A GENERAL DESCRIPTION OF THE UNIVERSITY

The Decision to Establish the University

When the city of Canberra was designed in 1911, a site close beside the main city area was set aside “for University purposes”. A University College was established, in association with the University of Melbourne, in 1929, but was housed in temporary quarters off the University site. No further university development took place until towards the end of the 1939-45 war, when a group of people with academic interests, who were concerned in other connections with shaping the post-war development of Australia, came together and gave explicit form to proposals made over many previous years for a University in Canberra. It was from these deliberations that there emerged the bill which, on its enactment by the Commonwealth Parliament in August 1946, became the Australian National University Act.

The University envisaged in the Act was to differ in two main ways from the universities already established by the Australian States. In the first place, although the eventual possibility of offering undergraduate courses was not excluded, the University was to be primarily concerned with research and research training. In the second place it was envisaged that the University would select certain defined fields in which to begin its work, those first contemplated being the medical sciences, the physical sciences, the social sciences and Pacific studies.

After the passage of the Act in August 1946 the Interim Council, in which for the time being the Act vested power to establish the University, began its task.

Canberra

The city of Canberra, which has since 1927 been the capital of the Commonwealth of Australia, is situated in the Australian Capital Territory. The Territory is about 200 miles by road south-west of Sydney, and 400 miles north-east of Melbourne, and is connected to those cities by good air and road services and by rail. Canberra, which is still in the comparatively early stages of development as the national capital, is the headquarters of most of the Departments of the Commonwealth Government, and has a population of some 30,500. The city stands at an altitude of 1,800-2,000 feet, and has a pleasant and healthy climate. It has been laid out in accordance with a comprehensive plan, and an imaginative programme of tree-planting has made the city and growing suburbs very attractive.
An authoritative statement on the history and facilities of Canberra and the Capital Territory is included in each issue of the Official Year Book of the Commonwealth of Australia, which may be consulted in most libraries and in the offices of Australian diplomatic and consular representatives abroad.

Government of the University

The University Act places complete power of management in the hands of a Council, which includes representatives of Parliament, of the University staff, of the research students and of Convocation, and nominees of the Governor-General. This Council came into being on 1 July 1951.

To provide for the development of the University before the Council could be formed, the Act established an Interim Council, comprising persons nominated by the Governor-General, and composed as far as possible on the analogy of the eventual Council. The Interim Council included substantial representation of the professorial staffs of the other Australian universities, and conducted the University's affairs from its appointment in August 1946 until the permanent Council took office in July 1951.

Very early in its operations the Interim Council established an Academic Advisory Committee of four members. The scholars chosen to serve on this committee all held senior academic appointments in the United Kingdom, and were either themselves Australian or were well acquainted with academic matters in Australia. The Committee met regularly from August 1947 to June 1951 and took a leading part in advising the Interim Council on the basic plans and early development of the University.

The University Act provides that certain members of the Council should be elected by Convocation. Convocation will eventually be a body composed primarily of graduates of the University, but in order to bring Convocation into existence at an early stage, and to foster the interest of Australian academic leaders in the University, special steps were taken. The University invited to membership of Convocation its academic and certain non-academic officers, the members of the Academic Advisory Committee, the Chancellors and Vice-Chancellors (or equivalent officers) of the other Australian university institutions and other research organizations and five other members nominated by each of those bodies. Though at present the only function of Convocation is to elect members of the Council, it is hoped that, as the University develops, ways will be found to give Convocation opportunities to exercise an influence
in university affairs commensurate with the wisdom and experience of its members.

The University's senior academic body is the Board of Graduate Studies which comprises the Vice-Chancellor, the Master of University House, the Directors and Professors, the Registrar and the Librarian. While the Council is the governing body of the University it looks to the Board for guidance and advice in all matters of academic policy and practice.

The University Act does not prescribe any Faculty structure but experience has led, in the cases of the Research Schools of Social Sciences and Pacific Studies, to the creation of Faculty bodies to consider and make recommendations to the Board of Graduate Studies concerning the interests of those schools. In the natural science schools these matters are dealt with by an informal domestic committee.

Early Activities of the University

The Interim Council, as soon as it had decided to establish the four original research schools, set about recruiting senior staff members for them. Among the first senior officers to be appointed were the Librarian and the heads of certain Departments of the John Curtin School of Medical Research. These appointments took place in 1948 and 1949, at a time when buildings for the University were still at the stage of preliminary planning. Accordingly the Librarian began his book collection in Melbourne and the medical professors undertook their early work and set about building up their staffs in the places at which they happened to be working at the time of their appointment—the Professors of Biochemistry and Microbiology in Melbourne, the Professor of Medical Chemistry in London and the Professor of Physiology (who accepted appointment in the middle of 1950) in Dunedin. Senior members of the staffs of the other three research schools began to arrive in Canberra to take up their appointments during 1949, by which time temporary facilities for their work were available on the University site.

Professor Oliphant had been appointed in July 1950 as Director of the Research School of Physical Sciences and moved to Canberra with the nucleus of his research team. The earliest members of the academic staff in the other two schools also began to arrive in Canberra in 1950.

Late in 1952 the elements of the Medical School moved into temporary accommodation in Canberra and by that time all the
existing Departments of the University save two, were working on the University site.

In the early stages of its work the Interim Council gave thought to how it might best advance not only its own plans but the interests of the other Australian universities generally. With this aim it established a travelling scholarship scheme. Scholars were selected from amongst Australian graduates and enabled to spend two or three years abroad furthering their research training. Some seventy awards were made and many of the scholars returned to take up appointments in universities or other learned bodies in Australia.

With the same motive the Interim Council invited a series of academic leaders from other countries to visit Australia for periods of two or three months to make contact with workers in similar fields in the other universities and to give advice on the National University's development. In connection with these visits it became the practice to arrange a seminar in Canberra to which leading scholars in the appropriate field of study were invited. Perhaps the most important of these seminars were held as part of the University's contribution to the celebrations attending the Jubilee of the Commonwealth of Australia. The first, on Science in Australia, was held in July 1951 and the other, on Federalism, in August and September 1951.

Present Structure of the University

The four original schools of the University are now all established and at work in Canberra. They comprise the following Departments:

**John Curtin School of Medical Research**
- Biochemistry
- Medical Chemistry*
- Medical Research

**Research School of Physical Sciences**
- Astronomy
- Geophysics

**Research School of Social Sciences**
- Demography
- Economics
- Statistics

**Research School of Pacific Studies**
- Anthropology and Sociology
- Far Eastern History

* Moving to Canberra in 1956.
The permanent academic staff of the University comprises Directors (of whom only one, Professor M. L. Oliphant, has so far been appointed), Professors, Readers, Senior Fellows, and Fellows. Each Professor is responsible for the research conducted and the research training given in his Department. A Director is expected to give general leadership to an entire School and to accept responsibility for the general planning of its requirements and efforts. Schools having no Directors are headed by Deans, the office being held by a Professor designated by the Council.

