

This is a request for information about any 2014 publications of yours that we can claim for the HERDC (Higher Education Research Data Collection). HERDC points bring us lots of money, and they're a significant indicator of our performance, so it's very important that we get a good return.

All 2014 publications for which you carried out *some research at the Department of Theoretical Physics* at the ANU count: books, book chapters, journal articles, and refereed conference papers.

I thank Lucia Lu for being the collector of this information, so please send her, and me information about any 2014 publications that we can report: tp.rspe@anu.edu.au

For books we would like a pdf copy if possible (otherwise we will have to find a hard copy to scan). For journal articles, we need the title of the article, the journal, the volume, issue, and if possible a link. (A pdf would be helpful, but not needed if we can get it online.)

And could I ask you to fill in the template below, please?

Many thanks,

Professor Vladimir Bazhanov

I certify that I carried out some of the research leading to the following publication whilst I was a visitor at the Department of Theoretical Physics, Australian National University.

Publication Type: Journal Article

Publication Title: Tetrahedron Equation and Quantum R Matrices for Modular Double of $Uq(D(2)n+1)$, $Uq(A(2)2n)$ and $Uq(C(1)n)$

Published in: Lett Math Phys

Signed

Name: Sergey Sergeev

Date: 25/05/15
