MAIN FEATURES

SUMMARY

The gross value of agricultural commodities produced in 1986-87 was \$4,780.7 million, an increase of 5.6% on the 1985-86 value. While the gross value of crops, the major contributor, decreased by 4.6%, that of livestock slaughterings and livestock products increased by 16.1% and 14.1% respectively.

CROPS

The gross value of crops produced was \$2,065.3 million in 1986-87. The value of wheat, the major component, was \$723.8 million, representing a decrease of 27.0% on the 1985-86 value. This fall was offset by corresponding increases in the value of other major crops such as cotton (14.7% to \$308.1 million), other cereals for grain (1.5% to \$290.4 million), fruit (20.4% to \$288.0 million) and vegetables (25.2% to \$150.0 million).

LIVESTOCK SLAUGHTERINGS

All the components shared in the increase of the 1986-87 gross value of livestock slaughterings which totalled \$1,244.6 million. Cattle, the major component, rose by 16.4% to \$664.1 million followed by poultry, which rose by 4.2% to \$268.9 million, sheep and lambs by 34.8% to \$156.6 million and pigs by 22.0% to \$155.1 million.

LIVESTOCK PRODUCTS

The gross value of livestock products in 1986-87 increased to \$1,470.8 million. Wool, the major contributor, increased by 17.1% to \$1,098.7 million. Milk also increased, by 13.8% to \$250.2 million, while eggs decreased by 7.9% to \$111.5 million. Honey and beeswax increased by 5.3% to \$10.4 million.

REGIONAL

Of all statistical divisions in New South Wales, the Northern Statistical Division was the major contributor (21.2% or \$1,012.8 million) to the gross value of agricultural commodities produced in 1986-87. This statistical division was the major contributor to the gross value of both crops (27.2% or \$561.0 million), and livestock slaughterings (21.5% or \$267.3 million). The North Western Statistical Division contributed most, 15.3% or \$225.0 million, to the gross value of livestock products.

EXPLANATORY NOTES

1. Sources and coverage

(a) These statistics have been, in general, derived from the results of the Agricultural Census conducted at 31 March each year from occupiers of establishments with agricultural activity.

(b) An establishment with agricultural activity is a single physical location which is used for the production of crops (including fruit and vegetables) and/or for the raising of livestock and the production of livestock products.

(c) Establishments which make only a small contribution to overall agricultural production are excluded from the scope of the census. From 1986-87, establishments with an estimated value of operations (EVAO) less than \$5,000 are excluded (previously those establishments with an EVAO less than \$2,500 were excluded).

(d) Information covering such commodities as livestock slaughtering, dairy produce and beekeeping is obtained from separate ABS collections and from organisations such as the NSW Dairy Corporation.

(e) The method of collection of relevant prices for, and the costs of marketing of, agricultural commodities varies considerably between commodities. Where a statutory authority handles marketing of the whole or portion of a product (e.g. NSW Dairy Corporation, Australian Wheat Board) data are usually obtained from this source. Information is also obtained from marketing reports, wholesalers, brokers and auctioneers.

(f) For all commodities, values are in respect of production during the year (or season) irrespective of whether or when payments are made. For that portion of production not marketed (e.g. hay grown on farm for own use, milk used in farm household, etc.) estimates are made from the best available information and, in general, are valued on a local value basis.

2. Statistical areas of New South Wales

(a) This bulletin contains small area data presented according to the Australian Standard Geographical Classification (ASGC) Edition 3. For further information refer to Appendix A of this publication.

(b) Due to frequent changes to local government areas, care should be taken if comparing statistics for these areas over time. All changes which have occurred between 1 April 1986 and 31 March 1987 are shown in Appendix B of this publication. When changes have occurred, the data for the 1986-87 season relate to the boundaries of these areas as at 31 March 1987.

3. Definitions of terms used

The following are brief definitions of the terms used:

(a) *Gross value of commodities produced* is the value placed on recorded production at the wholesale price(s)

realised in the market place. In general, the market place is the metropolitan market. In cases where the commodities are consumed locally, or where they become raw materials for a secondary industry, these points are presumed to be the market place.

