RETAIL SALES OF GOODS : AUSTRALIAMARCH QUARTER, 1956

Estimates of the total value of goods sold by retail in Australia during the quarter ended 31st March, 1956 have been derived from returns of a representative sample of retail traders and are summarized in this Bulletin with comparisons for previous periods. The statistics herein relate to the value only of retail sales. To assess the movement in the volume of retail sales made, it is necessary to allow for variations in prices.

Because of the seasonal nature of retail trade, sales made in one quarter should not be compared with those in the previous quarter without making allowances for seasonal influences. Consequently, where percentage increases are shown in this Bulletin (Tables 1, 3-9, 12 and 14) quarterly figures of retail sales are compared with those of the corresponding quarter of the previous year.

The returns used in these estimates for March quarter, 1956 cover approximately 40 per cent. of all retail sales in Australia. The estimated totals for Australia have been calculated by methods appropriate to a stratified sample.

The figures relate to retail sales of goods (as distinct from services, repairs, accommodation, entertainments, meals, etc.) by establishments which normally sell goods by retail to the general public from shops, rooms, kiosks and yards. Hotels, garages and service stations are also included in respect of goods sold, but establishments such as clubs and guest houses are entirely excluded. Goods sold from farms direct (e.g. milk and eggs) are also excluded. The tables relate to rather more than 90 per cent. of consumer retail expenditure on goods, but include also some producer expenditure made by retail, mainly in respect of motor vehicles, petrol, etc.

More detailed descriptions of the types of retail establishments covered and of the commodity groupings are contained in Bulletins issued in connexion with the Censuses of Retail Establishments, 1948-49 and 1952-53.

The tables herein contain particulars of retail sales of goods for the year 1947-48 to the quarter ended 31st March, 1956. Figures for the years 1947-48, 1948-49, and 1952-53 are based on the results of censuses taken in respect of these years, whereas other figures are estimates made by means of sample surveys. All figures shown are on the same basis as those obtained from the 1952-53 census and are comparable throughout.

Particulars throughout this Bulletin exclude the Australian Capital Territory and the Northern Territory, for which total retail sales shown at the Census of Retail Establishments for the year ended 30th June, 1953 were £5.7 million and £3.6 million respectively.