In addition to the permanent staff, Senior Research Fellows and Research Fellows are appointed for periods of from one to five years.

The administrative staff is led by the Vice-Chancellor, who is the principal executive officer of the University, and the Registrar, who is in charge of the work of all the other officers of the central administration.

The nature of much of the University's work is such as to call for abundant technical, clerical and secretarial support, and a high level of competence is being maintained in the recruitment of officers in these classes.

The University has adopted a liberal scheme of study leave. The Directors and Professors are entitled to a year's leave after each three years of service, Readers and Senior Fellows after five years and Fellows after six years. In each case the University continues the payment of a member's salary while he is on leave and makes a contribution towards his expenses; for example, the maximum contribution in the case of a professor will be £1,000.

The University has established a superannuation scheme similar to the F.S.S.U. in the United Kingdom.

The conditions on which all members of the academic staff are appointed lay it down that the member's principal responsibility is to conduct research, and the University's policy is to make every effort to ensure that the member's time will be unencumbered by other duties. There is, however, a responsibility on members of the staff to assist in the training of graduate students and to make such contributions as they can to the work being done by the other Australian universities.

The University Library, which moved to Canberra early in December 1950, now comprises some 95,000 volumes and pamphlets in Western languages, and about 22,000 volumes in Oriental languages, principally Chinese. The book collection has been assembled with the needs of the several schools in mind. The Library has a wide range of periodical literature and is strong in the fields of an-
thopology, mathematics, physics, chemistry and the non-clinical medical sciences. The resources of the Commonwealth National Library are available to members of the University, who also have the advantage of access to many specialized collections of material held by government instrumentalities in Canberra.

Buildings and Accommodation

The Research School of Physical Sciences is housed in its own permanent building, which was opened in September 1952. The Research Schools of Social Sciences and Pacific Studies and the University Library have temporary quarters in a building which was the original home of the Canberra Community Hospital and which is on the University site. The Departments of the John Curtin School of Medical Research (save for the Department of Medical Chemistry) are housed in special temporary laboratories, but the permanent building for the School will be completed during 1956. The Department of Medical Chemistry which has been working in London since 1949 will move to Canberra in September 1956. It is hoped that a start will be made on the permanent Library building during the year.

The period of the University's establishment in Canberra was one of acute shortage of building labour and materials and the housing situation in the city was in any case extremely difficult. The University was therefore obliged to take a far more vigorous interest in the housing of its staff and research students than is normally the practice in Australia. Houses and flats have been purchased or built, or their tenancies otherwise acquired, in numbers sufficient to accommodate a high proportion of the University staff.

University House, the University's first collegiate building, was completed in 1954 and provides accommodation for single research students and staff members, and for the time being, for married research students and staff without children. The House also serves as a faculty club for non-resident members of the University.

A plan for the development of the University site has been approved; roads have been built and trees and shrubs are being planted.

Finance

Parliament granted the University a total of £770,000 for running expenses in the financial year 1954-55, and approved grants for capital and other non-recurrent expenditure of £852,000.

Admission and Training of Research Students

The University confers the degrees of Master of Arts, Master of
Science and Doctor of Philosophy. The normal degree to which research students will proceed is that of Doctor of Philosophy.

Before being admitted as a research student a candidate will normally be required to show that he has graduated from another university of senior standing and that he has since had an initial training in research.

In general, students for the degree of Ph.D. will be required to spend three years of full-time work in the University and will during that time be required to live in Canberra. Those whose fields of study make fieldwork important are given opportunities to undertake such work and may receive contributions towards their expenses. Periods of fieldwork are counted as part of the study required for a degree.

The principal work of the research student is the pursuit of an approved piece of research under supervision, and the submission of a thesis based upon that research. There is usually an oral examination on the thesis. The student is also given training in the research techniques required for the pursuit of his subject, and opportunities for considering the relationship of his specialized work with a more general background of theory. In most cases research students are required to attend some seminar classes and to prepare interim papers.

Research students are required to pay an inclusive fee of fifty guineas per annum.

Provision is also made for the award of higher doctorates in Letters, Laws and Science, and of honorary degrees.

Single research students are required to live in University House, which is a collegiate building and also serves as a social centre for the whole of the University.

The University awards each year a limited number of scholarships to enable students from Australia and elsewhere to come to the University and study for a degree. The present practice is to call for applications for scholarships in about July of each year.

   (3) A delegation under this section is revocable by resolution of the Council, and no delegation prevents the exercise of a power or function by the Council.

4. The Council shall cause proper accounts and records of the Scheme to be kept.

5. The Council may make agreements with Universities or other educational or research institutions for the setting up of joint machinery to facilitate the transfer of members from a superannuation scheme controlled by one such body to a superannuation scheme controlled by another, and generally in regard to matters affecting the Scheme.

Part III—The Superannuation Scheme

6. (1) Subject to this section, the following salaried officers and salaried teachers of the University are eligible to be members of the Scheme:
   - The Vice-Chancellor;
   - Full-time Members of the Academic Staff;
   - The holders of offices determined by the Council to be full-time senior administrative offices;
   - The Librarian;
   - Laboratory Managers;
   - Such other officers and teachers as the Vice-Chancellor determines.
   (2) A person is not eligible to be a member while he is a contributor under the Superannuation Act 1922-1951.
   (3) Except where the Council otherwise directs, a person is not eligible to become a member if he has attained the age of fifty-five years.

7. (1) A person becomes a member when, upon application in accordance with a form approved by the Council, the Council causes his name to be enrolled as a member.
   (2) A person remains a member while he continues to be eligible to be a member and continues to be liable to make contributions under this Statute.
8. (1) A person who is appointed or re-appointed, after the commencement of this Statute, for a term of not less than three years, as an officer or teacher referred to in sub-section (1) of Section 6 and who is otherwise eligible to be a member shall, subject to Section 8A or Section 8B of this Statute as the case may require, agree, in the manner and terms required by the Council, as a condition of his appointment or re-appointment, to become and remain a member, or to remain a member, as the case may require.

(2) The Council may, in special circumstances, exempt a person from the requirements of this section.

8A. Where a person appointed or re-appointed as a full-time member of the academic staff—

(a) would, but for this section, be both eligible and required to become a member of the Scheme;

(b) is a contributor under the Superannuation Act 1922-1951; and

(c) informs the Council prior to his appointment or re-appointment that he prefers to continue as a contributor under that Act,

he shall not be required to become a member unless and until he ceases to be such a contributor.

