

## PREFACE

*Oxford Studies in Metaphysics* is dedicated to the timely publication of new work in metaphysics, broadly construed. The subject is taken to include not only perennially central topics (e.g. modality, ontology, and mereology) but also metaphysical questions that emerge within other subfields (e.g. philosophy of mind, philosophy of science, and philosophy of religion). Each volume also contains an essay by the winner of the *Oxford Studies in Metaphysics* Younger Scholar Prize, an annual award described within.