(b) *Marketing costs* include freight, cost of containers, commission, insurance, storage, handling and other charges necessarily incurred by the producer in moving the agricultural product from the place of production to the market place.

(c) *Local value of commodities produced* is the value placed on recorded production at the place of production and is determined by deducting marketing costs from the gross value of commodities produced.

Gross and local values of agricultural commodities produced involve some duplication, as they include certain agricultural commodities which are consumed as raw materials to produce other agricultural commodities (e.g. hay consumed by livestock).

(d) *Values* include any relevant subsidy and bounty payments based on production.

(e) *Livestock slaughtering and other disposals.* Values for livestock slaughtering and other disposals are published as one figure but include two distinct components:

(i) Value of livestock slaughtered, and

(ii) Value of net exports, i.e. the total value of livestock intended for slaughter in adjacent State(s) and livestock exported overseas whether for slaughter or breeding, minus the value of imports of livestock.

Data on value of livestock slaughtering are available on request.

(f) *The value of agricultural commodities produced in statistical areas of the State* is calculated by using selected agricultural census items in conjunction with the gross value of agricultural commodities produced to derive unit values for a range of commodities. These derived unit values are applied to the regional agricultural census commodity item totals for the area to form the area values shown in Tables 8, 9 and 10. Where production is not obtained directly from the Agricultural Census, selected Agricultural Census items having a direct link with the production of the particular commodity are used. Except for certain crops grown in irrigation areas (grapes and oranges), this method of estimation does not take account of differences in unit prices between areas. Beekeeping activities are included but the values are apportioned to a particular statistical local area, (and hence a statistical area), purely on the basis of the postal address of the operator; other agricultural activities may be undervalued because some specialist activities are not identified in the Agricultural Census (e.g. studs). For these reasons, the area values should be treated as providing only an indication rather than a precise measure of the value of commodities produced by region.

4. Related publications

- (a) Other N.S.W. ABS publications which may be of interest to users of this bulletin include:

Selected Agricultural Commodities (Preliminary)
(7112.1)
Livestock and Livestock Products (7221.1)
Crops and Pastures (7321.1)
Fruit (7322.1)
Agricultural Land Use and Selected Inputs
(7411.1)

- (b) A list of the complete range of publications available from the ABS can be obtained from any ABS office. Access to a wide range of ABS statistics is also available through the VIATEL videotex system and on AUSSTATS, ABS' on-line service through CSIRONET. Further information about these services can be obtained from the Sydney ABS Information Service on (02) 268 4611, or from any ABS Office.

5. Unpublished information

In some cases, the ABS can also make available information which is not published. This information may

be made available in one or more of the following forms: microdiskette, microfiche, photocopy, data tape, computer printout, clerically-extracted tabulation. Generally, a charge is made for providing unpublished information.

6. Symbols and other usages

(SD) Statistical Division
(SSD) Statistical Subdivision
(M) Municipality
(C) City
(S) Shire
- nil or rounded to zero

Where figures have been rounded, discrepancies may occur between sums of the component items and totals. Published percentage changes are calculated prior to rounding of figures and, therefore, some discrepancies may exist between percentages that could be calculated from the rounded figures.

(a) The total value of crops produced includes the value of grasses and clovers harvested for seed and of grass and pasture cut for hay.

(C) LIVESTOCK SLAUGHTERINGS AND OTHER DISPOSALS

TABLE 4. LIVESTOCK SLAUGHTERINGS AND OTHER DISPOSALS (a) : GROSS AND LOCAL VALUES, 1981-82 TO 1986-87 (\$'000)

Livestock	1981-82	1982-83	1983-84	1984-85	1985-86	1986-87
GROSS VALUE						
Cattle and calves	419,207	570,394	470,487	492,815	570,398	664,064
Sheep and lambs (b)	150,200	120,715	143,602	137,187	116,149	156,586
Pigs	101,274	94,763	82,928	107,380	127,103	155,067
Poultry (c)	174,442	190,452	182,499	224,717	257,913	268,864
Total, livestock slaughterings and other disposals	845,123	976,324	879,515	(d)962,492	1,071,563	1,244,582
LOCAL VALUE						
Cattle and calves	384,225	521,628	434,110	454,909	521,150	610,697
Sheep and lambs (b)	132,148	101,866	123,750	115,940	91,460	133,655
Pigs	93,059	86,072	75,319	97,139	116,276	141,809
Poultry (c)	174,395	190,409	182,447	224,679	257,848	268,786
Total, livestock slaughterings and other disposals	783,827	899,974	815,626	(d)892,799	986,734	1,154,946