8B. Where a person appointed or re-appointed as an officer or teacher but not as a full-time member of the academic staff—

(a) is not a member of the Scheme but would, save for this section, be both eligible and required to become a member; and

(b) informs the Council prior to his appointment or re-appointment that he prefers to become, or to continue as, a contributor under the Superannuation Act 1922-1951,

he shall not be required to become a member until the expiration of three months after the date on which his appointment or re-appointment takes effect. If at the expiration of that period he is a contributor under that Act, he shall not be required to become a member unless and until he ceases to be such a contributor.

9. (1) When a person becomes a member he shall effect with an approved life office an endowment assurance policy on his life, or, if he is not less than fifty years of age or has an unassurable life, a pure endowment policy, for such amount as, having regard to his age, is obtainable at an annual premium equal to the contributions payable by the University and himself as provided in this Statute in respect of his salary at the time when he becomes a member.

(2) The policy shall be expressed to mature at the member's prescribed age, and the member has a discretion to determine whether the policy shall or shall not provide for participation in any surplus that may be distributed by the life office from time to time by way
of reversionary additions to the sums assured under participating policies.

(3) In the case of a person who, when he becomes a member, is not less than fifty years of age or has an unassurable life, he may elect that, in lieu of the effecting of a policy on his life, the contributions under section eleven of this Statute in respect of him shall be held and accumulated by the Council with power to invest them in securities authorized by law for the investment of trust funds.

(4) Where a member has made an election under the last preceding sub-section, the moneys held by the Council and any securities representing any such moneys, together with the income from those moneys or securities, shall, for the purpose of this Statute, be treated as nearly as possible as if they were a life assurance policy effected on the life of the member for the purposes of this Statute.

10. (1) The Council may agree to accept for the purpose of the Scheme an existing policy of assurance on the life of a member in lieu of the policy required to be effected under the last preceding section, if the policy is transferred in statutory form to the University and at the date of the transfer is not encumbered.

(2) This section does not apply to an existing policy unless—

(a) the conditions of the policy are in accordance with the requirements of this Statute as to policies for the purposes of the Scheme; or

(b) the policy has been accepted for the purposes of the Federated Superannuation System for Universities (Great Britain).

11. (1) Subject to the next succeeding section, a member shall contribute five per centum of his salary and the University shall contribute annually a sum equal to ten per centum of the member's salary.

(2) Contributions under this section shall continue until the maturity date of the policy or the date on which the member ceases to be in the full-time service of the University (whichever is the earlier) but if the member continues in the service of the University after his pension date, contributions under this section shall continue until the member reaches the age of sixty-five years or ceases to be in the service of the University, whichever first happens.

(3) The contributions under this section shall, except as otherwise provided in this Statute, be applied by the Council in payment of the yearly premium on the policy.

(4) The University may deduct from payment of salary to the member the amounts necessary to meet the member's contributions under this section until the maturity date of the policy.
(5) The Council may pay a premium upon the policy in anticipation of contributions by the member or the University, or in default of contributions by the member.

12. (1) If, after the policy has been effected, the salary of a member is increased or reduced, the contributions under the last preceding section shall not be increased or reduced unless and until the rate of the increased salary is greater or less, by more than twenty-five pounds per annum, than the rate of salary upon which those contributions are being made for the time being.

(2) Where, by reason of a change in salary, the contributions in respect of a member are increased or reduced, the sum assured under the policy shall be appropriately adjusted.

(3) If a member is absent from the service of the University, with or without remuneration from the University—

(a) he shall pay his contributions for the period of his absence unless the Council, in its discretion, agrees to pay those contributions; and

(b) the Council may determine, in its discretion, whether the University or the member shall pay the University's contributions for that period and those contributions shall be paid accordingly.

13. Where the premiums upon a policy which is proposed to be accepted for the purposes of the Scheme are payable in sterling currency, the Council may make an arrangement with the member with respect to payment of the exchange upon those premiums and for the variation of the rights of the member under this Statute in consequence of the arrangement, and in any such case this Statute operates subject to the terms of the arrangement.

14. (1) A policy effected for the purposes of the Scheme shall be either in the name of the University or in the name of the member and in the latter case it shall be assigned in statutory form by the member to the University.

(2) The member shall arrange for the policy to be delivered by the life office to the University.

(3) The University shall retain possession of the policy, but will make it available for inspection by the member at any reasonable time.

15. (1) A member shall not, without the consent in writing of the Council, assign, either absolutely or as security, or charge his interest or any part of his interest in the policy.

(2) If a member—

(a) becomes bankrupt or, without the consent in writing of the Council, assigns or charges or attempts to assign or charge
his interest or any part of his interest in the policy or
does or suffers anything by which his interest in the
policy, or any part of that interest, would or might,
through his act or default or by operation or process of
law, become vested in or payable to any other person; or

(b) becomes a lunatic or is in the opinion of the Council in-
capable of managing his own affairs,
the rights and interests of the member in the policy forthwith
determine and the Council may surrender the policy, or continue
the policy for the time being and surrender it later, or continue it
until maturity or the prior death of the member.

(3) Any moneys representing the member's rights and interests so
determined which are received by the Council, whether upon sur-
render or at maturity of the policy or on the death of the member,
shall, at the option of the Council, be—

(a) applied towards the maintenance or benefit of the member
or his dependants or of such one or more of them as the
Council, in its discretion, thinks fit; or

(b) paid in any of the ways mentioned in section seventeen of
this statute.

16. The University has a lien or charge upon the policy in respect
of a member and the moneys payable under the policy for all
moneys owing by the member in pursuance of this Statute and for
premiums paid in anticipation of contributions, or in default of
contributions by a member, and not recouped.

17. If a member dies while in the full-time service of the Uni-
versity before the policy matures, the University shall receive pay-
ment of the moneys payable under the policy from the life office
and subject to sections fifteen and sixteen of this Statute, shall
pay those moneys, or the balance of those moneys, as the case may be—

(a) to the designated beneficiary;

(b) if there is no designated beneficiary—to a dependant or
dependants of the member as determined by the Council
in its absolute discretion; or

(c) if there is no designated beneficiary and no dependant—
(i) to the executor or administrator to whom probate of
the will or letters of administration of the estate of
the member has or have been granted; or

(ii) where, after a period considered by the Council to be
reasonable, there is no such executor or adminis-
trator—to the next of kin of the member or as the
Council, in its absolute discretion determines.
18. (1) If the policy matures while the member is in the full-time service of the University, the University shall receive payment of the moneys payable under the policy from the life office and, subject to sections fifteen and sixteen of this Statute and to this section, the University shall pay those moneys to the member on the pension date applicable to him.

(2) If the member dies before the pension date, the Council shall pay the moneys in the manner provided in the last preceding section.

(3) If the Council thinks fit, the University may, in lieu of paying to the member moneys referred to in this section, use those moneys in the purchase of an annuity payable to the member during his life-time.

