- (a) This series comprises commitments for overdrafts, term loans and farm development loans. Commitments in respect of temporary advances to woolbuyers are excluded. The figures represent gross new lending commitments of banks and do not take account of cancellations and reductions of existing limits. Figures for cancellations and reductions of existing limits can be calculated from this series (after deducting term loan and farm development loan components and adjusting the weekly averages to a monthly basis) in conjunction with that of overdraft limits shown in the following table. However, these derived figures should be regarded as an approximation only, since there are unavoidable differences in the basis of compilation of the two series.
