science are the units set out in Column 2 of the table in sub-rule (2).
R.17.2

(2) A candidate who passes a unit specified in Column 2 of the following table shall be credited with the number of points specified opposite that unit in Column 3.

(4) A unit chosen from a faculty other than the Faculty of Science shall be taken in accordance with the Courses of Study (Degree of Bachelor of Arts) Rules, the Courses of Study (Degree of Bachelor of Arts (Asian Studies)) Rules, the Courses of Study (Degree of Bachelor of Economics) Rules or the Courses of Study (Degree of Bachelor of Laws) Rules, as the case requires.

6. (1) A candidate shall pursue his course for the pass degree of Bachelor of Science subject to the following conditions:
   
   (a) the units to be taken by the candidate shall be approved by the Faculty;
   
   (b) except with the approval of the Faculty, a candidate shall not take a unit set out in Group C of the table unless he has obtained at least six points in respect of the units set out in Group A of the table.

   (2) The Faculty may determine that a candidate may not take a unit specified in the determination unless he had passed another unit specified in the determination or takes that unit concurrently.

   (3) The Faculty may determine that the content of a unit approved for the degree course of the Faculty or of another faculty is substantially the same as the content of another unit for the degree course of the Faculty or of another faculty, and, in such a case, a candidate for the pass degree of Bachelor of Science may take only 1 of those units for his degree.

7. A candidate’s performance in a unit shall be classified—
   
   (a) as ‘high distinction’, ‘distinction’, ‘credit’, ‘pass division 1’, ‘pass division 2’ or ‘fail’; or
   
   (b) where the unit is a unit declared by the Faculty, by resolution, to be a unit to which this paragraph applies, as ‘pass with merit’, ‘pass’ or ‘fail’.

†The Faculty of Science will apply the following working rule in determining the units approved for the degree course of the Faculty or of another faculty which may not be taken for the purpose of the degree of Bachelor of Science.

(1) A candidate may not count for the degree points in respect of—
   
   (a) the unit Chemistry A02 if points in respect of Chemistry A01 are so counted
   
   (b) the unit Physics A02 if points in respect of Physics A01 are so counted
   
   (c) the unit Human Biology A02 if points in respect of either Psychology A01 or Zoology A01 are so counted
   
   (d) the unit Chemistry B04 if a point in respect of Chemistry B03 is so counted
   
   (e) the unit Science German if points in respect of elementary German or German I are so counted
   
   (f) the unit Forestry D29 if a point in respect of the unit Microbiology B02 is so counted.

(2) A candidate may not count for the degree more than one point in respect of—
   
   (a) Pure Mathematics A01, Pure Mathematics A03 and Pure Mathematics A05
   
   (b) Pure Mathematics A02, Pure Mathematics A04 and Pure Mathematics A06.
8. (1) A candidate may not count towards the pass degree of Bachelor of Science—

(a) more than 2 points in respect of units from Group A in the table in which his performance has been classified as 'pass division 2'; or

(b) more than 2 points in respect of units from Groups B, C and D in the table in which his performance has been classified as 'pass division 2'.

(2) A candidate shall not be admitted to the pass degree of Bachelor of Science unless his performance has been classified as at least 'pass division 1' in units having a value of at least 3 points from Group C in the table.

8A. (1) A candidate shall not be admitted to examination in a unit unless he has attended such classes and performed such work in the unit as is required by the head of the department responsible for that unit.

(2) A candidate shall not be refused admission to an examination in a unit under sub-rule (1)—

(a) by reason only of the failure of the candidate to attend a class in that unit unless the candidate was given reasonable notice before the class was held that he was required to attend the class; or

(b) by reason only of the failure of the candidate to perform any work in that unit unless the candidate was given reasonable notice that he was required to perform that work.

9. Except with the approval of the Faculty, a candidate shall not be admitted to the pass degree of Bachelor of Science unless he has completed the requirements for the degree within the period of 10 years from the date of commencement of the academic year in which he passed the first unit of his course.

