      (i) if the declaration is, in his opinion, signed by a person who is entitled to vote at the poll (being a person who has not previously voted at the poll) and is duly attested—accept the vote for further scrutiny; or
      (ii) if the declaration is not so signed or attested—disallow the ballot-paper without opening the envelope; and

RULES FOR COUNTING VOTES.

1. The Returning Officer shall count the first preference votes given for each candidate on all ballot-papers not rejected as informal.

2. A quota shall be determined by dividing the total number of first preference votes by one more than the number of candidates required to be elected and by increasing the quotient so obtained (disregarding any remainder) by one.

3. A candidate who has, upon the first preference votes being counted, received a number of votes equal to or greater than the quota shall be elected.

4. Where the number of first preference votes received by an elected candidate is equal to the quota, the whole of the ballot-papers on which a first preference vote is given for that candidate shall be set aside, as finally dealt with.

5. Where the number of first preference votes received by an elected candidate is in excess of the quota, the surplus votes (that is, the votes in excess of the quota) of the candidate shall be transferred to the continuing candidates, in proportion to the voters' preferences, as follows:—

(a) All the ballot-papers on which a first preference is given for the elected candidate shall be re-examined and the number of next available preferences given for each continuing candidate shall be counted.

(b) The number of the surplus votes of the elected candidate shall be divided by the number of first preference votes received by him and the resulting fraction shall, for the purposes of this rule, be the transfer value of that candidate's surplus votes.

(c) For the purpose of determining the number of votes to be transferred from the elected candidate to a continuing candidate, the number of ballot-papers of the elected candidate which bear the next available preference for the continuing candidate shall be multiplied by the transfer value.

(d) The resulting number, disregarding any fractional remainder, shall be credited to the continuing candidate and added to the number of votes received by him on the counting of the first preferences.
SECOND SCHEDULE—Continued.

6.—(1.) Where, on the counting of the first preferences or on any transfer of votes, more than one candidate has a surplus of votes, the largest surplus shall be dealt with first and then, if more than one candidate has a surplus, the then largest surplus shall be dealt with, and so on, except that, if one candidate has obtained a surplus at a count or transfer previous to that at which another candidate obtains a surplus, the surplus of the former shall be dealt with first.

(2.) Where the surpluses of two or more candidates are equal, the surplus of the candidate who was highest on the poll at the count or transfer at which those candidates last had an unequal number of votes shall be dealt with first and, if they had an equal number of votes at all preceding counts or transfers, the Returning Officer shall decide which candidate’s surplus shall be dealt with first.

7.—(1.) Where the number of votes received by a candidate is raised up to or above the quota by a transfer of votes from another candidate under the preceding provisions of these Rules, he shall be elected but, notwithstanding that he may have reached the quota, the transfer from that other candidate shall be completed and all the votes to which he is entitled on that transfer shall be transferred to him.

(2.) Where the number of votes received by a candidate is raised up to, but not above, the quota by a transfer of votes under the preceding provisions of these Rules, the whole of the ballot-papers taken into account in determining the votes received by him shall be set aside as finally dealt with.

(3.) Where the number of votes received by a candidate is raised above the quota by a transfer of votes under the preceding provisions of these Rules, his surplus votes shall be transferred to the continuing candidates, in proportion to the voters’ preferences, as follows:

(a) The ballot-papers on which are recorded the votes taken into account for the purposes of the transfer to the elected candidate shall be re-examined and the number of next available preferences given for each continuing candidate shall be counted.

(b) The number of the surplus votes of the elected candidate shall be divided by the number of ballot-papers re-examined in accordance with the last preceding paragraph and the resulting fraction shall, for the purposes of this rule, be the transfer value of the elected candidate’s surplus votes.

(c) For the purpose of determining the number of votes to be transferred from the elected candidate to a continuing candidate, the number of next available preferences given for the continuing candidate as ascertained in accordance with paragraph (a) of this sub-rule shall be multiplied by the transfer value.

(d) The resulting number, disregarding any fractional remainder, shall be credited to the continuing candidate and added to the number of votes previously received by him.

8.—(1.) Where, after the first preference votes have been counted and the surplus votes, if any, of the elected candidate or candidates have been transferred, no candidate has, or less than the number of candidates required to be elected have, received a number of votes equal to the quota, the candidate who has the lowest number of votes shall be excluded and all the votes received by him shall be transferred to the continuing candidates, in proportion to the voters’ preferences, in the same manner as is specified in rule 5 of these Rules.

(2.) The votes obtained by the excluded candidate as first preferences shall be transferred first and they shall be transferred at a transfer value of one for each vote.

(3.) The other votes of the excluded candidate shall then be dealt with in the order of the transfers on which, and at the transfer value at which, the excluded candidate received them.

(4.) Each transfer made under sub-rule (2.) or (3.) of this rule shall be deemed for all purposes to be a separate transfer.

9.—(1.) Where the number of votes received by a candidate is raised up to or above the quota by a transfer of votes from an excluded candidate under the last preceding rule, he shall be elected but, notwithstanding that he may have reached the quota, the transfer from the excluded candidate shall be completed and all the votes to which he is entitled on that transfer shall be transferred to him.

(2.) Where the number of votes received by a candidate is raised up to, but not above, the quota, by a transfer of votes under the last preceding rule, the whole of the ballot-papers taken into account in determining the votes received by him shall be set aside as finally dealt with.
SECOND SCHEDULE—continued.

