REMARKS Salesman. Excellent salesman but morally unreliable. While employed by us as salesman for G.Herring (Aust) Pty.Ltd. established a button business of his own in competition with our principals.

Left Melbourne Branch to run his own button factory; whilst employed by our Company he was placed in charge of the Herring Drilling Plant which was being registered and installed here, and he took out the registration in his own name, then resigned and refused to transfer the registration to Herring & Co. which might have been serious under war-time regulations. Fortunately a correct registration was arranged for our principals.