(4) If the member continues in the full-time service of the University after his pension date, the moneys payable under the policy which would otherwise be payable to the member, together with contributions by and in respect of the member under section eleven of this Statute made after the maturity of the policy, shall be invested by the Council in securities authorized by law for the investment of trust moneys, and the securities shall be held until the member ceases, by death or retirement, to be in the service of the University, whereupon the securities shall be realized and the proceeds, together with any income received from the investments, shall—

(a) in the case of death—be paid in the manner specified in the last preceding section; or

(b) in the case of retirement—be paid to the member or used in the purchase of an annuity payable to the member during his life-time.

19. (1) If a member resigns from the full-time service of the University before attaining his prescribed age and his resignation is accepted by the Council, the Council shall, subject to sections fifteen and sixteen of this Statute, transfer the policy to the member or according to his discretion, and the transfer shall be in full settlement of all claims of the member under this Scheme.

(2) The provisions of this section extend to the case of a member whose appointment expires by effluxion of time before he attains his prescribed age and who is not forthwith appointed or re-appointed to an office by virtue of holding which he is eligible to continue to be a member of the Scheme.

20. If a member is dismissed from the full-time service of the University before he attains his prescribed age, the Council may deal with the policy or the policy moneys as it thinks just.
ACADEMIC DRESS

21. If a member becomes a contributor under the *Superannuation Act* 1922-1951, the policy shall be dealt with in such manner as the Council, in its discretion, determines.

Before each election pursuant to these Rules the Council shall draw up a list of persons entitled to vote and only persons whose names appear on that list shall vote.

2. When an election under this Part is necessary, the Registrar shall publish on the notice board at the University and send to each member of the staff a notice which shall—
   (a) set out the number of seats to be filled and the names of any member of the Council elected by the staff whose seat does not fall vacant at the time of the election concerned;
   (b) invite nominations of persons for election and specify the form in which nominations must be made;
   (c) prescribe a date and time by which nominations must reach the Registrar.

3. If the number of nominations exceeds the number of seats to be filled the Registrar shall send to each member of the staff—
   (a) a voting paper;
   (b) a notice setting out how the voter's preference is to be shown, and prescribing a date and time by which voting papers must reach the Registrar.

4. Of the first three members elected by the staff, the member who stands highest at the polls shall hold office for four years, and the other two members shall hold office for two years. If the first three members elected by the staff are declared elected without a ballot, the Registrar shall decide by lot which of them shall hold office for four years, and the other two shall hold office for two years.

THE SCHEDULE

1. In the conduct of an election the Registrar shall allow the intervals specified hereunder between the events severally set out—
   (1) between the publication of the fact that an election is necessary and the time prescribed for the receipt of nominations; not less than fourteen and not more than thirty days;
   (2) between the time prescribed for the receipt of nominations and the issue of voting papers; not more than twenty-eight days;
   (3) between the time of issuing voting papers and the time by which voting papers must reach the Registrar; not less than twenty-eight and not more than sixty days.

2. Nominations of candidates shall be made to the Registrar. A nomination shall be signed by two persons qualified to vote at the
election and shall contain the written consent of the candidate to his nomination.

3. With every voting paper there shall be issued a form of declaration and three envelopes, one envelope marked “Voting Paper”, one marked “Declaration”, and one addressed to the Registrar.

4. Every voting paper shall contain the names of the candidates in alphabetical order (the names of any retiring candidates being indicated) and shall be initialled by the Registrar or his deputy and no voting paper other than one so initialled shall be accepted. Where a voting paper has been lost or destroyed a duplicate shall be supplied on written application to the Registrar.

5. The voter shall indicate the order of his preference on the voting paper by writing the arabic numeral one against the name of the candidate, or an unbroken series of arabic numerals beginning at one against the names of the candidates for whom he wishes to vote, one number against the name of each such candidate; but he shall not be obliged to place a number against the name of every candidate.

6. Each voter shall post or deliver to the Registrar his voting paper and declaration each enclosed in a separate and distinctive envelope. These envelopes shall both be enclosed in another envelope addressed to the Registrar.

7. All such envelopes received by the Registrar shall remain unopened until the close of the poll. The Registrar or his deputy shall then in each case open the outer envelope and also the envelope containing the declaration. If the declaration be duly signed by a qualified voter the envelope containing the voting paper shall be placed and mixed with other similar envelopes. The Registrar or his deputy shall then open the envelopes containing the voting papers and ascertain the result of the election.

8. Each candidate shall be entitled to nominate a scrutineer to represent him at the scrutiny.

9. Neither the Registrar nor anyone acting as his deputy nor any scrutineer shall in any way disclose or aid in disclosing in what manner any voter has voted.

10. No voting paper shall be accepted unless it is received by the Registrar before the close of the poll.

11. The Registrar shall decide whether any voting paper shall be accepted or rejected.

12. In an election at which only one candidate is to be elected the result of the election shall be determined in the manner following: —

(i) the Registrar shall count the first preference votes given for each candidate on all unrejected voting papers;
(2) the candidate who has received the largest number of first preference votes shall, if that number constitutes an absolute majority of votes, be elected;

(3) if no candidate has received an absolute majority of first preference votes, the counting of votes shall proceed as follows:—

   (a) the candidate who has received the fewest first preference votes shall be excluded, and each voting paper counted to him shall be counted to the candidate next in the order of the voter’s preference;

   (b) if a candidate then has an absolute majority of votes he shall be elected, but if no candidate then has an absolute majority of votes, the process of excluding the candidate who has the fewest votes, and counting each of his voting papers to the unexcluded candidate next in the order of the voter’s preference, shall be repeated until one candidate has received an absolute majority of votes; and

   (c) the candidate who has received an absolute majority of votes shall be elected.

13.¹ In an election at which more than one candidate is to be elected, the result of the election shall be determined in the manner following:—

(1) the first preference votes given for each candidate on all unrejected voting papers shall be counted;

(2) the aggregate number of such first preference votes shall be divided by one more than the number of candidates required to be elected, and the quotient increased by one, disregarding any remainder, shall be the quota, and (except as hereinafter provided in sub-section 10) no candidate shall be elected until he obtains a number of votes equal to or greater than the quota;

(3) any candidate who has, upon the first preference votes being counted, a number of such votes equal to or greater than the quota shall be declared elected;

(4) where the number of such votes obtained by any candidate is equal to the quota, the whole of the voting papers on which a first preference vote is recorded for such elected candidate shall be set aside as finally dealt with;

(5) Where the number of such votes obtained by any candidate is in excess of the quota, the proportion of votes in excess of the quota shall be transferred to the other candi-

dates not yet declared elected, next in the order of the voter's preferences, in the following manner: —

(a) all the voting papers on which a first preference vote is recorded for the elected candidate shall be re-examined, and the number of second preference votes, or (in the case provided for in section 15) third or next consecutive preferences, recorded for each unelected candidate thereon shall be counted;

(b) the surplus of the elected candidate shall be divided by the total number of votes obtained by him on the counting of the first preference votes, and the resulting fraction shall be the transfer value;

(c) the number of second or other preferences ascertained in paragraph (a) to be recorded for each unelected candidate, shall be multiplied by the transfer value;

(d) the resulting number shall be credited to each unelected candidate, and added to the number of votes obtained by him on the counting of the first preference votes.

