EXPLANATORY NOTES

Scope of publication

This publication contains average prices for selected items which are included in the Consumer Price Index for the eight capital cities. Average prices for the selected food items for Darwin which were previously published in *Consumer Price Index, Monthly Food Group Index, Darwin* (6413.0), final issue March 1982, are now included in this publication.

2. The CPI covers a wide range of goods and services arranged in eight groups which are in turn divided into subgroups. The selected items for which average prices are shown in this publication fall within the Food Group and the following non-food subgroups: household supplies and services; private motoring; alcoholic beverages; and personal care products. The items and varieties selected, however, do not comprise *all* of the items and varieties which are incorporated in the Food Group or the specified subgroups of the CPI.

Average prices

3. Prices shown are the averages of prices for specified grades, qualities, brands, etc. charged by a number of selected retailers in each city. The specified grades, etc. and the retailers have been selected as representative to measure price change over time. Thus the prices do not purport to be the actual averages of all retail sales of these items. They should be regarded as no more than approximate indicators of price levels and price changes for the items concerned. Furthermore, the selected grades, brands, etc. for some items differ between cities and thus the average prices for some items may not be completely comparable from city to city.

4. Prices for fresh fruit and vegetables are collected weekly and averaged to obtain quarterly prices. Prices for fresh meat, bread, petrol and packaged alcohol are collected monthly and averaged to obtain quarterly prices. Prices for fresh milk and bar sales of alcoholic beverages are collected at the end of the quarter together with details of price changes during the quarter, and average prices calculated for the quarter.
