Introduction

1. The information in this bulletin has been compiled from returns supplied by life insurance businesses registered under the *Life Insurance Act* 1945-1973 and returns supplied voluntarily by the State Government Insurance Offices.

Areas covered

2. The statistics of new policies issued, policies discontinued or reduced, policies existing and new loans paid over *exclude* business in Papua New Guinea. Statistics of assets and liabilities, premiums received, claims, surrenders, etc. paid, *include* Papua New Guinea business. State or Territory refers to the State or Territory where the policy is registered, and is not necessarily the State or Territory of residence of the insured person.

3. State details of new policies issued, policies discontinued or reduced, and new loans paid over during 1973-74, and of policies in existence at 30 June 1974 were published in Tables 10 and 11 and details of premiums received and claims, surrenders etc. paid over in Australia for 1973-74 were published in Table 12 of the June issue of this bulletin. Similar details of the calendar year 1973 were published in the December 1973 bulletin.

Time of recording

4. Details of new policies issued and policies discontinued or reduced are shown in the period during which they were recorded in life insurance companies' registers maintained in each State and Territory. For monthly statistics in particular, such periods may be subsequent to those during which the policies were actually written or matured, surrendered, etc.

Treatment of particular items and classes of business

5. In this bulletin *Policies discontinued or reduced* includes policies matured, surrendered, forfeited, transferred to registers in other States, Territories or overseas or converted to other classes of business, etc. Estimates of the *Policies existing at the end of each period* are prepared by updating the details of business in existence supplied in annual returns using the details of new policies issued and policies discontinued provided in monthly returns. Annuities, re-insurance of risks of the companies, bonus additions, benefits (other than the basic sum insured) attaching to family income policies, benefits payable on death by accident or specified sickness, and continuous disability benefits are excluded.

6. A policy insuring more than one life, i.e. a *blanket* policy, is treated as one policy in the figures shown for *Number of policies* when the policy is issued or discontinued. Variations in the number of lives covered under a *blanket* policy have no effect on the figures shown for *Number of policies*. However, any increases in sums insured or in annual premiums are included in the figures shown for *Sum insured* and *Annual premiums* for *New policies issued*. Similarly, decreases are reflected in the figures shown for *Sum insured* and *Annual premiums* for *Policies discontinued or reduced*. *Blanket* policies are frequently used for superannuation business.

Revisions, etc.

7. This bulletin incorporates revisions made to figures published in previous bulletins in this series.
8. Any discrepancies between totals and sums of components in tables are due to rounding.

(a) The minus sign (-) denotes an increase in existing business recorded in ordinary and industrial business registers, and is due mainly to the inclusion, as negative discontinuances, of business not previously reported as life insurance business. (b) Industrial business for Northern Territory is included with industrial business for South Australia.
