Dear David,

thanks for your letter, and sorry the new organization hasn't got off the ground. Yes, "progressives" don't like work any more than the rest of us; I get mad with them too, if they'd wring the neck of their rhetoric a bit and do some real home-work on causes and effects we might get somewhere. Once thought gets replaced by mindless rejection we're really down the drain. So easy for the other side to win. Yeah, we all wonder if a nuclear solution would work. It won't, of course.

Thanks for poem, v. nice and lemony, all on the upandup.

Yours,

J. White
