## Australasian Road Safety Research, Policing and Education Conference 2013

**Date/Time**  
Date(s) - 28 Aug  
2013 until 30  
Aug 2013  
12:00 AM -  
12:00 AM

**Location**  
[Brisbane](#)  
[Convention & Exhibition Centre](#)

**Category(ies)**  
No Categories

The theme of the 2013 conference is “**vision, action, results**”. The National Road Safety Strategy outlines an ambitious **vision** for road safety, and the conference will focus on the **actions** required to achieve these results, including presentations on the **results** of the latest evaluations and strategies that have contributed to reduced road trauma. There will be a focus on the evidence we currently have available, and how everyone with an interest in road safety can work together to achieve the targeted reduction in serious casualties.

### Program

The conference program will cover all areas of road safety, with the program to reflect the Safe Systems approach adopted in the National Road Safety Strategy. The conference will include sessions on safe roads and roadsides, safe speeds, safe vehicles and safe road users, and a variety of other sessions that showcase the broad scope of work being conducted in the road safety field.

The conference theme will be explored in the keynote and concurrent presentation sessions, and more interactive sessions designed to generate outcome focussed debate about the way forward for road safety.