(6)—

(a) where, on the counting of the first preference votes or on any transfer, more than one candidate has a surplus, the largest surplus shall be first dealt with. If then more than one candidate has a surplus, the then largest surplus shall be dealt with, and so on; Provided that, if one candidate has obtained a surplus at a count or transfer previous to that at which another candidate obtains a surplus the surplus of the former shall be first dealt with;

(b) where two or more surpluses are equal, the surplus of the candidate who was the highest on the poll at the count or transfer at which they last had an unequal number of votes shall be first dealt with, and if they have had an equal number of votes at all preceding counts or transfers, the Registrar shall decide which candidate's surplus shall be first dealt with.

(7)—

(a) Where the number of votes obtained by a candidate is raised up to or above the quota by a transfer as aforesaid, he shall thereupon be declared elected. And in such case, notwithstanding the fact that he may have reached the quota, such transfer shall be completed, and all the votes to which he is en-
titled therefrom shall be transferred to him, but no votes of any other candidate shall be transferred to him;

(b) where the number of votes obtained by a candidate is raised up to, but not above, the quota by a transfer as aforesaid, the whole of the voting papers on which such votes are recorded shall be set aside as finally dealt with;

(c) where the number of votes obtained by a candidate is raised above the quota by a transfer as aforesaid, his surplus shall be transferred to the candidates next in the order of the voters' respective preferences, in the following manner:—

(i) The voting papers on which are recorded the votes obtained by the elected candidate in the last transfer shall be re-examined, and the number of third, or (in the case provided for in sub-section 15) next consecutive preferences recorded for each unelected candidate thereon counted;

(ii) the surplus of the elected candidate shall be divided by the total number of voting papers mentioned in paragraph (i), and the resulting fraction shall be the transfer value;

(iii) the number of second (or other) preferences, ascertained in paragraph (i), to be recorded for each unelected candidate, shall be multiplied by the last-mentioned transfer value;

(iv) the resulting number shall be credited to each unelected candidate, and added to the number of votes previously obtained by him.

(8)—

(a) where, after the first preference votes have been counted and all surpluses (if any) have been transferred as hereinbefore directed, no candidate, or less than the number of candidates required to be elected, has or have obtained the quota, the candidate who is lowest on the poll shall be excluded, and all the votes obtained by him shall be transferred to the candidates next in the order of the voter's respective preferences, in the same manner as is directed in sub-section (5);

(b) the votes obtained by such excluded candidate as first preference votes shall first be transferred, the transfer value of each vote in this case being one;
(c) the other votes of such excluded candidate shall then be dealt with in order of the transfers in which, and at the transfer value at which, he obtained them;

(d) each of the transfers which takes place under the two previous clauses of this sub-section shall be deemed for all purposes to be a separate transfer.

(g)

(a) where a number of votes obtained by a candidate is raised up to or above the quota by any such transfer as aforesaid, he shall thereupon be declared elected. And in such case, notwithstanding the fact that he may have reached the quota, such transfer shall be completed, and all the votes to which he is entitled therefrom shall be transferred to him, but no other votes shall be transferred to him;

(b) where the number of votes obtained by a candidate is raised up to, but not above, the quota, by any such transfer as aforesaid, the whole of the voting papers on which such votes are recorded shall be set aside as finally dealt with;

(c) where the number of votes obtained by a candidate is raised above the quota by any such transfer as aforesaid, the surplus shall be transferred to the candidates next in the order of the voters’ respective preferences in the same manner as is directed in sub-section 7, paragraph (c); Provided that such surplus shall not be dealt with until all the votes of the excluded candidate have been transferred.

(d) where any surplus exists it shall be dealt with before any other candidate is excluded.

(10) The same process of excluding the candidate lowest on the poll and transferring his votes to other candidates shall be repeated until all the candidates, except the number required to be elected, have been excluded, and the unexcluded candidates who have not already been so declared, shall then be declared elected.

14. Where two or more candidates have the same number of votes and it becomes necessary to exclude one of them, then whichever of such candidates was lowest on the poll at the last count or transfer at which they had an unequal number of votes, shall be excluded and, if such candidates have an equal number of votes at all preceding counts or transfers or if there was no preceding count or

1 As amended by the Council, 15 December 1955.
transfer, the Registrar shall decide by lot which candidate shall be excluded.

15. In determining which candidate is next in the order of the voter's preference, any candidates who have been declared elected or who have been excluded shall not be considered, and the order of the voter's preference shall be determined as if the names of such candidates had not been on the voting paper.

16. Where on any transfer it is found that on any voting paper there is no candidate next in the order of the voter's preference, that voting paper shall be set aside as exhausted.

17. The Registrar may if he thinks fit, on the request of any candidate setting forth the reasons for the request, or of his own motion, re-count the ballot papers received in connexion with any election.

If a supervisor is of opinion that a research student has failed to conduct his research satisfactorily he shall report to the Board accordingly and the Board may, after recommendation from the Faculty Board, Director or Dean of the appropriate Research School, resolve that the research student shall cease to be a research student of the University.

12. Each research student shall satisfy such residential requirements as the Board shall prescribe.

13. Each research student shall, subject to the requirements of this part, attend at the University for forty weeks, including the periods of University terms, during each year, and may be required by his supervisor to attend for a further six weeks in each year.

(2) The Board may admit as a candidate for the degree of Master of Arts or Master of Science a person engaged in employment other than the full-time pursuit of his course, if in the Board's opinion that employment is of a nature likely to assist the candidate in the pursuit of his course of study and research. The Board shall not prescribe for the approved course of such a candidate a period of less than nine or more than fifteen terms.

(3) Notwithstanding anything contained in sub-rule (2) of this rule, the Board may antedate the commencement of the course of any person employed by the University who is admitted as a candidate for a degree under that sub-rule if that person has before the making of this rule done work within the University which the Board considers proper to be considered as part of his approved course of study and research.

17. The Board may, after recommendation from the Faculty Board, Director or Dean, grant a research student special leave during his course on the ground of illness or other serious cause.

