The Arms of the University granted in 1954

Per chevron Azure and Barry wavy of eight Argent and of the last a Boomerang chevronwise Or in sinister chief five Stars representing the Constellation of the Southern Cross also Argent.

The motto ‘Naturam Primum Cognoscere Rerum’ is from the poem *De Rerum Natura* (III, 1072) by Lucretius, Roman poet, philosopher and scientist. It is translated by Cyril Bailey (1946) ‘first to learn the nature of things’; an alternative, following Rolfe Humphries’ 1968 translation of *De Rerum Natura*, would be ‘above all to find out the way things are’.

Staff List
Academic Year

1974
First term  Monday, 4 March to Friday, 10 May
First semester  Monday, 4 March to Friday, 21 June
Second term  Monday, 3 June to Friday, 9 August
Second semester  Monday, 8 July to Friday, 25 October
Third term  Monday, 2 September to Friday, 6 December

1975
First lecture period  Monday, 3 March to Friday, 2 May
First recess  Saturday, 3 May to Sunday, 25 May
Second lecture period  Monday, 26 May to Friday, 20 June
Second recess (half-year examinations)  Saturday, 21 June to Sunday, 6 July
Third lecture period  Monday, 7 July to Friday, 15 August
Third recess  Saturday, 16 August to Sunday, 7 September
Fourth lecture period  Monday, 8 September to Friday, 24 October
Study vacation and examinations  From 25 October
## Principal Dates 1974

### January
- **2 W** University office re-opens
- **2 W** Final day for receipt of applications to re-enrol from students in the SGS
- **18 F** Buildings and Grounds Committee
- **18 F** Final day for receipt of new enrolment applications from students who were at school in Australia in 1973
- **28 M** Australia Day—University office closed

### February
- **4 M** Standing Committee of the Board of the School
- **7 Th** Graduate Degrees Committee
- **8 F** Finance Committee
- **8 F** Standing Committee of Council
- **15 F** Buildings and Grounds Committee
- **18 M** Standing Committee of the Board of the School
- **21 Th** Board of the Institute of Advanced Studies
- **22 F** Board of the School of General Studies
- **25 M** Orientation Week begins

### March
- **4 M** FIRST TERM and FIRST SEMESTER begin
- **4 M** Standing Committee of the Board of the School
- **5 T** Annual Commencement Dinner—University House
- **6 W** Editorial Committee
- **7 Th** Graduate Degrees Committee
- **7 Th** Finance Committee
- **8 F** Council
- **8 F** Final date for payment of student body fees for students re-enrolling in the SGS
- **15 F** Buildings and Grounds Committee
- **18 M** Standing Committee of the Board of the School
- **21 Th** Board of the Institute of Advanced Studies
- **22 F** Board of the School of General Studies

### April
- **1 M** Standing Committee of the Board of the School
- **4 Th** Graduate Degrees Committee
- **12 F** Good Friday—University office closed—no lectures
- **15 M** Easter Monday—University office closed—no lectures
- **18 Th** Board of the Institute of Advanced Studies
- **18 Th** Conferring of Degrees
- **19 F** Finance Committee
- **19 F** Standing Committee of Council
- **19 F** Conferring of Degrees
- **22 M** Standing Committee of the Board of the School
- **24 W** Buildings and Grounds Committee
- **25 W** Anzac Day—University office closed—no lectures
- **26 F** Board of the School of General Studies

### May
- **6 M** Standing Committee of the Board of the School
- **9 Th** Finance Committee
- **10 F** Council
- **11 S** FIRST TERM ends
- **17 F** Buildings and Grounds Committee

### June
- **3 M** SECOND TERM begins
- **3 M** Standing Committee of the Board of the School
- **5 W** Editorial Committee
- **6 Th** Graduate Degrees Committee
- **14 F** Finance Committee
- **14 F** Standing Committee of Council
- **17 M** Queen's Birthday—University office closed—no lectures
- **20 Th** Board of the Institute of Advanced Studies
- **21 F** Buildings and Grounds Committee
- **22 S** FIRST SEMESTER ends—lecture break begins
- **24 M** Standing Committee of the Board of the School
- **28 F** Board of the School of General Studies

The University

The Australian National University occupies a site of 320 acres (130 hectares) close to Lake Burley Griffin, at the heart of Canberra, the national capital of Australia. The city, founded in 1911, now has a population of more than 170,000 and is growing rapidly. It is the seat of the federal Parliament and of the headquarters offices of most Australian Government departments. It is located at an elevation of 1,800–2,000 feet (approximately 550–610 metres) above sea level, about 200 miles (322 kilometres) from Sydney and 400 miles (644 kilometres) from Melbourne, and linked with both cities by air, road and rail transport. Cultural amenities are, in general, comparable with those of larger Australian cities.

Facilities for tertiary education were introduced to Canberra with the creation of the Canberra University College in December 1929. By arrangement with the University of Melbourne, the College continued to provide undergraduate and some postgraduate training for almost thirty-one years. In the meantime, the establishment of a full university in Canberra was given frequent consideration by, and was the subject of frequent representations to, the national Government. Passage of the Australian National University Act by the Commonwealth Parliament in August 1946 brought these plans to fruition.

Although the Act provided for the possible incorporation of Canberra University College, the University was to be primarily concerned with ‘postgraduate research and study, both generally and in relation to subjects of national importance to Australia’. Initially it comprised four Research Schools: the John Curtin School of Medical Research, named for the wartime Prime Minister, and the Research Schools of Physical Sciences, Social Sciences and Pacific Studies. Subsequently as the University’s range of studies and degree of specialisation have developed, Research Schools of Chemistry, of Biological Sciences and, in 1973, of Earth Sciences have been established. Directions in which the research concerns of the University have developed, and areas of current specialisation, are outlined later in descriptions of the work of the Research Schools and their departments.
Through the association with it in September 1960 of the Canberra University College, the University acquired a broad range of undergraduate responsibilities and expanded its range of postgraduate studies. The Research Schools have since been grouped as the Institute of Advanced Studies, and the Faculties of the former College, now five—Arts, Asian Studies, Economics, Law and Science—as the School of General Studies.

A further element in the University's academic activities is provided by the continuing development of a number of relatively small multi-disciplinary research 'centres' which are separate from both Institute and School, but which in some cases also provide specialist services to other parts of the University. Multi-disciplinary 'units' exist also within some research schools and inter-disciplinary courses are offered to undergraduate students.

The structure and role of the University are reflected in the arrangements for its internal government and administration. The Act of 1946 entrusted all executive and many legislative powers to a Council which includes members of the Commonwealth Parliament, of the University staff, of the student body and of Convocation—a body consisting primarily of all graduates of the University—and persons appointed by the Governor-General.

Since the association of 1960, Council has been advised by the Boards of the Institute and of the School. The Vice-Chancellor is chairman of both Boards. The Board of the Institute of Advanced Studies comprises heads of research schools, heads of departments within those schools, the Deputy Vice-Chancellor, and three members of the other Board. The Board of the School of General Studies consists of all professors of the School, the Deputy Vice-Chancellor, and three members of the other Board. By convention, Board meetings are usually presided over by the Deputy Chairman of each Board, appointed by Council. A Professorial Board, comprising all professors of the University, is consulted from time to time on issues of major importance, but Council looks chiefly to the Boards of the Institute and the School for guidance and advice in matters of academic policy and practice.

The administrative staff is led by the Vice-Chancellor who is the University's principal executive officer. He is assisted in matters of academic policy by the Deputy Vice-Chancellor, and in financial matters and the supervision of academic and general administration, by the Secretary to the University.
The Registrar is secretary of the Council and of the Professorial Board and is responsible, under the Vice-Chancellor, for correspondence with public bodies and for communicating the general policy of the University.

The Bursar is responsible for the financial implications of new policies and developments, budgets, accounting services, business management, and for residential housing.

The Registrar (Property and Plans) is responsible for relating academic plans to the provision of buildings and site development to suit the requirements of teaching and research.

The Academic Registrar is secretary of the Boards of the Institute and of the School, and is responsible for the administrative services arising from the work of the Boards, including matters relating to academic staff appointments and student matters.

Administrative services within the research schools are provided by business or laboratory managers, who are responsible to the directors or deans concerned, and by school secretaries who work with the directors and deans, but are responsible to the Academic Registrar.

In the School of General Studies, faculty secretaries work with the deans of faculties but are responsible to the Academic Registrar. The Business Manager in the Registrar's office provides business and budgetary services to the deans of the faculties and supervises the central store.
Degree Studies and Scholarships

Undergraduate admission and degrees

The Australian National University admits students seeking a degree of bachelor according to two separate criteria—performance in the New South Wales Higher School Certificate Examination (or its equivalent), and individual assessment. A number of places are offered to applicant final-year secondary school pupils in September each year, on the basis of their past three years' school record and their principal's recommendation. Those failing to qualify for this early offer may subsequently be admitted on the basis of a satisfactory performance in the examination.

In addition, it is possible to gain admission as a mature-age student, notwithstanding lack of formal matriculation qualifications, on the University's assessment of ability to pursue successfully a course of study.

Admission to the University does not imply an automatic entitlement to pursue a particular course. The Faculty of Law has imposed entry quotas since 1972. The Faculty of Arts decided in 1973 to limit the growth of its student numbers in 1974 to no more than five per cent.

The University offers courses for six degrees of bachelor—in Arts, Arts (Asian Studies), Economics, Law, Science and Science (Forestry)—at both pass and honours levels. With the exceptions explained below, the minimum time required for completion of the pass course is three years, and for the honours course, four years. In the case of Law and Science (Forestry), both pass and honours degrees require a minimum of four years' study. Also, in 1973 the Faculty of Science inaugurated a four-year pass degree course for students wishing to train as professional geologists, and proposals by the Faculty of Economics to introduce a course of similar duration for accountants were approved. In each case the successful candidate earns the normal pass degree, endorsed to indicate his or her specialisation. Details of degree courses and requirements are provided in the Faculty Handbook.
Undergraduate scholarships

The University offers annually a small number of scholarships to outstanding students pursuing, or seeking to pursue studies at honours level at the Australian National University. The majority of these awards are offered under the National Undergraduate Scholarships scheme. Because of its special interest in Asian studies, however, a small number of Asian Studies Scholarships are provided for students seeking the degree of Bachelor of Arts (Asian Studies) or Bachelor of Arts with an Asian language major.

Final Honours Year Scholarships are offered to outstanding students of the University, to permit the completion of an honours degree course. A similar purpose is served by the Undergraduate Assistantships scheme, through which selected students participate in the teaching of a department. An Undergraduate Assistant is required to have earned a high distinction in the unit which he teaches.

Benefits from scholarships, in general, cover the cost of residential accommodation during the University terms, plus accommodation for up to forty days in the first and second term vacations or otherwise approved period; payment of compulsory student body joining and membership fees; travel expenses for up to three return home visits each year; and an annual stipend of $450. Recipients of allowances under the Australian Government’s Tertiary Allowances Scheme, being introduced in 1974, are not eligible for this University’s scholarships.

Postgraduate studies

From its inception as a research university, the Australian National University has undertaken the research training of graduate students. Persons who have graduated with good honours from a recognised university and have capacity for research may apply for admission. Applications, setting out previous experience, proposed study and the degree for which enrolment is sought, should in the first instance be made to the Academic Registrar. Postgraduate studies may be pursued in either the Institute of Advanced Studies or the School of General Studies. Details of fees payable in respect of the various study and research programs may be obtained from the Academic Registrar.

All graduate students are required to become members of the
Australian National University Research Students’ Association, for which a composite annual fee of $21 for students enrolled for the degree of Doctor of Philosophy, and $26 for students enrolled for a degree of master, is payable.

**Degree of master**

Students may proceed by research and thesis to the degree of master in Arts, Arts (Asian Studies), Economics, Law or Science. It is also possible to earn the degrees of Master of Arts (Asian Studies) in Chinese, Master of Economics, and Master of Agricultural Development Economics, by course work and examination. It is possible to earn a master's degree by a combination of course work and research in several departments—full details are available from the current Faculty Handbook or, including opportunities provided by the Institute of Advanced Studies for a degree of master, from the Academic Registrar.

Courses of study and research generally extend over two years: research requires the submission of a thesis on an approved topic. Research work is conducted under the supervision of a member of the academic staff, in accordance with a program approved by the appropriate faculty or research school.

**Degree of Doctor of Philosophy**

A course of study and research for the degree of Doctor of Philosophy normally extends over three years, during which time students conduct research work full-time under the supervision of a member of the academic staff. In special circumstances, the Graduate Degrees Committee, which approves research programs for this degree, may shorten a course to a minimum of two years or lengthen it to a maximum of four years.

A candidate for the degree is required to submit a thesis of not more than 100,000 words and will also be examined orally, unless an exemption is approved.

**Postgraduate scholarships**

The University offers a limited number of scholarships to applicants of high scholastic calibre and with a capacity for research, who hold
or expect to hold a good honours degree. Terms of award of these scholarships vary with the degree sought and other circumstances. For candidates for a degree of master, scholarships are awarded generally for a period of one year and may, depending upon circumstances, be extended for a second year. Scholarships for candidates for the degree of Doctor of Philosophy are awarded initially for two years, but subject to satisfactory progress will usually be awarded for the whole period of an approved course of study and research.

Since September 1973, the basic living allowances provided by Australian National University scholarships have been subject to half-yearly adjustments in line with the consumer price index in Canberra. In addition to this basic allowance, the University pays an additional sum for a dependent wife and each dependent child. There are certain specific conditions applying to individual scholarships: those for candidates for a degree of master normally will not include an allowance for travel or removal expenses, while those for candidates for the degree of Doctor of Philosophy will do so.
The Faculties

Faculty of Arts

The Faculty of Arts, largest faculty of the School of General Studies, with 1,800 students in 1973, has its roots in the faculty of the same name of the University of Melbourne with which it, as a part of the former Canberra University College, was affiliated for thirty years. When it became part of the Australian National University in September 1960, it consisted of nine departments. Since then one, Oriental Studies, now Asian Studies, has become a Faculty in its own right. New specialities and priorities have brought the number of departments to fifteen. Some departments—Applied Mathematics, Linguistics, Political Science, Psychology and Pure Mathematics—are full members also of faculties other than Arts.

The Faculty offers the degree of Bachelor of Arts (BA) at both pass and honours levels, and receives candidates as well for the degrees of Master of Arts (MA) and Doctor of Philosophy (PhD). The BA pass degree consists of ten units, some of which may consist of pairs of half-units. The basic requirement for all pass degree candidates is that they complete two majors—two sequences of three years' study in a single subject—as a part of their course. The remaining four units may be taken in any combination but must include at least a sub-major—a sequence of two years' study in a subject. All students must complete their degree in eight years. The normal period for full-time students is three years.

In addition to undertaking units offered by the Faculty of Arts itself, students may incorporate into their degree courses units offered by the Faculties of Asian Studies, Economics and Science, while a combined Arts/Law course also is offered.

Students may choose, usually at the conclusion of their first year's study, to undertake an honours course. This decision usually involves a greater degree of specialisation than is necessary for pass-level studies. The course lasts four years (full-time) and usually requires the student to undertake additional work in parallel with ordinary pass-level studies.

8
In some departments, such as Sociology, intending honours candidates are required to undertake a double major in the subject, being admitted to the honours year on the satisfactory completion of this program.

Normally the completion of an honours degree is required of candidates for the MA degree. However departments offer as well, or are prepared to arrange, master’s qualifying courses as a preliminary to MA studies: usually this consists of research and the writing of a thesis. However the MA degree may also be obtained by course work in English, Applied Psychology and Political Science.

Classics
Greece and Rome, respectively in the realms of thought and of action, are the foundations of western civilisation. Courses in Greek and Roman Civilization, including their art (and architecture), history, thought and literature in translation are offered by the Department, as are three-year pass and four-year honours courses in both languages.

English
The Department offers a range of undergraduate courses in English literature from medieval times to the present, as well as separate courses in Australian and American literature. An honours course, comprising a comprehensive study of English literature and culminating in a detailed fourth-year investigation of a special period, is also offered.

Geography
Geography is concerned with understanding the spatial patterns of physical and human phenomena on the earth’s surface. Units offered by the Department provide opportunities to specialise in several fields of regional and systematic geography, human and physical, and to study geographical aspects of development, particularly in South and South-East Asia and Australia. A half-unit, Applied Geography Project, introduces students to modern research methods.

Germanic Languages
A three-year sequence of courses in German aims at providing an active mastery of present-day German, a knowledge of German literature of the last two hundred years, and an acquaintance with German history and civilisation from early times. The language and literature of the Middle Ages and the Renaissance and Baroque
periods are studied in separate courses. In Dutch, Swedish and Old Norse the two components of two-year sequences are taught in alternate years. There are also reading courses in German and Dutch and a special German language course for scientists.

**History**
The Department offers a broad range of courses in history—thirteen units in all, excluding honours year studies—from which first-year students can choose from four. Three units are offered in Australian History. Honours courses consist of more extensive explorations of phases of the periods covered in pass courses and fourth-year honours students pursue a course of special study.

**Human Sciences Program**  
See Faculty of Science

**Linguistics**
Linguistics consists of the study of the general nature of human language, providing a general theory of language that can be drawn on by many other disciplines. In all courses taught in the Department, emphasis is placed on teaching students how to think and reason and on sharpening their linguistic intuitions, rather than on the brute learning of facts. They are exposed to problems in a wide variety of languages, doing detailed work on two or three languages and language families, and being trained in the methods and results of transformational grammar. The study and teaching of Australian Aboriginal languages is a particular specialism of the Department.

**Mathematics**
The Departments of Applied Mathematics and Pure Mathematics each offer full courses for pass and honours degrees. Since mathematics provides a basic tool for solving problems in science, engineering and economics, the courses are designed to serve students in other disciplines as well as students who are mainly interested in mathematics.

**Philosophy**
As philosophy is not commonly taught outside universities, there are no special prerequisites for admission to philosophy courses. For students in their first year the Department provides a flexible introductory course, Philosophy I, in which students choose between workshop programs dealing with a wide range of topics. Another
five units covering all main fields of philosophical inquiry are offered also at pass level, and a large number of specialised units at honours level.

*Political Science*
Some eight units covering a wide range of political ideologies, thought and systems of government are offered to candidates for the pass degree. Political Science I, which is the prerequisite for all other units, is an introduction to the study of politics and a study of the Australian political system. At fourth-year honours level, students are required to undertake seminar work and to submit a sub-thesis on an agreed topic.

*Prehistory and Anthropology*
Courses offered by the Department are designed to present a perspective which assists an understanding of present human problems. In the Pacific region, its focus is the origins and achievements of indigenous societies. Prehistory is conventionally described as the study of periods of human society before the advent of written records: in Australia, prehistory lasted until 1788 AD. Courses offered provide a grounding in the methods of archaeology and anthropology.

*Psychology*  
See Faculty of Science

*Romance Languages*
Formerly the Department of French, the Department was renamed from the beginning of 1974 with the introduction of courses in Italian. In both subjects units offered combine the study of language and of literature.

*Russian*
The three-year course in Russian offered by the Department is designed to provide facility in reading, writing and speaking Russian and a critical appreciation of representative works of Russian literature. Honours students undertake from their second year special extra work in the fields of literature and philology which, together with work in the modern language, is completed in their fourth honours year of study.
Sociology
In simplest terms, sociology is the study of general or recurrent human relationships. The Department, set up in 1970, now offers, in addition to a number of year-long basic courses, a wide variety of specialised semester courses.

Faculty of Asian Studies

The Faculty of Asian Studies offers courses in the languages and literatures of China, Japan, India, Indonesia and Malaysia, and training in history which, together with further studies of religion and philosophy, is offered by the Department of Asian Civilizations. Like its fellows, the Faculty offers opportunities for postgraduate research for the degrees of master and Doctor of Philosophy. The basic degree offered, at pass and honours level is that of Bachelor of Arts (Asian Studies). Course requirements are similar to those for the degree of Bachelor of Arts, with the exception that one of the two required majors must be in an Asian language. Combined courses are also available in Asian Studies and Law, and in Asian Studies and Economics, on the completion of either of which the student graduates with two degrees.

In recent years there has been a striking increase in the number of research students working for postgraduate degrees in the Faculty. The Faculty will consider applications from graduates either of this University or any other recognised university throughout the world, for enrolment for a higher degree and scholarships are available to especially able candidates.

In addition to its extensive teaching and research activities, the Faculty takes an active part in fostering knowledge of Asia in Australia and elsewhere. Frequent evening lectures, open to the public, are given and Faculty members provide courses for the University’s Centre for Continuing Education.

Asian Civilizations

In order to acquaint the student with Asian cultures, the Department presents eight main units. The two introductory units include general surveys of the geography and history of the area, its religions and philosophies and some aspects of its material culture. In the second and third-year units, students are offered a choice of an East Asian, a South-East Asian and a South Asian specialisation. Honours students are required to major, also, in an Asian language.
Chinese
The Department offers majors in both Modern and Classical Chinese. The major in Modern Chinese aims to develop a practical skill and an active command of modern standard Chinese (Mandarin), while the major in Classical Chinese is intended as a specialist study of literary, historical and philosophical texts, primarily for honours students but available also at the pass level. A student taking Classical Chinese as a major, but not in conjunction with a major in Sanskrit, is required to take a major in Modern Chinese. A fourth-year honours course is provided for both Classical and Modern Chinese. PhD and MA courses by thesis, and an MA course in Modern Chinese by course work, are available for postgraduate candidates.

Indonesian Languages and Literatures
The Department is concerned with those languages of the West Austronesian family which are spoken in the territories of Indonesia and Malaysia. The most important of these is Malay, in its standard Indonesian form known as Bahasa Indonesia, in its standard Malaysian form as Bahasa Malaysia. For teaching purposes the Indonesian variant is regarded as a norm.