(3.) Where the number of votes received by a candidate is raised above the quota by a transfer of votes under the last preceding rule, his surplus votes shall be transferred to the continuing candidates, in proportion to the voters' preferences, in the same manner as is specified in sub-rule (3.) of rule 7 of these Rules, but the surplus shall not be dealt with until all the votes of the excluded candidate have been transferred.

(4.) Where a surplus exists, it shall be dealt with before any other candidate is excluded.

10. The same process of excluding the candidate who has the fewest votes and transferring his votes to other candidates shall be repeated until all the candidates, except the number required to be elected, have been excluded and the unexcluded candidates, who have not already been elected, shall then be elected.

11. Where at any time it becomes necessary to exclude a candidate and two or more candidates have the same number of votes and are lowest on the poll, then whichever of those candidates was lowest on the poll at the last count or transfer at which they had an unequal number of votes shall be excluded first and, if those candidates have had an equal number of votes at all preceding counts or transfers, the Returning Officer shall decide which candidate shall be excluded first.

12. In determining what candidate is next in the order of a voter's preference, a candidate who has been elected or excluded shall not be considered and the order of the voter's preference shall be determined as if the name of a candidate who has been elected or excluded had not been on the ballot-paper.

13. Where on a transfer it is found that the only candidates opposite to whose names numbers have been placed on a ballot-paper have already been elected or excluded, the ballot-paper shall be set aside as exhausted.

EXAMINATIONS

All candidates for the Annual Examination must have enrolled and must lodge an examination entry with the Registrar not later than the last day of the second term.

Candidates prevented by illness or other serious cause from sitting for the Annual Examination may be granted a special examination by the appropriate Faculty of the University on submission of satisfactory evidence of the cause of absence from the Annual Examination. All applications for such special examinations must be made through the Registrar.

When a candidate's studies during the academic year have been gravely hampered by illness or other serious cause the appropriate Faculty of the University may (upon application being made through the Registrar prior to the commencing date of the Annual Examination, supported by medical or other proper evidence) direct the examiners to take the circumstance into account.

When a candidate at the Annual Examination is to a substantial degree affected by illness during the course of an examination in any subject the appropriate Faculty of the University may (upon application being made through the Registrar within three days after such examination, supported by medical or other proper evidence) direct the examiners in that subject to take the circumstances into account. No such application will, however, be considered unless the candidate either during or immediately after such examination shall have reported to the supervisor in charge the circumstances relied on in the application.

PAYMENT OF FEES

The fees for the respective courses and subjects are set out elsewhere in the Calendar.

In addition to any examination fee payable, the full lecture fees are payable before examination whether or not a student attends lectures.

Fees are payable in advance, on or before the dates for payment shown in the Table of Principal Dates.

Late Fees

Where fees are not paid by the due date, a late fee may be imposed as under:

<tr>
<td>Where fees are paid on or before the date of commencement of terms</td>
</tr>
<tr>

The Registrar has power to remit any late fee for good cause shown, and to grant an extension of time for payment of fees, without the imposition of a late fee, on application made to him before the due date.
Any student dissatisfied with any decision of the Registrar relating to the payment of fees may appeal to the Council, but the fees must, notwithstanding the appeal, be paid, and will be refunded if the Council's decision is in the student's favour.

Care of Property, etc.
Students must refrain from damaging any furniture or other articles belonging to the College.

Any student who damages any such furniture or articles will be required to pay the cost of remedying such damage.

The full-time lecturers have been empowered by the Council to maintain discipline on the whole of the College premises.
COURSES FOR DEGREES AND DIPLOMAS.

Preliminary.

By virtue of the Regulation of the University according recognition to the College, the College may, subject to the concurrence of the University, undertake the provision of approved lectures in any of the subjects of the following Faculties of the University:—

A.—Arts; B.—Commerce; C.—Law; D.—Science.

Regulations relating to Courses for Degrees and Diplomas.

Lectures at the College are given in accordance with the Regulations of the University. Particulars which follow are compiled from advance information, and are subject to correction. Reference should be made to the University Calendar for complete information.

MATRICULATION.

All students must matriculate, i.e., make the prescribed declaration and sign the matriculation roll. Unless this is done no University subject passed can count towards a degree. Students should satisfy themselves that they are qualified to matriculate before enrolling.

Students must attain the age of 17 years by 31st March in the year of enrolment.

The matriculation requirements of the University are set out in the Calendar of the University of Melbourne. Further particulars may be obtained from the Registrar.

Persons who have passed an examination qualifying for matriculation in any other University which University is approved in respect of such matriculation by the Professorial Board may be admitted to matriculation in the University of Melbourne on complying in other respects with the statutes and regulations concerning matriculation. But if such examination did not in such other University give a right to proceed with the course for certain degrees it shall not confer such a right in the University of Melbourne.
UNIVERSITY ENTRANCE FOR ADULTS.

Provision is made for adults who did not qualify for matriculation at school to qualify for entrance to University courses. However, prospective candidates are particularly warned that a qualification under this concession cannot be used for any other purpose (e.g. promotion in employment), and that the student cannot matriculate until he has actually embarked upon his university course.

A candidate who wishes to qualify for University entrance under this concession must:

(a) be a bona fide resident of Victoria;*

(b) have left school four full years previously and be at least twenty years of age on 31st March of the year in which he proceeds to take any examination leading to his qualification;

(c) (i) pass a Special Test in English (or, at the Matriculation Examination, pass in English Expression or English Literature); and

(ii) pass in two Matriculation subjects (other than English Expression) approved for the chosen University course (as set out in the footnote†) at the one Matriculation Examination:

or

pass, at any number of attempts, in four subjects (including English Expression and the prerequisite subjects — if any — for the chosen course) at the Matriculation Examination.