18. The Board may, after recommendation from the Faculty Board, Director or Dean of the appropriate Research School, suspend a research student's course for such time as it thinks fit. The Board

Part VI—Examinations and Degrees

19. The examination of candidates for degrees shall be conducted as follows:

(d) If an examiner is unable to attend the oral examination, the Board may appoint an assessor in his place.

(e) The Board may give directions as to the procedure to be followed in the conduct of the examination.

(f) If the Board, having considered the reports of the examiners, is of opinion that the candidate is fit to be admitted to the degree it shall recommend to the Council that he be admitted and on his fulfilling the prescribed conditions he shall be so admitted.

(g) The Board may, on the recommendation of the examiners, decide that the candidate be not admitted to the degree, but be at liberty to resubmit the thesis and be re-

(2) Each examiner shall recommend to the Board that the candidate be admitted, or be not admitted, to the degree.

(3) If the Board is of opinion that the candidate has made an original and substantial contribution to knowledge and scholarship, it shall recommend to the Council that he be admitted to the degree and on his fulfilling the prescribed conditions he shall be so admitted.

24. A candidate for any degree shall not submit for examination work in respect of which a degree has been awarded in any University.

GENERAL INFORMATION

CONDITIONS OF AWARD OF SCHOLARSHIPS

Tenure

Scholarships are awarded for an initial period of two years, and may be renewed for a third year. Scholars are normally required to enrol as candidates for the Ph.D. degree. The University may terminate a scholarship at any time if, in the opinion of the Board of Graduate Studies, a scholar is not making satisfactory progress in his course.

An award is dependent on the satisfactory outcome of a medical examination conducted by a physician nominated by the University.

Living Allowances

Single scholars and married scholars not accompanied by their wives or children are required to live in University House. Such scholars at present receive an allowance of £A750 per annum. Married scholars accompanied by their families at present receive an allowance of £A750 per annum. Those with dependent children may be granted an additional allowance, normally £A200 in respect of the first child, and £A50 per annum for each other child. The University will give assistance in the matter of accommodation for married scholars accompanied by their wives and families, but can give no undertaking in this respect.

Living allowances commence on the day the scholarship is taken up in Canberra and are paid monthly in arrear.

Travelling Grants

The University may make a contribution towards the expenses incurred by a scholar in coming to and returning from Canberra. The contribution is as follows:

(a) Scholars living in Australia

The equivalent of second class rail fare. The University will on request in advance consider making a grant of not more than £A50 towards other movement expenses.

(b) Scholars from abroad

An allowance will be fixed in each case. (For scholars from the United Kingdom the maximum is £Stg. 115 each way.)

Fees

Scholars are exempt from the payment of University tuition fees.

A scholar who is required to undertake field or research work away from Canberra will receive a special allowance.
Income Tax
At the present time scholarship allowances are exempt from Australian income tax.

Outside Work
A scholar shall not engage in paid outside work of any kind, or undertake or conduct any paid occupation or business or engage in the practice of any profession without the permission of the Council. In general, permission will not be granted for anything other than a very small amount of University teaching in a subject directly relevant to a scholar's training.

Superannuation
The University does not make provision for superannuation for scholars. The Vice-Chancellor may, however, grant a loan to a scholar to enable him to meet an existing superannuation commitment.

Thesis
A scholar is required to deposit in the University Library a copy of the thesis or other results of research at the conclusion of the course.

Terms
Except for periods approved for fieldwork, a scholar is required to be in attendance at the University for forty weeks each year and he may also be required to be in attendance for a further six weeks at the discretion of his supervisor.

Common Rooms

Three Common Rooms are available to members from 8 a.m. till midnight—the Main Room which contains a wide selection of newspapers and periodicals, the Library-and-Music Room, and the Writing-and-Reading Room where quiet must be observed. There is also a Coffee Room beside the Hall, where coffee is served after dinner and where drinks may be obtained.

The Eastern Annexe contains a large room (with seating accommodation for about seventy) suitable for meetings, play-readings, film shows, etc. It may be made available to approved academic bodies or societies on application to the Master at least eight days in advance.

Games Rooms are provided in the basement and include a billiards room (two tables), a table-tennis room, and two music-practice rooms.

Three Bendix washing machines are available in the basement to provide laundry facilities for residents and there are also drying-rooms and ironing tables.

Library

University House contains a small Library designed to provide suitable facilities for general reading and reference purposes, with particular regard to literature, the fine arts, Australiana and better-class fiction.

Resident members are entitled to borrow books, other than works of reference which are marked with an asterisk, from this Library. Not more than two works may be borrowed at any one time and no book should be kept for longer than fourteen days.

TRAVELLING SCHOLARSHIPS

The University offers up to two Travelling Scholarships each year for competition among—

(a) Research Fellows of the University;
(b) former Research Students of the University who have successfully taken the examination for the degree of Doctor of Philosophy in the University, provided that the Council's
decision to admit to the degree was within two years of the closing date of applications;
(c) Research Students who expect to complete the examination for the degree of Doctor of Philosophy in the University before the closing date of applications.

The awards are offered to enable the successful applicants to carry out research abroad and to make contacts in their chosen fields.
The awards are offered for a period of twelve months and their value, inclusive of fares, is £A1,250, if single, and £A1,500, if married.

Applications are invited in September and the names of the successful candidates are announced early in December.

SCANDINAVIAN — AUSTRALIAN CULTURAL FUNDS

In 1952, to mark Australia’s Jubilee Year, the Danish, Norwegian and Swedish communities in Australia each raised a fund for the encouragement of close and friendly scientific, educational and cultural relations between their countries and Australia, particularly by assistance towards meeting the expenses of visits in either direction. The administration of the funds was vested in the Australian National University.

Applications for grants from the income of the funds are invited in September each year from persons who wish, for reasons connected with their work, to visit one or more of the Scandinavian countries. The estimated annual income from each fund is from £A70—£A90. Grants are payable on 1 July each year.

The University retains the right to make grants at other times, in suitable cases if funds allow. The availability of the funds is also made known in the Scandinavian countries for the benefit of persons intending to visit Australia.

UNIVERSITY ARMS

The blazon of the Arms of the University is:

Per chevron Azure and Barry wavy of eight Argent and of the last a Boomerang chevronwise Or in sinister chief five Stars representing the Constellation of the Southern Cross also Argent.

ANNUAL REPORTS

The University furnishes an annual report of its academic, financial and other transactions to the Governor-General, and the report is laid before Parliament. Copies of these reports are available gratis on request. The introductory passage from the report for the year 1954 will be found on pp. 100-4.

UNIVERSITY PUBLICATIONS

Apart from the Calendar, the University publishes the News, which is designed to give up-to-date information about University developments, including the appointment and movements of mem-
bers of the staff and details of academic vacancies. About five issues appear each year; they are available gratis on request.