(a) Includes adjustment for net exports overseas of live animals. Excludes interstate movements of livestock between New South Wales and Victoria.
 (b) Excludes value of wool on skins. (c) Includes poultry produced in the Australian Capital Territory but slaughtered in New South Wales. (d) Includes the value of goat slaughterings. Data not collected in other years.

GROSS VALUE OF LIVESTOCK SLAUGHTERINGS AND OTHER DISPOSALS, 1986-87

TABLE 5. LIVESTOCK SLAUGHTERINGS : AVERAGE UNIT GROSS VALUE (a), 1984-85 TO 1986-87 (\$)

Livestock	Unit	1984-85	1985-86	1986-87
Cattle and calves	animal	344.98	321.49	359.74
Sheep and lambs	animal	14.52	10.87	15.89
Pigs	animal	97.13	96.08	100.15
Poultry	animal	2.23	2.47	2.45

(a) Obtained by dividing the total gross value of slaughterings by the total number of animals slaughtered.

(D) LIVESTOCK PRODUCTS

TABLE 6. LIVESTOCK PRODUCTS : GROSS AND LOCAL VALUES, 1981-82 TO 1986-87 (\$'000)

Livestock product	1981-82	1982-83	1983-84	1984-85	1985-86	1986-87
GROSS VALUE						
Wool -						
Shorn and crutched	550,071	560,969	660,479	802,358	888,294	1,050,453
Other (a)	25,237	24,226	26,961	36,637	49,989	48,236
Total	575,308	585,195	687,439	838,995	938,283	1,098,688
Production of milk -						
Market milk (b)(c)	184,103	195,572	181,308	195,101	179,399	200,285
Milk for other purposes (d)	52,014	56,604	56,550	46,973	40,555	49,936
Total (c)	236,117	252,176	237,858	242,074	219,954	250,221
Eggs	102,515	110,522	116,726	114,982	121,003	111,471
Honey and beeswax	7,189	6,748	8,399	9,091	9,920	10,445
Total, livestock products (c)	921,129	954,641	1,050,423	(e) 1,209,472	1,289,160	1,470,825
LOCAL VALUE						
Wool -						
Shorn and crutched	516,941	525,834	625,230	754,436	837,762	995,495
Other (a)	25,237	24,226	26,961	36,637	49,989	48,236
Total	542,178	550,060	652,191	791,073	887,751	1,043,731
Production of milk -						
Market milk (b)	164,395	175,311	181,308	195,101	179,399	200,285
Milk for other purposes (d)	52,014	56,604	56,550	46,973	40,555	49,936
Total	216,409	231,915	237,858	242,074	219,954	250,221
Eggs	91,038	100,430	101,395	95,170	101,232	102,472
Honey and beeswax	7,189	6,748	8,399	9,091	9,920	10,445
Total, livestock products	856,814	889,153	999,844	(e) 1,141,502	1,218,857	1,406,869

(a) Includes the value of fullmorged wool and the value of wool on skins. (b) As milk for human consumption. (c) Not strictly comparable, prior to 1983-84 the gross value of market milk includes marketing costs. (d) Includes milk used for butter, cheese, and other milk products. (e) Includes the value of goat products. Data not collected in other years.

GROSS VALUE OF LIVESTOCK PRODUCTS, 1986-87

TABLE 7. LIVESTOCK PRODUCTS : AVERAGE UNIT GROSS VALUE (a), 1984-85 TO 1986-87 (\$)

Livestock product	Unit	1984-85	1985-86	1986-87
Wool	kg	3.05	3.34	3.82
Production of milk -				
Market milk (b)	litre	0.34	0.31	0.34
Milk for other purposes (c)	litre	0.13	0.12	0.16
Total	litre	0.26	0.24	0.28
Eggs	doz	1.39	1.45	1.33
Honey	kg	0.75	0.93	1.07

(a) Obtained by dividing the total gross value of commodities by the total quantity produced. (b) See footnote (b) above. (c) See footnote (d) above.