Bahasa Indonesia and Malay may be taken at pass and honours level, and a range of more specialised options are available in Bahasa Indonesia and Malay IV. The Department also offers sub-majors in Old Javanese and Literary Arabic.

A course in Thai language and literature, made possible by the help of the Royal Thai Government, has been introduced this year. It will be the only teaching in Thai available in Australia at a tertiary institution.

Supervision is available for higher degrees in literary and philological studies and certain topics in applied linguistics.

Japanese
The Department offers a basic three-year course designed to give an immediate reasonable competence and eventual full mastery of the current standard language as a means of communication or research tool. The course assumes no previous knowledge and is therefore demanding. The honours course includes additional units in Literary Japanese, literature and linguistics, most of which are also available to pass students.
Linguistics  See Faculty of Arts

South Asian and Buddhist Studies
The Department is mainly concerned with the Old and Middle Indo-Aryan languages, such as Sanskrit, Prakrit and Pali. The three-year course offered concentrates on classical Sanskrit, the main cultural language of South Asia and a prerequisite for the study of the history and cultural background of ancient India and its neighbours. Additional work prescribed for the four-year honours course includes the study of Pali, Prakrit, Vedic and more difficult Sanskrit texts. Seminars on Chinese and Tibetan Buddhist texts are held for postgraduate students.

A three-year course in Hindi language and literature is temporarily being given by this Department.

A one-year course in Literary Persian is available.

Faculty of Economics

Economics and the related subjects of Accounting and Public Finance, Computer Science, Econometrics, Economic History, Political Science and Statistics which are offered by the Faculty of Economics, are important not only for their intrinsic interest and educational value, but also because of their relevance to an understanding of the world’s major problems, how they have emerged, and their possible solutions. The Faculty provides courses for the degree of Bachelor of Economics (BEC) at the pass and honours levels; for the Diploma in Economics (DipEc), a one-year course at fourth-year level for candidates who already hold an honours degree in Economics; and for the degree of Master of Economics (M Ec), either by research and thesis or by a one-year program of full-time course work. The Faculty also accepts students for the degree of Doctor of Philosophy. A program at the level of the degree of Master of Agricultural Development Economics was introduced in 1972 and a program at the level of the degree of Master of Administrative Studies was introduced in 1974.

The successful graduate in Economics must earn 20 points over his course program; two are awarded for each full-year unit completed, one for each semester or half-unit. All candidates for the BEc degree must complete a compulsory major in Economics, together with two approved semester units in Statistics. A second major must be chosen from a variety of major sequences approved by the Faculty. They
may undertake any other approved group of units which may be taken from any Faculty, including of course the Faculty of Economics. The ordinary degree requires three years for a full-time student and the honours degree requires four years. (There is also a four-year degree with specialisation in Accounting offered as an alternative to the three-year course.)

The Faculty encourages multi-disciplinary courses. In addition to the combined BA(Asian Studies)/BEc course over four years mentioned earlier, there is a five-year combined Economics/Law degree and the three-year Science/Economics program, at the end of the second year of which the student may choose between completing the BEc degree or that of Bachelor of Science.

**Accounting and Public Finance**
The Department offers courses in two main fields: accounting and financial analysis in the public and private sectors; and the theory of resource allocation in the public sector. The accounting courses commence with Accounting I as a common starting point; in second and third years, students may choose from a range of units, most of which are semester units. For students wishing to become professionally qualified accountants, a four-year BEc degree with specialisation in accounting is available as an optional alternative to the standard three-year degree.

**Economic History**
Economic History is the study of change over time in the performance and structure of economies. Although it stands close to economics and makes use of the concepts and techniques of economic theory, the introductory course offered by the Department does not assume a prior knowledge of economic theory. Units offered all relate to modern periods of development, the main areas of study being Britain, the United States of America, Australia, Japan, India and some economies in the post-1945 period.

**Economics**
Courses offered by the Department seek to provide an understanding of the economic system and to analyse the central problems of government economic policy, such as inflation, unemployment, resource allocation, economic growth, income distribution and foreign
trade. Students may supplement the economics major by enrolling, in the second and third year, in various courses in applied and mathematical economics.

Political Science See Faculty of Arts

Statistics
Statistics is concerned with the process of drawing inferences from data which have been generated by some mechanism in which chance elements play a part and as such is closely associated with the Theory of Probability. The Department provides a non-mathematical course in statistical methods for economists and other social scientists; courses in the theory and application of econometrics; and courses, mathematical in content, in the theory and practice of statistical methods, and in various applications of Probability Theory.

Administrative Studies Program
The program for the course at the level of Master of Administrative Studies was approved by the University in 1973. Prerequisites for the course include work in economics, statistics, mathematics, computer science, political science, psychology and law. Qualifying courses in these subjects are provided for candidates for the degree in a preliminary year of study. The one-year subsequent course for the degree is inter-disciplinary covering issues of policy analysis, decision-making and implementation.

Centre for Research on Federal Financial Relations
Established in 1972 at the request of the then Prime Minister and financed directly by the Australian Government for an initial period of five years, the Centre has undertaken a major program of research into the Australian federal system and comparable systems elsewhere. The Centre studies all aspects of Federal/State relationships, provides for postgraduate study in the area and publishes the results of its research. It is autonomous in determining its approach to these subjects.

Faculty of Law

Unlike other faculties of the School of General Studies, the Faculty of Law is neither divided into departments, nor does the structure
of its course provide for majors and sub-majors in the various branches of legal studies. Students for the degree of Bachelor of Laws (LLB) are required to complete satisfactorily twenty-one subjects, of which fifteen are compulsory. The range of choice permitted through the provision of optional subjects is sufficiently wide to permit a student to develop a specialised interest in a particular field such as commercial law or public law, or to make a broad selection of subjects which will provide a wide scope for later career opportunities. The work-load entailed in undertaking the course varies between twenty-six and seventy-eight formal classes per subject but in most cases is fifty-two in each subject. Full-time students are expected to complete the course in four years, part-time students in not less than six years.

Apart from the degree of Bachelor of Laws, the Faculty offers the opportunity to study for the degrees of Bachelor of Laws (Honours)—candidates for which are selected on the basis of their performance in pass degree work during their first three years—and Master of Laws (LLM). Supervision is provided for candidates for the degree of Doctor of Philosophy.

A feature of the training offered by the Faculty is the encouragement given students to study also in disciplines other than law. Students may enrol for combined BA/LLB, BA(Asian Studies)/LLB and BEc/LLB courses. The University believes that, given the immense ramifications of law in all areas of society, and the inter-relation of law and other fields of study, particularly the social sciences, the broader the education of the lawyer the better lawyer he is likely to be. These combined courses may be completed in five years of full-time study, after which the successful student will graduate with two separate degrees.

A person who has a university degree in another discipline may, if he did well in that course, be permitted to study for the LLB degree over three instead of four years’ full-time study. This graduate course contains fewer subjects than the ordinary LLB degree course.

The LLB degree is recognised as a professional qualification in the Australian Capital Territory, Victoria and New South Wales. A graduate who intends to practise as a barrister in New South Wales need not undertake further formal training. A graduate is entitled to practise as a barrister and solicitor in the Australian Capital Territory or Victoria, or as a solicitor in New South Wales upon the completion of certain postgraduate requirements: these are either the service of articles under a qualified solicitor for one year after graduation, or
the successful completion of a recognised postgraduate course of not less than six months.

**Legal Workshop**

Set up in 1972, the Legal Workshop provides a postgraduate course as an alternative to articles. Now taking in two groups of graduate students annually for a six-month period each, it is a pioneer institution in Australia, though there have been similar, and similarly successful, experiments overseas especially in Canada.

Completion of the Legal Workshop course will be recognised as a qualification for admission to practice in the Australian Capital Territory and in New South Wales. But even after completion of the course a person cannot obtain a full practising certificate unless he works as an employee with one or more solicitors for a further twelve months. A person who has by virtue of a workshop qualification been admitted to practice in the Australian Capital Territory will be eligible for immediate admission in Victoria.

The chief aim of the Workshop course is to introduce the graduate student to an understanding of the professional skills and techniques required for the practise of law. It is designed to train a student in the application of the legal knowledge and intellectual skills, acquired through his academic course, to the problems of legal practice. It provides a common training for all practitioners, whether they intend ultimately to practise as barristers or solicitors or both. While consisting mainly of practical instruction and exercises in professional problems and procedures, it also covers such topics as office management and procedures, accounting and professional conduct.

Open to any LLB graduate from any Australian university, the Workshop draws upon the talents not only of academic lawyers but of members of the legal profession and judges in the Australian Capital Territory, New South Wales and Victoria.

**Faculty of Science**

The degree of Bachelor of Science (BSc) offered by the Faculty of Science at pass level provides a general scientific training on which graduates may build a professional, administrative or teaching career. Students whose preliminary work has been of an adequate standard may be admitted to the fourth-year honours course. The postgraduate
degrees of Master of Science (MSc) and Doctor of Philosophy may be earned through research work and thesis or, in the case of Forest Management and Applied Psychology, by course work.

The nine departments of the Faculty are named, in general, according to the traditional divisions of the physical and natural sciences. Many undergraduates specialise in one of these divisions while studying certain parts of others as auxiliary to their main interest. The successful candidate for the BSc pass degree, which may usually be completed over three years of full-time study or its equivalent, is required to accumulate at least twenty points, awarded according to the value of the units passed. The first-year student normally takes units to the value of eight points, most of which are full-year units each being worth two points. Units taken in succeeding years are of varying values, but most are worth one point and extend over only half of the academic year.

A specialist course for the degree of Bachelor of Science (Forestry) (BSc(Forestry)), is offered by the Faculty’s Department of Forestry and normally extends over four years. By arrangement, students who have completed satisfactorily one year of an approved course at another university may transfer to the Australian National University for the final three years of the forestry course. The honours program in Forestry is normally taken concurrently with the last two years of the course but, alternatively, may be taken at the conclusion of the pass course. A fourth year of study is also available in geology, enabling further specialisation in that subject.

**Biochemistry**

Biochemistry is concerned with the study of living things by the use of chemical procedures and concepts. The undergraduate course offered stresses particularly those chemical themes common to the entire biosphere but also considers examples of the specialisation which distinguishes certain organisms at a biochemical level.

The Department is the chief centre for the teaching of microbiology, though units in this subject are taught also by the Departments of Botany and Forestry. Microbiology is the study of microscopic organisms; viruses, bacteria, yeast, fungi, algae and protozoa. The units offered bring together the diverse disciplines of organic and industrial chemistry, biochemistry, genetics, and ecology, areas in which microbes have made an important contribution to man’s understanding of nature. The interactions of micro-organisms with
man, with other organisms and with the environment in general are stressed.

**Botany**
The close relationship between botany, the comprehensive study of plants, and other scientific disciplines is emphasised in the courses offered by the Department. Considerable attention is given to field work and to the experimental approach to the study of plants.

**Chemistry**
The study of matter in respect of its structure at the level of individual atoms and molecules and of the manner in which such structures can be altered by chemical reactions, chemistry is an essential part of the background to the study of most other science disciplines. Courses taught by the Department are designed to meet the needs of students to whom chemistry is the principal concern and of those whose interest is subsidiary to another branch of science.

**Forestry**
The Department of Forestry is the national centre for higher forestry training. The undergraduate course provides training for the professional forest officers required to manage Australia's forests for production, protection, conservation and other purposes. The multidisciplinary course also provides training for students interested in natural resource management. Field and laboratory work are required. Graduates are awarded the specialist degree of Bachelor of Science (Forestry).

**Geology**
Students seeking either a general science degree in geology or more specialised qualifications in the subject are offered a wide variety and choice of subjects by the Department. Lectures are supplemented by an intensive course of practical work, including field excursions and mapping projects to illustrate features of geological interest in the local area. The successful completion of a program of practical work is a prerequisite for the successful completion of studies.

**Mathematics** See Faculty of Arts
**Physics**

Physics is concerned with natural phenomena. It is the science of measurement, experiment and systematization of the results of experiment. The Department offers a variety of courses of both year-long and semester duration, covering all main branches of the science. First-year units are designed to serve two main groups—those students who intend to proceed further in physics, and those planning to specialise in other branches of science for which some knowledge of physics is essential.

**Psychology**

The study of psychology pursues the understanding of behaviour, personality and interpersonal interaction as both biological and social phenomena. Undergraduate courses concentrate upon core psychological theory upon which any of a variety of applications in research, teaching, counselling and administration may be built. The Department pursues no co-ordinated research program but has research interests and facilities for postgraduate students in the areas of physiological psychology, ergonomics, cognitive processes and perception, learning, environmental psychology, counselling and group behaviour.

**Theoretical Physics**

The purpose of theoretical physics is to contemplate the results of past observation and experiment, to formulate theories which will coherently describe them, to analyse the formal structure of such theories and to discover, if possible, features common to otherwise disparate theories and to summarise these as laws about laws. Finally, the theoretical physicist suggests what further observations of experiments might be made in the light of such work. The Department offers training in theoretical physics mainly at third and honours-year level and beyond.

**Zoology**

Largely an experimental subject, zoology includes every aspect of the scientific study of animals from the single-celled protozoa to man. In all courses offered by the Department, except Theoretical Zoology, practical work in the laboratory or field is a large component.
Human Sciences Program
Introduced on a trial basis in 1973, Human Sciences is not a department of the Faculty but a multi-disciplinary program of study comprising the successive full-year units Human Biology, Human Ecology and Human Adaptability. The full course is offered jointly by the Faculties of Science and Arts and is designed to guide the student towards an over-all understanding of man's current state of adaptation to his environment. It is available also to students in Arts/Law, Asian Studies and Economics.
The Research Schools

Research School of Biological Sciences

The Research School of Biological Sciences does not attempt to cover the whole field of biology, but concentrates on areas which require long-term study and which are best tackled by teams of research workers. Since its establishment in 1967, the School has evolved a balanced structure between areas of research, the intention being to deal with problems representative of the various levels of integration in biology, from the molecular and cellular to the whole organism, to populations and behaviour, including the relationship to the environment. Where applicable, the natural biological advantages of Australia are used.

Developmental Biology
The Department studies plants and micro-organisms and investigates the fine structure of their cells and the effects of chemical agents, especially hormones, and of light on their development. One section deals with viruses of plants and of invertebrates. The work of the Department is mainly biochemical but it includes descriptive work on Eucalyptus.

Environmental Biology
The research work of the Department is concerned with the manner in which biological and environmental factors interact to produce and maintain ecological systems with various structural and functional characteristics.

Genetics
The Department attempts to use the techniques of genetics and molecular biology to understand the mechanism underlying adaptation and evolution. Recent work has included study of the effects in cells of higher organisms of genes obtained from bacterial cells—research with significant implications for plant industry.
Neurobiology
The Department’s interest is chiefly in the structure and function of nerve cells in lower animals. Emphasis is concentrated upon visual and auditory structure and function; the growth of nervous connections in insects; and brain mechanisms in crustaceans.

Population Biology
The Department, created in 1972, focuses on biological problems associated with the structure, dynamics and evolution of natural populations of Australian animals and plants. Especial attention is paid to insects endemic to Australia, such as grasshoppers, which are both abundant and economically important.

Bioenergetics and Active Transport Unit
Working from the perspectives both of physiology and biochemistry, the Unit is engaged in probing the relationship between energy liberation in respiration and its use both in moving ions from regions of low to regions of high concentration, and by phosphorylation—the fundamental energy transfer system in metabolisms. The Unit conducts its research at both the level of cells and of organelles—those structures within cells analogous to the organs of the body.

Molecular Biology Unit
Activities of the Unit range from studies of the molecular mechanisms involved in the synthesis of proteins and of ribonucleic acid, to the molecular biology of cell differentiation and carcinogenesis—the creation of cancerous growths.

Taxonomy Unit
The Unit is concerned with biological classification. It is expected that by setting up systems of names reflecting useful and/or national classifications of organisms, taxonomists will be aiding in generating scientific hypotheses in the biological area. The Unit aims to train students in and to develop research into modern classificatory and identificatory methods; make detailed studies of selected groups of plants relevant to Australia; and to pursue the application of taxonomic ideas to problems of social, economic and general biological interest.
Research School of Chemistry

Founded in 1967 and situated close to the Department of Chemistry of the Faculty of Science, the Research School of Chemistry is non-departmental in structure and aims at an integration of the various aspects of chemistry.

Classical demarcations between organic, inorganic and physical and theoretical chemistry are, however, utilised for day-to-day administrative convenience. The School has a permanent academic staff of thirteen, including professors in those areas of specialty. An analyst of the Australian National University Analytical Services Unit is numbered among members of permanent staff.

Other academic appointments in the School, which in 1973 brought the total to sixty, growing to eighty by 1975, are made at the level of postdoctoral and research fellow, as well as visiting and honorary fellow. Scholars are accepted from Australia and abroad for research toward the degree of Doctor of Philosophy and, in the near future, the degree of Master of Science.

Work in organic chemistry spans a number of problems of biological interest, including insect and marine chemistry and the synthesis, biosynthesis and structure elucidation of medicinally important substances such as antibiotics, prostaglandins and steroids. Plant and animal pathogens are being examined for active metabolites—substances which take part in the process of metabolism. Problems relevant to the Australian situation such as, for example, a fungus which attacks the hardwood forests of Western Australia, are being studied.

The use of computers is expanding into all branches of chemistry and is of central concern to theoretical chemists. Intermolecular forces are the subject of continuing study, with the ultimate hope that knowledge in this area can be extended to biological systems. The physical and theoretical groups also have a strong interest in the interaction of radiation with molecules, particularly in crystals. Research in connection with the electronic structures of molecules is directed to the development of new methods, rather than the use of existing methods, even on new problems. This approach has been applied to aspects of quantum theory in understanding molecular structure. In physical chemistry the use of lasers is being developed, and interactions between molecules and transition metal ions are being studied by a variety of techniques.
The School possesses sophisticated instrumentation both for routine measurements by all chemists and as research tools for specialists in mass spectrometry, nuclear magnetic resonance, electron spin resonance, solid state spectroscopy, and the study of crystal structures by means of X-ray diffraction.

The School has recently undertaken important research in the area of mineral chemistry where new processes are being evolved for the extraction of metals, particularly copper, and their purification.

A cryogenic laboratory has been used in seeking useful correlations between magnetic properties and structures of inorganic and organic molecules, down to liquid helium temperatures.

Systematic studies of the chemistry of rare (e.g., ruthenium, rhodium, osmium, iridium, palladium and platinum) and common (e.g., iron, cobalt, nickel and copper) metals is the focal point of the Inorganic Chemistry group. Several of these metals are valuable as catalysts in industrial processes and fundamental studies are being undertaken to seek improved performance and elucidation of their mode of action. Metal ions also play a crucial role in a variety of biological processes such as photosynthesis and the conversion of atmospheric nitrogen into ammonia. The mechanisms by which such reactions are achieved are currently being explored with special reference to peptide synthesis and sequence analysis in proteins. A wide variety of fundamental studies into the nature of chemical bonding and the molecular structure of inorganic materials is being undertaken. Techniques used include X-ray and electrochemical analysis, together with measurement of magnetism, and optical and vibrational spectra, frequently at temperatures near absolute zero.

Research School of Earth Sciences

Set up in 1973 and organised on a non-departmental basis, the Research School of Earth Sciences represents a development of an important facet of natural science, formerly included within the Research School of Physical Sciences as the Department of Geophysics and Geochemistry. This Department, established in 1952, studied problems concerned with the earth’s crust and deep interior. The research encompassed, on the one hand, geochemical and petrological studies and the isotopic dating of both earth and lunar rocks and, on the other hand, seismic and magnetic studies of the earth’s structure and mobile history, and rock mechanics.
The creation of the new Research School will permit the University to extend considerably its investigations of this important branch of natural science in which it has already won much international recognition. It is planned also that the new School, in its first decade, will expand its research into new fields including economic geology, environmental geochemistry and geophysical fluid dynamics.

The School at present has research groups working in a number of recognised areas within the sphere of the earth sciences. These include:

**Experimental Petrology**
Apparatus utilised by the School permits reproduction of conditions of temperature and pressure encountered within the earth's lower crust and upper mantle. Many of these studies are closely linked with field petrological and geochemical investigations and most make use of electron microprobe facilities in the School.

**Mineral Physics**
An experimental physical acoustics laboratory is devoted to a wide range of studies in solid-state geophysics, especially the characterisation of high pressure phases.

**Cosmochemistry**
The School possesses a substantial meteorite collection and extensive facilities for studying the petrology and chemistry of meteorites. Research, which includes analysis of lunar material, is also directed at broader problems of the origin and early chemical evolution of the earth, moon and planets.

**Isotope Geochemistry and Geochronology**
The research of the isotope geochemistry and geochronology group is directed primarily at the evolution of the earth and moon through time. Particular emphasis is given to the ages of rocks from Australia, and the South Pacific and Indian Ocean islands.

**Major and Trace Element Geochemistry**
A wide range of analytical equipment is in use for geochemical and petrological studies concerning the origin of terrestrial and extra-terrestrial rocks.
**Palaeomagnetism and Geomagnetism**

Palaeomagnetic investigations are directed mainly towards problems in continental drift and plate tectonics. The recent behaviour of the geomagnetic field is being studied through lake sediment cores and archaeomagnetic work. Diurnal and shorter time variations of the field are being used to study the electrical conductivity of the crust and upper mantle.

**Rock Mechanics**

Stress-strain, creep and related experiments are done on rocks and minerals under high pressure and temperature with a view to applications in structural geology, geotectonics and earthquake mechanisms.

**Seismology**

Although covering various aspects of the subject, emphasis is placed on questions such as the seismicity of Australian earthquake mechanism in the active seismic zones to the north of Australia, and the structure of the upper mantle in this region. The group operates a seismic array station at Tennant Creek and a telemetry network in south-east Australia.

