Dear Julia,

a) The article you mention can certainly be considered as a contribution to ANU's research output while I was a member of staff (not a 'visiting member') at ANU, until 30 June, 2010,

b) Please note that I have been appointed an Adjunct Professor at ANU from 1 November, 2010 - 31 December, 2013 (see attached letter for your records) and would like to continue the previous arrangement of sharing a room with Prof. Bob McEachran, subject to the approval of the Head of AMPL, of course. A number of my books and other articles should still be there, and perhaps the only thing that may need attention is the name plate on the door (again, subject to Steve's approval).

I will be down in Canberra at some time in the new year and look forward to meeting you.

Please let me know if you require any further information.

Sincerely,  
Rob
