Subject: Re: Publication - ANU affiliation?

Hi Ashleigh,

My computational research for that paper was mainly done at Copenhagen University before I started at ANU and I only list Copenhagen University as my affiliation on it. I did finalizing work on the draft and did small additional computational analyses for it while I was with the JCSMR at ANU, but that was a small part of my total contribution.

So I could confirm that I did some part of the research leading to this publication whilst I was a member of staff at the JCSMR, ANU.

I am not sure what your threshold for including the paper in your lists is, but I would be happy for you to include it if it meets the requirements. Please feel free to email me if you need further clarification.

Sincerely,
Brian Parker

Dear Brian,

I am in the process of verifying your publication, '*Genome-wide nucleosome map and cytosine methylation levels of an ancient human genome*', in the ANU database. Could you please confirm the research for this article was conducted whilst you were employed at the ANU by responding to the statement below?

I certify that I carried out the research leading to the following publication whilst I was a member of staff at the <department>, Australian National University.

Publication Type: *Journal article*

Publication Title: *Genome-wide nucleosome map and cytosine methylation levels of an ancient human genome*

In: *Genome Research*

Many thanks in advance for your assistance.

Kind Regards,
Ashleigh