A candidate who passes these examinations must apply in writing to the Registrar, when lodging his Enrolment Card for Lectures, to be admitted to the course of his choice. Not until he has passed in two University subjects will he be allowed to sign the Matriculation Roll nor will a Matriculation Certificate be issued. Matriculation will be antedated to March 1st immediately preceding the Annual Examination at which he passes any subject.

The Special Tests in English are held at the College in February and August each year, and persons who wish to present should write to the Registrar early in the preceding

* Students proposing to matriculate through the College and to attend lectures at the College may read "The Australian Capital Territory" for "Victoria."

† The Professorial Board has approved the following subjects of the Matriculation Examination for applicants proposing to enter on courses of study in the Faculties mentioned. (Candidates must particularly note that English Expression may not be counted as one of the two requisite subjects for any course. English Literature may be taken in the appropriate Faculties by a candidate who does not intend to use this subject to fulfill the requirement of a "pass in the Special English Test, English Expression or English Literature").

Arts: A language other than English and one other subject.

Commerence and Public Administration: Any two of — a language other than English, a history subject, Geography, a branch of Mathematics, English Literature.

months (i.e. January or July) asking for an entry form. A candidate is not allowed more than three attempts at the Special Test.

If a candidate prefers to sit for English Expression or English Literature at the Matriculation Examination instead of for the Special English Test, he is required to pass at one examination in two additional matriculation subjects approved for his proposed course — i.e. a total of three matriculation subjects.

D.—SCIENCE COURSE.

The College does not at present offer facilities for Science work beyond the first year. Courses are arranged in certain subjects if a sufficient number of students enter for lectures.

FEES PAYABLE.

The fees depend upon the nature of the subjects taken.

THE LIBRARY.

The Library, which is in process of rapid expansion, has at present 20,000 volumes selected to meet the needs primarily of undergraduates in the existing Faculties of Arts, Commerce and Law. A start has recently been made, under a special grant, upon a collection of books for the new Department of Oriental Studies.

Borrowing facilities are available to staff and students of the College and, with the Librarian's approval, to students of other universities studying in Canberra. Graduates resident in Canberra and approved members of the Canberra public may also use the Library, upon the recoverable deposit of £1. All books are on open shelves, and, with the exception of general reference books and a few selected works, all may be borrowed. In addition to reading tables set among the bays, there is a small reading room beyond the Law Library, which students may use for week-end study.

The College Library is fortunate in being able to draw on the resources of the National Library and the Australian National University Library, both of which give most generous help. The ready co-operation of the university and public libraries in other states, particularly those in Sydney and Melbourne, gives access to material not available in Canberra.

(i) THE CANBERRA SCHOLARSHIPS.

Note.—In 1929, prior to the establishment of the Canberra University College, the Federal Capital Commission was empowered by the then Cabinet to award two bursaries of the value of £120 each to students attending schools of Canberra who were eligible to enter a University.

Before an award had been made, however, the Council was appointed. In view of the fact that under the Canberra University College Ordinance 1929-1940 it was one of the functions of the College to administer, subject to the directions of the Minister, any scholarship or bursary scheme established by the Commonwealth, the Commission suggested to the Minister that it would be preferable for the Council at the outset to suggest a definite basis for the holding of the bursaries. In this suggestion the Minister concurred.

Early in 1930, the Council submitted a scheme for the award of scholarships only. The Minister approved of the scheme, which set out the conditions of the award of scholarships, and in accordance with that scheme the "Canberra Scholarships" have from time to time been awarded. The conditions may be found on pages 22-24 of the College Calendar for 1935.

During 1935 the Council considered that the conditions under which the scholarships were awarded should be amended in certain respects and a new set of rules was drawn up. The Minister approved of the award of scholarships in accordance with the new rules, which, as subsequently amended, are set out hereunder.
1. These Rules may be cited as the Scholarship Rules.

2. These Rules shall come into operation on the first day of January, 1936, and shall apply to the award, renewal, or restoration of all scholarships awarded, renewed, or restored by the Council after that date, and in respect of all scholarships so awarded, renewed, or restored.

3. In these Rules—
   "approved course" means, in the case of any scholar, the course approved by the Council as the course of study for that scholar in respect of a year, being a course of study which will entitle the scholar to complete a year in his degree course in cases where separate years are specified in the curriculum of the University of which the scholar is a student, or, in cases where a subdivision into years is not made by that University, such subjects as the Council thinks reasonable for one year, but does not include any additional subjects in which the student is studying with the consent of the Council;
   "deferred examination" means a deferred or supplementary examination for which a scholar is required to sit in order to complete his approved course;
   "Leaving Certificate Examination" means—
   (a) in the case of the Australian Capital Territory, New South Wales, Western Australia or Tasmania, the Leaving Certificate Examination;
   (aa) in the case of South Australia, the Leaving Examination, the Leaving Honours Examination, or an examination in subjects at both the Leaving Examination and the Leaving Honours Examination;
   (b) in the case of Victoria, the Matriculation Examination; and
   (c) in the case of Queensland, the Senior Public Examination;
   or any examination that may, in the Australian Capital Territory or a State, be substituted therefor as an examination qualifying for matriculation and admission to a University course;
   "obtains honours" means—
   (a) in a year in which, by the Regulations governing the University course, honours or their equivalent may be awarded—obtains honours, distinction, or credit; and
   (b) in a year in which, by those Regulations, honours or their equivalent may not be awarded—obtains and furnishes to the Council a certificate from a competent University authority to the effect that the scholar has, in that year, shown merit above the average;
Award of scholarships. Substituted, 11.2.48.
Sub-rule (1) amended, 14.8.52.
Sub-rule (2) amended, 17.1.49; and 25.9.53.