10. A candidate who has complied with the preceding provisions of these Rules may be admitted to the pass degree of Bachelor of Science.

Specialist course in Geology for pass degree

11. (1) A candidate for the pass degree of Bachelor of Science may pursue a specialist course in Geology, and such a candidate shall, unless he has been admitted to advanced status or the Faculty otherwise permits, pursue his studies for at least 4 years in accordance with this rule and such other provisions of these Rules as are not inconsistent with this rule.

   (e) units chosen from the units referred to in sub-rule 5(1) the total value of which is not less than 4 points.

(4) For the purposes of paragraph (3)(e), a candidate may not count more than 2 points in respect of units or subjects offered by a faculty other than the Faculty of Science, being units or subjects that are first-year units or subjects within the meaning of the Rules in accordance with which those units are, by virtue of sub-rule (5), required to be taken.

(5) A candidate may not count for the purposes of a paragraph of sub-rule (3) a point or points that he has counted for the purposes of another paragraph of that sub-rule, notwithstanding that the unit in respect of which that point was, or those points were, obtained is a unit that is set out in more than 1 of the groups, or in more than 1 of the parts of a group, in the table.

(6) Notwithstanding anything in the preceding provisions of this rule, the units taken by the candidate who is pursuing a specialist course in Geology in accordance with this rule shall, until that candidate has obtained 20 points, be taken in accordance with the requirements of sub-rule 4(2) as if that candidate were a candidate pursuing a course for the pass degree of Bachelor of Science in accordance with rule 4.

(7) A candidate who has complied with the preceding provisions of these Rules as are, by virtue of this rule, applicable may be admitted to the pass degree of Bachelor of Science, and shall be entitled, upon admission to that degree to have a memorial of his speciality in Geology noted on the certificate of his admission to that degree.

Criteria adopted in application of the Academic Progress (School of General Studies) Statute and the Academic Progress (Faculty of Arts) Rules

The following working rules have been adopted by the Faculty of Arts and give a detailed interpretation of the requirements of the Academic Progress of Students (Faculty of Arts) Rules. Students may obtain copies of these rules from the Faculty Secretary's office.

1. Progress in any one unit

(a) A student who fails a unit at two annual examinations may not re-enrol in that unit without the approval of the Faculty on the recommendation of the head of the department concerned.

(b) A student excluded from a unit in another faculty or university may not enrol in that unit as part of an Arts course without the approval of the Faculty on the recommendation of the head of the department concerned.
2. Overall progress

(a) A student will be liable to exclusion unless he passes more than half the units in which he has enrolled in any two successive years of enrolment. When assessing academic progress Faculty will take into account any withdrawals from units (including withdrawals without failure) in which a student has been effectively enrolled, that is, withdrawals after the fourth Friday of first term or in the case of second semester enrolments, after the fourth Friday of second semester.

(b) A student who fails in all units in which he is enrolled in his first year of attendance at this University may be excluded from the Faculty forthwith.

This rule applies to all students except that a student transferring from another faculty in this or another university who, in the opinion of the Faculty of Arts has an unsatisfactory academic record, may be refused admission or admitted only on condition that he pass a given number of units in his first year.

The procedures are as follows:

(1) New students

(a) Students who in their first year enrol in units to the value of four and who fail in units to the value of three and withdraw from or fail the remaining unit (or units) are liable to exclusion from the Faculty. Whether the student is excluded or not will depend on his examination performances, and on his matriculation pass. A student in this category who is not excluded will be warned that failure to pass units to the value of two as a part-time student or units to the value of three as a full-time student in the following year will result in exclusion.

(b) Students who fail in units to the value of one or more will receive a warning that failure to pass in more than half the units (in terms of unit value) in which they enrol in the first two years of their enrolment will render them liable to exclusion. (Part-time students who fail in units to the value of two in their first year of enrolment will be required to pass units to the value of two in the year of their next enrolment or be liable to exclusion).