**The John Curtin School of Medical Research**

'The research schools', stipulates the Australian National University Act of 1946, 'shall include a research school in relation to medical science to be known as “The John Curtin School of Medical Research”'. During the period 1948–56, the School was developed under the guidance of Sir Howard Florey (later Lord Florey), the Oxford-based Australian developer of penicillin, who functioned virtually as its non-resident Director and visited Australia almost every year.

Initially lack of accommodation required staff members to pursue their researches outside of Canberra—in Melbourne and even London. Subsequently work was conducted in temporary quarters in Canberra. The School’s permanent building was completed in 1957.

The School’s first Department, Biochemistry, was founded in 1948. In the following year the Departments of Medical Chemistry and Microbiology were set up and, in 1950, that of Physiology. Experimental Pathology started in 1954, Physical Biochemistry in 1959, and Clinical Science in 1968.
The Biological Inorganic Chemistry Unit, set up in 1958, and the Department of Genetics, founded in 1964, were transferred respectively to the Research School of Chemistry in 1966 and the Research School of Biological Sciences in 1968. The establishment of the Departments of Human Biology and Immunology in 1970, and of Pharmacology in 1973, and the conversion of the Department of Medical Chemistry to the sub-departmental status of a 'research group', now gives the School a total of nine departments and one 'group', very near its planned maximum size.

**Biochemistry**
The Department's research is oriented towards the study of fundamental biochemical processes within individual cells. A combination of biochemical and genetic techniques applied to bacterial cells is extensively used.

**Clinical Science**
Wholly set up within the Canberra Hospital, the Department conducts a program of clinical and laboratory research oriented towards problems associated with coronary heart disease risk factors. It also provides a clinical service for patients.

**Experimental Pathology**
The Department is engaged in research into the structural and biochemical aspects of arterial disease; lipid transport and metabolism; the transport of hormones; the microcirculation including tissue transplants; the function and structure of the lymphatic system; and the mechanisms and effects of cell injury.

**Human Biology**
Two distinct lines of work are followed: the Urban Biology Group is concerned with the consequences of civilisation for the biology of man with particular reference to the effects of high density urban life; the Human Genetics Group carries out the study of human population genetics with emphasis on the control of growth and other polygenic traits and of evolutionary mechanisms utilising serological and biochemical techniques.

**Immunology**
The work of the Department is directed towards studying the
development of those systems of the body which are concerned in the recognition of materials which are foreign and not-self in nature and just how the reactions which follow this recognition are initiated and regulated.

Microbiology
Work in the Department is concerned with the study of viruses and cells and with the way in which the body can recognise and react against these and much simpler substances.

Pharmacology
The Department is concerned with the effects of drugs on the nervous system, in particular their interaction with chemical substances used to transmit information between nerve cells.

Physical Biochemistry
The Department's work involves investigation of the physical and chemical properties of biological materials (mainly proteins and enzymes) and the elucidation of systems and processes of biochemical and medical interest. The approach frequently requires the development of new experimental procedures and the application of fundamental principles of physical chemistry and mathematics in formulating new theories.

Physiology
The work of the Department is concentrated on the nervous mechanisms in the eye and brain that permit us to see and recognise objects in the surrounding world. Work on the dynamic properties of muscle is also undertaken.

Medical Chemistry Group
The Group studies the synthesis, properties, and biological activity of heterocycles (cyclic molecules including carbon and nitrogen or another foreign atom) related to natural pyrimidines or purines; the equilibria involving metal ions and cell constituents such as amino acids or proteins; and the spectroscopic properties of heterocyclic and simple organic molecules.
Research School of Pacific Studies

From the time of its establishment as one of the original four elements of the University, the regional title of the Research School of Pacific Studies has been interpreted broadly. In some departments work is carried out on the Australian mainland. Papua New Guinea is a strong centre of activity and the School holds a leading position in work relating to the island groups of the South Pacific. Interest in South-East Asia, present from the outset, is of major importance. Substantial work is done on China and Japan, and there is some interest in South Asia.

While the School’s work is mainly concentrated on the application of the social sciences to the Pacific-Asian area—an emphasis assisted by its proximity to the Research School of Social Sciences—field sciences are represented in several departments, and extensive historical studies are made as well.

The academic staff of the School, including both permanent and temporary appointments, numbers about one hundred, with a full complement of research assistants, technical and secretarial staff.

**Anthropology**
Research focuses on the study of human behaviour and its relation to social and cultural organisation, both traditional and changing, in Aboriginal Australia, Papua New Guinea, Melanesia and Polynesia, Malaysia, Indonesia and South-East Asia.

**Biogeography and Geomorphology**
Biogeography is concerned with the geographical distribution of plants and animals, and geomorphology with landforms and their evolution. The Department concerns itself with the distribution of both native and naturalised vascular plants in the south-west Pacific, using the pollen analysis of sediments, historical and herbarium data. Coastal, lacustrine and limestone (especially karst) landforms are studied. Paleobotanical and geomorphological problems are studied together, and close links are maintained with the School’s Department of Prehistory and other departments in the University and the Commonwealth Scientific and Industrial Research Organisation.

**Economics**
Concerned chiefly with theoretical and applied problems of economic
growth and trade, the Department specialises in studies of the economic development of the countries of South-East Asia (especially Indonesia—it publishes the *Bulletin of Indonesian Economic Studies*), the Pacific Islands (especially Papua New Guinea) and China, and in Australia's economic relations with these countries and with Japan. It also conducts a one-year course work program for the degree of Master of Agricultural Development Economics, primarily for graduates in economics or agriculture from Asian countries.

*Far Eastern History*

The Department conducts research in Chinese and Japanese history from the earliest times to the twentieth century. Its main interest is in political history and in some aspects of social and cultural history. It publishes the biannual journal, *Papers on Far Eastern History*.

*Human Geography*

The Department undertakes theoretical and empirical research into the changing spatial structure of Australia, the Pacific and South-East Asia. The Department's two main fields of interest embrace studies of the location of secondary and tertiary activities and studies of the spatial consequences of, and spatial organisation required for, development in South-East Asia and the Pacific Islands. The Department's map library and cartographic laboratory serve many other departments of the University and the Australian National University Press.

*International Relations*

The Department, the only one of its kind in Australia, pays particular attention to the international politics of the Asian-Pacific region, with especial emphasis on the affairs of China, India, Japan, the Soviet Union and South-East Asia. Working closely with the Strategic and Defence Studies Centre, it conducts studies and sponsors seminars and discussions on Australian defence and foreign policies. In the wider sphere of world politics, the Department has particular interests in strategic studies, arms control, problems of world order, the United Nations, the Commonwealth, and the Afro-Asian states.

*Linguistics*

Primarily concerned with the analysis, description and classification of the indigenous languages of Australia, New Guinea and the Pacific Islands, the Department also undertakes research in the
South-East Asian area. It is also interested in socio-linguistic questions and publishes the series, *Pacific Linguistics*.

**Pacific and South-East Asian History**
Covering both the Pacific Islands and South-East Asia, the Department focuses upon local societies both before and during the period of their contact with the Western world. Research projects are particularly concerned with the nature of indigenous societies, their initiatives and responses to each other and to European impact. They are also concerned with exploration and initial commercial and missionary penetration through the colonial phase to the modern period of nationalism, self-government and independence.

**Political and Social Change**
A new department is being established to develop studies of political change in Pacific and East, South-East and South Asian countries along with studies of the non-economic aspects of ‘development’ there.

**Prehistory**
The Department's areas of active work include Australia, the nearer Indonesian islands, Papua New Guinea and island Melanesia. In research it concentrates on a limited number of projects of archaeological importance, incorporating substantial ethnohistorical, ethnographic and ecological components, for which the research area offers exceptional opportunities.

**Contemporary China Centre**
Established in 1970 to lend cohesion and impetus to the various studies of modern China being conducted within the University, the Centre aims to provide a forum for co-operation and co-ordination between departments of the University, with other universities in Australia and overseas, and with public servants, businessmen and others outside the academic world. The Centre concentrates on attempting to understand the development of China and its foreign relations since 1949, but does not exclude the study of previous events where these can contribute to understanding of the contemporary scene. It pursues its aims by holding conferences, seminars and discussion meetings, and through publications.
Director's Unit
Within the Unit work is recommencing in the Institute of Advanced Studies on the modern political and social history of South Asia. Particular attention is being given to developments both within and outside the Indian National Congress and to changing political and social structures in the second half of the last and the first half of the present centuries.

New Guinea Research Unit
Conducting inter-disciplinary social science research in Papua New Guinea, and in appropriate circumstances extending its work to the Solomon Islands and New Hebrides, the Unit concentrates on the fields of economic, social and political change in the area. It has studied urbanisation, land tenure, cash-cropping, adaptive economic institutions and other institutions in Papua New Guinea. Though located in offices near the University of Papua and New Guinea, at Waigani, the Unit co-operates with other departments of the School, both informally and through an advisory committee. It publishes the New Guinea Research Bulletin at least five times each year, and occasional summaries of Bulletins in simple English, Pidgin and Hiri Motu.

Strategic and Defence Studies Centre
Set up in 1966, the Centre comprises a small full-time research staff but exists chiefly to co-ordinate and stimulate the study of defence and strategic subjects of interest to Australia. Each year the Centre conducts a series of regular and special seminars, and occasionally larger conferences, which have been attended by members of other Australian universities, visitors from abroad and officials from interested government departments. The Centre's collection of documentary material from public sources, the most comprehensive on defence matters publicly available in the country, is available to and used by most scholars in this field in Australia.

Research School of Physical Sciences
The Research School of Physical Sciences carries out basic experimental and theoretical research into selected fields of the physical and mathematical sciences. The work is organised in seven departments and two smaller units with common administrative, library and workshop facilities.
The School has approximately one hundred academic staff, of whom about half are on temporary appointments. There are also approximately eighty research students and postdoctoral fellows and 180 supporting staff. The School receives many distinguished academic visitors, some on sabbatical leave from their own institutions and others for short visits.

The work of the School covers a very wide range, but involves many common problems, methods and techniques so that the various departments can provide some mutual support. About 250 papers are published each year in international scientific journals as well as some books. The main concern of the School is with fundamental problems, but studies of an applied nature are also undertaken.

The extensive experimental facilities of the School include some large installations. In addition to its own telescopes, the Department of Astronomy will have access to the 150-inch Anglo-Australian telescope at Siding Spring Mountain, near Coonabarabran, NSW. Two charged particle accelerators are available for low energy nuclear physics research—a tandem Van de Graaff accelerator with cyclotron injection and a new tandem accelerator with a 14 MeV terminal known as the 14UD Pelletron. The homopolar generator in the Department of Engineering Physics is a heavy electrical current source of unique capability which powers a variety of experiments and a magnet laboratory with high field magnets of 150 and 300 kilogauss.

**Applied Mathematics**

The Department is engaged in the study of applications of mathematical and physical theories to the understanding of biological problems. In particular it conducts research into problems of vision, especially theoretical work on the electro-magnetic properties of visual receptors and optical wave propagation, and of colloid science—the study of amorphous solids—in respect of its applications to molecular biology.

**Astronomy**

The Department, which operates the Mount Stromlo and Siding Spring Observatories, is concerned with fundamental research in astrophysics, including all phases of galactic and extra-galactic astronomy. It is the chief Australian centre for optical astronomical research.
Engineering Physics
The Department is engaged in several fields of fundamental research in the science of engineering. These include research in very strong magnetic fields, the design of high power lasers, macroparticle and gas acceleration, plasma physics, solar energy, artificial intelligence, and information and communication science.

Mathematics
The Department has particular interests in the theory of groups within the broad area of pure mathematics. Particular research is conducted in functional analysis, non-linear differential equations and classical analysis.

Nuclear Physics
The Department conducts research into nuclear structure and reactions. Current interests, utilising the machines in the Nuclear Structure Research Facility, opened in 1973, include heavy ion reactions; coulomb excitation; transfer and pick-up reactions with polarised and unpolarised projectiles; nuclear spectroscopy; radiative capture; and beam foil spectroscopy and channelling.

Solid State Physics
The major research interest of the Department is the spectroscopic study of non-metallic substances, including oxides containing transition metal ions, minerals and gemstones. The effects of high magnetic fields on the spectra of crystals are examined using super-conducting solenoids or the high field pulsed magnets.

Theoretical Physics
The Department conducts theoretical studies on nuclear structure and reactions, statistical mechanics, elementary particles and plasma physics.

Diffusion Research Unit
The Unit studies the nature and structure of liquids, primarily using radio tracer-diffusion experiments. Specific projects are concerned with diffusion studies in cryogenic (very low temperature) liquids, in liquids under high pressure and in mixtures of organic liquids.
**Electron and Ion Diffusion Unit**

The Unit is concerned with measurement of transport coefficients for electrons and identified ions in neutral gases, both atomic and molecular, and subsequent analysis of data to give energy dependent cross-sections in the low energy ranges.

**Research School of Social Sciences**

The School comprises nine Departments (Demography, Economic History, Economics, History, Law, Philosophy, Political Science, Sociology, Statistics) and three Units (Education Research, History of Ideas, Urban Research). Over the School as a whole, and to a considerable extent in the individual departments and units, work proceeds at three interrelated levels. There is a general body of theory, doctrine and scholarship which is world-wide, at least at a fairly abstract level; familiarity with this must be maintained, and contributions made to it having no special Australian significance. This more abstract level of knowledge, however, has to be both tested and made to grow by reference to more specific field studies, and it is both appropriate and convenient that for this School, much of the field of study is in Australia, or in closely adjacent regions. This does not prevent field forays in many other parts of the world, particularly by staff members on study leave and in search of comparative material, nor the frequent use of reported field studies from other nations when it comes to building Australian field material into a theoretical structure. Both theory and field study lead often to possibilities of direct application, and the development of such possibilities is often in itself a contribution to field material and a correction for general theory.

Besides this vertical mix, there is also a good deal of trans-disciplinary co-operation across and within departments and units. The school is currently engaged in a specially financed experiment combining both approaches to social science research through short-term projects, mostly initiated by sub-professorial staff and involving small groups, on topics outside the longer-term main interest of departments and units.

**Demography**

Research interests within the Department include the fields of population growth, marriage and the family, mortality, fertility,
various aspects of migration experiences and policies, including internal migration, especially from rural to urban areas. The Department has concentrated on studies of population trends and movements in three areas, Australia and New Zealand, the Pacific (including Papua New Guinea) and southern and eastern Asia. The scope of its studies, however, have extended as far as West Africa.

*Economic History*
Interested chiefly in empirical experience of recent economic development, the Department’s research programs include industry studies, and investigation of specialist occupations, business institutions, problems of the development of human capital and economic policy.

*Economics*
The Department concentrates in three main areas—economic statistics, applied economics (with particular reference to the Australian economy) and economic theory. In addition, it plays a major role in the provision of a master’s degree in economics by the University.

*History*
The major emphasis, drawing on the considerable historical resources available in Canberra, has been on the development of Australian society. Some special themes have been the influence of British ideas and politics during the nineteenth century on Australia, Australian labour history and the foundation and early years of the Commonwealth. Work is also carried on in the modern history of Britain, Ireland and the British Commonwealth.

*Law*
The Department conducts research into the operation of legal systems in general and into selected branches. Current work is in the fields of federal constitutional law, common law, international law, the law of Papua New Guinea, criminology and general legal theory.

*Philosophy*
Besides working in the more general fields of philosophical and formal logic and metaphysics, the Department emphasises four areas of research—social, moral and political philosophy; the philosophy of mind, especially with reference to theories of human action and of knowledge; the logic and methodology of social science and history;
and the history of post-medieval Western philosophy. In recent years it has given special attention to contemporary problems, including problems in education, ecology and environmental ethics.

Political Science
The Department works in selected areas of Australian politics, Soviet government and world politics. For many years, attention has been paid to the political development of Papua New Guinea. Work is also proceeding on political ideas and the origins of political parties in Australia. By a resolution of 1971, the Federal Parliamentary Labor Party authorised the Department to publish its minutes for the years 1901–1946. The editing of these documents is continuing.

Sociology
Work of the Department is concentrated in two general areas—social differentiation, stratification and mobility; and organisations and systems analysis. Emphasis in the former area is on occupational and educational change in contemporary Australia, in the latter on the role of workers in decision-making and communication in major organisations.

Statistics
The Department conducts research on statistical and probability theory and their applications. These include the development of methods of analysing statistical data in the biological, physical and economic sciences, and the study of processes and phenomena in those subjects in which some random element enters in an essential way.

Australian Dictionary of Biography
The responsibility of a unit within the Research School, the Australian Dictionary of Biography is to comprise twelve volumes, covering the period 1788–1939, embracing the history of that period through biographical studies of men and women who achieved prominence in various walks of life. In any one year the unit emphasises the current volume under preparation, but gives attention also to succeeding volumes.

Education Research Unit
The broad focus of the Unit’s work is the multi-disciplinary study of education and society. A continuing study involves following the
progress of about 3,000 students who commenced courses leading to careers in engineering, law, medicine and teaching in six Australian universities to determine the nature of the process of professional socialisation. Other studies in the area of higher education concern the experiences in Australia of Asian students, the role of regional colleges of advanced education and resource allocation.

**History of Ideas Unit**

Work in the Unit has concentrated on the history of complex systems of ideas about man and society in Europe during the last three centuries. Recent research has included: studies of Marxism; Communist philosophy and ideology; socialism and legal theory; the rise of Christian radicalism; and the development of both political and sociological theory.

**Urban Research Unit**

The Unit has undertaken a number of major cross-disciplinary research projects dealing with different aspects of the process of urban development. Empirical studies in Sydney and Melbourne have examined decision-making by both the private and public sector with the object of increasing understanding of the urban development process. Continuing work related to the major areas of research include studies of the market in urban land, the equity aspects of metropolitan growth, comparative studies in metropolitan planning and urban history. The Unit organises seminars on urban issues with the participation of people in government, private enterprise and universities.
University Centres

A salient feature in the evolution of the University in the 1970s has been the further development of a 'third dimension' in its overall structure, separate both from the Institute of Advanced Studies and the School of General Studies—the multi-disciplinary and problem or issue-oriented research centres. In part, these new centres reflect a growing recognition in Australia and abroad of the value of studies which cut across traditional disciplinary divisions, bringing to problems the perspectives of a variety of expertise. In part, they are a response by the University to specific problems faced by Australia, and by tertiary education in general.

Such multi-disciplinary or integrative studies are not entirely new. The Centre for Continuing Education, which engages in a wide variety of research as well as providing a broad spectrum of courses, was born, in 1969, of the former Adult Education Department which came to the Australian National University in 1960, with the Canberra University College. Multi-disciplinary research units too, have been a feature of some research schools for several years. They have been listed and described earlier in the Calendar, along with the more traditionally organised University departments.

The 1970s have seen an expansion of the concept pioneered by the Centre for Continuing Education through the establishment of new, semi-autonomous or 'University-wide' centres for research into particular problems and ranges of problems. There are now six such centres operating within the overall structure of the University.

Centre for Continuing Education

The Centre for Continuing Education pursues the parallel, complementary roles of studying the education of adults, and processes of continuing education and providing adults with learning opportunities through an extensive program of courses. In its research capacity, the Centre brings together the disciplines of philosophy, history, psychology and social psychology, sociology and organisation theory. In its teaching capacity it draws upon the still broader resources of
the University and beyond to provide lecturers and course organisers, designers of and participants in ‘search conferences’—an important part of the Centre’s total work.

The operating theme for the Centre’s work is the need, on a continuing basis, to prepare individuals and the community for change. Teaching and conference programs are designed to equip students to understand the world around them and their place within it. Its research is directed to the educational and related problems implicit in this task.

The Centre’s class program each year ranges widely over such courses as those designed to provide an understanding of the physical environment and contemporary social questions, and studies of history and languages. A feature of the Centre’s activities is the program of month-long intensive instruction in several Asian languages offered annually. Beginning with Japanese in 1967, this program has now been expanded to include Chinese, Indonesian and Pidgin. A course in Bengali is also offered.

**Centre for Resource and Environmental Studies**

Perhaps the most ambitious of the University’s new research centres, the Centre for Resource and Environmental Studies has undertaken the formidable task of making an inventory of Australia’s resources, renewable and non-renewable, to help ensure they are developed and conserved in the interests of all Australians. It is expected that the Centre, set up in 1973, will co-ordinate work in the University, and collaborate closely with the Commonwealth Scientific and Industrial Research Organisation and the three learned academies—the Australian Academy of Science, the Australian Academy of the Humanities, and the Academy of the Social Sciences in Australia.

The Centre has no laboratory facilities of its own, but where necessary will draw upon those of the University as a whole. It is organised non-departmentally. Its researches are concentrated upon a small number of projects, each of which is undertaken by a small team drawn partly from the Centre itself, with in some cases additional staff from other parts of the University or from CSIRO. The criteria for the choice of projects are their national importance and the capacity of staff to see them through in a reasonable period.

Initial projects involve an inventory of national resources (other than human resources), a study of land-use planning in relation to
recreation and leisure, and another of urban environmental problems. These studies will be undertaken in the context of Australia's changing population, and technological changes anticipated during the next fifty years. It is intended that the data collected will be stored so that it can be updated periodically to make allowance for new developments.

**Computer Centre**

The Computer Centre combines the provision of general computer services to the University and the presentation of lecture courses, seminars, and colloquia on various aspects of computing with its own program of research and the training of research scholars. The Centre's staff is available to assist members of the University in the planning and execution of computing projects.

Set up in 1965, the Centre's operations have been based since May 1972 on a coupled UNIVAC 1108—PDP11/45 and an IBM 360/50. It is expected that the expansion of remote access facilities for the use of this equipment will be a major development of the 1973–75 triennium. Computing facilities are available to all staff and research students of the University subject only to approval by the head of the user's department.

Research within the Centre is concentrated principally in scientific data processing and computer systems applications. The interdisciplinary contact the Centre stimulates within the University acts along with the constant pressure for new, improved and more efficient facilities and services as a major source of motivation for internal research and development projects.