Eligibility for scholarships. Amended, 30.8.46; and 27.2.52.

Scholarships to be awarded on results of leaving examination. Sub-rule (1) amended, 25.9.53.
Qualifications of applicants. Amended, 25.9.53.

Tenure of scholarships. Sub-rule (1.) amended, 4.3.37.
Sub-rule (1A.) inserted, 4.3.37.

5.—(1.) Subject to sub-rule (3.) of this rule, the Council may, in any year, award scholarships to a number not exceeding the number fixed in respect of that year by the Minister of State for the Interior.

(2.) The number of scholarships fixed by the Minister in respect of any year shall be a number equal to one-ninth of the number, as nearly as can be ascertained, of candidates educated at Canberra who passed the Leaving Certificate Examination held in the previous year, but shall not, in any event, be less than six.

(3.) Where, not later than the end of the third term in the year in which the scholarship was awarded—
(a) the Council revokes the award of the scholarship; or
(b) the scholar resigns the scholarship,
the Council may re-award the scholarship on the results of the Leaving Certificate Examination held in the previous year or in the year in which the scholarship is revoked, terminated or resigned.

5.—(1.) The following students shall be eligible for the award of scholarships:
(a) students educated at Canberra schools; and
(b) students, the children of Canberra residents, who have been educated at other schools, if the Council is satisfied that, under the special circumstances of the case, it was reasonable that they should be educated at those other schools:

(2.) A scholarship shall not be awarded to a student unless the Council is satisfied that at least one parent of the student is ordinarily resident in Australia.

6.—(1.) The award of scholarships for each year shall be made on the results of the Leaving Certificate Examination held in the previous year.

(2.) The Council shall from time to time, by public notification, invite applications for the grant of scholarships.

7. An applicant shall not be eligible for an award of a scholarship—
(a) if he is more than nineteen years of age on the first day of January in the year next following the year in which the Leaving Certificate Examination upon the results of which his application is made was held;
(b) if the Council is not satisfied that he has attained a sufficiently high standard;
(c) unless he proposes to enter upon a University course approved by the Council; and
(d) unless he is qualified for admission to that University course.

8.—(1.) Subject to the next succeeding sub-rule, scholarships shall be tenable at any Australian University or at the College.

(1A.) Where—
(a) a scholar has qualified for admission to a degree in the University course approved by the Council;

* This rule was amended on 27th February, 1952, and the amendment applies in relation to scholarships awarded during the year 1952 and all subsequent years.
(b) the scholar has, in the opinion of the Council, shown exceptional brilliance in that course; and

c) the appropriate authority of the University at which the scholar has so qualified recommends that he proceed overseas for the purpose of engaging in research or special studies in respect of which that authority satisfies the Council that adequate facilities are not available in the Commonwealth, the Council may permit the scholarship to be held at an overseas University approved by the Council, and, in that case, the scholar shall engage in such research or special studies at that University as the Council approves.

(2.) The scholar shall enter upon the enjoyment of his scholarship forthwith, and shall continuously pursue the University course approved by the Council:

Provided that in exceptional circumstances the Council may, from time to time, for reasons it considers sufficient and subject to such conditions (if any) as it thinks fit, defer or suspend the enjoyment of the scholarship for a period of one year.

(3.) In the event of the non-fulfilment by the scholar of any conditions imposed by the Council in pursuance of the proviso to the last preceding sub-rule, the Council may revoke the award of, or terminate, the scholarship.

9.—(1.) Subject to rule 10, the amount of each scholarship shall in each year be such amount as is fixed for that year by the Council but not exceeding One hundred and forty pounds:

Provided that—

(a) if the Council is satisfied that the course of study which the student desires to follow is adequately provided for at the College; or

(b) if the student elects to attend lectures at the College, the amount of the scholarship shall in each year be such amount as is fixed for that year by the Council but not exceeding Sixty pounds.

(2.) In fixing the amount of any scholarship for any year the Council may have regard to, among other questions, the question whether the scholar will, during the academic year attend additional lectures or tutorials at a University College or elsewhere, or reside at a University College, in lodgings, or at home, and may fix the amount subject to such conditions as to residence as the Council thinks fit.

10.—(1.) In the case of a scholar at an Australian University, the amount of a scholarship for any year shall be payable in four equal instalments, the first three of which shall be payable at or after the commencement of the first, second, and third terms respectively, and the fourth of which shall, subject to the next succeeding sub-rule, be payable after the scholar's examination results for that year have been published.

(2.) Where in any year a scholar at an Australian University:

(a) fails to obtain honours in at least one subject of his approved course, or to satisfy the Council that he

* This rule was amended on 2nd May, 1952, and the amendment applies in relation to scholarships awarded, renewed or restored during the year 1952 and all subsequent years.
has obtained honours standard in some one subject, or in such part of a subject as the Council may determine;

(b) fails to complete his approved course; or

(c) is required to sit for a deferred examination in order to complete his approved course,

payment of the fourth instalment for that year shall be withheld.