(2) Students transferring from other faculties and/or tertiary institutions

(a) Students who have been excluded from another faculty at this University or another tertiary institution who apply for admission before a period of two years will not be admitted unless there is clear evidence that they are likely to succeed in subjects offered by the Faculty.

(b) Students transferring from another faculty and/or tertiary institution with a record of failures who are admitted to the Faculty will be placed on a condition, as set out below:
(i) students who have failed in all the units in which they enrolled in their first year may be refused admission or admitted on condition that they pass units to the value of two as a part-time student or units to the value of three as a full-time student or be liable to exclusion from the Faculty. (Students who were part-time and who failed all units in which they were enrolled in the first year of enrolment will be required to pass units to the value of two in the year of their next enrolment or be liable to exclusion from the Faculty);

(ii) students who have accumulated four or more failures may be refused admission or admitted on condition that they pass units to the value of two as a part-time student or units to the value of three as a full-time student or be liable to exclusion from the Faculty;

(iii) students who have accumulated fewer than four failures will be warned that their previous academic record will be taken into account in the application of Rule 2(a).

3. Withdrawals from units
Withdrawals made after the first Friday of third term will be counted as failures. Withdrawals made during second term and up until the first Friday of third term which are not satisfactorily explained to the Faculty may be counted as failures.

4. Exclusions
No student who has been excluded from the Faculty will be re-admitted during the following two academic years from the date of his exclusion. Admission after that date will be conditional on the student's convincing Faculty that he is better able to cope with the course than he was in the first instance. A student re-admitted after exclusion will normally be placed on a condition that in the next year of enrolment he pass units to the value of two as a part-time student or units to the value of three as a full-time student or be liable to exclusion from the Faculty.

5. Appeals
Decisions to exclude are made by the Faculty and students will be given an opportunity to show cause why they should not be excluded. Excluded students previously enrolled in the Faculty of Arts in this University may submit a written appeal against the Faculty's decision to the Board of the School of General Studies.

(a) has previously been enrolled in the University or in another university or institute of higher learning or education; and
(b) has not, in the opinion of the Faculty, achieved satisfactory academic progress in the University or in that other university or institute of higher learning or education, the Faculty may direct that the person —

(4) Sub-rules (2) and (3) of this rule do not apply to a person who, before applying for enrolment, had not previously been enrolled in the Faculty or to a person who is permitted to enrol in a subject or unit or continue in a course only upon specified conditions.

Criteria adopted in application of the Academic Progress (School of General Studies) Statute and the Academic Progress (Faculty of Asian Studies) Rules

1. The Faculty has adopted the following criteria in application of the Academic Progress (School of General Studies) Statute and the Academic Progress (Faculty of Asian Studies) Rules. These criteria are intended as a guide to the practice of the Faculty and the case of each individual person will be considered by the Faculty on its merits.

For the purposes of these criteria 'unit' means the equivalent of a full-year unit. In aggregating units enrolled in, passed and failed, semester units or half-units are counted as half-a-unit and other fractional units in proportion.

2. Unsatisfactory progress rendering a person liable to be not admitted to a course of study
The Faculty may direct that a person shall not be admitted to a course of study if, having been a student of this or another university or institute of higher learning, he has:
(i) failed in all the units in which he enrolled in his previous year
(ii) failed in more than half of the units in which he enrolled in his previous two years, or
(iii) accumulated failures in a total of four or more units.

3. Unsatisfactory progress rendering a person liable to be not permitted to continue in a course of study

The Faculty may direct a person shall not be permitted to continue in a course of study if he has:

(i) failed in all the units in which he enrolled in his previous year
(ii) failed in more than half of the units in which he enrolled in his previous two years, or
(iii) accumulated failures in a total of four or more units.

4. Unsatisfactory progress rendering a person liable to be admitted to or permitted to continue in a course of study only upon specified conditions

The Faculty may direct that a person under paragraph 2 or 3 above or a person who has failed in three units in his previous year or who has failed in half of the units in which he enrolled in his previous two years shall be admitted to or permitted to continue in a course of study only on specified conditions. These conditions may include:

(i) a condition that he completes two units as a part-time student or three units as a full-time student in the next academic year or be liable to exclusion from the Faculty
(ii) a condition that he pass one or more specified units or be liable to exclusion from the Faculty.