**Humanities Research Centre**

The humanities—philosophy, history, the many branches of literature and the creative arts—are subjects that in Australia have not generally been studied in any inter-disciplinary way. The Humanities Research Centre has been set up to apply the minds of scholars, from abroad and from all parts of Australia, to common problems within the scope of the theme 'The growth and impact of European intellectual and cultural tradition'. In particular, it is expected that the Centre will consider those elements of this tradition which have influenced Australia.

Scholars participating in the Centre's activities will normally be
resident at the University on visiting fellowships of from a few months to two years' duration.

The Centre is intended also to bring together Australian scholars working in related fields to enable them to benefit from the work of invited scholars and each other. Conferences or summer schools, devoted to a single theme or topic, will be conducted to help in stimulating and co-ordinating Australian research in the humanities. The Centre will particularly offer an inducement to Australian scholars to cross inter-disciplinary borders.

The Centre will establish a specialist scholarly library which it is expected will provide the basic resource material for its operations.

**Office for Research in Academic Methods**

The main objectives of the Office are: to encourage an interest by the academic staff of the University in increasing the effectiveness of teaching and learning; and to collect, maintain, organise and analyse information useful in the planning and decision-making processes of the University, particularly with respect to the allocation and effective use of resources.

The Office, which commenced operations this year, was established following discussions within the University about teaching and learning methods, the assessment of teaching staff and the provision of means to increase teaching ability. It is intended that its accompanying research into matters such as teaching loads and costs, curriculum and syllabus construction, student admission qualifications, academic performance and related matters, will contribute to the maintenance and improvement of standards within the University.

The Office has direct access to the Instructional Resources Unit, comprising the University's language laboratories, graphic arts, photography, closed-circuit television, and equipment and services units.

**North Australia Research Unit**

Establishment of the Unit, during the 1973–75 triennium, was prompted by a recognition that despite the significant research undertaken by many individuals and institutions, there was still a lack of much fundamental knowledge, particularly of a social and economic kind, about north Australia. Operating under the guidance
of an Advisory Committee of fourteen drawn from many different parts of the University, the Unit is based in Darwin with an outstation at Alice Springs and serves two main functions.

At one level it will be a service organisation, providing in due course accommodation, access to a library and map collection relating to the north, and a certain amount of secretarial and technical assistance to research workers not only from this University but also from other institutions which seek to utilise its facilities. On another, it will undertake research over a broad range of problems with its own staff. It is expected that at the outset problems with socio-economic and Aboriginal connotations will receive a great deal of attention. Ultimately, however, no special limitation is anticipated to the range of research projects that may be undertaken or serviced by the Unit.

A feature of the Unit's work is expected to be the sponsorship of an annual seminar on topics of interest and concern to north Australia, along the lines of the Waigani seminar series sponsored by the University's New Guinea Research Unit.

**Survey Research Centre**

Unlike natural scientists, social scientists cannot in general conduct their research in laboratories. Indeed, in large, complex and highly differentiated societies such as Australia today, the scale of activity makes direct observation of the behaviour of many social groups impossible for a single researcher. Social surveys thus are the single most important technique available to social scientists seeking to make empirical judgments about the experience, social background, attitudes and values of large aggregates of people.

The resources available in Australia for conducting such surveys, however, are in general inadequate for academic purposes. Nor is demand sufficient to set up a full-scale academic survey organisation of sufficient expertise. The Survey Research Centre has been established to help provide individual academic survey projects with the underpinning necessary for success.

The Centre will provide advice and assistance at the data-collection stage of individual surveys. At the data-analysis stage it will assist and advise with editing, coding, classification and elementary coding of data, and in providing statistical programs suitable for more complex analyses.
Initially the Centre will not have its own field force, but will co-operate with survey organisations elsewhere in Australia, including the Bureau of Statistics. It also will list data available for secondary analysis and consult with other universities to achieve economies of scale and to expand facilities. Training in survey methodology will be produced by the Centre's small staff. It is expected that its services will provide a major means whereby research in the University can contribute to an understanding of the functioning of Australian society, the direction of social change, comparative studies and public policy.
Other University Activities

The University Library

The University Library system comprises a total of twelve libraries—two major libraries (the Advanced Studies Library in the R. G. Menzies Building and the General Studies Library in the J. B. Chifley Building)—and ten others, including branch libraries serving specialised subject areas. The Advanced Studies collection numbering approximately 230,000 volumes, primarily supports the research work of the Research Schools of Social Sciences and Pacific Studies, and therefore is strong in the fields of the social sciences, philosophy, linguistics and Asian area studies. The East Asian collection is also housed there and contains about 110,000 volumes in Chinese, Japanese and Korean.

The General Studies collection of more than 215,000 volumes is designed to further teaching at all levels in the Faculties of Arts, Economics and Science. Apart from its services to undergraduates, it holds research collections in those fields, notably European languages and literatures, which are not within the scope of the Institute of Advanced Studies. Research facilities provided for students and staff of the School of General Studies by the Chifley collections are further supplemented by ready access for research students to the Institute of Advanced Studies libraries.

The University Law Library, now containing about 40,000 volumes, serves both the Faculty of Law and the Department of Law in the Institute of Advanced Studies. Specialist branch libraries are maintained to serve all the science research schools and in the Department of Geology in the School of General Studies. Off the campus itself, the Department of Astronomy is served by a branch library at Mt Stromlo, complemented by a small collection at Siding Spring, and the New Guinea Research Unit has its own library at Port Moresby.

Members of the University enjoy borrowing privileges with the various libraries, depending upon the circumstances of their employment or student status. Persons who are not members of the Australian National University or accredited visitors to the University may also
be granted access to the libraries upon written application to the Librarian or Associate Librarian (Collection Building and Reader Services). Inter-library loan services ensure that library resources within Australia and in the rest of the world are available.

The University Library, in common with other Australian libraries, is developing various computer-assisted processes. Considerable progress already has been made in several areas of this long-term project.

**Australian National University Press**

The Australian National University Press is the scholarly publishing section of the University. Editorial policy is the responsibility of an academic body, the Editorial Committee, while administratively and financially the Press is under the control of the Vice-Chancellor.

Publications by the Press reflect many of the research and teaching activities of the University.

**Residential accommodation**

The University provides a variety of accommodation for students, academic visitors and staff members. Students seeking details of available accommodation—including private lodgings—should contact the Accommodation Officer or write to the Academic Registrar.

The University operates and maintains four halls of residence. A fifth hall is scheduled to open in 1974. In addition, three affiliated residential colleges are operated on campus by religious organisations.

**University House**

University House provides accommodation for approximately 150 resident members and visitors to the University. Membership is open to members of the Council, members of staff who are graduates of a university, members of Convocation, students enrolled for postgraduate degrees and such other persons who are invited by the Master and eight Fellows of the House, who jointly comprise its governing body.

All members are eligible to reside at University House, subject to rooms being available and the approval of the Master. Preference is given to research students and to non-permanent members of the academic staff. Details of accommodation available and current tariffs may be obtained from University House.
The House has three common rooms, including a library and a record-playing room, and a variety of recreational facilities. Meals are served in Hall and restaurant service is provided in a Bistro that includes a fully-equipped bar—one of two in the House. Private dining rooms are available for functions.

Graduate House
A University hall of residence situated a short distance from the campus, Graduate House contains one hundred self-contained units for single men and women postgraduate students and eight self-contained flats for married students without children. It is expected that single units may be rented at $14.25 a week, and flats for $18.48. A common room, squash court and sauna bath are provided. Graduate House is managed by a governing body comprised mainly of resident students.

Bruce Hall, Burton Hall and Garran Hall
Situated on Daley Road at the western side of the campus, these three halls provide single study-bedroom accommodation respectively for 218, 240 and 230 students. Each is in the charge of a warden and governing body and accommodates, in addition to students, a number of teaching staff of the University. Meals are served in Hall. Fees for the residential year of thirty-two weeks in 1974 will be—Bruce Hall $850; Burton and Garran Halls $810.

New student residence
A new hall of residence, yet to be named, will commence operation in 1974. Located between the University Union and Barry Drive, it will provide study-bedroom accommodation for 237 students when fully operational. Meals will not be served. Study-bedrooms have been clustered in groups of ten around a common lounge area, in which cooking facilities are provided. Bathing and toilet facilities are available close to the rooms. Residents will be charged $10 a week during 1974.

Affiliated residential colleges
Three affiliated colleges—John XXIII College, conducted by the Dominican Fathers; Ursula College, conducted by the Ursuline Nuns; and Burgmann College, jointly sponsored by six Australian churches—are located in Daley Road. John XXIII College offers places for 300
male students, Ursula College for 192 students and Burgmann College for 250 students. Residence fees for 1974 will be $960, $950 and $950, respectively, exclusive of vacations. All three colleges provide single study-bedroom accommodation and internal tutorial services.

_Houses and flats have been built, or their tenancies otherwise acquired, in numbers sufficient to make it possible to house, at least for an initial period, married staff coming to Canberra._

Staff holding continuing appointments may apply for financial assistance for the purchase or building of houses.

Research students with children who hold scholarships awarded or supplemented by the University are eligible for rented housing assistance. In addition, a limited number of one-bedroom flats have been provided for married scholars without children, brought to Canberra to take up their awards.

Staff and graduate scholars should clarify eligibility for accommodation assistance before arrival in Canberra.

University welfare services

_Device of Students_

The Dean of Students is responsible for the co-ordination and development of the University Health Service and the University Counselling Services, incorporating the Communication and Study Skills Unit, the Careers and Appointments office, and the Student Employment office. He also maintains liaison with the chaplains appointed by churches to work within the University, and with student activities, including the University Union and student associations, not controlled directly by the University. The Dean is concerned generally with all matters connected with the welfare of the student body.

_University Health Service_

Any student, part-time or full-time, undergraduate or postgraduate, may seek advice on health matters without charge from the University Health Service, based in the Sports Recreation Centre. The service is staffed by two full-time physicians, a nursing sister, and a part-time physiotherapist.

Clinical investigation and treatment of established illness is available at the health centre, but the main emphasis is on preventive medicine.
and health education. An outpatients clinic is held each week-day morning. An inoculation clinic is held weekly. Consultation, except in emergency, is otherwise by appointment. The Health Service is also available to staff in an emergency.

Students under the age of twenty-six are eligible for membership in the reduced-cost hospital and medical benefits scheme sponsored by the Australian Union of Students Friendly Society.

*University Counselling Services*

The Counselling Services, situated in the Sports Recreation Centre, provide a variety of services. An experienced staff is available for individual counselling of anyone facing problems with study, adjustment to academic life or personal difficulties. Counselling aims to help in the understanding of the problem, of whatever nature, in order to allow the individual to realise his own potential. All interviews are absolutely confidential.

The Communication and Study Skills Unit provides tuition, usually individually, to students who wish to improve their command of written English and of mathematical methods. In addition efficient reading courses are offered students during January/February and in first and second terms.

The Careers and Appointments office provides a career planning advisory service that includes advice on the career implications of course choices. Final-year students are assisted to seek jobs through the arrangement of personal contact with prospective employers. In addition the Student Employment office assists students in finding part-time, casual and vacation employment.

Specialist advice and counselling is available to part-time students with problems arising from the pressures of part-time studies. The counsellor to part-time students also welcomes approaches about any matter concerning part-time students' welfare.

*Chaplains in the University*

The Council has given leave to religious groups to appoint chaplains to the University, two of whom—one a Roman Catholic and the other an Ecumenical Chaplain responsible to the Chaplaincy Board of a consortium of other Christian denominations—work full-time at the University. Other clergy are available part-time on behalf of their denominations.
Personal Adviser
The University proposes to appoint a part-time Personal Adviser in 1974 to provide a counselling service to members of the staff of the University on matters affecting their welfare. The appointment will replace the former post of Welfare Officer, and will be jointly sponsored by the Staff Amenities and Welfare Association and the University.

University Pre-School and Child Care Centre
Located in the Lennox House building, the University Pre-School and Child Care Centre operates a service for children (up to five years of age) of staff and students, from 8.30 am to 5.15 pm, Monday to Friday.

The Vice-Chancellor's Discretionary Fund
The Vice-Chancellor has at his disposal a Discretionary Fund from which he may make grants, or more usually loans, to applicant staff and students of the University who are suffering particular financial hardship. Inquiries may be made to the Vice-Chancellor or to senior administrative officers.

Student Loan Funds
The Australian National University Students' Association and the Australian National University Research Students' Association administer loan funds which are available to their members. Inquiries should be made through the offices of those associations.

University Co-operative Credit Society Limited
The University Co-operative Credit Society, located in Union Court, provides a wide range of financial services to its members and financial counselling by appointment.

University associations

University Union
The chief community centre for the University, the Union provides a broad range of amenities for students and staff in its premises fronting Union Court. On its ground floor it maintains a large refectory and snack bar. Nearby is 'Sullivan's', a bistro/dining room for those choosing a higher quality meal service. Liquor may be obtained and consumed by members over eighteen years of age in both refectory
and bistro during meal times. Other ground floor facilities include a milk bar and Union shop. On the upper floor, the Union Building provides a meetings area, games room (with billiards, pool and table tennis tables), bar, bottle shop, societies' room, dark room, reading room and other facilities.

The Union operates under an interim constitution granted by Council and is governed by a Board of Management, membership of which includes representatives of the University Council, undergraduate and postgraduate students and the staff. Day-to-day management is the responsibility of the Secretary of the Union.

Membership is compulsory for all enrolled students, and open to staff and members of Council and Convocation. A full-time undergraduate student pays a first enrolment fee of $11 and an annual fee of $24; a part-time student pays the $11 first enrolment fee and an annual fee of $16. From the general services fee payable by PhD students, $6 is allocated as the annual Union fee. The amount of $11 is similarly allocated from the fee payable by students enrolled for a degree of master. The annual fee for a staff member varies according to several categories of membership. Life membership is available in certain circumstances. The Union offers concessional rates to members of the Australian National University Staff Centre, and has reciprocal membership with the Canberra College of Advanced Education.

Sports Union

Situated close to the University Union, the Sports Union is responsible for promoting and providing facilities for recreation and organised sports, and for the fostering of affiliated sports clubs in local and inter-university competition. All undergraduates are required to be members, and postgraduate students are members through payment of a general services fee. Staff of the University and graduates of any university may apply for membership. Spouses of members may apply for associate membership. The governing body is the Sports Council which is elected annually by members.

In addition to areas for field sports—to be expanded by the addition of a further oval in 1974—the Sports Union maintains six squash courts for members' use, a hall for a wide range of team sports, a weight training centre, golf practice area, and six tennis courts, four of them lit for night tennis (four additional courts are to be opened
in 1974). A sail boathouse is to be built at Yarralumla Bay on the shores of Lake Burley Griffin.

Membership fees in 1974 are $16 for all members, and $8 for associates.

**University Staff Centre**

Occupy one of Canberra’s historic buildings, the University Staff Centre is located in attractive grounds at the southern end of the campus, overlooking Lake Burley Griffin. The Centre provides buffet, restaurant and bar facilities and a bottle shop for members and guests. Barbecue facilities are available in its surrounding grounds. The Centre’s services include functions, and rooms are available for hire. Membership fees are an annual $15 and $6 for spouses. Invited members pay a fee of $25 annually.

**Students’ associations**

There are two students’ associations in the University—the Australian National University Research Students’ Association and the Australian National University Students’ Association. Through these Associations the views of students on matters affecting their welfare and the welfare of the University are made known to the academic and administrative staff.

Membership of the Australian National University Students’ Association and of the Sports Union, is compulsory for all students enrolled in undergraduate courses. The annual fee is $11, of which $2 is contributed to the capital fund to erect an arts centre on campus. The Association is run by a president, a treasurer and a trustee, elected to take office on 1 December each year, and by general meetings of students.

The Students’ Association organises Orientation Week, student clubs and societies, Bush Week, and a student loan fund, which grants loans to students in need of financial assistance. The student newspaper, *Woroni*, is published on a regular basis.

All students enrolled for the degrees of master, Doctor of Philosophy, in the Legal Workshop course and for courses of research not leading to a degree, are members of the Australian National University Research Students’ Association and through payment of the compulsory general services fee of $21 are also members of the University Union and the Sports Union. They are also eligible to become members of clubs and societies affiliated with the Students’ Association.
The Research Students’ Association acts for scholars in negotiation with the University on questions of accommodation, conditions of scholarship, and stipends. It is responsible also for scholars’ interests in such matters as working conditions, availability of typing and other facilities, supervision and allowances. It conducts a variety of social functions but is chiefly concerned with student welfare.

Staff associations
A number of staff organisations, or branches of organisations, exist within the University to represent the interests of staff members in such matters as conditions of employment and welfare. Most of these associations are represented on the Staff Council which has as its aim the promotion and negotiation of benefits mutual to members of the groups concerned. The University also has dealings with a number of unions entitled to represent staff within the University. The staff organisations represented on the Staff Council are:

*The Australian National University Staff Association*, which is concerned with all aspects of conditions of employment of academic staff. The Association is a member body of the Federation of Australian University Staff Associations which also undertakes salary negotiations and concerns itself with matters of interest to academic staff generally.

*The Health and Research Employees Association of Australia* (Australian National University branch), which represents non-academic staff, including clerical as well as research employees.

*The Association of Architects, Engineers, Surveyors and Draughtsmen of Australia* (Australian National University branch), representing many of the University’s technical staff, especially in the engineering and electrical areas.

*The Australian National University Administrative and Allied Officers Association*, a federally registered organisation which represents mainly senior managerial staff under an agreement calling for the appointment of a private negotiator in the event of disagreement.

*The Staff Amenities and Welfare Association*, which was founded as the General Staff Association to represent non-academic staff. Much of this role was later taken over by other bodies and in 1973 the Association assumed its present role: it operates a canteen and amenities store on the campus and supports the appointment of a part-time welfare officer. Membership is open to academic as well as non-academic staff.
Special fellowships

Asian Fellowships
Distinguished scholars from the staffs of Asian universities, who during their time at this University will engage in research or teaching activities, may be offered an Asian Fellowship by the University, in the hope that such awards will help bring Australia more immediately into contact with the civilisation, knowledge and philosophy of Asian peoples. An Asian Fellowship is normally held for from six to twelve months. No more than one fellowship may be held at any one time.

Creative Arts Fellowships
Fellowships in the Creative Arts have been established by the University to encourage creative work in the arts in Australia. Short-term awards are made to artists of international repute, usually from abroad, including expatriate Australians. Longer-term awards are usually made to Australian artists who are still establishing their reputations but artists already established in their professions are not excluded.

Public lectures

The University arranges a program of public lectures each year, including an annual series of University Lectures, and several public memorial lectures.

University Lectures
The annual series of University Lectures, introduced in 1968, are intended to develop a theme of wide interest in such a way as to cross disciplinary boundaries and encourage understanding between the natural and social sciences.

John Curtin Memorial Lecture
Administered by the Director of the Research School of Social Sciences, the John Curtin Memorial Lecture is delivered in the latter half of each year by an invited speaker. The initiation of the lecture was made possible by gifts from the late Honourable Dr John Dedman, a Cabinet colleague of the late wartime Prime Minister, and for many years a member of Council.
Morrison Lecture
The annual Morrison Lecture was founded by Chinese residents in Australia and others to commemorate the work of George Ernest Morrison, a Geelong-born doctor who lived in China in the late nineteenth and early twentieth centuries, and to stimulate interest in Australia in Chinese art, literature and culture.

Arthur F. Yencken Lectures
The Yencken Lectures, administered by the Department of International Relations, are delivered every second year on diplomacy, foreign affairs or some related topic. The Lectures are endowed by the family of the late Arthur Yencken, one of the first Australians to enter the British diplomatic service.

Information about the University
A continuing information program, directed both to members of the University and the general public, is maintained by the University Information office, which is responsible to the Registrar. The activities of the office include production of most of the main publications on the University, arrangements for visitors and public functions, and media relations.

Publications on the University
The Australian National University Calendar, published in the first part of every year, is intended as a general introduction to the history, role and workings of the University. Copies may be obtained free on request to the Registrar.

The University furnishes an Annual Report of its academic, financial and other transactions for the calendar year to the Governor-General. The report is tabled in the Parliament, usually in the following August or September. Copies are available free on request to the Registrar.

Details of courses available in the School of General Studies are published in the Faculty Handbook, copies of which may be purchased for $1.50 from the Academic Registrar, post free.

Two other reference publications for use within the University are the Administrative Guide, which is intended for general information and guidance; and University Legislation, containing the University Acts, statutes and rules in a loose-leaf system.
In addition to these basic references, University Information produces two publications intended primarily for the University community itself. *ANU Reporter* is published on the second and fourth Friday of each month during the academic year. It contains within a tabloid newspaper format news of University activities and developments, Council business, a diary of events and classified advertising. *The Australian National University News* in magazine format, is published three times each academic year and is circulated to members of Convocation, staff and students. It contains articles by University members, discussing issues and developments of interest, news of Convocation members and staff appointments.

**Arrangements for visitors**

The grounds of the University are open to visitors, but buildings are open only to those taking part in a conducted tour. A tour, conducted by University Information staff, leaves the main entrance hall of University House at 3 pm each week day (Monday to Friday) with the exception of public holidays and the period 25 December-1 January. It includes a film illustrating some of the University’s teaching and research activities.

At Mt Stromlo Observatory, headquarters of the University’s Department of Astronomy, a gallery within the 74-inch telescope building is open to visitors from 9.30 am to 4 pm daily. The gallery contains photographic exhibits illustrating the Department’s activities, and the 150-inch Anglo-Australian telescope project sharing the University’s observatory site at Siding Spring Mountain, near Coonabarabran, New South Wales.