(3.) Where a scholarship is held at an overseas University, the amount of the scholarship for each year shall be paid at such times and in such instalments as the Council determines.

10A.—(1.) In the case of a scholar at the College, the amount of a scholarship for any year shall, subject to this rule, be payable in three equal instalments at or after the commencement of the first, second and third terms respectively.

(2.) Where the approved course of a scholar at the College in respect of any year is such that if it is completed the scholar will have qualified for admission to a degree in the course approved by the Council, or where more than one course has been approved by the Council, in the last of these courses, the amount of the scholarship for that year shall be payable in four equal instalments, the first three of which shall be payable at or after the commencement of the first, second and third terms respectively, and the fourth of which, subject to the next succeeding sub-rule, be payable after the scholar's examination results for that year have been published.

(3.) If the scholar is required to sit for a deferred examination in order to complete his approved course, payment of the fourth instalment shall be withheld unless, in the case of a scholar who has been required to sit for a deferred examination in not more than one subject in order to complete his approved course, the Council is satisfied that the necessity for the deferred examination was due to very special circumstances entirely beyond the control of the scholar and the scholar has passed at that deferred examination.

10B.—(1.) A scholar may at any time resign his scholarship.

(2.) Where a scholar who has committed a breach of sub-rule (1.) of rule 17 of these Rules resigns his scholarship, the Council may recover in any court of competent jurisdiction any amount paid to him in respect of the scholarship for any period subsequent to the breach.

11.—(1.) Subject to this rule, a scholarship may, on the application of the scholar, be renewed from year to year, but so that the total period covered by the scholarship shall not exceed six years or, where the Council does not permit the scholarship to be held at an overseas University, the period fixed by the University as the minimum period of study for the University course or courses approved by the Council (whichever of those periods is the shorter).

(2.) Subject to sub-rule (4.) of this rule, where in any year a scholar at an Australian University or at the College fails
to complete his approved course, the Council shall terminate the scholarship.

(3.) For the purpose of this rule, a scholar shall be deemed to have completed his approved course if he is required to sit for a deferred examination in one or more subjects of his approved course and the scholar has passed at that examination.

(4.) Where the Council permits a scholarship to be held at an overseas University, the Council may terminate the scholarship if it is not satisfied with the progress made by the scholar in the research or special studies approved by the Council.

11A. Notwithstanding anything in these Rules, the Council may, in its discretion, defer or suspend for any period, renew, restore, or make any determination in respect to, any scholarship awarded, whether before or after the commencement of this Rule, to a scholar who is serving or is about to serve or has served in the Naval, Military or Air Forces, or in any service in relation to war.

12.—(1.) Where, on the completion of the first year of a scholar's University course, the Council has terminated the scholarship, and the student, in the next year of his University course—

(a) has, in the opinion of the Council, shown outstanding merit; and
(b) has not been required to sit for a deferred examination, the Council may restore the scholarship, and any scholarship so restored shall be subject to these Rules.

(2.) (ii) BURSARIES.

BURSARY RULES.

1. These Rules may be cited as the Bursary Rules.

2. In these Rules "the Council" means the Council of the Canberra University College.

3. The Council may award annually not more than two bursaries except in any year in which the full number of Canberra Scholarships is not awarded, when an additional bursary may be awarded.

4. The amount of each bursary shall be Thirty pounds.

5. Bursaries shall be tenable at the Canberra University College only.

6. An applicant shall not be eligible for a bursary if the total income of his parents or guardians exceeds a quota of Eighty pounds per annum for each member of the family including, for the purposes of the quota, the parents or guardians, but excluding, for that purpose, children earning a wage of fifteen shillings or more per week:

   Provided that this rule shall not affect any applicant whose parents’ or guardians’ income is less than Three hundred pounds per annum.

7. Applicants who—

   (a) have been educated at Canberra schools; or

   (b) are the children of Canberra residents and who have been educated at schools other than in Canberra, if the Council is satisfied that, under the special circumstances of the case it was reasonable that they should have been educated at those other schools, shall be eligible from the point of view of residence.
8. The award of bursaries shall be made on the results of the Leaving Certificate Examination, but no award shall be made in the case of any applicant unless the Council is satisfied that the applicant has attained a sufficiently high standard and that he is eligible for and proposes to enter upon a course approved by the Council.

9. An applicant shall not be more than nineteen years of age on the first day of January next following the date of the Leaving Certificate Examination on the results of which the award of bursaries is made.

10. In exceptional circumstances, the Council may, for reasons it considers sufficient, defer or suspend the enjoyment of a bursary for a period of one year.

11. Subject to the next paragraph, the bursaries shall be tenable for a period sufficient to enable the bursar to complete an approved course, or approved courses.

A bursar may continue to hold the bursary on condition that he be of good conduct in matters of discipline and otherwise, and that he pass all the prescribed qualifying examinations of the course or courses approved.

If a bursar fails to pass any qualifying examination or otherwise to comply with the conditions upon which his bursary was granted, he shall forfeit his bursary, unless, in the opinion of the Council, the failure is due to illness or special circumstances.

Notwithstanding anything contained in these Rules, the Council may, in its discretion, make such determinations as it thinks fit, in respect of any bursary, if it is satisfied that any failure on the part of the bursar to comply with any requirement of these Rules is due to his service in the Naval, Military, or Air Forces or to any services in relation to war.