5. Unsatisfactory progress rendering a person liable to be not permitted to enrol in a subject or unit

In the absence of a recommendation to the contrary from the head of the department concerned the Faculty may direct that a person be not permitted to enrol in a subject or unit if he has, whether in the Faculty or in the University or in another university or institute of higher learning:

(i) failed twice in that subject or unit
(ii) been excluded from examination in that subject or unit, or
(iii) shown significantly poor performance.

6. Withdrawals from units

Withdrawals made after the first Friday of third term will be counted as failures. Withdrawals made during second term and up until the first Friday of third term which are not satisfactorily explained to the Faculty may be counted as failures.

7. Readmission

Action taken under the Academic Progress Rules is effective for the following two academic years and thereafter may be reviewed on the grounds that the person is better able to cope with the course than he was in the first instance. All cases of re-admission after two years must be considered by Faculty.

8. Other requirements

Other requirements for enrolling are set out in the Faculty’s Degree Rules.

1. (1) In these Rules —
'enrol' includes re-enrol and 'enrolment' includes re-enrolment;
'Faculty' means the Faculty of Economics;
'the Board' means the Board of the School of General Studies.

(2) A reference in these Rules to a 'course', 'subject' or 'unit' means a course or a subject or unit, as the case may be, of a degree for which the Faculty is responsible.

2. (1) Subject to this rule, where a person —
(a) is enrolled or has previously been enrolled in the University or in another university or institute of higher learning or education; and
(b) has not in the opinion of the Faculty achieved satisfactory academic progress in the University or in that other university or institute of higher learning or education, the Faculty may direct that the person —
(c) shall not be admitted to a course of study;
(d) shall not be permitted to continue in a course of study or shall be permitted to continue in a course of study only upon specified conditions;
(e) shall not be permitted to enrol or re-enrol in a subject or unit or shall be permitted to enrol or re-enrol in a subject or unit only upon specified conditions; or
(f) shall not be permitted to continue in a subject or unit or shall be permitted to continue in a subject or unit only upon specified conditions.

(2) Before the Faculty gives a direction under the last preceding sub-rule in relation to a person who has previously enrolled in the Faculty of Economics, the person shall be given an opportunity of making representations to the Faculty with respect to his enrolment and the Faculty shall take into account any such representations.

(3) Where a person is refused permission under sub-rule (1) of this rule to continue in a course of study or to enrol or re-enrol in a compulsory unit without which no student may qualify for the degree of Bachelor of Economics, he may appeal to the Board.

Criteria adopted in application of the Academic Progress (School of General Studies) Statute and the Academic Progress (Faculty of Economics) Rules

1. Progress in individual units

(a) A student is liable to exclusion from the examinations for any unit in which his performance of class work is unsatisfactory to the Head of the Department. Such exclusion will be counted as a failure in the examinations for that unit.

(b) A student who —
(i) fails in a semester unit at two semester examinations or in a full-year unit at two annual examinations; or
(ii) has not passed in a particular unit after enrolling in it on three occasions;
is liable to exclusion from further enrolments in that unit if it is a unit offered by the Faculty of Economics. If it is a compulsory unit he is liable to exclusion from the Faculty. If the unit is offered by a department in another faculty, the student may not re-enrol in it without the approval of the Faculty of Economics on the recommendation of the head of the department concerned.

2. Progress in the course as a whole

(a) A student who received a result (other than ‘withdrawn’) for any unit—

(i) in the case of a full-time student—in his first year of enrolment in the BEc course;
(ii) in the case of a part-time student—in his first two years of enrolment in the BEc course,

and who does not obtain four out of the possible eight points is liable to exclusion from further enrolment in the Faculty.

(The term ‘full-time student’ in this paragraph means a student who commences the academic year with a full-time load and who has not taken such employment as to lead the Faculty to classify him as a part-time student, whether or not withdrawals have reduced his load to that normal for a part-time student.)

