## NOTES

The data in this publication are compiled from a complete enumeration of all in-scope accommodation establishments.

From March quarter 1992, Great Barrier Reef Island establishments (see Table 6, page 14) previously classified as ungraded in this publication have been classified by star grading (see Table 5, page 4) as now allocated in the *RACQ Queensland Accommodation Guide*.

From September quarter 1992, the treatment of occupancy for permanently reserved caravan park sites has been changed. See Explanatory Notes 10 and 13. Total site occupancy rates for caravan parks from September quarter 1992 are not comparable with those for previous quarters.

Explanatory Notes are located on pages 28 to 30.

(a) Reviews of the occupancy of individual caravan parks have resulted in reclassification of significant numbers of caravan parks from predominantly short-term to predominantly long-term. (b) From September quarter 1992, caravan park sites, etc. permanently reserved but only casually occupied by their tenants have been recorded continuously as site nights occupied irrespective of whether the tenants of individual sites were in residence on any particular night. See Explanatory Notes 10 and 13. Occupancy measures from September quarter 1992 are not therefore comparable with those from previous quarters.

(a) Reviews of the occupancy of individual caravan parks have resulted in reclassification of significant numbers of caravan parks from predominantly short-term to predominantly long-term. (b) From September quarter 1992, caravan park sites, etc. permanently reserved but only casually occupied by their tenants have been recorded continuously as site nights occupied irrespective of whether the tenants of individual sites were in residence on any particular night. See Explanatory Notes 10 and 13. Occupancy measures from September quarter 1992 are not therefore comparable with those from previous quarters.

## EXPLANATORY NOTES

## Introduction

This publication contains data for Queensland from a quarterly survey of tourist accommodation establishments. The period covered by the latest survey is the three months ended 31 December 1992.

## Scope and Coverage

2. Tourist accommodation establishments currently included in the survey comprise two groups:

(a) Establishments providing predominantly short-term accommodation (i.e. for periods of less than two months) to the general public. These include:

(i) *Hotels, motels and guest houses, with facilities.* Hotels licensed to operate a public bar and motels, private hotels and guest houses all of which provide a bath (or shower) and toilet in most guest rooms and have breakfast available for guests.

(ii) *Holiday flats, units and houses* (excluding establishments predominantly operated on a time share basis) which are operated by owners or managers who have sole letting rights to at least 5 flats, units or houses or by real estate agents for short-term letting. They are mainly self-contained in terms of cooking, bath (or shower) and toilet facilities and do not have breakfast available for guests. Data for holiday flats, units and houses include short-term owner occupation as well as paying guest occupation.

(iii) *Visitor hostels* which provide accommodation to visitors on a bed basis (rather than by the room). This category does not include establishments providing charity type accommodation (e.g. Salvation Army hostels) nor hotels, motels and guest houses without in-room facilities which provide accommodation on a per room basis.

(b) *Caravan parks* providing either predominantly short-term (i.e. for periods of less than two months) or predominantly long-term (i.e. for periods of two months or more) accommodation to the general public and which provide powered sites for caravans and toilet, shower and laundry facilities for guests.

3. Data collected and published for each type of establishment (other than holiday flats, units and houses) include both long-term and short-term guests at these establishments.

4. Establishments providing more than one type of accommodation (e.g. a motel with attached caravan park) are treated as two or more separate establishments. However, self-contained units, flats, cabins, etc. attached to hotels, motels or to caravan parks are included in the capacity for those establishments and not treated as separate holiday flat, unit or house establishments.

## Definitions

5. *Number of establishments.* For hotels, motels and guest houses, caravan parks and visitor hostels, the number of establishments within the scope of the survey which

operated for any part of the survey period, or which closed temporarily for the quarter for seasonal reasons.

6. *Number of letting entities.* For holiday flats, units and houses, the number of owners, managers or real estate agents within the scope of the survey who operated for any part of the survey period.

7. *Capacity in terms of Guest rooms, Bed spaces, Holiday units or Caravan park sites, etc.* is the maximum number available to accommodate paying guests during the survey period. Capacity closed temporarily for seasonal reasons is included.

8. *Bed spaces.* Three-quarter beds are counted as one bed space; double beds as two bed spaces. Excludes cots.

9. *Total caravan park capacity* includes *On-site vans, Other powered sites, Unpowered sites and Cabins, etc.*

10. *Occupancy in terms of Room nights, Unit nights or Site nights occupied* refers to the total number of nights each guest room, holiday unit or caravan park site, etc. was occupied during the survey period.

NOTE: From September quarter 1992, caravan park sites, etc. permanently reserved for 2 months or more at the end of the survey period but only casually occupied by their tenants have been recorded continuously as *Site nights occupied* irrespective of whether the tenants of individual sites were in residence on any particular night. (See also paragraph 13 below). Previously, usage of these sites was recorded as *Site nights occupied* only when their tenants were in the park. Total site occupancy rates from September quarter 1992 are therefore not comparable with those from previous quarters.

11. *Occupancy in terms of Guest nights* refers to the total number of nights each paying guest stayed during the survey period.

12. *Sites occupied by long-term guests.* The total number of sites, etc. occupied at the end of the survey period by guests who have stayed continuously for 2 months or more.