**Media relations**

As a means of maintaining public awareness of the University’s role, the University Information office facilitates access for the media to members of the University. The office answers inquiries from the media, prepares news statements on policy changes, new developments and senior appointments. The University’s news publications, *ANU Reporter* and *The Australian National University News*, are circulated widely to the media in Australia and overseas.
Reference

Finance

The University's expenditure in 1972 was $30,566,663 for running expenses and $9,250,510 for capital and other non-recurrent expenditure. Apart from relatively small amounts received from gifts, rents and fees, income was provided by the Commonwealth Parliament.

University naming policy

Many University buildings and other facilities are named as a tribute to persons associated with its inception and evolution. As a general rule however, site features and buildings are not named after persons still in active association with the University, or who might again become associated with it in the future.

In general, it is University naming policy that buildings be known by functional names. The use of non-functional names is considered in the cases of buildings serving the University generally, halls of residence, multi-purpose buildings housing a number of faculties or departments, buildings which need to be named because of risk of confusion, and buildings resulting from substantial benefactions.

University Fellowships

Council has established the office of University Fellow as a means of honouring, after retirement, distinguished scholars engaged in major scholarly work which could be completed within the University in a reasonable period. A small committee of Council considers nominations. Maximum tenure is three years and no more than three fellowships can be current at one time.

Roll of Emeritus Professors

The Council from time to time honours professors who have left the University, in circumstances such that they are unlikely to take a
fresh appointment to a chair, by placing their names on its Roll of Emeritus Professors. A list of Emeritus Professors appears later in this Calendar.

**Works of art in the University**

Over a period of years the University has acquired the core of a substantial collection of art. Major works of contemporary Australian art include Leonard French's mural 'Seven Days', acquired through an anonymous donation, and his 'Regeneration', in the Hall of University House, commissioned with funds raised by contribution. Nine leading Australian companies contributed to the purchase of Sidney Nolan's nine-panel painting, 'River Bend'.

The University itself, and groups within it, have commissioned a number of works of sculpture and portraits of distinguished members of the University.

In 1971, Mrs K. Lyttelton-Taylor presented to the University a large and varied collection of furniture, paintings, silver, books, oriental pieces and other items which are widely displayed throughout the University.

**University Co-operative Bookshop Ltd**

At the invitation of the University, the University Co-operative Bookshop Ltd established a bookshop on the campus in 1966. A University Bookshop Committee, comprising members drawn from the academic boards, students' associations and the University Union, consults with the management of the Bookshop on the needs of users.

The Bookshop, situated in Union Court, stocks books prescribed or recommended for reference or preliminary reading in connection with courses taught in the School of General Studies, together with a broad range of other books. It is willing to order books not in stock. Membership of the co-operative costs an initial (not recurrent) $5, and entitles purchasers to an annual dividend which consists of a percentage of the amount spent on books.

**Postal, banking and other facilities**

In addition to the Bookshop and the Credit Union office, a post office, branches of five banks, a pharmacy, and a branch of the
Australian Union of Students' travel service, are located on the south side of Union Court, near the J. B. Chifley Building of the University Library.

Membership of inter-university bodies

The University is a member of the Association of Commonwealth Universities, whose headquarters at 36 Gordon Square, London WC1H OPF, will gladly answer inquiries about the University. Details of appointments and awards offered by the University are available from the Association.

The Australian National University is also a member of the International Association of Universities, whose offices are at 19 Avenue Kleber, Paris 16.

The Vice-Chancellor is a member of the Australian Vice-Chancellors' Committee, which provides a means whereby universities can consult and act together on matters of mutual concern, and which collects and disseminates information of mutual interest.

Scandinavian-Australian Cultural Funds

In 1952, to mark Australia's Jubilee Year, the Danish, Norwegian and Swedish communities in Australia each raised funds for the encouragement of close and friendly scientific, educational and cultural relations between Scandinavia and Australia. The administration of the funds was vested in the Australian National University. Grants, usually of the order of $100–$200, are awarded for visits to one of the three Scandinavian countries in rotation over a three-year period. Awards for 1974–75 will be for visits to Denmark, and in subsequent years, to Sweden and Norway respectively. Grants normally are payable on 1 July each year but the University may make grants at other times if funds allow. The availability of funds is made known in Scandinavia for the benefit of persons intending to visit Australia.

Former Chancellors

Bruce of Melbourne, The Rt Hon. Viscount
Cockcroft, Sir John (Douglas)*
Florey of Adelaide and Marston, Lord*
Former Vice-Chancellors

### Notes

* Courses of research not leading to a degree

** Single units—not towards a degree of bachelor
**Australian National University Act 1946-1973***

*An Act to establish and incorporate a University in the Australian Capital Territory*

Be it enacted by the King's most Excellent Majesty, the Senate, and the House of Representatives of the Commonwealth of Australia, as follows:

1. This Act may be cited as the *Australian National University Act 1946-1973*.

2. This Act shall come into operation on a date to be fixed by Proclamation.

3. (1) In this Act, unless the contrary intention appears—
   'professor' does not include an assistant professor or an associate professor;

---

*The *Australian National University Act* 1946–73 as at 30 December 1973 comprises the Acts set out in the following table:*

'the Council' means the Council of the University;
'the Institute' means the Institute of Advanced Studies within the University;
'the School' means the School of General Studies within the University;
'the Statutes' means the Statutes of the University in force in pursuance of this Act;
'the University' means The Australian National University constituted under this Act.

(2) A reference in this Act to the holder of an office in the University shall be read as including a reference to a person for the time being performing the duties of that office.

4. (1) A university, consisting of a Council and Convocation, and graduate and undergraduate members, shall be established at Canberra, in the Australian Capital Territory.

(2) The University shall be a body corporate by the name of 'The Australian National University' and by that name shall have perpetual succession, and shall have a common seal, and be capable by that name of—

(a) suing and being sued in all courts;
(b) taking, purchasing and holding real and personal property (including property devised, bequeathed or given to the University);
(c) granting, selling, alienating, assigning and demising real or personal property; and
(d) doing all other matters and things incidental or appertaining to a body corporate.

5. (1) The common seal of the University shall be kept in such custody as the Council directs, and shall not be used except upon the order of the Council.

(2) All courts, judges and persons acting judicially shall take judicial notice of the common seal of the University affixed to any document, and shall presume that it was duly affixed.

6. The functions of the University shall include the following:

(a) to encourage, and provide facilities for, postgraduate research and study, both generally and in relation to subjects of national importance to Australia;
(b) to provide facilities for university education for persons who elect to avail themselves of those facilities and are eligible so to do; and
subject to the Statutes, to award and confer degrees and diplomas.

6A. The powers of the University extend to the making of astronomical and meteorological observations in any part of the Commonwealth.

7. There shall be, within the University—
(a) an Institute of Advanced Studies; and
(b) a School of General Studies.

8. (1) The Institute shall comprise research schools in relation to medical science, the physical sciences, the social sciences, Pacific studies and such other fields of learning as the Council determines.
(2) Subject to the next succeeding sub-section, the names of the research schools and the fields of learning in relation to which they are established shall be as determined by the Council.
(3) The research schools shall include a research school in relation to medical science to be known as 'The John Curtin School of Medical Research'.
(4) The departments of a research school shall be such as are determined by the Council.

9. The faculties in the School shall be such as are determined by the Council.

10. The governing authority of the University shall be the Council.

11. (1) The Council shall consist of—
(a) two Senators elected by the Senate;
(b) two members of the House of Representatives elected by that House;
(c) twelve persons appointed by the Governor-General, being persons who, in the opinion of the Governor-General, by their knowledge and experience can advance the full development of the University;
(d) the following persons:
   (i) the Chancellor;
   (ii) the Pro-Chancellor;
   (iii) the Vice-Chancellor;
   (iv) the Deputy Vice-Chancellor;
   (v) the Deputy Chairman of the Board of the Institute; and
   (vi) the Deputy Chairman of the Board of the School;
(e) two of the heads of the research schools in the Institute chosen in the manner provided by the Statutes;
(f) two of the deans of faculties in the School chosen in the manner provided by the Statutes;

(g) one of the professors in the Institute elected by those professors;

(h) one of the professors in the School elected by those professors;

(i) two members of the academic staff of the Institute, not being professors, elected by the members of that staff other than the professors;

(j) two members of the academic staff of the School, not being professors, elected by the members of that staff other than the professors;

(ja) the President of the body known as 'The Australian National University Students' Association';

(k) a student of the University elected from among their number by the students of the University enrolled for study for degrees other than degrees of bachelor or for courses of research;

(l) a student of the University elected by the students of the University enrolled for study for degrees of bachelor and by such other students of the University (not being students referred to in the last preceding paragraph), if any, as the Statutes provide;

(m) four members of Convocation, not being members of the staff of the University, elected by Convocation by a system of proportional representation; and

(n) such other persons, not exceeding two in number, as the Council appoints.

(2) A member of the Council referred to in paragraph (a), (b) or (c) of the last preceding sub-section holds office, subject to this Act, for such period, not exceeding three years, as is fixed by the House of the Parliament by which he is elected or by the Governor-General, as the case may be, at the time of the election or appointment.

(3) The members of the Council other than those referred to in paragraphs (a), (b), (c) and (d) of sub-section (1) of this section shall, subject to this Act, hold office for such periods as the Statutes provide.

(4) The Statutes may provide for the retirement in rotation of members of the Council of a particular class.

(5) In the event of a casual vacancy in the Council (including a vacancy arising from the appointment or election of a member to
an office specified in paragraph (d) of sub-section (1) of this section), a member shall be elected or appointed in accordance with whichever paragraph of sub-section (1) of this section is appropriate, or, in such cases and in such circumstances as are specified in the Statutes, in such other manner as is prescribed by the Statutes, and the person so elected or appointed holds office, subject to this Act, for the residue of his predecessor’s term of office.

12. * * * * *

13. No person who—

(a) has not attained the age of eighteen years;

(b) is an undischarged bankrupt or has his affairs under liquidation by arrangement with his creditors;

(c) has been convicted of an offence and sentenced to imprisonment, unless he has received a free pardon or has undergone the sentence; or

(d) is an insane person within the meaning of the laws relating to insanity in force for the time being in any State or Territory of the Commonwealth,

shall be capable of being or continuing to be a member of the Council.

14. (i) If a member of the Council—

(a) dies;

(aa) becomes disqualified under paragraph (b), (c) or (d) of the last preceding section from continuing to be a member of the Council;

(b) declines to act;

(c) resigns his seat;

(d) is absent without leave of the Council from six consecutive meetings of the Council;

(e) in the case of a member elected by either House of the Parliament—ceases to be a member of that House; or

(f) not being a member referred to in the last preceding paragraph—ceases to have the qualification by virtue of which he was elected or chosen,

his seat shall become vacant and shall be filled as a casual vacancy in accordance with sub-section (5) of section eleven of this Act.

(2) For the purposes of paragraph (e) of the last preceding sub-section, a member of either House of the Parliament shall be deemed not to have ceased to be a member of that House while he continues to be entitled to the Parliamentary allowance that became payable to him as such a member.
15. (1) The Chancellor shall preside at all meetings of the Council at which he is present.

(2) At any meeting of the Council at which the Chancellor is not present, the member specified in, or ascertained in accordance with, the provisions of the Statutes or, if the Statutes do not make any such provision, the member elected by the members present from among their number, shall preside.

15A. (1) There shall be a Board of the Institute, consisting of—
(a) the Vice-Chancellor;
(b) the Deputy Vice-Chancellor;
(c) the heads of the research schools within the Institute;
(d) the heads of all departments of the research schools within the Institute;
(e) * * * *
(f) three of the members of the Board of the School elected by the members of the Board of the School; and
(g) such other persons as the Council, on the advice of the Board itself, appoints, who shall hold office, subject to the Statutes, for such period as is fixed by the Council at the time of their appointment.

(2) Subject to section fifteen c of this Act, the Board of the Institute—
(a) is responsible under the Council for all academic matters relating to the Institute; and
(b) may advise the Council on any matter relating to education, learning or research or the academic work of the University.

(3) The Council shall from time to time appoint a member of the Board to be Deputy Chairman of the Board.

(4) Before making an appointment under the last preceding subsection, the Council shall give to the Board of the Institute an opportunity of furnishing advice to the Council in relation to the appointment.

(5) At a meeting of the Board of the Institute at which the Vice-Chancellor is present, the Vice-Chancellor shall preside unless he requests the Deputy Chairman to preside, in which case the Deputy Chairman shall preside.

(6) At a meeting of the Board of the Institute at which the Vice-Chancellor is not present—
(a) if the Deputy Chairman is present, he shall preside; and
(b) if the Deputy Chairman is not present, the members present shall elect one of their number to preside.
15b. (1) There shall be a Board of the School of General Studies, consisting of—

(a) the Vice-Chancellor;
(b) * * * *
(c) the Deputy Vice-Chancellor;
(d) the professors in the School;
(e) three of the members of the Board of the Institute elected by the members of that Board; and
(f) such other persons as the Council, on the advice of the Board itself, appoints, who shall hold office, subject to the Statutes, for such period as is fixed by the Council at the time of their appointment.

(2) Subject to the next succeeding section, the Board of the School—

(a) is responsible under the Council for all academic matters relating to the School; and

(b) may advise the Council on any matter relating to education, learning or research or the academic work of the University.

(3) The Council shall from time to time appoint a member of the Board of the School, being a person referred to in paragraph (d) of sub-section (1) of this section, to be Deputy Chairman of the Board of the School.

(4) Before making an appointment under the last preceding subsection, the Council shall give to the Board of the School an opportunity of furnishing advice to the Council in relation to the appointment.

(5) At a meeting of the Board of the School at which the Vice-Chancellor is present, the Vice-Chancellor shall preside unless he requests the Deputy Chairman to preside, in which case the Deputy Chairman shall preside.

(6) At a meeting of the Board of the School at which the Vice-Chancellor is not present—

(a) if the Deputy Chairman is present, he shall preside; and

(b) if the Deputy Chairman is not present, the members present shall elect one of their number to preside.

15c. (1) For a period of ten years from the commencement of this section—

(a) the Board of the Institute is responsible under the Council for matters relating to doctoral degrees and to scholarships for study at the University for doctoral degrees; and

(b) the Board of the School is responsible under the Council for matters relating to degrees or diplomas, other than
doctoral degrees, and to scholarships for study at the University for degrees or diplomas, other than doctoral degrees.

(2) The Statutes may make provision for responsibility, under the Council, for the matters referred to in the last preceding sub-section after the period referred to in that sub-section.

15D. (1) There shall be a Professorial Board of the University, consisting of—
(a) the Vice-Chancellor, who shall be the Chairman of the Board;
(b) all professors of the University; and
(c) such other persons as are appointed in accordance with the Statutes.

(2) The Professorial Board may advise the Council on any matter relating to education, learning or research or the academic work of the University.

(3) The Vice-Chancellor may at any time convene a meeting of the Professorial Board, and shall convene such a meeting when so required by—
(a) the Council;
(b) the Board of the Institute;
(c) the Board of the School; or
(d) any six members of the Professorial Board.

16. (1) Convocation shall consist of—
(a) all members and past members of the Council;
(b) all graduates of the University; and
(c) such graduates of other universities, or other persons, as are, in accordance with the Statutes, admitted as members of Convocation.

(2) The Council shall cause to be kept a roll of all members of Convocation.

(3) Meetings of Convocation may be convened by the Vice-Chancellor, or as provided in the Statutes.

17. (1) The Council shall, from time to time as occasion requires, elect one of its members or some other person to be Chancellor of the University.
(2) The Chancellor shall hold office for such period as is specified in the Statutes and on such conditions as are provided by the Statutes.

18. (1) The Council shall, from time to time as occasion requires, appoint one of its members or some other person to be the Vice-Chancellor of the University.

(2) The Vice-Chancellor shall be appointed for such period as is specified in the Statutes and on such conditions as the Council determines.

(3) The Vice-Chancellor shall be the executive officer of the University, and shall have such powers and perform such duties as the Statutes prescribe or, subject to the Statutes, as the Council determines.

18A. The Council shall appoint or elect persons to the following offices in the University:

(a) Pro-Chancellor;
(b) Deputy Vice-Chancellor; and
(c) the Secretary of the University.

19. (1) At any meeting of the Council, not less than one-half of the total number of members for the time being shall form a quorum.

(2) At any meeting of Convocation, twenty-five members shall form a quorum.

(3) At any meeting of a Board established by this Act, a quorum shall be constituted as provided by the Statutes.

20. Nothing contained in this Act shall prevent any person from being immediately, or at any time, reappointed or re-elected to any office or place under this Act if he is otherwise capable, for the time being, of holding that office or place.

21. No act or proceedings of, or of the members or any Committee of, the Council, Convocation or any Board established by this Act, and no act done by a person acting as Chancellor or Vice-Chancellor, shall be invalidated by reason of—

(a) a defect in the appointment, election, choosing or admission of any member of the Council, Convocation or any such Board;
(b) a disqualification of any such member;
(c) a defect in the convening of any meeting; or
(d) a vacancy or vacancies in the number of members of the Council or of any such Board.

22. * * * * * * * * * *
23. Subject to this Act and the Statutes, the Council may from time to time appoint deans, professors, lecturers, examiners and other officers and servants of the University, and shall have the entire control and management of the affairs and concerns of the University, and may act in all matters concerning the University in such manner as appears to it best calculated to promote the interests of the University.

24. (1) There shall be a Standing Committee of the Council, which shall consist of the Pro-Chancellor, the Vice-Chancellor and not more than ten other members appointed by the Council.

   (1A) Where, on account of illness or otherwise, a member of the Standing Committee of the Council will be, or is likely to be, absent from a meeting or meetings of the Committee, the Vice-Chancellor may appoint another member of the Council as a temporary member of the Committee for the purpose of that meeting or those meetings, and the member so appointed may attend that meeting or those meetings in the absence of the member of the Committee and, when so attending, shall be deemed to be a member of the Committee.

   (2) The Pro-Chancellor shall be Chairman of the Committee, and in his absence the members present shall elect one of their number to act as Chairman.

   (3) The Standing Committee shall exercise such powers and perform such functions as are conferred upon it by the Council.

   (4) Seven members of the Standing Committee shall constitute a quorum.

25. (1) The Council may, in relation to any matter or class of matters, or in relation to any activity or function of the University, by resolution, delegate all or any of its powers and functions under this Act (except this power of delegation and its powers in relation to the making of statutes) to any member or to a committee consisting of members of the Council, with or without other persons, or to any officer or officers of the University.

   (2) Every delegation under this section shall be revocable by resolution of the Council, and no delegation shall prevent the exercise of any power or function by the Council.

26. (1) Subject to this section, the Council shall have the control and management of all real and personal property at any time vested in or acquired by the University, and may dispose of real or personal property in the name and on behalf of the University.
2. The Council shall not, except with the approval of the Governor-General, alienate, mortgage, charge or demise any lands, tenements or hereditaments of the University, except by way of lease for any term not exceeding twenty-one years from the time when the lease is made, in and by which there is reserved, during the whole of the term, the highest rent that can reasonably be obtained without fine.

26A. (1) Any contract that, if made between private persons, would be by law required to be in writing under seal may, subject to section five of this Act, be made on behalf of the University in writing under the common seal of the University.

(2) Any contract to which the last preceding sub-section does not apply may be made on behalf of the University by any person acting with the authority of the Council, expressed or implied, and, where such a contract is made in writing, it may be executed on behalf of the University by that person.

27. (1) The Council may from time to time make, alter and repeal statutes with respect to all or any of the following matters:

(a) the management, good government and discipline of the University;
(b) the use and custody of the common seal;
(c) the method of any election (other than the election of a Senator or Member of the House of Representatives as a member of the Council) provided for by this Act and the determination of questions arising in relation to the conduct or result of any such election;
(c) the persons who are to be regarded, for the purposes of section eleven of this Act, as members of the academic staff of the Institute and of the academic staff of the School, respectively;
(d) the manner and time of convening, holding and adjourning the meetings of the Council and Convocation and of any Board established by this Act; the voting at such meetings (including postal or proxy voting); the appointment, powers and duties of the chairman thereof; the conduct and record of the business; the appointment of committees of the Council and Convocation and of any Board established by this Act; and the quorum, powers and duties of such committees;
(e) the resignation of members of the Council or of any Board
established by this Act and of the Chancellor or Vice-Chancellor;

(f) the tenure of office, stipend and powers and duties of the Vice-Chancellor;

(fa) the functions, powers and duties of the Pro-Chancellor and the Deputy Vice-Chancellor, including the exercise, in specified circumstances, of the powers and functions of the Vice-Chancellor by the Deputy Vice-Chancellor;

(fb) the tenure of the holder of any office or place established by or under this Act in respect of which this Act does not specify a term of office or provide for the fixing of the term of office otherwise than by the Statutes;

(g) the number, stipend, manner of appointment and dismissal of deans, professors, lecturers, examiners and other officers and servants of the University;

(h) the matriculation of students;

(i) the times, places and manner of holding lectures, classes and examinations, and the number and character of such lectures, classes and examinations;

(j) the promotion and extension of University teaching;

(k) the granting of degrees, diplomas, certificates and honours;

(l) the granting of fellowships, scholarships, exhibitions, bursaries and prizes;

(m) the admission of students of other universities to any corresponding status or of graduates of other universities to any corresponding degree or diploma without examination;

(n) the admission of members of Convocation;

(o) the fees to be paid for examinations, for the granting of degrees, diplomas and certificates, for attendance at the lectures and classes of the University and for use of the facilities of the University;

(p) the establishment, management and control of libraries, laboratories and museums in connection with the University;

(q) the establishment or affiliation of residential colleges within the University;

(r) the affiliation or admission to the University of any educational or research establishment wheresoever situated;

(s) the control and investment of the property of the University;
(t) the provision of superannuation benefits for, and for the families of, the salaried teachers and other salaried officers of the University or any class of those teachers or officers;
(u) academic costume; and
(v) generally, all other matters authorised by this Act, or necessary or convenient for giving effect to this Act.