(b) A student who, in any two successive years of his course, has failed to obtain more than half the possible total number of points available from the units for which he enrolled in those two years is liable to exclusion from further enrolment in the Faculty.† In most cases Faculty will not seek to exclude a part-time student who obtains half the possible total number of points available from the units for which he was enrolled (as a part-time student) in any two successive years.

(c) Where a student is excluded from further enrolment in the Faculty he may also be excluded from further enrolment in units offered by those Departments in the Faculty in whose units he has failed or been counted under these Rules as having failed.

(Students are also reminded of the provisions of rule 11 of the Courses of Study (Degree of Bachelor of Economics) Rules concerning the time limit for completion of a BEc course.)

3. Specific progress conditions

(a) If, after consideration of the case of a student liable to exclusion from further enrolment in the Faculty on the basis of his progress in the course as a whole, the Faculty does not exclude him, the student will normally be required to pass units to the value of four points as a part-time student or units to the value of six points as a full-time student in the year of his next enrolment or be liable to exclusion from the Faculty.

(b) Where a student during the year requests a suspension of his course and this is approved, any specific progress

†Note: Where a student in a second or later year fails in all units in that year but is not liable to exclusion, a pass in units to the value of four points as a part-time student or units to the value of six points as a full-time student in the next year of enrolment will normally be adequate even where he has not obtained more than half the possible total number of points available from the units for which he enrolled in the two years.
condition applying to his current enrolment will normally apply from the date of resumption of his course.

4. Withdrawals

(a) Withdrawals from units will be counted as failures—

(i) in the case of a full-year unit, if the withdrawal is after the first Friday of third term;
(ii) in the case of a first semester unit, if the withdrawal is after the thirty-first day of May;
(iii) in the case of a second semester unit, if the withdrawal is after the thirtieth day of September.

(b) A student with a record of withdrawals, for which reasons acceptable to the Faculty have not been given, may be required to pass units to the value of four points as a part-time student or units to the value of six points as a full-time student or be liable to exclusion from further enrolment in the Faculty, and/or may be informed that withdrawal from any further unit in the year of his next enrolment will be treated as a failure unless reasons are given which are acceptable to the Faculty.

5. Exclusions from further enrolment in the Faculty

No student who has been excluded from the Faculty will be readmitted during the following two academic years from the date of his exclusion. Admission after that date will be at the discretion of Faculty.

6. Academic Progress Committee

Decisions to exclude students from further enrolment in the Faculty and from further enrolment in units offered by the Faculty are made by the Academic Progress Committee of the Faculty. Students are given an opportunity to show cause why they should not be excluded, and those who are excluded from re-enrolment in the Faculty may submit a written appeal against the Faculty’s decision to the Board of the School of General Studies.
Academic Progress of Students (Faculty of Law) Rules

1. (1) In these Rules—
‘enrol’ includes re-enrol and ‘enrolment’ includes re-enrolment;
‘Faculty’ means the Faculty of Law;
‘the Board’ means the Board of the School.

(2) A reference in these Rules to a ‘course’, ‘subject’ or ‘unit’ means
a course or a subject or unit of a degree, as the case may be, for
which the Faculty is responsible.

2. (1) Subject to this rule, where a person—
(a) has previously been enrolled in the University or in
another university or institute of higher learning or edu­
cation; and
(b) has not, in the opinion of the Faculty, achieved satisfactory
academic progress in the University or in that other uni­
versity or institute of higher learning or education, the
Faculty may direct that the person—
(c) shall not be admitted to a course of study
(d) shall not be permitted to continue in a course of study
(e) shall not be permitted to enrol in a subject or unit; or
(f) shall be permitted to enrol in a subject or unit only upon
specified conditions.

(2) Before giving a direction under the last preceding sub-rule, the
Faculty shall give the person concerned an opportunity of making
representations to the Faculty with respect to his enrolment and shall
take into account any representations so made to the Faculty by the
person.