THE MORRISON LECTURE

The George Ernest Morrison Lecture in Ethnology was founded by Chinese residents in Australia and others in honour of the late Dr G. E. Morrison, a native of Geelong, Victoria.

The objects of the foundation of the lectureship were to honour the memory of a great Australian who rendered valuable services to China, and to stimulate interest in Australia in the art, science and literature of the Chinese Republic. From the time of its inception until 1948 the lecture was associated with the Australian Institute of Anatomy, but in the latter year the responsibility for the management of the lectureship was accepted by the University.

The following lectures have been delivered:

Dr W. P. Chen (Consul-General for China in Australia), "The Objects of the Foundation of the Lectureship, and a Review of Dr Morrison's Life in China", 10 May 1932.

J. S. MacDonald (Director, National Art Gallery, New South Wales), "The History and Development of Chinese Art", 3 May 1934.

Dr W. P. Chen (Consul-General for China in Australia) "The New Culture Movement in China", 10 May 1935.

Dr Wu Lien-tah (Director, National Quarantine Service, China), "Reminiscences of George E. Morrison; and Chinese Abroad", 2 September 1936.

Professor A. F. Barker (Department of Textile Industries, Chiao-Tung University, Shanghai, China), "The Impact of Western Industrialism on China", 17 May 1938.

Professor S. H. Roberts (Vice-Chancellor, University of Sydney), "The Gifts of the Old China to the New", 5 June 1939.

His Grace the Archbishop of Sydney, Howard Mowll, "West China as Seen through the Eyes of the Westerner", 29 May 1940.

Professor D. B. Copland (Vice-Chancellor, Australian National University), "The Chinese Social Structure", 27 September 1948.

Professor J. K. Rideout (Department of Oriental Languages, University of Sydney), "Politics in Medieval China", 28 October 1949.
GENERAL INFORMATION

Lord Lindsay of Birker (Senior Research Fellow in International Relations, Australian National University), “China and the West”, 20 October 1953.

Professor H. Bielenstein (Department of Oriental Languages, Canberra University College), “Emperor Kwang-wu and the Northern Barbarians”, 2 November 1955.

OTHER UNIVERSITY LECTURES

During 1956 the University will continue a series of Public Lectures, given by prominent scholars from within and outside the University on matters of academic and public interest. These lectures are given at intervals of three or four weeks during term.

It is the University’s practice to invite newly appointed professors to give Inaugural Lectures. It is expected that several inaugural lectures will be delivered in 1956.

During 1951 the University accepted a proposal of the Australian Automobile Association that the University should conduct an annual lecture on some aspect of national roads policy. The first of these lectures was delivered on 20 March 1952 by Sir John Kemp on “Some Aspects of Modern Transport and their Relation to Road Construction”. The series is now, however, in abeyance.

MEMBERSHIP OF INTER-UNIVERSITY BODIES

The University is a member of The Association of Universities of the British Commonwealth, whose headquarters are at 36 Gordon Square, London, W.C.1. The Secretary of the Association, Dr J. F. Foster, will gladly answer enquiries about the University, with whose development he has been closely concerned. Details of appointments and awards offered by the University are available from the Association.

The University is also a member of the recently formed International Association of Universities, whose offices are at 19 Avenue Kléber, Paris 16.

The Australian National University Staff Association was formed in September 1953. In general the object of the Association is to advance the welfare of its members in their capacity as members of the staff of the University.
STAFF ASSOCIATION

Membership is open to all those on the staff of the University possessing university degrees or equivalent professional qualifications, including senior administrative, library and technical officers.

A committee of seven, consisting of a President, a Vice-President, a Secretary, a Treasurer and three other members, is elected annually to conduct the affairs of the Association between general meetings.

GENERAL STAFF ASSOCIATION

During 1953 the need had been felt for an organization which could represent the views of all members of the staff of the University. A constitution was prepared and was accepted by a general meeting in April 1954; it provided, among other things, that membership of the Association should be open to all the University staff, and that the Association should be registered.

A council representing all sections of the University is elected annually.

STUDENTS' ASSOCIATION

The first steps towards the formation of a Students' Association were taken in March 1952, when the small body of scholars then resident in Canberra met on a number of occasions to discuss matters of common interest. This group became the Interim Committee of the Australian National University Students' Association, and undertook the tasks of framing a constitution and of attempting to work out answers to some of the problems then faced by scholars. The constitution came into effect in June 1953 and the Association was formally established.

The general aims of the Association, as stated in the preamble to the constitution, are to promote the welfare and further the interests of members by affording a recognized means of communication between them and the University authorities and by encouraging social and sporting activities among the research students of the University. The Association has already brought a number of important matters which affect research students before the relevant authorities, and seen them dealt with effectively, while some successful social and sporting events have also been organized. It is hoped that with increases in the size of the student body and the provision of a social centre at University House activities of this kind will be extended.

SPORTS UNION

During 1954 a University Sports Union was formed to concern itself with the sporting interests of the University.

One function envisaged for the Sports Union has been the consideration of the sporting requirements of the University and the offering of suggestions to Council about the direction in which the University's sporting facilities could most appropriately be extended.
Although capital outlay on sporting facilities is a University responsibility, the Sports Union has in mind the need to provide adequate equipment for various sports. To this end an annual subscription is levied upon members.

Membership of the Sports Union—which carries the right to use all sporting facilities under the jurisdiction of the Sports Union—is open to all those associated with the University.

The clubs at present affiliated with the Sport Union are the Cricket Club, the Tennis Club, the Basketball Club and the Softball Club.

REPORT OF THE COUNCIL
for the period 1 January 1954, to 31 December 1954

To His Excellency Field Marshal Sir William Joseph Slim, G.C.B.,
Birm. and Cantab.), D.C.L. (Oxon), Governor-General and Com-
mander-in-Chief in and over the Commonwealth of Australia.

May it Please Your Excellency:
I have the honour to transmit to Your Excellency the report of the
Council of The Australian National University for the period from
1 January 1954, to 31 December 1954, furnished in compliance with
section 33 of the Australian National University Act 1946-47.

Royal Visit
The Council wishes to record the pride and thanks felt by the
whole University that His Royal Highness the Duke of Edinburgh
was able, during the Royal Visit to the Australian Capital Territory,
to visit the University and perform the opening ceremony of Univer-
sity House. Further reference is made to this occasion later in the
report.

The Council
The Council met six times during the year, in February, April,
May, July, September and November.
On 30 June 1954, the terms of office of Messrs E. C. Fry and
A. W. Martin, the members elected by the students, expired;
Messrs J. M. Gani and A. H. Morton were elected by the students
to hold office for one year from 1 July 1954.
At a meeting held, in accordance with the provisions of the Uni-
versity Act, on 10 September 1954, Professor A. D. Trendall was
co-opted as a member of the Council, to hold office until 30 June
1958.
Otherwise the membership of the Council remained unchanged
during the year.
Dr H. C. Coombs continued to act as Deputy Chairman of the
Council.