(2) The statutes may provide for empowering any authority (including the Council) or officer of the University to make by-laws, rules or orders (not inconsistent with this Act or with any statute) for regulating, or providing for the regulation of, any specified matter (being a matter with respect to which statutes may be made) or for carrying out or giving effect to the statutes, and any such by-law, rule or order shall have the same force and effect as a statute.

(3) Notwithstanding sub-section (2), by-laws, rules or orders shall not be made—
(a) for regulating, or providing for the regulation of, a matter referred to in sub-section (2) of section 27A; or
(b) for carrying out or giving effect to a Statute dealing with such a matter, except to the extent that they are by-laws, rules or orders with respect to the discipline of the University and provide for the enforcement of such a Statute.

27A. (1) In this section—
'land occupied by the University' means land occupied by the University in the Australian Capital Territory;
'parking', in relation to a vehicle, means causing or permitting the vehicle to remain stationary while not under the control of the driver, and 'parked' has a corresponding meaning;
'vehicle' includes an object that was designed or adapted for use as a vehicle but is incapable of being so used by reason that—
(a) a part has, or parts have, been removed from it; or
(b) it is in a wrecked or damaged condition.

(2) The Statutes may make provision—
(a) for or in relation to the regulation of traffic, or of the parking of vehicles, on land occupied by the University, including provision authorising, and providing for the effect of, signs, traffic lights and markings;
(b) for or in relation to the regulation of access by vehicles to land occupied by the University;
(c) for the imposition and collection of charges for the parking or stopping of vehicles on land occupied by the University.
and for the erection, management and protection of parking
meters for the purposes of those charges;

(d) authorising the removal of vehicles from places where they
have been parked or stopped in contravention of a Statute;

(e) to the effect that, where a contravention of a provision of a
Statute relating to the parking or stopping of vehicles
occurs in respect of a motor vehicle, the person who is to
be regarded as the owner of the motor vehicle for the
purposes of the Statute (who may, in accordance with the
Statute, be or include the person in whose name the motor
vehicle is registered under the law of a State or of a Territory
of the Commonwealth) is to be, except as provided other­
wise, deemed to have committed an offence against the
provision so contravened, whether or not he in fact con­
travened that provision;

(f) enabling a person who is alleged to have contravened a
provision of a Statute relating to the parking or stopping
of vehicles to pay to the University a specified penalty, not
exceeding Five dollars, as an alternative to undergoing
prosecution;

(g) for the punishment, on summary conviction, by a fine not
exceeding One hundred dollars, of offences against a
Statute dealing with a matter referred to in this sub-section;

(h) relating to the powers to be exercised by persons appointed
by the Council for the purposes of carrying out or giving
effect to Statutes dealing with matters referred to in this
sub-section; and

(i) for matters ancillary or incidental to matters referred to
in this sub-section.

(3) Where a Statute contains a provision dealing with a matter
referred to in sub-section (2), that provision does not have any force
or effect to the extent to which it is inconsistent with a law of the
Australian Capital Territory, but a provision of a Statute shall not
be taken for the purposes of this sub-section to be inconsistent with a
law if it can be complied with without contravention of that law.

(4) A Statute may make provision for or in relation to a matter
referred to in sub-section (2) by applying, adopting or incorporating,
with or without modification, a provision of a law for the time being
in force in the Australian Capital Territory relating to motor vehicles
or motor traffic.
(5) Where a Statute makes provision for or in relation to the regulation of access by vehicles to land that would, but for that provision, be a public street or a public place within the meaning of a law in force in the Australian Capital Territory, that land does not cease to be a public street or a public place, as the case may be, within the meaning of that law by reason only of that provision.

(6) A Statute dealing with a matter referred to in sub-section (2) applies, except to such extent (if any) as that Statute or another Statute provides otherwise, to any person whether or not that person has any connexion with the University.

(7) In any proceedings for a contravention of a Statute dealing with a matter referred to in sub-section (2)—

(a) evidence that—

(i) a sign, signal, flag, notice, beacon or other device was erected, placed or displayed on, near or above land occupied by the University;

(ii) a line, symbol, sign or other device was marked on the carriageway or kerb of a road or on any part of a parking area or loading area, being a road or area on land occupied by the University; or

(iii) an island or dome was erected on a road on land occupied by the University or at a junction or intersection of two or more such roads, is prima facie evidence that it was so erected, placed, displayed or marked, as the case may be, in accordance with a Statute; and

(b) an averment of the prosecutor contained in the information or complaint and stating that specified land was land occupied by the University shall, in the absence of proof to the contrary, be deemed to be proved.

28. (1) Every statute when approved by the Council shall be sealed with the common seal, and shall be transmitted by the Chancellor for the approval of the Governor-General, and upon being so approved shall be notified in the Gazette, and thereupon have the force of law.

(2) The notification of any statute in the Gazette shall specify the place at which copies of the statute may be purchased.

(3) A copy of every such statute shall be laid before each House of the Parliament within fifteen sitting days of that House after notification of the statute in the Gazette.
(4) The production of a copy of a statute under the common seal of the University, or of a document purporting to be a copy of a statute and to have been printed by the Government Printer, shall, in all proceedings, be sufficient evidence of the statute.

(5) The statutes shall be numbered consecutively in the order in which they are notified in the Gazette, and a notice in the Gazette of the fact that a statute has been made and specifying the number of the statute shall be sufficient compliance with the requirement of sub-section (1) of this section that the statute shall be notified in the Gazette.

29. (1) Fees shall be payable by students of the University except, in the case of any student who is granted any fellowship, scholarship, exhibition, bursary or similar benefit, to the extent to which he is thereby exempted from payment of fees.

(1A) The Council may exempt from the payment of fees—
(a) a student of the University who holds a scholarship granted by a State, or by a body established by or under a law of a State, to pursue studies at the University in relation to forestry; and
(b) an officer or servant of the University, not being a person employed in a part-time capacity only in the service of the University.

(2) The Governor-General may, by Proclamation, determine that fees shall not be payable by students of the University and, while the Proclamation is in force, fees shall not be so payable.

30. (1) There shall be payable to the University—
(a) in each financial year during the period of five years commencing on the first day of July, One thousand nine hundred and forty-six—such sum, not exceeding Three hundred and twenty-five thousand pounds, as the Treasurer is satisfied is necessary to meet the expenses of the University in that financial year; and
(b) in each financial year thereafter—the sum of Three hundred and twenty-five thousand pounds.

(2) The amounts payable to the University under this section shall be paid out of the Consolidated Revenue Fund which, to the necessary extent, is hereby appropriated accordingly.

31. All fees and all other moneys received by the Council under the provisions of this Act or otherwise shall be applied by the Council solely for the purposes of the University.
32. No religious test shall be administered to any person in order to entitle him to be admitted as a student of the University, or to hold office therein, or to graduate thereat, or to enjoy any benefit, advantage or privilege thereof.

33. (1) The Council shall, within six months after the close of each University year, transmit to the Governor-General a report of the proceedings of the University during that year, containing a true and detailed account of the income and expenditure of the University during the year, audited in such manner as the Treasurer of the Commonwealth directs.

(2) A copy of every such report shall be laid before both Houses of the Parliament.

34. (1) Where a person employed by the University at the commencement of this section was, immediately before his employment by the University, an officer of the Public Service of the Commonwealth employed in the performance of duties in connection with the training of professional foresters by the Forestry and Timber Bureau, he retains, and shall be deemed to have retained, his existing and accruing rights.

(2) For the purpose of determining the rights so retained by a person, his service as a person employed by the University shall be taken into account as if it were service in the Public Service of the Commonwealth.

(3) The Officers' Rights Declaration Act 1928–1959 applies and shall be deemed to have applied, in relation to a person to whom sub-section (1) of this section applies as if this Act and this section had been specified in the Schedule to that Act and as if the University were a Commonwealth authority within the meaning of that Act and, for the purposes of the application of that Act in relation to him, the right of election referred to in sub-section (1) of section five of that Act may be exercised by him within three months after the commencement of this section.
Australian National University Act 1960, Part III*

Part III—Transitional Provisions†

20. (1) In this Part, 'the prescribed date' means the date of commencement of Part II of this Act.‡

(2) Expressions used in this Part have the same meanings as those expressions have in the Principal Act as amended by this Act.

21. * * * * * * * * *
22. * * * * * * * * *
23. * * * * * * * * *

24. On the prescribed date—

(a) the Canberra University College and The Council of the Canberra University College shall, by force of this Act, cease to exist;

(b) all contracts of employment by The Council of the Canberra University College shall, by force of this Act, be deemed to be terminated; and

(c) subject to the last preceding paragraph, all property, rights, liabilities and obligations of The Council of the Canberra University College shall, by force of this Act, but subject to the next succeeding section, become property, rights, liabilities and obligations of the University.

25. (1) A person who, immediately before the prescribed date, holds a salaried office or employment in the Canberra University College, and has not attained the age of sixty-five years, is entitled to be appointed to an office in, or to be employed by, the University, from and including that date, on terms and conditions (including terms and conditions as to remuneration and duration of employment, but not including terms and conditions prescribing the title, duties

* Part III of the Australian National University Act 1960 came into operation on the date on which the Act received the Royal Assent, viz., 8 April 1960.
† Sections 21, 22, 23, 27, 28 and 29 of the Australian National University Act 1960 were repealed by section 10 of the Australian National University Act 1965. Sub-section (2) of that section reads as follows:
‘(2) The repeal effected by the last preceding sub-section does not affect—
(a) an appointment of a person to an office or the continuation of a person in an office;
(b) a determination made under section 28 of the Australian National University Act 1960; or
(c) an exercise by the Council of the Australian National University of the power given to it by section 29 of the Australian National University Act 1960.’
‡ That date was 30 September 1960.
or status of the office or employment) not less favourable than those upon which he holds that office or employment in the Canberra University College.

(2) The last preceding sub-section does not apply to or in relation to part-time employment or remuneration in respect of part-time employment.

(3) A person to whom sub-section (1) of this section applies has no right to damages or compensation in respect of the termination, by reason of the operation of this Part, of his tenure of any office or employment in the Canberra University College.

(4) Where, after the prescribed date, a person is appointed to an office or employment in the University in pursuance of this section—

(a) the appointment shall be deemed to have had effect from and including the prescribed date; and

(b) he shall, for the purposes of the *Superannuation Act 1922–1959*, be deemed to have become employed by the University immediately after the date on which his employment by the Canberra University College was terminated.

26. A person who, immediately before the prescribed date, is a member of the academic staff of the University shall, on that date, become, by force of this Act, a member of the academic staff of the Institute.

Holt, Ronald Frederick, BA DipEd Melb., BEd MA Monash
Glienke, Bernhard Friedrich, Dr phil Kiel

Senior Tutor

Langman, Erika Andrea, BA DipEd Natal, MA

History

Professor and Head of Department

Williams, Charles Murray, BA Melb., DPhil Oxon.

Professor (Australian History)

Clark, Charles Manning Hope, MA Melb., FAHA, FASSA

Readers

Baker, Donald William
Archdall, MA Melb.
Fry, Eric Charles, BA BEc
DipEd Syd., PhD

Senior Lecturers

Kinloch, Hector Gilchrist, BA Cantab., MA PhD Yale
Kent, Bruce Eric, BA Melb. & Oxon., PhD

Fairbairn, Geoffrey Forrester, BA Cantab.
Mandle, William Frederick, MA Oxon.
Hancock, Ian Robert, BA Melb., BPhil Oxon.
Shineberg, Dorothy Lois, BA PhD Melb., MA Smith Coll.
Bartlett, Geoffrey Raymond, BA Oxon., PhD
Molony, John Neylon, STL JCL Pontifical Urbanian, MA PhD
Lecturers
Penny, Barbara Rose, MA Melb.
Ritchie, John Douglas, BA DipEd Melb., PhD
Tillotson, John Howard, BA DipEd Oxon., PhD
Gollan, Daphne Eileen, BA Syd., MA
Macknight, Charles Campbell, BA Melb., PhD
Part-time Lecturer
Rossiter, Geoffrey George, DFC, BA WAust., MA Oxon.
Senior Tutors
Jones, Judith Anne, BA DipSocStud Melb.
McQueen, Humphrey Denis, BA Q’ld
Craven, William George, MA Melb.
Launitz-Schurer, Leopold Sidney, BA SirGWms, MA PhD McG.

Human Sciences Program
(See Faculty of Science)

Linguistics

Professor
Dixon, Robert Malcolm Ward, MA Oxon., PhD Lond.
Senior Lecturer
Rensch, Karl Heinz Manfred, Dr phil Mün.

Lecturers
Harris, John, BA Syd., AM Mich.
Haiman, John Michael, BA Tor., PhD Harv.
Lecturing Fellows
Wierzbicka, Anna, mgr Warsaw, dr, habil Polish Acad. Sci.
Koch, Harold James, BA Wat.Luth., MA Wash., AM PhD Harv.

Mathematics

Applied Mathematics

Professor
Brown, Archibald, MA Glas., PhD Cantab.
Reader
Drummond, James Ewen, MSc NZ, BA Cantab.
Senior Lecturers
Meggitt, Stephen Michael Anselm, MA Oxon., MSc Natal, PhD
Davies, Brian, BSc PhD NSW
Lecturer
Petersons, Haralds Freds, MSc PhD Syd. (on leave in 1974)
Lecturing Fellow
Diesendorf, Mark Oliver, BSc Syd., PhD NSW
Tutor
Stewart-Richardson, Donald Bruce, BSc Syd.

Pure Mathematics

Professor
Trudinger, Neil Sydney, BSc NE, MS PhD Stan.
Senior Lecturers
COSSEY, Peter John, BSc Q’ld, PhD
WARD, Martin Antony, BSc Melb., BA PhD
BRYCE, Robert Aitken, MSc Q’ld, PhD
SMYTHE, Neville Francis, BSc NSW, PhD Prin.
CHRISTENSEN, Carlton, MScTech PhD Manc.

Lecturers
DONALDSON, Thomas Kenton, BS Kentucky, SM PhD Chic.
HOWE, Allen, BSc NE, PhD
McPHerson, James Murdoch, BSc PhD NSW
LOY, Richard James, BSc Melb., MSc PhD Monash

Senior Tutors
BLOOM, Lynette Myra, BSc Q’ld, MSc
SHEild, David Beresford, BSc DipEd Q’ld, MA

Philosophy

Professor
HERBST, Peter, MA Melb., BA Oxon.

Associate Professor
GIBSON, Quentin Boyce, BA Melb., MA Oxon.

Reader
GINNANE, William Joseph, MA Melb., BPhil Oxon.

Senior Lecturers
LYCOS, Kimon, BA Syd., BPhil Oxon.
CAMPBELL, Richard James, BD MA Syd., DPhil Oxon. (on leave in 1974)
MAUTNER, Thomas René, FK Lund, fil lic Gothenburg

Lecturers
THOM, Paul, MA Syd., BPhil Oxon.
LLOYD, Genevieve Mary, BA Syd., BPhil Oxon.
ROEPEr, Peter, Dr phil Fran., BPhil Oxon.

Senior Tutor
HARNEY, Maurita Joan, MA DipEd Melb.

Political Science

Professor and Head of Department
To be appointed

Professor
CRISP, Leslie Finlay, MA Adel. & Oxon.

Readers
HUME, Leonard John, MEc Syd., PhD Lond.
GRAINGER, John Herbert, MA Cantab.
STOCKWIN, James Arthur Ainscow, MA Oxon., PhD

Senior Lecturers
WILSON, Ian Frederick Harvey, MA Melb., MIA Col. (on leave in 1974)
WEST, Katharine Ogilvie, MA Melb.
HUNTER, Thelma Anna Carmela, MA Glas., PhD

Lecturers
COOKSEY, Robert John, BA Syd.
WOODWARD, Janette, DipEd Syd., BEc
BENNETT, Scott Cecil, BA Tas., MA (on leave in 1974)
COLLINS, Hugh Norman, BA WAust., AM Harv.
ADAMS, David Michael, BSc (Econ) MSc Lond.
STAFF LISTS

Douglas Gordon, MA Oxon. & Corn.
Senior Tutor
Sally-Ann, BA Tutor
Susan Claire, BA

Prehistory and Anthropology

Professor (Prehistory) and Head of Department
Derek John, MA Melb., MA PhD Cantab., FAHA
Professor (Anthropology)
John Anthony Waldo, MA Cantab.

Senior Lecturers (Prehistory)
Francis Wilfred, MA Cantab.
Isabel, MA Melb., PhD NE, DipPrehistArchaeol Cantab.

Lecturer (Prehistory)
Peter Stafford, MA FRAI

Lecturer (Anthropology)
Colin Peter, BSc PhD Lond.

Senior Tutor (Prehistory)
Andréé, BSc Brist., PhD Lond.

Psychology

(See Faculty of Science)

Pure Mathematics

(See Mathematics)

Romance Languages

Professor
Derek Percival, BA Syd., DU Paris

Senior Lecturers

Ethel Elizabeth, BA DipEd WAust., DU Paris
James Alexander, BA Belf., MA
Graham James, MA NZ, MLitt Cantab.

Lecturers

Colin Godfrey, MA NZ, DU Aix-Marseille
Viviane Mahé, DES Rennes
Maurice David, MA Oxon.

Russian

Professor
Reginald George Arthur, BA PhD Lond.

Senior Lecturers
Patrick Rosh, MA Cantab.
Margaret Blanche, MA Melb., DipSlavStud Oxon.

Lecturers
Boris Konstantinovich, MA Moscow State

Sociology

Professor
Jerzy, MBE, MSc(Econ) Lond., FASSA
Reader
Robert Gale, AB Dartmouth Coll., AM PhD Indiana

Lecturers
Lawrence James, BA Notre Dame, STL Greg., MA PhD Texas
Harvey James, BEd Q’ld, MA PhD Minn.
The Faculty of Asian Studies

Dean
Professor Liu Ts’un-yan, BA Peking, BA PhD DLit Lond., DipEd HK, HonDLitt Yeung-Nam, FAHA

Asian Civilizations

Professor
BASHAM, Arthur Llewellyn, BA PhD DLit Lond., HonDLit Kuruk, FSA, FAHA

Readers
RIZVI, Saiyid Athar Abbas, MA PhD DLit Agra, FAHA
LOOFS, Helmut Hermann Ernst, DipOrLang Paris, DrPhil Frib.
JORDENS, Joseph Teresa Florent, LicPhil PhD Louvain, DipEd Melb.

Senior Lecturers
MASON, Richard Henry Pitt, MA Cantab., PhD

Chinese

Professor
LIU, Ts’un-yan, BA Peking, BA PhD DLit Lond., DipEd HK, HonDLitt Yeung-Nam, FAHA

Reader
de CRESPIGNY, Richard Rafe Champion, BA Melb., MA Cantab., BA MA(Oriental Studies) PhD

Senior Lecturer
RYCKMANS, Pierre, LLD PhD Louvain

Lecturer
DYER, Svetlana, MS Georgetown, BA

Lecturing Fellow
LEE, Albert Tao-pei, BA St John’s, Shanghai

Indonesian Languages and Literatures

Professor
JOHNS, Anthony Hearle, BA PhD Lond., FAHA
STAFF LISTS

Senior Lecturers
soebardi, Soebakin, MA
Indonesia, PhD
soewito-santoso, MA
Indonesia, PhD
supomo, Surjohudojo, MA
Gadjah Mada, PhD
prentice, David John, BA
Lond., PhD

Senior Tutors
johns, Yohanni
legge, Elizabeth Sutherland, DipEd Melb., MA(Asian Studies)

Japanese

Professor
To be appointed
Reader and Acting Head of Department
alfonso, Antonio, AM Mich., LicPhil DPhil Pontifical Univ. of Comillas

Lecturers
saito, Ayako, BA Kobe Women's Coll.
pulvers, Roger Stuart, AB Calif., AM Harv.

Senior Tutor
kaneko, Hisazaku, LLB Chuo

Linguistics

(See Faculty of Arts)

South Asian and Buddhist Studies

Professor
de Jong, Jan Willem, dr phil Ley., FAHA
Reader
hergus, Luise Anna, MA Oxon.

Lecturer
rajapatirana, Tissa, MA Ceyl.

Lecturer (Hindi)
barz, Richard Keith, BA Arizona, AM PhD Chic.

Senior Tutor
rahula, Telwatte, BA Vidyalankara, MA Banaras Hindu, PhD Delhi

The Faculty of Economics

Dean
Professor G. S. L. Tucker, BCom Melb., PhD Cantab., FASSA

Accounting and Public Finance

Professor
mathews, Russell Lloyd, BCom Melb., FASSA

Readers
jay, William Robert Charles, BA BCom Q’ld (on leave in 1974)
standish, Peter Edwin Miles, BA BEc Syd.

Senior Lecturers
henderson, James Young, BEc Adel., PhD Calif.
brennan, Harold Geoffrey, BEc

Lecturers
bird, Ronald Geoffrey, MEc Monash
walsh, Clifford, BSc(Econ) MSc Lond.

Senior Tutor
tilley, Ian Geoffrey, BCom Q’ld

Tutor
rolfe, Douglas Norman, BEc NE
Administrative Studies

Professor
CUDD, James, MA Edin., MA PhD Tor.

Economic History

Professor
TUCKER, Graham Shardalow Lee, BCom Melb., PhD Cantab., FASSA

Reader
FORSTER, Colin, BCom Melb., PhD

Lecturers
CORNISH, Selwyn Harcourt, BEc W.Aust.
JACKSON, Robert Vincent, BEc PhD Syd.
MARTINA, Alan, BCom Rhodes, MA Essex
gagg, John Edward Stephen, BA Manc.
BOOT, Hector Macdonald, BSc(Econ) Lond. (on leave in 1974)

Honorary Fellow
CRUISE, Henry Francis, BA Melb. (to arrive)

Economics

Professor (Applied Economics) and Head of Department
CAMERON, Burgess Don, MEC Syd., PhD Cantab., FASSA

Professors
PITCHFORD, John David, MCom Tas., PhD, FASSA
TURNOVSKY, Stephen John, MA Well., PhD Harv.

