The 22nd International Conference on Algorithmic Learning Theory
Aalto University, Espoo, Finland
October 5 - 7, 2011

CALL FOR PAPERS - ALT 2011

The 22nd International Conference on Algorithmic Learning Theory (ALT 2011) will be held at Aalto University in Espoo, Finland, during 5-7 October 2011. The conference is on the theoretical foundations of machine learning. The conference will be co-located with the 14th International Conference on Discovery Science (DS 2011).

Topics of Interest: We invite submissions that make a wide variety of contributions to the theory of learning, including the following:

- Comparison of the strength of learning models and the design and evaluation of novel algorithms for learning problems in established learning-theoretic settings such as
  - statistical learning theory,
  - on-line learning,
  - inductive inference,
  - query models,
  - unsupervised, semi-supervised and active learning.

- Analysis of the theoretical properties of existing algorithms:
  - families of algorithms could include
    - boosting,
    - kernel-based methods, SVM,
    - Bayesian networks,
    - methods for reinforcement learning or learning in repeated games,
    - graph- and/or manifold-based methods,
    - methods for latent-variable estimation and/or clustering,
    - MDL,
    - decision tree methods,
    - information-based methods,
  - analyses could include generalization, convergence or computational efficiency.

- Definition and analysis of new learning models. Models might
  - identify and formalize classes of learning problems inadequately addressed by existing theory or
  - capture salient properties of important concrete applications.

Invited Talks. The two distinguished invited speakers for ALT 2011 are professor
Peter Auer (University of Leoben) and professor Jorma Rissanen (Helsinki Institute for Information Technology). In addition there will be one invited speaker jointly with DS 2011.

Submission. Authors can submit their papers electronically via our submission page.

Important Dates.

- **Submission deadline: May 18, 2011** (you may submit for as long as it is May 18, 2011 anywhere in the world)
- Notification of acceptance or rejection will be emailed to the submitting author by June 30, 2011.
- The camera-ready copy of accepted papers will be due July 10, 2011.

Format. The submitted paper should be no longer than 15 pages in the standard format for Springer-Verlag's Lecture Notes in Artificial Intelligence series. The 15 page limit includes title, abstract, acknowledgements, references, illustrations and any other parts of the paper; appendixes bypassing the page limit are not allowed.

Policy. Each submitted paper will be reviewed by the members of the program committee and be judged on clarity, significance and originality. Joint submissions to other conferences with published proceedings are not allowed. Papers that have appeared in journals or other conferences are not appropriate for ALT 2011.

Proceedings. All accepted papers will be published as a volume in the Lecture Notes in Artificial Intelligence, Springer-Verlag, and will be available at the conference. Full versions of selected papers of ALT 2011 will be invited to a special issue of the journal Theoretical Computer Science.

E.M. Gold Award. One scholarship of 555 € will be awarded to a student author of an excellent paper (please mark student submissions on the title page).

Conference Chair:

Esko Ukkonen  
University of Helsinki, Finland

Programme Committee Members:

- Jyrki Kivinen (Chair), University of Helsinki, Finland  
- Csaba Szepesvári (Chair), University of Alberta, Canada  
- Dana Angluin, Yale University  
- Jean-Yves Audibert, Université Paris Est  
- Shai Ben-David, University of Waterloo  
- Avrim Blum, Carnegie Mellon University  
- Nader Bshouty, Technion  
- John Case, University of Delaware
Local Arrangement Chair:

Olli Simula
Aalto University, Espoo, Finland

Local Arrangement Committee:

Ella Bingham, Aalto University, Finland
Tapio Elomaa, Tampere University of Technology, Finland
Jaakko Hollmén, Aalto University, Finland
Jyrki Kivinen, University of Helsinki, Finland
Mikko Korpela, Aalto University, Finland
Kai Puolamäki, Aalto University, Finland
Mika Sulkava, Aalto University, Finland
Janne Toivola, Aalto University, Finland