12. An application shall be lodged on the proper form not later than the date fixed by the Council, and shall be accompanied by a statutory declaration covering the information set out in the application.

(iii) COMMONWEALTH PUBLIC SERVICE FREE PLACES.

In order to afford an opportunity to officers stationed in Canberra to proceed with a University Course, the Government in July, 1930, approved of a scheme whereby half of the fees of six officers to be selected annually would be paid by the Government, the College being prepared to admit such students at half rates. The grant of a free place is subject to the fulfilment of conditions notified in the Commonwealth Gazette.
(iv) THE JOHN DEANS PRIZE.

Whereas John Deans, Esquire, formerly builder and contractor of Canberra in the Australian Capital Territory, did, in the year 1931, establish a Fund, consisting of the sum of seventy pounds, for the purpose of providing a prize to be awarded annually to a Leaving Certificate student of a school in the Territory:

And whereas, at the request of the said John Deans, Esquire, the Council of the Canberra University College accepted control and management of the Fund and agreed to regulate the conditions of the award of the prize:

And whereas, on the sixth day of February, 1931, the Council made Rules to regulate the conditions of the award of the prize:

And whereas, on the eighteenth day of June, 1943, the Council revoked those Rules and made other Rules in their stead:

And whereas the Council now considers it desirable to revoke those last-mentioned Rules and to make other Rules in their stead:

Now therefore the Council of the Canberra University College hereby makes the following Rules:

1. These Rules may be cited as the John Deans Prize Rules. Citation.

2. The John Deans Prize Rules made by the Council on the eighteenth day of June, 1943, are revoked. Revocation of previous Rules.

   (b) who, of the students of schools in the Territory eligible for the award of the Prize, obtained the highest marks in the English paper or papers at the Leaving Certificate Examination of the previous year.

5. A student is eligible for the award of the Prize in any year if—

6.—(1.) The Council shall not award the Prize to a student whose results are not, in the opinion of the Council, sufficiently satisfactory to justify the award of the Prize.

And whereas portion only of the fund was expended upon the presentation:

CONTEMPORARY PHILOSOPHY

A course of two lectures a week throughout the Year.

SYLLABUS. The course attempts two things simultaneously. In the first place, it is a study of the immediate background, and the salient tendencies, of contemporary philosophy. It will indicate how Realism developed from Absolute Idealism, and how Logical Positivism and Logical Analysis grew from the disintegration of Realism.

But throughout there is a special concern with the contemporary disagreement about metaphysics. From this point of view, the course begins with the confident metaphysicians, and proceeds through the semi-metaphysicians to the anti-metaphysicians and the non-metaphysicians, and concludes by asking whether metaphysics may not be modestly renewed on a modern basis.

The course falls into three parts:

(i) From Absolute Idealism to Realism.

INTRODUCTORY

Pure Mathematics Part I is a general purpose course. In each of Pure Mathematics Parts II and III, two courses are available. Course A pursues the higher study of Calculus and related topics with a view primarily towards application in physical theories and other technical contexts. Course B is a broader one, directed primarily towards a logical and critical scrutiny of foundations; it is designed for those who are interested in mathematics as an element of general culture or who propose to enter the teaching profession.

Tutorial Classes will be held in Pure Mathematics Part I, and Practice Classes in Pure Mathematics Parts II, III and IIIA. The work done in these Classes will carry some weight in the Annual Examination.

VACATION READING.

The following books, relevant to the study of Mathematics, are suitable for reading in the summer vacations. In addition, references to books bearing specifically on the work of each Year will be found in the details for individual subjects. Additional references will be given in the lectures.

The second paper, also taken by all students, will consist of two alternative sections, one on the work of the standard course, and the other on that of the higher course. Honours may be awarded to candidates who have done really well in the examinations, regardless of which section of the second paper they have chosen; but the award of first class honours will be restricted to those who have shown superior ability in the work of the higher course.

This First Year is regarded as a preliminary year of study, and admission to the higher years of the course is conditional on satisfactory performance in this year. Students must be approved by the Faculty of Arts as candidates for the Degree with Honours before entering the Second Year of the Honour School. The Professor of Economics will normally recommend
approval for candidates who have gained at least Second Class Honours in Economic History Part I, and Economics Part I. Other candidates who wish to continue in the Honour School should interview the Professor of Economics, who will be guided in his recommendations by the merits of the case.

A student who has not attempted Honours in Economic History Part I, and Economics Part I, but who, at the end of the First Year, wishes to enter the Honour School, must make special application to the Faculty through the Sub-Dean for permission to do so. If such permission is granted, the Faculty will prescribe what further work must be completed before the student is allowed to proceed to the Final Examination.

3. The Faculty will not admit to the Honours School a candidate who has previously graduated Bachelor of Commerce (Honours Degree) or Bachelor of Commerce (Ordinary Degree).

4. In their Second Year, candidates should take Economics Part II, Statistical Method and the second part of the additional sequence of subjects. They must be classed in Economics Part II and must give evidence of ability to complete the work of the third and fourth years satisfactorily before being permitted to proceed.

5. In their Third Year, candidates should take Economics Part III and the third part of the additional sequence of subjects. Candidates whose progress is regarded as satisfactory will not be required to sit for the Annual Examination in Economics Part III. Before the end of their Third Year, candidates must select a subject for the essay required as part of the Final Examination. The subject selected must be approved by the Professor of Economics. The major part of the work for the Essay should be undertaken during the long vacation between the third and fourth years and the Essay should be submitted at the beginning of the Third Term of the year of the Final Examination. At the end of the Third Year of the course, students may be required to take a test in a modern language.