APPENDIX A

STATISTICAL AREAS OF NEW SOUTH WALES

This bulletin contains data presented according to the Australian Standard Geographical Classification (ASGC) Edition 3. Under this classification, statistical areas are defined as follows:

STATISTICAL LOCAL AREAS (SLAs). These geographic areas are in most cases either identical with, or have been aggregated to, the previously published whole or part legal Local Government Areas (LGAs) as defined under the (State) Local Government Act 1919 and comprising cities (C), municipalities (M) and shires (S). In other cases, they are identical to each previously published unincorporated area. In aggregate, SLAs cover the whole of the state without gaps or overlaps.

STATISTICAL SUBDIVISIONS (SDs). These consist of one or more SLAs and form the intermediate size spatial unit for the presentation of regional data.

STATISTICAL DIVISIONS (SDs). These consist of one or more Statistical Subdivisions (SSDs). Where SSDs are not shown for statistical purposes, statistical local areas are shown ordered alphabetically within statistical divisions. The divisions are designed to be relatively homogeneous regions characterised by identifiable social and economic units within the region, under the unifying influence of one or more major towns or cities.

STATISTICAL DISTRICTS. To provide comparable statistics over a period of time, statistical districts have been defined around selected urban centres, with a population of 25,000 or more, experiencing urban growth beyond the legal local government area boundaries. Those districts are intended to contain the anticipated urban spread over the next 20 years.

Further information concerning statistical areas is contained in the publication *Regional Statistics, New South Wales, 1987* issue (1304.1) and in the publication *Australian Standard Geographical Classification* (1216.0)

APPENDIX B

NAME CHANGES, AMALGAMATIONS, AND BOUNDARY CHANGES OF STATISTICAL LOCAL AREAS OF NEW SOUTH WALES, BETWEEN 1 APRIL 1986 AND 31 MARCH 1987

<i>Statistical Local Areas affected by change</i>	<i>Nature of change</i>	<i>Date of change</i>	<i>Net change in area (hectares)</i>
Auburn (M)	Gained from Bankstown (C)	21-5-86	0.6
Bankstown (C)	Lost to Auburn (M)	21-5-86	0.6

Statistical Division	10 HUNTER
Statistical Subdivision	ALBURY 05
Statistical Local Area	7900

Prepared for the Australian Bureau of Statistics
by the Division of National Mapping, 1987

PUBLICATIONS ISSUED BY AUSTRALIAN BUREAU OF STATISTICS (SYDNEY)

The ABS issues a large range of publications presenting statistics relating to New South Wales. All of these are obtainable from the Australian Bureau of Statistics, St. Andrew's House, Sydney Square (George Street, next to Sydney Town Hall), Sydney.

The *New South Wales Year Book* presents a comprehensive statistical survey of the social, demographic, and economic structure and growth of the State, and describes the legislative provisions and administrative arrangements which are of significance for a proper interpretation and analysis of the statistics of the State. The *Pocket Year Book* and *New South Wales in Brief* contain a wide range of statistical and other material in compact form and are useful for handy reference. More recent statistics are available in the *Monthly Summary of Statistics*. *Regional Statistics* presents a selection of the more important statistics available for geographical areas of the State. More detailed statistics relating to matters treated generally in the above publications are available in the various *subject bulletins*, which range from preliminary monthly statements to detailed bulletins presenting the results of periodic censuses, etc. The date of release and current price of the more important bulletins issued by this Office appears below.

<i>Catalogue No.</i>	<i>Publication</i>	<i>Month of issue</i>	<i>Price (\$) incl. postage within Australia</i>
GENERAL			
1301.1	New South Wales Year Book, No. 71, 1988 (hardcover) (Special Bicentennial Issue)	June 1988	38.00
1302.1	Pocket Year Book of New South Wales, 1988	June 1988	6.50
