PREFACE

This Bulletin contains an analysis of registrations of new motor vehicles for the Month of April, 1955. All Commonwealth-owned vehicles are included except those belonging to the Departments of Army and Air. For cars and commercial vehicles the analysis relates to make, horse-power (B.A.C. rating) and type of new motor vehicles registered. Motor cycles are shown according to make of vehicle.

All figures for horse-power shown in this Bulletin are in terms of B.A.C. rating. Whole numbers only have been shown. For example, the Standard Vanguard Spacemaster which has an B.A.C. rating of 17.9 H.P. is recorded in this Bulletin as 17 H.P.

In this issue details for the A.C.T. have been included as metropolitan, for the first time.

Separate particulars are shown for (a) Cars (b) Commercial Vehicles and (c) Motor Cycles. In this issue, cars have been classified according to whether they are sedans or "open" cars (i.e. tourers, sports cars, convertibles, etc.) Commercial vehicles are classified into (i) Utilities, (ii) Panel Vans, (iii) Lorries, (iv) Omnibuses, (v) Station Wagons, and (vi) Other Types. Metropolitan registrations are shown separately for cars, commercial vehicles and motor cycles.

Supplementary tables show monthly averages for the years 1950 to 1954 and comparative figures for the last fifteen months and a dissection of lorries and omnibuses according to type of fuel used.

Monthly statistics are available as from July, 1951 and have been compiled in collaboration with Government Statisticians from data made available by the Road Transport Authority in each State. Particulars for motor cycles are not available prior to January, 1953.

Vehicles such as the Land Rover, Willys Jeep and Austin Champion are included under the heading of the body type constructed on the chassis but in most cases such vehicles are classified as "utility".

MOTOR CYCLES - Included under this heading are: - (a) Motor Cycles (b) Motor Scooters and (c) Pedal Cycles with motor attached.

Vehicles which have been excluded from tabulations are as follows: -

Air Compressor	Fork or Air Lift	Mobile Crane
Bulldozer	Front End Loader	Rotary Hoe
Concrete Mixer	Grader	Street Sweeper
Crawler Tractor	Industrial Barrow	Tractor
Electric Welding Plant		

Separate registrations of trailers or any other vehicles without an engine are also excluded.

MONTH OF REGISTRATION: For various reasons the total number of new vehicles shown herein may not agree in all cases with figures compiled by the registration authorities in each State but the difference will usually be small and of no significance. For all States the tabulations include all registrations of new vehicles which passed through the Central Registration Authority of respective States during the month. At times, in some States, new registrations effected in branch offices are not "passed" into the statistics until some weeks or months after actual registration. In regard to Western Australia all metropolitan (Perth) registrations of new motor vehicles during the month are included but as the majority of country registrations arrive at the Central Office late for inclusion in the tabulations for the month to which they refer, all extra-metropolitan registrations are incorporated in the tabulations for the month following. A somewhat similar position existed in Victoria prior to February, 1955 where there was a varying time-lag of from two or four weeks in extra-metropolitan registrations. From February, 1955, Victorian registrations are treated in the same way as those for Western Australia.
