PRODUCTION SUMMARY NO. 33: MOTOR VEHICLES

OCTOBER 1968

These statistics include production of vehicles from both Australian and imported components. The statistics of finished motor vehicles exclude vehicles finished by specialist body building works. The statistics of partly finished motor vehicles represent the production of vehicles to which some additional body work (except painting) is to be done by specialist body building works.

The figures for 1965-66 and 1966-67 are those recorded in the Annual Factory Census. All subsequent figures are derived from the recorded monthly production and are subject to revision.