(3) A person in respect of whom a direction has been given under
sub-rule (1) of this rule may appeal to the Board against the direction.

(4) Sub-rules (2) and (3) of this rule do not apply to a person who,
before applying for enrolment, had not previously been enrolled in
the Faculty.

Criteria adopted in application of the Academic Progress (School of
General Studies) Statute and the Academic Progress (Faculty of
Law) Rules

The following is a statement of the Faculty’s policies which are applied
pursuant to the Academic Progress (School of General Studies) Statute
and the Academic Progress (Faculty of Law) Rules. It is emphasised,
however, that these policies are not applied rigidly and that the case
of each individual person is considered by the Faculty on its merits.

Statement of Academic Progress

1. (a) This statement applies to students enrolled for the degree of
Bachelor of Laws and to students enrolled for the combined courses
in Arts and Law, Asian Studies and Law, and Economics and Law.

(b) References to a failure in a subject include a failure in a subject
in the Arts, Asian Studies or Economics component of a combined
course.

2. (a) The Faculty may review the academic progress of any person
who fails in a subject at the annual examination.

(b) In reviewing academic progress the failure of a person to pass an
examination shall, except where in a particular case the Faculty
otherwise determines, be taken to include:
(i) withdrawal from any subject at any time during the academic year unless evidence establishes illness or other personal difficulties;

(ii) the failure of a person to sit for or the absence or exclusion of a person from the annual examination in a subject for which he is enrolled.

3. (a) Unless special circumstances are shown, the Faculty will direct that a person be not permitted to re-enrol in a subject or course where:

(i) he fails two or more examinations in the subjects for which he is enrolled in his first year and obtains in his first-year subjects an average of less than 50%;

(ii) he fails three or more examinations during his course;

(iii) he fails an examination twice in any subject.

(b) Examples of special circumstances which are taken into account are as follows:

(i) a record of results which establishes that a person has rehabilitated himself during the later years of his course of study;

(ii) evidence showing that a person has had a record of illness during the course supported by medical certificates produced to the Academic Registrar.

4. Wherever a person's academic progress is unsatisfactory the Faculty may impose conditions:

(a) limiting or prescribing the number of subjects for which he may enrol in any subsequent year; or

(b) specifying particular subjects for which a person must enrol in any subsequent year.

5. Where a student is undertaking a subject in the Faculty towards the degree of another faculty or is undertaking a subject as a non-degree enrolment, the Faculty may direct that the student be not permitted to re-enrol in that subject if he obtains a result of less than 45% or is not admitted to the annual examination in that subject or fails an examination twice in any subject.

6. Where a person has failed subjects in any other faculty in this University or any other university or any institute of higher learning or education the Faculty may take account of such failures as if they were failures in a course of study for which this Faculty is responsible.

7. Where students are undertaking a combined course in Arts and Law, Asian Studies and Law or Economics and Law, their academic progress will be reviewed each year by both Faculties. Unsatisfactory progress in a combined course may lead to exclusion from one or both Faculties.
Academic Progress of Students (Faculty of Science) Rules

1. (1) In these Rules—
'enrol' includes re-enrol and 'enrolment' includes re-enrolment;
'Faculty' means the Faculty of Science;
'the Board' means the Board of the School.

(2) A reference in these Rules to a 'course', 'subject' or 'unit' means a course or a subject or unit of a degree, as the case may be, for which the Faculty is responsible.

2. (1) Subject to this rule, where a person—
(a) has previously been enrolled in the University or in another university or institute of higher learning or education; and
(b) has not, in the opinion of the Faculty, achieved satisfactory academic progress in the University or in that other university or institute of higher learning or education, the Faculty may direct that the person—
(c) shall not be admitted to a course of study;
(d) shall not be permitted to continue in a course of study;
(e) shall not be permitted to enrol in a subject or unit; or
(f) shall be permitted to enrol in a subject or unit only upon specified conditions.