Academic Developments
At a ceremony in University House on 18 February 1954, the
Chancellor conferred degrees on the first two candidates to qualify
for graduation on the basis of work done in the University. The
candidates were Dr A. Przybylski, who had worked in the Depart-
ment of Astronomy, and Mr K. O. L. Burridge, who had worked
in the Department of Anthropology and Sociology. Each was ad-
mitted to the degree of Doctor of Philosophy.
On 12 November 1954 the Deputy Chairman of the Council con-
ferred the degree of Doctor of Philosophy on Mr P. M. Worsley in
absentia and the degree of Master of Arts on Miss S. E. Liesching
in absentia. Mr Worsley had worked in the Department of Anthropology and Sociology and Miss Liesching in the Department of Political Science.

The year 1954 was the first in which the University's policy of granting study leave to members of the permanent academic staff came into substantial effect. The following members of the staff were on study leave for some part of the year:

Mr W. D. Borrie, Reader in Demography.
Professor C. P. FitzGerald, Professor of Far Eastern History.
Professor J. C. Jaeger, Professor of Geophysics.
Professor S. F. Nadel, Professor of Anthropology and Sociology.
Professor P. H. Partridge, Professor of Social Philosophy.
Professor G. Sawer, Professor of Law.
Professor T. W. Swan, Professor of Economics.
Professor E. W. Titterton, Professor of Nuclear Physics.

Professor W. R. Crocker, Professor of International Relations, who had been on leave since May 1952, and had been acting since that time as Australian High Commissioner to India, resigned his Chair in December, 1954.

The Council is holding discussions with the Council of the Canberra University College with a view to deciding whether some formal association of the College with the University is desirable.

Accounts of the activities during the year of the several Schools, of their Departments, and of the University Library, are submitted later in this report.

General Developments

Pending the appointment of Directors in the John Curtin School of Medical Research and the Research Schools of Social Sciences and Pacific Studies, leadership of those Schools has been entrusted to Deans selected from the professoriate. Professor G. Sawer, Dean of the Research School of Social Sciences, and Professor S. F. Nadel, Dean of the Research School of Pacific Studies, have recently gone on study leave, and the Council has appointed Professor P. H. Partridge and Professor O. H. K. Spate respectively to act as Acting Deans of those Schools during the currency of the Deans' leave. Professor Ennor is continuing to act as Dean of the John Curtin School of Medical Research.

The Department of Experimental Pathology which has been associated with the Sir William Dunn School of Pathology at the University of Oxford for some years moved to Canberra in January.

In 1953 the Auditor-General referred in his report to the Treasurer to certain inadequacies in the University's stock-recording and financial procedures. The matters mentioned were attributable largely to the circumstances in which the University was established, and during 1954 the University introduced procedures designed to
meet the Auditor-General’s criticisms and to effect certain further improvements.

The Council notes with pleasure the continuing stream of learned publications emanating from the University. The University has itself begun the production of a series of monographs which are not of a length for convenient publication in book form.

The University published an official Calendar for the first time in 1954, and the Calendar will henceforward be issued annually.

During 1954 the College of Heralds approved a grant of Arms for the University which, in addition, adopted the following for its motto:

"Naturam primum cognoscere rerum" ("Seek first to know the nature of things").

A General Staff Association, with particular interest in the welfare of the technical and clerical staff, and a Sports Association, were formed during the year.

Site and Buildings

The early months of 1954 saw the completion of University House, the office and small laboratory block for the Research School of Physical Sciences, and the building for the Department of Geophysics.

Substantial progress was made towards the erection of the permanent laboratories of the John Curtin School of Medical Research. The building of the School’s workshops and the excavations for the main building were completed and a contract for the laying of foundations and other preliminary works was satisfactorily fulfilled by November. Meanwhile, in September, a contract for the construction of the major part of the building was let to Mr K. Schreiner, of Canberra. Work on this contract began in November, and is due for completion early in 1956.

The Council hopes to develop, during 1955, plans for the building of permanent premises for the Research Schools of Social Sciences and Pacific Studies, and for the University Library.

Old Canberra House, the residence formerly used by the High Commissioners for the United Kingdom, has, with the approval of the Honourable the Minister for the Interior, been leased for a period of five years to the Commonwealth Club.

In an endeavour to ensure the most efficient and pleasing use of the University site as the University develops, the Council has appointed Professor Denis Winston, Professor of Town and Country Planning in the University of Sydney, and Mr Grenfell Rudduck, of the Department of National Development, Canberra, as Site Consultants. The Consultants will prepare a comprehensive site plan and report for the Council’s guidance in the placing of future buildings and the treatment of the site generally.
Financial Matters

Statements of accounts are attached. Though financial stringency has made necessary some restriction of the University's development, especially in the matter of new appointments to the staff, the Council is appreciative of the understanding of the University's problems and needs shown by the Government and the administration of the Commonwealth.

After a careful review, the Council reached the conclusion in May, 1954, that it was necessary to increase academic salaries by some 20 per cent. The grounds for this conclusion, and for the consequential adjustment of other emoluments in the University, were presented to the Government, asking that it make funds available to enable payment at the increased rates to be made to members of the staff as from 1 July 1954. Pending a decision the increases were applied as from 1 January 1955.

University House

During 1954 University House came into use. The outstanding event of the University year was the ceremony, on 16 February, at which His Royal Highness the Duke of Edinburgh opened the building. The first residents were installed in the House on 10 February, and the number of residents built up during the year to over 70.

Professor A. D. Trendall took up full-time duty as Master on 1 June, and the Governing Body, comprising the Master and eight Fellows, is now complete.

Visitors

The University was honoured and delighted to receive an informal visit from Your Excellency and Lady Slim on 21 October 1954.

The Chancellor, the Right Hon. Viscount Bruce of Melbourne, visited Australia with the Viscountess Bruce from January to March, and presided at the Royal opening of University House.

Sir Howard Florey, the Council's Adviser on the John Curtin School of Medical Research, was in Canberra at the Council's invitation for six weeks from 29 June to 9 August 1954.

Among the University's other distinguished visitors during the year were:

Sir Charles Morris, Vice-Chancellor, University of Leeds.
Professor C. T. Bissell, University of Toronto.
Mr C. B. Fahs, Director, Humanities Division, Rockefeller Foundation.
Mr Roger F. Evans, Assistant Director, Social Sciences Division, Rockefeller Foundation.

Statute No. 15—Board of Graduate Studies Amendment Statute No. 2.
Statute No. 17—Academic Dress Statute.
Statute No. 18—Convocation Amendment Statute No. 3.
