

AUSTRALIAN BUREAU OF STATISTICS Canberra

CATALOGUE NO. 8364.0

NOON 4 JUNE 1979

PRODUCTION BULLETIN NO. 8 : MISCELLANEOUS PRODUCTS AUSTRALIA, MARCH 1979

INQUIRIES

If you want to know more about these statistics ring Mr Cyril Rees on Canberra 526558 or our State office, or write to Information Services, ABS, P.O. Box 10, Belconnen, A.C.T. 2616
For copies of this publication contact Information Services, Canberra 526627 or State offices.

EXPLANATORY NOTES

Introduction

This bulletin is one of a series of eight publications containing monthly and quarterly production statistics. The titles of the other publications of this series are shown in paragraph 7 below.

Classification

2. Data contained in this bulletin are mostly based on monthly or quarterly collections conducted by the Australian Bureau of Statistics (ABS). Where another authority is the source this is indicated in a footnote.

3. Most items are identified by Commodity Codes of the Commodity Classification used in Australian manufacturing statistics. However in cases where data are derived from sources other than ABS collections no commodity code is shown. Furthermore combinations of commodities are arranged so as to align production data with import and export commodity items in accordance with the Australian Standard Commodity Classification (ASCC). For further information regarding the ASCC see the ABS publication *Australian Standard Commodity Classification, 1975-76* (1207.0).

Scope and coverage

4. Production statistics collected by the ABS exclude production by single establishment manufacturing enterprises employing less than four persons and production of establishments predominantly engaged in non-manufacturing activities but which may carry on, in a minor way, some manufacturing. However, except for a few commodities the effect on production levels and movements is marginal.

5. Annual figures shown in this publication are derived by aggregating monthly/quarterly production and relate to production during the year ended 30 June. They may differ from annual manufacturing census data which relate to the census year, and in the case of businesses unable to report on a June year basis include details in respect of substitute accounting periods.

Seasonal adjustment

6. This bulletin contains seasonally adjusted statistics of several items. In the seasonal adjustment,

account has been taken not only of normal seasonal factors but also of "trading-day" effects (arising from the varying numbers of Sundays, Mondays, Tuesdays etc. in the month) and the influence of Easter and Australia Day which may, in successive years, affect figures for different months. Details of the methods used in seasonally adjusting these and other series are given in *Seasonally Adjusted Indicators* (1308.0).

Related publications

7. Other ABS publications which may be of interest are:

Production Bulletin No. 1 : Electricity, Gas and Electrical Appliances (8357.0).

Production Bulletin No. 2 : Clothing and Footwear (8358.0).

Production Bulletin No. 3 : Food, Drink and Tobacco (8359.0).

Production Bulletin No. 4 : Textiles, Bedding and Floor Coverings (8360.0).

Production Bulletin No. 5 : Building Materials and Fittings (8361.0).

Production Bulletin No. 6 : Chemicals and By-products (8362.0).

Production Bulletin No. 7 : Motor Vehicles, Parts and Accessories (8363.0).

Selected Principal Articles Produced (8365.0).

Principal Articles Produced (8303.0).

8. All publications produced by the ABS are listed in *Catalogue of Publications* (1101.0) which is available free of charge from any ABS office.

Symbols and other usages

- n.p. not available for separate publication (but included in totals where applicable)
- .. not applicable
- nil or less than half the final digit shown
- n.y.a. not yet available

(a) Includes natural gas. (b) Primary origin only. Source: Bureau of Mineral Resources. (c) Estimated total electricity generated by public utilities, factories generating for their own use and factories supplying electricity for domestic and other consumption. (d) Includes lead content of lead alloys from primary sources but excludes lead-silver-bullion. (e) See paragraph 6, Explanatory Notes. (f) Produced by Australian refineries from imported and indigenous petroleum. Source: Department of National Resources. (g) Includes the input of crude, enriched crude and other petroleum based feedstock.