(2) Before giving a direction under the last preceding sub-rule, the Faculty shall give the person concerned an opportunity of making representations to the Faculty with respect to his enrolment and shall take into account any representations so made to the Faculty by the person.

(3) A person in respect of whom a direction has been given under sub-rule (1) of this rule may appeal to the Board against the direction.

(4) Sub-rules (2) and (3) of this rule do not apply to a person who, before applying for enrolment, had not previously been enrolled in the Faculty of Science.

Criteria adopted in application of the Academic Progress (School of General Studies) Statute and the Academic Progress (Faculty of Science) Rules

1. Progress in any one unit
(a) A student who fails a unit twice may not re-enrol in that unit without the approval of the Faculty on the recommendation of the head of the department concerned.
(b) A student who has been excluded from a unit in another faculty or university or has failed such a unit twice may not enrol in that or an equivalent unit without the approval of the Faculty on the recommendation of the head of the department concerned.

2. Overall progress
(a) A student who on his first enrolment at this University does not obtain a Pass Division 1 (P1) in any of the units which were approved for him at the beginning of that academic year shall have his progress reviewed by the Faculty and may be liable to exclusion on the grounds of unsatisfactory academic progress.
(b) A student will be liable to exclusion on the grounds of
unsatisfactory academic progress if he does not pass at P1 level at least half of the units (in terms of points value) for which he was enrolled in the year under review and the previous year of his course.

This rule applies to all students except that a student transferring from another faculty in this or another university who, in the opinion of the Faculty of Science, has an unsatisfactory academic record, may be refused admission or admitted only on condition that he pass a given number of units in his first year.

(c) A student previously enrolled in the Faculty of Science in another university may be refused admission to the Faculty if he is not eligible to re-enrol in the Science Faculty at the other university.

(d) Where a student at another university fails in all the units which in accordance with the rules of that university comprise the full academic year's work, he will be considered to have failed in the number of units which comprise the corresponding academic year in the Faculty of Science of this University.

3. Withdrawals from units
Withdrawals from units will be counted as failure—

(a) in the case of a unit extending over a full year, if the withdrawal is made after the last day of second term;

(b) in the case of a unit extending over the first semester, if the withdrawal is made after the thirty-first day of May;

(c) in the case of a unit extending over the second semester, if the withdrawal is made after the thirtieth day of September.

4. Readmission
A student who has been excluded from the Faculty will not normally be readmitted during the following two academic years from the date of his exclusion unless at the time of exclusion the Committee on Unsatisfactory Progress resolved to inform the candidate that he might apply for reconsideration of his enrolment one academic year after the date of exclusion.

Readmission will not be approved if in the Faculty's judgment such a candidate is in no better position to pursue successfully his academic studies than he was in the first instance.

(2) A candidate shall be admitted to re-examination once only.
(3) Where the first examination was solely by written examination following course work, re-examination shall be by further written examination. (4) Notwithstanding anything contained in sub-rule (3), a candidate may when submitting a thesis, with the consent of and for a period and on conditions specified by the Committee on the recommendation of the prescribed authority, forbid access to an appendix to the thesis marked 'confidential appendix', containing material obtained by him on conditions legally requiring the observance of such confidentiality.

(5) Notwithstanding anything contained in sub-rule (3), a candidate may when submitting a thesis prohibit for a specified period the disclosure of the thesis or some part of it by the University library or the Academic Registrar to any person if the Committee on the recommendation of the prescribed authority certifies that such prohibition for the period indicated is reasonable having regard to the protection of the candidate's interests under laws respecting copyrights, designs or patents.

22. Where these Rules or prescriptions or resolutions made pursuant to these Rules fix or authorise the fixing of time limits for anything required or authorised to be done, the Committee may from time to time extend or abridge such time limits in any case where it considers such action just and reasonable, and may do so retrospectively.

(6) When in the opinion of the Committee it is not practicable to hold an oral examination and the candidate is not exempted under sub-rule (2), the candidate shall be examined by written examination, set by the examiners of the thesis, covering the field which an oral examination would have covered.
(7) If the examiners of the thesis are not satisfied with the candidate's performance at an oral examination or at a written examination held under sub-rule (6) they may recommend that the candidate be examined or further examined by written examination set by them, and the Committee may direct the holding of such examination or further examination.