Reader
NILAND, John Rodney, MCom NSW, PhD Ill.

Senior Lecturers
DRYSDALE, Peter David, BA NE, PhD
EDWARDS, Clive Thomas, BCom Melb., PhD
CHISHOLM, Anthony Hewlings, MAgriSc NZ (on leave in 1974)

Lecturers
LOGAN, John Graham, BCom NSW
STANLEY, Owen Gordon Ponsonby, BEc Syd., PhD
VOUSDEN, Neil John, BA
BAMBRICK, Susan Caroline, BEcon Qld, PhD
CORNES, Richard Charles, MSc Stones
SIEPER, Edward, BEc Syd.
PRESTON, Alan John, BEcon Qld, PhD
SWAN, Peter Lawrence, PhD Monash, BEc

Senior Tutors
COAT, Jillian Irene, BEc Adel.
HIRST, Jane Adah, BEc Adel.
JAMES, Denis Warwick, BA N'cle(NSW), MEC

Tutors
MCLEOD, Ross Hamilton, BE BA Melb.
UPCHER, Mark Russell, BEc Tas.

Political Science

(See Faculty of Arts)

Statistics

Professor (Econometrics) and Head of Department
TERRIEL, Richard Deane, BEc Adel., PhD

Professor (Mathematical Statistics)
HEATHCOTE, Christopher Robin, BA WAust., MA Melb., PhD
Readers
HEYDE, Christopher Charles, MSc Syd., PhD DSc
BYRON, Raymond Peter, MEc WAust., PhD Lond.
SENETA, Eugene, MSc Adel., PhD
Senior Lecturers
JOHN, Sleeba, MSc Trav., PhD Indian Statistical Inst.
WINER, Paul, BSc Rand
JARVIS, Raymond Austin, BE PhD WAust.
MORGAN, John Henry Tagney, BA Cantab., MS Case Western Reserve
STANTON, Robin Barrington, BE PhD NSW
MOLINARI, Brian Patrick, BE WAust., PhD Cantab.
NICHOLLS, Desmond Francis, BSc NE, MSc PhD
VALENTINE, Thomas James, BEc Syd., MA PhD Prin.
Lecturers
CREASEY, Peter Ninnes, BSc Adel.
PAGAN, Adrian Rodney, B Econ Q'ld, PhD
Lecturing Fellow
HURST, Angas John, BSc BE Adel.
Senior Tutor
PETERTSON, Arsine Victoria, SB MIT, MS PhD Cal. Tech.
Tutors
JOHNSON, Christopher William, BSc Monash
FEIGEN, Paul David, BSc Melb.
Temporary Tutor
CHANT, David Charles, MSc Lond.

Centre for Research on Federal Financial Relations

Director
Professor R. L. Mathews, (see Accounting and Public Finance)

Deputy Director
Mr W. R. C. Jay, (see Accounting and Public Finance)

Research Fellow
GREWAL, Bhajan Singh, MA Panj.(J), PhD Punj’i

Visiting Appointment
HARRIS, Charles Percy, BCom MEcon Q’ld, PhD Leeds

The Faculty of Law

Dean
Professor L. R. Zines, LLB Syd., LLM Harv., Barrister-at-Law NSW, Barrister and Solicitor ACT

Robert Garran Professor
RICHARDSON, Jack Edwin, BA LLM Melb., LLM McG., Barrister and Solicitor Vic. & ACT, Barrister-at-Law NSW

Professors
ZINES, Leslie Ronald, LLB Syd., LLM Harv., Barrister-at-Law NSW, Barrister and Solicitor ACT

GREIG, Donald Westlake, LLB MA Cantab. (to arrive)

WHALAN, Douglas John, LLM NZ, PhD Otago, Barrister and Solicitor NZ

HAMBLY, Arthur David, LLB Melb., LLM Harv., Barrister and Solicitor Vic. & ACT

Readers
DAVIS, James Lindsay Reeve, BA LLB NZ, LLB DipComparLegalStud Cantab., Barrister and Solicitor NZ & Vic.
Senior Lecturers

O’Connor, Desmond, BA LLB Syd., LLM PhD Lond., Barrister-at-Law *NSW*, Barrister and Solicitor *ACT* (on leave in 1974)

Pape, David Lewis, BSc SA, LLB *Natal*, Barrister-at-Law *Natal*

Dixon, John, BEc Adel., LLB Syd., FASA, Barrister-at-Law *NSW*, Barrister and Solicitor *ACT*

Holder, William Eilif, BA LLB Melb., LLM Yale, Barrister and Solicitor Vic.

Rinaldi, Fiori, MA *WAust.*, LLB Q’ld, Barrister-at-Law Q’ld

Smith, Douglas William, BCom LLB Melb., Barrister-at-Law *NSW*

Waight, Peter Kenneth, LLM Mich., LLB, Barrister and Solicitor Vic. & PNG

Lecturers

Burnett, Robin, LLB *NZ*, LLM Well., Barrister and Solicitor *NZ*

Thomson, Colin John Houston, BA LLM Syd., Solicitor *NSW*

Goldring, John Lester, BA LLB Syd., LLM Col., Solicitor *NSW*, Barrister and Solicitor PNG & *ACT*

Geddes, Robert Stanley, LLM

Rowland, Charles John, BA LLB *Natal*

Singh, Praveen, BA *Luck.*, LLB Agra, LLM Delhi & Harv.

Senior Tutors

Gamble, Helen Elizabeth Craig, LLB, Barrister-at-Law *NSW*, Barrister and Solicitor *ACT*

Litman, Morris Michael, LLB York (Can.)

Legal Workshop

Director

O’Leary, Kevin Frederick, LLB Syd., Barrister-at-Law *NSW*, Barrister and Solicitor *ACT* & PNG

Assistant Director

Hogan, Alan Eugene, LLB Syd., Barrister-at-Law *NSW*, Barrister and Solicitor *ACT*

Faculty of Science

Dean

Professor J. D. Ovington, PhD DSc Sheff., FFS, FIBiol

Biochemistry

Professor

To be appointed

Senior Lecturers

Dalgarno, Lynn, BAGrSc PhD Melb. (on leave in 1974)

Bygrave, Fyfe Leonard, BSc *NZ*, MSc Otago, PhD Q’ld

Weidemann, Maurice John, BAGrSc PhD Melb.

Stewart, Peter Raymond, BAGrSc PhD Melb.

Howells, Antony John, BAGrSc PhD Melb.
Lecturer
WEIR, Ronald Colin, BSc
Adel., PhD Lond.

Lecturing Fellow
BARRITT, Gregory John, BSc
Adel., PhD

Senior Demonstrator
RAINFORTH, Trevor Douglas, MSc Well.

Demonstrator
WILSON, Jill Margaret, BScAgr
Syd., MSc

Botany

Professor
PRYOR, Lindsay Dixon, DSc
Adel., DipFor AFS

Reader
PATON, Dugald Maxwell, BSc
PhD Tas.

Senior Lecturers
CARNAHAN, John Andrew, MSc
PhD NZ
BRITTAINE, Edward George, BSc
PhD Melb.
BYRNE, Osman Roy, BSc Q’ld,
BSc PhD Adel.
CHILVERS, Graham Arthur,
BScAgr Syd.
WHITECROSS, Malcolm Iain,
MSc Q’ld, PhD Syd.

Lecturer
ASTON, Mervyn Jeffery,
MScAgr Syd., PhD Calif.

Postdoctoral Fellow
ALLAWAY, Anne Elizabeth, BA
Cantab., PhD Leeds

Senior Demonstrators
HEWSON, Helen Joan, BSc
PhD Syd.
SEVIJOUR, Robert James, BSc
PhD Bath

Temporary Senior Demonstrator
PORTER, David, BSc Melb.

Chemistry

Professor and Head of Department
ROSS, Ian Gordon, MSc Syd.,
PhD Lond., FRACI, FAA

Professor
HAMBLY, Arthur Neville, MSc
DipEd Melb., FRACI

Associate Professor
CROW, Wilfrid Douglas Laidlaw,
MSc Syd., PhD SHEFF., FRACI
(Organic Chemistry)

Readers
BRADBRURY, James Howard,

NZ, MAgSc Cant.
WOOD, Geoffrey Burke, BScFor
Q'ld, DipFor Oxon., PhD
STEVENS, Peter Raglan, MAgSc
NZ, PhD Cant.

Part-time Lecturer
GRiffin, David Michael, MA
PhD ScD Cantab.

Research Fellows
REILLY, James John, BScFor
BCom Q'ld
PRATT, Bryan Harry, BScAgr
Syd., BAgSc PhD Adel.

Senior Demonstrators
SLEE, Michael Urquhart, MA
Oxon., MSc
BANKS, John Charles Gripper,
MSc(Forresty)

BUICK, Roger Graham, BSc
Cant., BSc(Forresty)
BLAKE, Terence John, BScFor
Syd., MFor Yale

Visiting Appointment
WILSON, Brayton Fuller, BA
MFS Harv., PhD Calif., DipFor
AFS (until July 1974)

Geology

Professor
BROWN, David Alexander, MSc
NZ, PhD DIC Lond.

Readers
CAMPBELL, Kenton Stewart
Wall, MSc PhD Q'ld
CROOK, Keith Alan Waterhouse,
MSc Syd., PhD NE, BA
CONYBEARE, Charles Eric
Bruce, MSc Alta, PhD
Wash.State

Senior Lecturers
RICKARD, Michael John, BSc
PhD DIC Lond.
CHAPPELL, Bruce William, MSc
NE, PhD (on leave in 1974)
EGGLETON, Richard Anthony,
BSc Adel., PhD Wis.
MCDONALD, John Angus, MSc
Manit., PhD Wis.

Senior Demonstrators
FUNK, John Leon, BS AM
Missouri, DIC Lond. (until
September 1974)
TAYLOR, Graham Murray,
MSc NSW
SMITH, Ian Ernest, BSc Well.

Mathematics

(See Faculty of Arts)
Physics

Professor and Head of Department
HINDS, Stanley, BSc PhD Liv.

Professor
DUNBAR, David Noel Ferguson, MSc NZ, PhD Melb.

Readers
MORTLOCK, Allan John, MSc Syd., PhD R'dg, FAIP
STALKER, Raymond John, BSc MEngSc PhD Syd.

Senior Lecturers
BROWN, Laurie Oakley, MSc NZ, PhD Edin.
DAHLSTROM, Carl Eugene, MA Sask., PhD McGill.
SANDEMAN, Ronald John, BSc Adel., MSc Melb., PhD Cantab.
GORE, Michael Miles, BSc PhD Leeds
HORNUNG, Hans Georg, BE MEngSc Melb., PhD Lond.
(on leave in 1974)
MACDONALD, Ronald James, BSc PhD NSW
BAXTER, Allan Malcolm, MSc PhD Melb.

Research Fellow
BAYLY, Alan Rupert, BEng Liv., PhD Salf.

Senior Demonstrator
TILLER, William Eugene, MS Clemson

Demonstrator
DAVIES, David Richard Llewellyn, BSc

Professor
PROVINS, Kenneth Alfred, MA Oxon., PhD R'dg

Associate Professors
PENTONY, Patrick, MA WAust.
SEAGRIM, Gavin Nott, BA Lond., MSc Melb.

Senior Lecturers
MIDDLETON, Margaret Rendall, MA Melb., PhD WAust.
TROTTER, John Raymond, BA R'dg, DPhil Oxon.
GLADSTONE, William Harold, MA WAust., PhD Tufts
COOK, Michael Lewis, BSc Man., MSc PhD

Lecturers
BELLINGHAM, William Paul, AB Calif., PhD New Mexico
DARROCH, Russell Kent, BA Carleton Coll., MA PhD Ill.
CHEN, May-Jane, MSc Nat. Taiwan, PhD Syd.

Senior Demonstrators
FARRER, Bridget, BA Syd., MPhil Lond.
BOSSLEY, Michael Ion, MSc Auck.

SchLECHTER, Jay Michael, BS CUNY, MA Roch., CPhil PhD Calif.

Demonstrators
SMALL, Jennifer Jessie, BA NSW
SALFIELD, Philip Derek, BSc Leic.

TIMMINS, William Kurt, AB Calif.

Theoretical Physics

Professor
BUCHDAHL, Hans Adolph, DSc Lond., ARCS, FAA

Reader
MELROSE, Donald Blair, BSc Tas., DPhil Oxon.

Psychology

Professor and Head of Department
GIBB, Cecil Austin, OBE, BEc MA Syd., PhD Ill., FBPsS, FASSA
Lecturer
ANDREWS, Mark, MSc Q'ld, PhD Birm.

Zoology

Professor
BARNETT, Samuel Anthony, MA Oxon.

Readers
NICHOLAS, Warwick Llewellyn, BSc PhD Liv.
TYNDALE-BISCOE, Cecil Hugh, MSc NZ, PhD WAust.

Senior Lecturers
SHORT, John Robert Thomas, BSc WAust., DPhil Oxon., DSc Aberd.
BARWICK, Richard Essex, MSc NZ, PhD
BRYANT, Christopher, MSc PhD Lond.
HARRIS, Vernon Arthur Peperell, BSc PhD Lond.
JANSSENS, Peter Anthony, BSc PhD Sheff.
MARPLES, Timothy George, MSc NZ, PhD Georgia

Australian Meat Research Committee Research Fellow
HEATH, David Duncan, MRurSc NE, PhD (until June 1974)

Senior Demonstrators
CARSTAIRS, James Leslie, BA Dub., PhD Monash
WALKER, Karen Zell, BSc Well., PhD
HORN, Peggy Loraine, BS DVM Mich.State, PhD Calif.

Honorary Fellow (Queen Elizabeth Fellow)
MOORE, Geoffrey Philip Milton, PhD Flin., BSc (to arrive)

Human Sciences Program

Professorial Fellow and Head of Program
BOYDEN, Stephen Vickers (see Human Biology, John Curtin School of Medical Research)

Lecturing Fellow in Human Ecology
EVANS, Jeremy John Tillyard, BSc Syd., PhD Harv.
The Institute of Advanced Studies

This list sets out the membership of the staff as at 1 September 1973, but also includes prospective members whose dates of appointment fell shortly thereafter. It has also been possible to include some later changes in senior staff and omit staff whose resignation became effective prior to the date of publication.

Deputy Chairman of the Board of the Institute of Advanced Studies
Professor Wang Gungwu, MA Malaya, PhD Lond., FAHA

The Research School of Biological Sciences

Director
Professor Sir Rutherford (Ness) Robertson, CMG, PhD Cantab., DSc Syd., HonDSc Adel., Tas. & Monash, HonScD Cantab., FAA, FRS

Developmental Biology

Professor and Head of Department
CARR, Denis John, BSc PhD Manc., HonMSc Melb., FIBiol

Professor
GUNNING, Brian Edgar, MSc PhD Belfast.

Senior Fellows
LETHAM, David Stuart, MSc NZ, PhD Birmingham.

GIBBS, Adrian John, BSc PhD Lond., ARCS

Senior Research Fellow
CLARK-WALKER, George Desmond, MSc WAus., DPhil Oxon.

Research Fellows
RYRIE, Ivan James, BSc PhD Syd.
GOODWIN, Peter Brodie, MScAgr Syd., PhD Nott.
QUAIL, Peter Hugh, BScAgr PhD Syd.
SCOTTI, Paul Douglas, BS PhD Calif.
YU, Richard Shue-Tak, MSc Monash, PhD

Honorary Fellow
CARR, Stella Grace Maisie, MSc Melb.

Environmental Biology

Professor
SLATYER, Ralph Owen, DSc(Agric) WAus., FAA

Professorial Fellow
COWAN, Ian Roy, MSc Lond., PhD Nott.
Senior Fellow
OSMOND, Charles Barry, MSc NE, PhD Adel.

Research Fellows
ALLAWAY, William George, MA Cantab., PhD Lanc. (until April 1974)
MACAULEY, Barry John, MSc Melb., PhD Syd.
TRENBATH, Brian Rahr, MA DipAgrSc Cantab., MSc Wales, PhD Adel.
MORROW, Patrice Ann, MA Calif., PhD Stan.
WALKER, Keith Forbes, BSc PhD Monash
POTTS, Donald Cameron, BSc Q’ld, PhD Calif.

Postdoctoral Fellow
FOX, Laurel Ruth, BS Corn., MA PhD Calif.

Visiting Fellow
NOBEL, Park, BEP Corn., MS Cal. Tech., PhD Calif. (until September 1974)

Honorary Fellow (Queen’s Fellow in Marine Sciences)
ANDREWS, Thomas John, BSc PhD Q’ld (until June 1974)

Genetics

Professor and Head of Department
HAYES, William, BA MB BCh ScD HonLLD Dub., HonDSc Leic., Kent & NUI, FRCPI, FRS

Senior Fellows
CREASER, Ernest Howard, MA PhD Cantab.
DOY, Colin Herbert, BSc Wales, PhD Melb., FRACI, FRIC

Research Fellows
Baldwin, John, MSc Monash, PhD Br.Col.
MIKLOS, George Leslie Gabor, BSc PhD Syd.

DYKHUIZEN, Daniel Edward, BS Stan., PhD Chic.
RICHARDSON, Barry John, BSc PhD NSW

Postdoctoral Fellow
BENTLEY, Keith William, MSc Well., PhD (until November 1974)

Visiting Fellow
CATCHESIDE, David Guthrie, MA Cantab., DSc Lond., FAA, FRS (until December 1974)

Honorary Research Fellow (Queen Elizabeth Fellow)
ROLFE, Barry Garth, BAgrSc PhD Melb.

Neurobiology

Professor
HORRIDGE, George Adrian, MA PhD ScD Cantab., FAA, FRS

Senior Fellow
SANDEMAN, David Cartner, MSc Natal, PhD StAnd.

Research Fellows
YOUNG, David, BA Oxon., PhD Wales (until August 1974)
BALL, Eldon Edward, AB Stan., PhD Calif. (until October 1974)
DENBURG, Jeffrey Lewis, BA Amherst Coll., PhD JohnsH
BATE, Christopher Michael, BA Oxon., PhD Cantab.
NOCKE, Harald, Dr rer nat Cologne, Diplom-Biologe Mainz
MIMURA, Keiichi, DrMedSci Tokyo Univ. of Education

Postdoctoral Fellows
FRASER, Peter John, BSc PhD Aberd.
STANGE, Friedrich Gert, Dr rer nat Gott.
Visiting Fellow
ASHHURST, Doreen Elizabeth, MA DPhil Oxon. (until September 1974)

Honorary Fellow
SILVEY, Gerald Edmond, BS St Mary's Coll., California, MA Calif., PhD Miami

Population Biology

Professor
JOHN, Bernard, MSc PhD Wales, DSc Birm., FIBiol

Fellow
SHAW, David Dobson, BSc Durh., MSc Birm., PhD S'ton

Research Fellows
DEARN, John Michael, BSc EAnglia, PhD S'ton
NANKIVELL, Robert Neil, BSc PhD Melb.

Visiting Fellow
HEWITT, Godfrey Matthew, BSc PhD Birm.

Molecular Biology Unit

Professorial Fellow
NAORA, Hiroto, BSc Tokyo Univ. of Lit. & Sci., DSc Tokyo

Research Fellow
MERCER, Julian Francis Bertrand, PhD Adel., BSc

Postdoctoral Fellow
WETTENHALL, Richard Edward Hugh, BSc Melb., PhD Monash

Taxonomy Unit

Senior Fellow
HOOGLAND, Ruurd Dirk, Dr Ley.

Fellow
WATSON, Leslie, MSc Manc., FLS

Laboratory Manager

HARDMAN, Donald, FIMLT

Crumpton, Michael Joseph, BSc PhD Lond.
Honorary Fellow
Eaton, Bryan Thomas Samuel, BSc Belf., MSc McG., PhD Qu.

Pharmacology

Professor and Head of Department
Curtis, David Roderick, MB BS Melb., PhD, FAA, FRS
Senior Fellow
Johnston, Graham Allen Ross, MSc Syd., PhD Cantab.
Fellow
Duggan, Arthur William, BSc MD BS Q'ld, PhD
Research Fellow
Uhr, Marie Louise, BScApp(MedSc) Q’ld, MS Colorado, PhD
Postdoctoral Fellow
Davies, John, BPharm PhD Lond.

Physical Biochemistry

Professor
Nichol, Lawrence Walter, BSc PhD Adel., FRACI
Professorial Fellow
McKenzie, Hugh Albert, MSc PhD Syd., FRACI
Senior Fellow
Roy, Alexander Bilton, PhD DSc Edin.
Fellow
Jeffrey, Peter Dalrymple, BSc PhD Adel.

Protein Chemist (Fellow)
Shaw, Denis Castle, BSc WAust., PhD Cantab.

Research Fellows
Andrews, Peter Ronald, BSc PhD Melb. (until November 1974)
Smith, Geoffrey David, MSc PhD Melb.
Farooqui, Akhlaq Ahmed, BSc Agra, MSc MPhil PhD Alig.
Roberts, David Victor, BSc Brist., MSc PhD Belf.

Postdoctoral Fellow
Murray, Austin Carlos, BSc(Agr) McG., PhD Alta

Honorary Fellow
Taylor, Mervyn Coombe, MSc Tas.

Physiology

Professor
Bishop, Peter Orlebar, MB BS DSc Syd., FAA
Professorial Fellow
Levick, William Russell, MB BS MSc Syd., FAA
Electronics Engineer
Coombs, John Saxon, MSc NZ
Senior Fellow
Close, Russell Ian, MSc NZ, PhD Ill.

