Building on the cornerstones of humanities scholarship

Launching later this year, *Oxford Scholarly Editions Online (OSEO)* is a major new publishing initiative from Oxford University Press. In its first phase, OSEO will publish online the complete text of **more than 150 scholarly editions written between 1485 and 1660**, including Shakespeare's plays and the poetry of John Donne.

The collection is then set to grow into a massive virtual library, until ultimately it will include all of Oxford's distinguished list of authoritative scholarly editions.

The OSEO site has appointed an international editorial board of distinguished scholars, under the leadership of Michael F. Suarez, S.J., to ensure the highest editorial standards are maintained and that justice is done to the quality of scholarship embodied in the original print editions.

Mapping out new research journeys and **connecting** works in new ways

Scholarly editions are the enduring focus of humanities research, providing a reliable and trusted source through which scholars interpret the core texts of their disciplines. In placing these important cornerstones of humanities scholarship online, OSEO will enhance the traditional elements familiar from these printed editions.

As its print counterpart, each authoritatively edited title will be accompanied by:

- ☒ The editor's record of important textual variations
- ☒ Interpretative and explanatory notes, situated alongside the text – no need to flip to the back pages
- ☒ Extensive introductions, placing the text in its context and explaining editorial principles
- ☒ A PDF document of every page opening from the original book, adding to the reliability and integrity of each digital edition

By offering these authoritative scholarly resources online, OSEO will give a more flexible research experience, providing:

- ☒ Excellent searching and linking facilities – find that obscure quote or a specific chapter, scene or line quickly and easily
- ☒ Clear and easy navigation within and between editions – check passages cited as parallels at the click of your mouse
- ☒ Access anywhere, anytime – have a consistent research discussion or teach a class across the world because everyone is using the same, trusted edition

Sir William Davenant William Shakespeare Thomas Hobbes Abraham Cowley
Christopher Marlowe Ben Jonson Richard Lovelace Francesco Guicciardini
John Evelyn John Donne George Herbert Thomas Deloney Thomas Kyd
George Gascoigne Thomas Stanley Thomas Middleton Francis Bacon
Thomas Traherne Samuel Pepys Robert Burton Robert Southwell

Lancelot Andrewes Philip Massinger John LyLy Thomas Carew Sir John Harrington
John Skelton Anne Conway Guillaume de Saluste Gerrard Winstanley
Thomas Campion Shackerley Marmion Sir Francis Kynaston John Hall
Sidney Godolphin Philip Ayres John Chalkhill Patrick Carey William Hammond

For librarians

Print scholarly editions have always been a scarce resource in the university and research library. The publication of these scholarly editions online will enable you to offer access to multiple users simultaneously, both on campus and remotely – a huge benefit to your patrons and providing a critical tool for research in your library.

Reserve your **FREE TRIAL** now!

A 30-day free trial of OSEO will be available to institutions, once the site has launched. Librarians and central resource co-ordinators can reserve a trial by contacting onlinemarketing@oup.com

Features include:

- ☒ MARC records available free of charge
- ☒ COUNTER compliant usage statistics for reporting down to book level
- ☒ DOIs to allow direct referencing in reading lists
- ☒ Support for all standard remote access methods
- ☒ Available on subscription or to purchase outright