(8) The candidate's answers to an examination held under sub-rule (6) or (7) shall be transmitted by the Academic Registrar to the examiners of the thesis and taken into account by them in the preparation of their reports pursuant to sub-rule 21(2).

(a) the candidate may become a candidate to whom this part applies as if his course had not been affected by rule 25 or had commenced under Part II unaffected by rule 26 as the case may be, and in such case the Committee shall on the recommendation of the prescribed authority and notwithstanding anything in these Rules make such determinations as to the remaining duration of the course and as to any other matters incidental to the pursuit of the course as are just and reasonable in the circumstances of the case; or

(b) on application by the candidate made not more than six months after his ceasing to be so employed, the Committee may, notwithstanding anything in these Rules, if satisfied that the candidate has pursued the course in such manner and for such time that there is a reasonable expectation of the candidate successfully submitting for examination without further pursuit of the course at the University, terminate the course and direct that the candidate be examined with a period, not exceeding two years from such termination, determined by the Committee.

(a) in rule 26, the references to a person employed as a full-time member of the University shall be read as references to a person who in the opinion of the Committee is employed as a member of the full-time academic staff of the Canberra College of Advanced Education and the expression 'employment' shall be read accordingly;

(b) an associate staff member shall be admitted to a course only if in the opinion of the Committee the course relates to the subject or subjects which the associate staff member teaches at the Canberra College of Advanced Education;

(g) if the candidate ceases, in the opinion of the Committee, to be an associate staff member, the Committee may terminate the course;

(h) upon the termination of a course under paragraph (f), the Committee may admit the associate staff member to a course related to the subjects of teaching of the associate staff member at the Canberra College of Advanced Education, and may adjust the course, having regard to work done and time elapsed in the course terminated, in such manner as is just and reasonable in the circumstances, or may admit the associate staff member to examination as provided in paragraph 27(b) as if the reference in that paragraph to ceasing to be employed was a reference to the cessation of teaching or research referred to in paragraph (f) of this rule;

(i) upon the termination of course under paragraph (g), the Committee may exercise in relation to the associate staff member the powers given by paragraphs 27(a) or (b) as is appropriate to the case and as if the references to employment in that rule were references to employment on the full-time academic staff of the associated institution.

Part IX — Miscellaneous

(b) where the candidate is not admitted to the degree, to make the thesis available in the office of the Academic Registrar for the purpose of private study and research to any student or member of staff of the University, if after consultation with the prescribed authority and after considering the views, if ascertainable, and interests of the candidate the Academic Registrar considers that the interests of scholarship require the thesis to be made so available and that the interests of the candidate will not be unreasonably prejudiced.

(4) Notwithstanding anything contained in sub-rule (3), a candidate may when submitting a thesis, with the consent of and for a period and on conditions specified by the Committee on the recommendation of the prescribed authority, forbid access to an appendix to the thesis marked 'confidential appendix', containing material obtained by him on conditions legally requiring the observance of such confidentiality.

(5) Notwithstanding anything contained in sub-rule (3), a candidate may when submitting a thesis prohibit for a specified period the disclosure of the thesis or some part of it by the University Library or the Academic Registrar to any person if the Committee on the recommendation of the prescribed authority certifies that such prohibition for the period indicated is reasonable having regard to the protection of the candidate's interests under laws respecting copyright, designs or patents.

32. A prescribed authority shall exercise its powers under these Rules in consultation with and, where required by legal provision or convention, in accordance with the views of the duly constituted academic bodies of the faculties, schools or other parts of the University in respect of which it is appointed.

33. Where these Rules or prescriptions or determinations made pursuant to these Rules fix or authorise the fixing of time limits for anything required or authorised to be done, the Committee may from time to time extend or abridge such time limits in any case where it considers such action just and reasonable, and may do so retrospectively.