13. *Other sites permanently reserved.* The total number of powered and unpowered sites, on-site vans and cabins, etc. continuously let for 2 months or more by the end of the survey period to tenants who occupy the sites only on a casual or sporadic basis. Separate data for this item are available only from September quarter 1992.

14. *Occupancy rates* represent occupancy expressed as a percentage of total capacity available during the survey period - e.g.

*Room occupancy rate (%) for the period =*

$$\frac{\text{Room nights occupied}}{(\text{Guest rooms}) \times (\text{No. of days in the period})} \times 100$$

15. *Guest arrivals.* The total number of paying guests counted only on the first night they stayed at the accommodation establishment.

16. *Unit lettings.* The total number of times a holiday flat, unit or house was occupied by a new tenant, counted only on the first night it was occupied by the new tenant.

## EXPLANATORY NOTES - continued

17. *Average length of stay* is expressed in number of days and calculated:

- (a) for hotels, motels and guest houses and for visitor hostels, by dividing *Guest nights* by *Guest arrivals* and
- (b) for holiday flats, units and houses, by dividing *Unit nights occupied* by *Unit lettings*.

18. *Takings from accommodation*. Revenue received from the provision of accommodation. Takings from meals are excluded. Takings from accommodation for each month generally represent the takings received during that month. Where payments are received in advance of, or after, the provision of accommodation to guests, the monthly figure for takings from accommodation may not necessarily bear a direct relationship to the number of guests accommodated during the month. Rental and storage fees paid to caravan parks for the keeping of private vans in parks are included in the takings of the month they are received.

19. *Star grading*. The grading of hotels and motels with facilities based on the classification system used by members of the Australian Automobile Association (AAA). The gradings are allocated according to a points system based on the amenities and facilities available to guests. Details of the grading scheme are contained in the RACV-RAASA members' publication *Accommodation Australia*, or the individual tour guides produced by members of the AAA. For the purpose of classifying establishments to a star grading in this publication, 'half' star gradings are ignored (e.g. a two and a half star grading has been shown as two star).

20. *Employment*. The number of persons working at accommodation establishments at the end of the survey period (including working proprietors and those working on other than accommodation activities). Where unpublished, employment data may be available upon request from the ABS.

#### Australian Standard Geographical Classification

21. Statistics presented in this publication have been classified according to the Australian Standard Geographical Classification (ASGC), Edition 2.2. This classification incorporates a number of hierarchic structures of geographic areas. The appropriate spatial units of the main structure of the ASGC used in this publication are defined as follows.

*Statistical Local Areas (SLAs)* are the smallest types of spatial units in the ASGC for which tourist accommodation data are presented. They correspond either to legal local government areas (LGAs) as defined under the *Local Government Act 1936* or to suburbs in certain urban LGAs. Some LGAs are split into two or more parts, with each part forming a separate SLA. In all instances, LGA data can be derived by aggregating SLAs. The unincorporated area of Queensland also forms a SLA. In aggregate, SLAs cover the whole of the State without gaps or overlaps.

*Statistical Subdivisions (SSDs)* consist of one or more SLAs and form the intermediate size spatial unit for the presentation of regional data.

*Statistical Divisions (SDs)*, which consist of one or more SSDs, are designed to be relatively homogeneous regions characterised by identifiable social and economic units within the region, under the unifying influence of one or more major towns or cities. The Brisbane Statistical Division comprises the Cities of Brisbane, Ipswich, Logan and Redcliffe, the Shires of Pine Rivers and Redland and parts of the Shires of Albert, Beaudesert, Caboolture, and Moreton.

*Statistical districts* have been defined around selected urban areas to provide comparable statistics over a period of time. These districts, which are intended to contain the anticipated urban spread for at least 20 years, are generally defined as having a population of 25,000 or more and experiencing urban growth beyond the LGA boundaries.

22. *Brisbane City Core*. The City Core comprises the Suburbs of Bowen Hills, City, Dutton Park, Fortitude Valley, Herston, Highgate Hill, Kangaroo Point, Kelvin Grove, Milton, New Farm, Newstead, Paddington, Red Hill, South Brisbane, Spring Hill, West End and Woolloongabba.

23. *Sunshine Coast Statistical District* comprises the more urban coastal portions of Caloundra City and Maroochy and Noosa Shires. The figures for establishments in this district are also included in the totals for their respective LGAs, the Moreton Statistical Division and Queensland.

24. *Great Barrier Reef island establishments*. This category is comprised of establishments on the coastal islands from Lady Elliot in the south to Lizard in the north. The figures for these establishments are included in their respective LGAs, statistical divisions and in the Queensland total.

#### Related publications

25. Publications for Australia, and each State and Territory, are released by the respective offices of the ABS. Tourist accommodation statistics for past quarters are available on request.

26. Other ABS publications which may be of interest include:

*Directory of Tourism Statistics*, 1991 (1130.0) (irregular)

*Overseas Arrivals and Departures, Australia* (3401.0) (monthly)

*Tourist Accommodation, Australia* (8635.0) (quarterly)

*Selected Accommodation Establishments, Australia*, 1984-85 (8636.0) (irregular)