6. In their Fourth Year candidates should take Economics Part IV and either History of Economic Theory or Mathematical Economics.

   General Economic Theory,
   Economic Organization,
   Monetary Policy,
   Fiscal Policy,

   together with papers in either History of Economic Theory or Mathematical Economics.
The First Year is regarded as a preliminary year of general study, and students should take, in addition to English, either one Honours and one Pass or three Pass subjects.

Students require the approval of the Faculty of Arts before entering on their Second Year as candidates for the Degree with Honours. Those will normally be approved who have gained at least Second Class Honours in English Language and Literature Part I. Other candidates who wish to continue in the Honour School should interview the Professor, who will be guided in his recommendation by the merits of the case.

A student who, without attempting Honours, has passed in English Part I and wishes to enter the Honour School, must apply to the Faculty through the Sub-Dean, for permission to do so. If permission is given, the Faculty will prescribe what further work he is to do.

All students are required to submit an essay before the end of the third term of their Third Year. This essay forms part of the Final Examination. The subject must be approved not later than the end of the first term of the third year, and should, where possible, be chosen by the end of the previous year. The essay should be from 40 to 60 typewritten double-spaced, quarto pages in length. A bibliography of works consulted should be appended.

1. The course for the Degree with Honours in the School of English Language and Literature comprises the following subjects:
   - English Language and Literature Part I
   - English Literature Parts II, III and IV
   - English Language Parts II, III and IV

   Candidates must take these seven subjects and at least three approved additional subjects, one of which must be a language other than English. Two of these additional subjects should be chosen so as to constitute a sub-major.

2. In their First Year, candidates will take English Language and Literature Part I, and at least two additional subjects, of which one will normally be the language other than English. In their Second Year, they will take English Literature Part II, English Language Part II, in which subjects they are required to be classed, and the remaining additional subject.

   In their Third Year, they will take English Literature Part III, and English Language Part III; and in their Fourth Year, English Literature Part IV and English Language Part IV.

   French Language and Literature Parts I, II, III.

Candidates for the Degree with Honours must also take three additional subjects at Pass or Honour standard (preferably Philosophy I or a first or second year History subject, and the two parts of a sub-major from Group I). It will be assumed, especially in the philological sections of the course, that students have a fair working knowledge of Latin, which is an almost indispensable background to the study of French.

2. In their First Year, candidates in the Honour School will take the Honour Course in French Part I, and two additional subjects (one of which will normally form part of a sub-major) approved by the Professor of French. The first year is regarded as a preliminary year of general study, during which students will be expected to build a solid linguistic foundation for the Honour work of the later years and to acquire reasonable correctness and fluency in spoken and written French.

   Admission to the higher years of the course is conditional upon satisfactory performance in this First Year, and students must be approved by the Faculty of Arts as candidates for the Degree with Honours before entering the Second Year of the Honour School. The Professor of French will normally recommend such approval for candidates who have gained at least Second Class Honours in French Part I. Other candidates who wish to continue in the Honour School must interview the Professor of French, who will be guided in his recommendation by the merits of the case.

   A student who has completed the First Year of the course for the Ordinary Degree, and has passed in French Part I may, with the permission of the Faculty, enter the Honour School. Such a student must make special application to the Faculty, through the Sub-Dean, and, if permission is granted, the Faculty will prescribe what further work must be completed before the student is allowed to proceed to the Final Examination.

3. In their Second Year, candidates will take the Honour course in French Part II, French Language and Literature Part I, and the second part of their sub-major or the remaining additional subject. In order to proceed to the Third Year, they will require to be "recommended to proceed" at the end of the Second Year.

In their Fourth Year, candidates will take the Honour courses in French Part IV, and the remaining part of French Language and Literature. During both the Third and Fourth Years they will attend such short lecture
courses on background studies as may from time to time be prescribed. The Third and Fourth Years have been planned as a continuous course of study, but candidates will sit for a preliminary Final Examination, both written and oral, at the end of the Third Year.

such approval for candidates who have gained First or Second
Class Honours in British History and Ancient History Part I.
Candidates who have failed to gain First or Second Class

Such students, if allowed to continue in the Honour School, may
be required to take special papers during their Second Year in
British History and Ancient History Part I.

A student who has not attempted Honours in these subjects
but who, at the end of the First Year, wishes to enter the
Honour School, must make special application to the Faculty
through the Sub-Dean for permission to do so. If such permission
is granted, the Faculty will prescribe what further work must
be completed before the student is allowed to proceed to the
Final Examinations.

(b) Students may also be advised to attend other lecture
courses which are regarded as relevant to their work.

(c) The second and third years of the Honours course are
regarded as forming a continuous whole. Candidates who,
during their second year, have made satisfactory progress in
the History subjects of this year, will be admitted to the third
year of the School without formal examination in these subjects.
Candidates whose progress in these subjects during the first
two terms is not for this purpose considered satisfactory will be
notified at the end of the second term that they must sit for
an Annual Examination at the end of the second year.

(d) The Final Examination is divided into two parts.

Part I is taken at the end of the third year and counts equally

SCHOOL OF PHILOSOPHY.

