Fig. 3. Determinations of native title mapped against remoteness, 2006

Note: Areas shown represent the geographic extent of the application or those parts of an application determined where native title has been determined to exist. Some or parts of some determinations may not yet be in effect or on the Native Title register. Some determinations are subject to appeal or in the appeal process. Small areas are symbolised.

Disclaimer: This information has been created to assist in understanding the spatial characteristics and relationships with native title matters and is intended as a guide only. The Registrar, the National Native Title Tribunal and its staff and officers and the Commonwealth, accept no liability and give no undertakings, guarantees or warranties concerning the accuracy, completeness or fitness for purpose of the information provided.