Fellows
Henry, Geoffrey Herbert, BSc MAppSc Melb.
Cleland, Brian Geoffrey, BE NSW, MS PhD Northwestern

Senior Research Fellow
Stone, Jonathan, BSc(Med) PhD Syd.

Postdoctoral Fellows
Goodwin, Antony Wilfred, BSc(Eng) Rand, MS PhD Cal. Tech.
Hughes, Austin, MA Oxon., PhD Edin., DIC Lond. (until August 1974)
Fukuda, Yutaka, MD PhD Osaka (until November 1974)
Honorary Fellow
Nelson, Jeremiah, BA Swarthmore Coll., PhD NYState (until December 1974)

Medical Chemistry Group

Reader and Head of Group
Brown, Desmond Joseph, MSc Syd., PhD DSc Lond., FRACI
Professorial Fellow
Perrin, Douglas Dalzell, MSc NZ, PhD DSc Lond., FRIC, FRACI
Senior Fellows
Spinner, Ernest, MScTech PhD DSc Manc., FRACI
Armarego, Wilfred Louis Florio, PhD DSc Lond., FRIC, FRACI
Barlin, Gordon Bruce, MSc Syd., PhD, FRACI
Senior Research Fellow
Lister, John Henry, BSc PhD Lond., FRIC, FRACI
Research Fellows
Pendergast, William, PhD Salf. Agarwal, Raghunath Prasad, MS Luck., PhD Gorak.
Honorary Fellow
Stephanson, Lawrence Gerald, BSc(Pharm) PhD Br.Col. (until October 1974)

Animal Breeding Establishment

Fellow
Smith, John Beaupeurt, BVSc Syd., PhD

Business Manager
To be appointed

Technical Manager
Wight, Jack Byam

The Research School of Pacific Studies

Director
Professor Donald Anthony Low, MA DPhil Oxon., FAHA

Anthropology

Professor (Anthropology) and Head of Department
Freeman, John Derek, PhD Cantab., DipAnthrop Lond., FASSA
Professor (Prehistory)
Keesing, Roger Martin, AB Stan., AM PhD Harv. (to arrive)
Senior Fellows
Reay, Marie Olive, MA Syd., PhD
Wijeyewardene, Gehan Eardley Thomas, BA Ceyl., MA PhD Cantab.
Senior Research Fellow
Harris, William Stewart, MA Cantab.
Research Fellow
Peterson, Nicolas, BA Cantab., PhD Syd.
Postdoctoral Fellows
Alexander, Riordon Paul, MA Otago, PhD
Tonkinson, Robert, MA WAust., PhD Br.Col.
Honorary Fellows
STANNER, Emeritus Professor
William Edward Hanley, CMG,
MA Syd., PhD Lond., HonDLitt,
FASSA (until June 1974)
LEWIS, David, MB ChB MSc
Leeds, FRSM

Biogeography and Geomorphology

Professor
WALKER, Donald, BSc Sheff.,
MA PhD Cantab.

Professorial Fellow
JENNINGS, Joseph Newell, MA
PhD Cantab.

Senior Fellow
WACE, Nigel Morritt, MA
Oxon., PhD Belf.

Fellows
SINGH, Gurdip, MSc Panj.(I),
PhD Luck. & Belf.

BOWLER, James Maurice, MSc
Melb., PhD

Senior Research Fellow
THOM, Bruce Graham, BA Syd.,
PhD Louisiana State

Research Fellows
MCLEAN, Roger Fairbairn, MA
NZ, PhD McG.

OGDEN, John, MSc PhD Wales

Honorary Fellow
REEVE, Helena Edith, BSc
PhD Leic.

Economics

Professor
ARNDT, Heinz Wolfgang,
MA BLitt Oxon., FASSA

Professorial Fellows
BUTT, David Miles Bensusan,
MA Cantab., FASSA

FISK, Ernest Kelvin, MA Oxon.
DONNITHORNE, Audrey Gladys,
MA Oxon.

SUNDURM, Ramaswamy
Meenatchi, BA BL Rangoon,
PhD Lond.

Senior Fellows
LLOYD, Peter John, MA Well.,
PhD Duke

PENNY, David Harry, BA MEc
Adel., AM Stan., PhD Corn.

SHAND, Richard Tregurtha,
MScAgr Syd., PhD Iowa

Senior Research Fellows
BARLOW, Colin Hastings, MBE,
BSc Lond., MS Corn., PhD
Aberd.

ETHERINGTON, Dan Maxwell,
BEcon Rhodes, MS Corn., AM
PhD Stan.

TREADGOLD, Malcolm Lloyd,
BEC WAust., BPhil Oxon., PhD

WHITCOMBE, Elizabeth Marion,
MA NZ, BA Oxon., PhD Lond.

Research Fellow
RICHTER, Hazel Varvara, MA
Manc.

Visiting Fellow
MANNING, Richard Cole, BA
Syd., PhD North Carolina State,
DipEd NE

Honorary Fellows
MELVILLE, Sir Leslie (Galfreid),
KBE, BEc Syd., HonLLD Tor.,
FIA, FASSA

CRAWFORD, Emeritus Professor
Sir John (Grenfell), CBE, MEc
Syd., HonDSc N*cle(NSW),
HonDEc NE, HonLLD Tas.,
FAIAS, FASSA

Far Eastern History

Professor
WANG Gungwu, MA Malaya,
PhD Lond., FAHA
Professorial Fellows

WANG Ling, BA Nanking, PhD Cantab.

CRAWCOUR, Edwin Sydney, BA Melb., MA Cantab., PhD

Senior Fellows

BARNARD, Noel, BA NZ, PhD FAHA
de RACHEWILTZ, Igor, CertCin Oriental Inst. Naples, PhD, FAHA

LO, Hui-min, BA Yenching, PhD Cantab.

FRASER, Andrew, MA Oxon., PhD

Research Fellows

HALL, John Christopher

Stephen, BA PhD Leeds

SIGEL, Louis, BA Yale, AM PhD Harv.

Visiting Fellow

TORIUMI, Yasushi, MA Tokyo

Human Geography

Professor

WARD, Ralph Gerard, MA NZ, PhD Lond., FASSA

Professorial Fellow

LINGE, Godfrey James Rutherford, BSc(Econ) Lond., PhD NZ

Senior Fellows

RIMMER, Peter James, MA Manc., PhD Cant.

MCGEE, Terence Gary, BA NZ, MA PhD Well.

Fellow

KISLING, Christopher Charles, BA NZ, MA Cant., PhD McG.

Senior Research Fellow

CLARKE, William Carey, MA PhD Calif.

Research Fellows

HOWLETT, Diana Rosemary, BA Adel., PhD

WEINAND, Herbert Charles, PhD De Paul, MS Wis.

Postdoctoral Fellow

CONYERS, Diana, BA DPhil Sus. (until May 1974)

Honorary Fellow

CANT, Robert Garth, MA NZ, PhD Malaya

International Relations

Professor and Head of Department

BULL, Hedley Norman, BA Syd., BPhil Oxon., FASSA

Professor

MILLER, John Donald Bruce, MEC Syd., FASSA

Professorial Fellow

MILLAR, Thomas Bruce, BA WAust., MA Melb., PhD Lond.

Senior Fellows

O’NEILL, Robert John, BE Melb., MA DPhil Oxon.

JUKES, James Thomas Geoffrey, MA Oxon.

Fellows

SISSONS, David Carlisle Stanley, MA Melb.

GIRLING, John Lawrence Scott, BA Oxon.

Senior Research Fellows

ADIE, William Andrew Charles, MA Oxon.

WARNER, Geoffrey, MA Cantab. (until October 1974)

HOLBRAAD, Carsten, BSc(Econ) Lond., DPhil Sus.

Research Fellow

TEIWES, Frederick Carl, BA Amherst Coll., PhD Col.

Postdoctoral Fellow

WELFIELD, John Barnett, BA NE, PhD
Honorary Fellows

WATT, Sir Alan (Stewart), CBE, BA Syd., MA Oxon.
NEALE, Robert George, MA
DipEd Melb. (until May 1974)

Linguistics

Professor

WURM, Stephen Adolphe, DrPhil Vienna

Senior Fellows

LAYCOCK, Donald Clarence, BA NE, PhD
VOORHOEVE, Clemens Lambertus, Dr Ley.

Fellows

TRYON, Darrell Trevor, MA Cant., PhD
DUTTON, Thomas Edward, MA Q’ld, PhD

Postdoctoral Fellow

guy, Jacques Bernard Michel, PhD

Visiting Fellow

LIEM, Nguyen Dang, LèsL, Saigon, AM Mich., PhD

Pacific and South-East Asian History

Head of Department
To be appointed

Professor

SPATE, Oskar Hermann Khristian, MA PhD Cantab., FAHA, FASSA

Senior Fellows

SCARR, Deryck Anthony, BA Exe., PhD
REID, Anthony John Stanhope, MA Well., PhD Cantab.

Fellows

GUNSON, Walter Niel, MA Melb., PhD

Senior Research Fellow

GILLION, Kenneth Lowell
Oliver, MA NZ, AM Tufts, PhD

Research Fellows

CORRIS, Peter Robert, BA Melb., MA Monash, PhD (until May 1974)
CASTLES, Lance, BA Melb., MA Monash, PhD Yale
FIRTH, Stewart George, BA Syd., DPhil Oxon., MA

Visiting Fellow

SILVERMAN, Martin Gary, AB Harv., AM PhD Chic., FRAI (until August 1974)

Public Service Fellow

GRANGER, William, BVSc Syd.

Prehistory

Professor

GOLSON, Jack, MA Cantab.

Fellow

JONES, Rhys Maengwyn, MA Cantab., PhD Syd.

Research Fellows

THORNE, Alan Gordon, MA Syd.
ALLEN, Frederick James, BA Syd., PhD
O’CONNELL, James Francis, AB PhD Calif.

New Guinea Research Unit

Field Director (Senior Fellow)

MAY, Ronald James, MEc Syd., DPhil Oxon.

Research Fellows

STONE, David Joseph, MA Auck., PhD
Hughes, Ian Morris, BA Syd., PhD
Garnaut, Ross Gregory, BA PhD
Lang, Ranier, MA Texas, PhD
Strathern, Ann Marilyn, MA PhD Cantab.
Honorary Fellow
Ward, Marion Wymbourm, MSc NZ, PhD Minn.

Directors Section

Research Fellow
Jeffrey, Robin Bannerman, BA Vic.BC, DPhil Sus.

Business Manager

Grimshaw, Peter John

The Research School of Physical Sciences

Acting Director
Professor K. J. Le Couteur, MA PhD Cantab., FAA

Applied Mathematics

Professor
Ninham, Barry William, MSc WAust., PhD Maryland
Senior Fellow
Snyder, Allan Whitenack, BS Penn.State, SM MIT & Harv., PhD Lond.
Fellow
Pask, Colin, BSc Lond., PhD NSW
Research Fellows
Perram, John William, BSc Syd., PhD Manc.

Mitchell, Douglas John, BSc Syd., PhD NSW
Richmond, Peter, BSc PhD Lond.
Honorary Research Fellow (Queen Elizabeth Fellow)
Love, John Duncan, MA Cantab., BA DPhil Oxon.

Astronomy

Professor and Director of the Observatory
Eggen, Olin Jeuck, BA PhD Wis.
Professor
Gascoigne, Sidney Charles Bartholomew, MSc NZ, PhD Brist., FAA
Professorial Fellow
Rodgers, Alexander William, BSc Syd., PhD
Senior Fellows
Gollnow, Heinz Rudolf Friedrich, Dr phil Berl.
Mathewson, Donald Seaforth, MSc Q'ld, PhD Manc.
Abraham, Henry James McKellar, MSc NZ
Fellows
Przybylski, Antoni, MagFil Poznan, DrScTech ETH Zür. PhD
Faulkner, Donald Jack, MSc Q'ld, PhD
Freeman, Kenneth Charles, BSc WAust., PhD Cantab.
Bessell, Michael Stanley, BSc Tas., PhD
Hyland, Ardon Robin, BSc Q'ld, PhD
Research Engineer (Fellow)
Gottlieb, Kurt, DipIng Tech. Univ. of Brno
Senior Research Fellow
Kalnajs, Agris Janis, SB MIT, PhD Harv.
Research Fellows

PETERSON, Bruce Alrick, SB
MIT, MS PhD Cal. Tech. (until October 1974)
DISNEY, Michael John, BSc
Manc., PhD Lond. (until June 1974)
VIDAL, Nessio Victor, BSc
Hebrew Univ. of Jerusalem, MSc
PhD Tel Aviv

Honorary Professor

WOOLLEY, Sir Richard (van der Riet), OBE, MSc Cape T., MA ScD Cantab., HonLLD Melb.,
FAA, FRS

Honorary Fellow (Queen Elizabeth Fellow)

WICKRAMASINGHE, Dayal Tissa, MA PhD Cantab.

Honorary Fellow

BERN, Kjell, FK FM FL Lund.

Engineering Physics

Professor

KANDEFF, Stephen, BE PhD Adel.

Senior Research Engineers (Senior Fellows)

BLEMEY, John William, MSc
Melb.
INALL, Edward Kenneth, BSc
BE Syd., PhD R’dg
MARSHALL, Richard Astley, BSc
BE NZ, SM Harv.
CARDEN, Peter O’Neil, ME Q’ld

Fellows

MORTON, Arthur Hilary, DFC, MSc WAust., PhD
MACLEOD, Iain Donald Graham, BE NSW, PhD

Research Engineer (Fellow)

VANCE, Colin Francis, MSc NZ

Senior Research Fellow

HUGHES, John Leonard, BSc
PhD Wales

Research Fellows

HOLLIS, Murray John, BSc
PhD NSW

IRONS, Frank Edward, BSc
PhD Syd. (until October 1974)

STRACHAN, James Douglas, MSc
PhD Br.Col.

BARBER, John Philip, BSc
Sask., PhD

BELL, Michael George, BSc Syd.

Honorary Fellow

FRYER, John Graham, BSurv
PhD NSW (until June 1974)

Mathematics

Professor and Head of Department

NEUMANN, Bernhard Hermann, Dr phil Berl., PhD Cantab.,
DSc Manc., FAA, FRS

Professor

EDWARDS, Robert Edmund,
BSc Manc., PhD Lond., FAA

Senior Fellows

COPPEL, William Andrew, BA
Melb.

KOVAcs, László György, MSc
PhD Manc.

YAMAMURO, Sadayuki, BSc
Tohoku, PhD Hokkaido

NEWMAN, Michael Frederick,
MSc Syd., PhD Manc.

Senior Research Fellows

IZUMI, Masako, BSc Tokyo Univ. of Sci., MSc Tokyo Metro.

RANGASWAMY, Kulumani
Meenakshisundaram, BA MSc
PhD Madr.

Research Fellows

MCDOUGALL, David, MSc
N’cle(UK), PhD Lond. (until September 1974)

STAPLES, John, MSc Melb.,
PhD Brist. (until December 1974)
Hickman, John Llewellyn, BA Adel., MSc PhD Flin.
Praeger, Cheryl Elisabeth, MSc Q'ld, MSc DPhil Oxon.

Honorary Fellows
Izumi, Shin-ichi, DSc Tohoku (until August 1974)
Mahler, Kurt, Dr phil nat Fran., DSc Manc., FAA, FRS (until June 1974)

Nuclear Physics

Professor and Head of Department
Newton, John Oswald, MA PhD Cantab., DSc Manc.
Professor
Titterton, Sir Ernest (William), CMG, MSc PhD DipEd Birm., FRSA, FAA

Professorial Fellow
Treacy, Peter Bradley, MSc Syd., PhD Cantab.

Senior Fellows
Hebbard, Dale Furneaux, BA MSc PhD Melb.
Ophel, Trevor Richard, BSc Adel., PhD

Fellows
Hay, Halcro Johnston, MSc NZ, PhD
Spear, Raymond Harold, MSc PhD Melb.
Nurzynski, Jan, Dr n Jagellonian

Research Fellows
Bell, Robin Alexander Ian, MSc Well., DPhil Oxon.
Weisser, David Calvin, BS CUNY, MS PhD Minn.
Ferguson, Stephen Mason, BS Montana State, MS PhD Wash. (until October 1974)

Hollas, Charles Lawrence, BS PhD Texas (until December 1974)
Kean, Douglas Cromar, BSc Glas., PhD
Shikazono, Naomoto, BSc PhD Tokyo
Dragoulis, George Dionysius, BSc PhD Melb. (until August 1974)
Gebbie, Dennis William, BSc Tas., MS Northwestern, PhD Wis.

AINSE Research Fellow
Bray, Kevin Howard, BSc WAust., PhD (until August 1974)

Honorary Fellow
Newton, Silva Dusan, BA PhD Belgrade

Solid State Physics

Professor
Runciman, William Alan, DSc Edin., FInstP, FAIP, FGA

Research Fellows
Vance, Eric Raymond, BSc Melb., PhD Monash
Window, Brian, BSc Q'ld, PhD Monash
Manson, Neil Bressay, MSc PhD Aberd.
Dickson, Bruce Lockhart, MSc Well., PhD DIC Lond.

Visiting Fellow
Cox, Ronald Thomas, BSc Q'ld, D es S Grenoble I

Theoretical Physics

Professor and Head of Department
Le Couteur, Kenneth James, MA PhD Cantab., FAA

Professor
Peasley, David Chase, AB Prin., PhD MIT
Professorial Fellow
BARKER, Frederick Charles, MSc Melb., PhD Birm.

Senior Fellows
KUMAR, Kailash, BSc Agra, MSc Alld, PhD McM.
ROBSON, Brian Albert, MSc PhD Melb.
WOOLCOCK, William Stewart, BSc Q’ld, PhD Cantab.
TASSIE, Lindsay James, MSc PhD Melb.
BAXTER, Rodney James, MA Cantab., PhD

Senior Research Fellows
MAHANTY, Jagadishwar, BSc Utkal, MSc Calc., PhD Maryland
TERASAWA, Takuo, MSc PhD Tokyo

Research Fellows
KENNY, Brian Graham, BA MSc Melb., PhD Chic. (until November 1974)
GIBBERD, Robert William, BSc PhD Adel. (until August 1974)
DEWAR, Robert Leith, MSc Melb., PhD Prin.

Visiting Fellow
PARANJAPE, Vireshwar Vishwanath, MSc Nag., PhD Liv. (until July 1974)

Electron and Ion Diffusion Unit

Senior Fellow and Head of Unit
CROMPTON, Robert Woodhouse, BSc PhD Adel.

Fellow
ELFORD, Malcolm Thomas, BSc PhD Adel.

Research Fellow
MILLOY, Hugh Bennet, BSc StAnd., PhD

Honorary Fellow
HUXLEY, Emeritus Professor
Sir Leonard (George Holden), KBE, MA DPhil Oxon., HonDSc Tas., FInstP, FAA (until December 1974)

Laboratory Manager
WHITTLE, Robert Denis

The Research School of Social Sciences

Acting Director
Professor G. Sawer, BA LLM Melb., FASSA, Barrister and Solicitor Vic.

Diffusion Research Unit

Senior Fellow
MILLS, Reginald, MSc NZ, PhD Wash., (StL), DSc

Fellow
WOOLF, Lawrence Arthur, MSc WAust., PhD NE

Visiting Fellow
HANLEY, Howard, BSc PhD Lond., ARIC

Demography

Professor and Head of Department
CALDWELL, John Charles, BA NE, PhD, FASSA

Professor
BORRIE, Wilfred David, OBE, MA NZ, FASSA

Professorial Fellow
PRICE, Charles Archibald, BA Adel., MA DPhil Oxon., FASSA
Senior Fellow
DAY, Lincoln Hubert, BA
Yale, MA PhD Col.

Senior Research Fellows
KUNZ, Egon Cornelius Francis
Gustav, dr phil Bud., MA Syd.
(until April 1974)
RUDZICKA, Ladislav Theodor,
CSc Charles (until August 1974)

Research Fellows
YOUNG, Christabel Marion, BA
Adel., PhD
WARE, Helen Ruth Elizabeth,
BA Durh., PhD Lond.
PRYOR, Robin John, MA
DipEd Melb., PhD Malaya
McDONALD, Peter Francis,
BCom NSW, PhD

Postdoctoral Fellow
TSOUNIS, Michael Peter, BA
PhD Adel.

Economic History

Professor and Head of Department
BUTLIN, Noel George, BEc
Syd., FASSA

Professor
BUTLIN, Sydney James
Christopher Lyon, BEc Syd.,
MA LittD Cantab., FASSA

Professorial Fellow
BARNARD, Alan, BEc Syd., PhD

Senior Fellow
GAIN, Neville George, BCom
Melb., PhD

Fellow
TUCKER, Kenneth Arthur, MCom
BA Auck., PhD Lond.

Research Fellow
PINCUS, Jonathan James,
BEcon Q'ld, AM PhD Stan.

Visiting Fellow
MORI, Takeshi, BA Waseda,
MA Wash.State (until
April 1974)

Economics

Professor and Head of Department
SWAN, Trevor Winchester,
BEC Syd.

Professor
GRUEN, Fritz Henry Georg, BA
BCom Melb., MS(AgEc) Wis.,
AM Chic., FASSA

Professorial Fellow
HALL, Alan Ross, BEc Syd.,
PhD Lond.

Senior Fellows
HAIG, Bryan Douglas, MCom
Melb.
GREGORY, Robert George,
BCom Melb., PhD Lond.

Senior Research Fellow
KASPER, Wolfgang Ernst,
Diplom Volkswirt Saar, Dr rer
oeec Kiel

Research Fellow
SIDDIQUE, Abul Khair
Mohammad, MA Dacca, MA
Williams Coll., MPhil PhD Yale

Honorary Fellow
RANDALL, Sir Richard John,
BEC Syd., ACIS

History

Professor and Head of Department
LNAUZE, John Andrew, BA
WAust., MA Oxon., LittD
Melb., FAHA, FASSA

Professor
MACDONAGH, Oliver Ormond