1. The Course for the Degree with Honours in the School of
Philosophy comprises the following subjects:

Philosophy Part I,
Logic,
Ethics,
History of Philosophy,
Political Philosophy,
Contemporary Philosophy,
Aesthetics or Philosophical Psychology,
Candidates for the Degree with Honours must also take in addition either four pass subjects, or two pass subjects and one Honours subject; one of these must be a language other than English.

2. In their First Year, candidates must take the Honour course in Philosophy Part I, together with a Language other than English (preferably Greek or German), and one other subject at Honours standard, or two at pass standard.

This year is regarded as a preliminary year of general study and students who have completed it must be approved by the Faculty of Arts as candidates for the Degree with Honours before entering the Second Year of the Honour School. The Professor of Philosophy will normally recommend such approval for candidates who have gained First or Second Class Honours in Philosophy Part I. Candidates who have failed to gain First or Second Class Honours in this subject but who wish to continue in the Honour School are advised to interview the Professor of Philosophy, as he will be guided in his recommendation by the merits of the case.

Students who, without attempting Honours, have passed in their First Year in Philosophy Part I, and who at the beginning of their Second Year wish to enter the Honour School, must make special application to the Faculty through the Sub-Dean for permission to do so. The Professor of Philosophy will recommend such permission if the standard reached in the examination in Philosophy Part I was sufficiently high. Such students will be required to sit for and obtain Honours in the special Honours paper in Philosophy Part I at the end of their Second Year.

In the second year of the course, students shall take courses in History of Philosophy (Pass), Ethics (Pass), and Logic (Pass), together with one other subject, which shall be either History and Methods of Science A, or the second part of one of the additional subjects passed in the first year. There will be an examination in the Philosophy subjects, at Honours standard, at the end of this year.

The third and fourth years of the Honours course are regarded as a continuous whole, and therefore there will be no examination, and no class list issued, at the end of the third year. This provision also applies to students taking subjects in the School of Philosophy as part of a Combined Honours Course. If necessary, special papers will be set for those students who wish, after pursuing the Honours course for three years, to graduate at the end of the third with a Pass Degree.

In the third year students shall take the courses in Contemporary Philosophy (Pass), Political Philosophy (Pass), History of Philosophy (Greek), and the special Honour courses in Logic and Ethics. In the fourth year they shall take the special Honour courses in Contemporary Philosophy, and History of Philosophy (Kant), and Political Philosophy, together with one of the shorter courses in Aesthetics and Philosophical Psychology. There will also be seminar discussion groups in Logic and Ethics. The final examination at the end of the fourth year will cover the work of both third and fourth years.
In the course of the three years, four essays of about 3,000 words each will be set in four of the five main subjects of the course, namely, Logic, Ethics, History of Philosophy, Political Philosophy and Contemporary Philosophy; and in the case of Combined Honour Courses, two essays in such of these subjects as form part of the course in question. These essays may be considered in the determination of class at the Final Examination. The shorter essays which will be set from time to time are for practice only.

The Final Examination in the School of Philosophy shall consist of papers in the following subjects:

1. Logic.
2. Ethics.
3. History of Philosophy (Greek).
4. History of Philosophy (Kant).
5. Contemporary Philosophy.
6. Political Philosophy.
7. Aesthetics or Philosophical Psychology.

   - General History Part II or General History Part III.
   - International Relations.

   In addition, candidates for the Degree with Honours must take one other subject at Pass standard in each of the first three years of the course and a language study (modern). In general these additional courses should constitute an approved major or an approved sequence of three subjects.

2. The subjects of the course should be taken in the following order, unless, because of special circumstances, the Faculty allows the order to be varied.

   First Year: (a) Political Science A (Hons.),
              (b) British History (Hons.),
              (c) The Pass course in one other subject,
              (d) Language study.

   Second Year: (a) Political Science B (Hons.),
                (b) General History Part II or General History Part III,
                (c) The Pass course in one other subject.

   Third Year: (a) Political Science C (Hons.),
              (b) International Relations (Hons.),
              (c) The Pass course in one other subject.
Fourth Year: Political Science D.

3. Comments.—The First Year is regarded as a preliminary year, and students who have completed it must be approved by the Faculty of Arts as candidates for the Degree with Honours before entering the Second Year of the Honour School. Admission will normally be given only to candidates who have obtained at least Second Class Honours in Political Science A and British History. Other candidates who wish to continue in the Honours School should interview the head of the Department, who will be guided in his recommendations by the merits of the case.

A student who has not attempted Honours, but who at the end of the First Year passes in Political Science A and wishes to enter the Honour School, must make special application to the Faculty through the Sub-Dean for permission to do so. If such permission is given, the Faculty will prescribe what further work must be completed before the student is allowed to proceed to the Final Examination.

The Second and Third Years of the Honour course are regarded as forming a continuous whole. Candidates who during their Second Year have made satisfactory progress in Political Science B and in General History Part II or General History Part III will not be given a formal examination in these subjects. Candidates whose progress in these subjects during the first two terms is not considered of satisfactory Honours standard will be informed at the end of the second term that they must sit for an Annual Examination in them at the end of the Second Year.

As mentioned above, the three additional Pass courses taken in the first three years of the course should, in general, form a major recognized for the Ordinary Degree in Arts or some other approved sequence of three subjects. Students should submit their proposed major to the Head of the Department for approval at the beginning of their course; in special circumstances, permission may be given to modify the proposed major at the end of the First Year.

The following course has been approved for students who intend to combine the School of Political Science with a Law course:
