CATALOGUE NO. 7301.0

NOON 12 SEPTEMBER 1979

CROP AND FRUIT STATISTICS, AUSTRALIA, 1978-79 (PRELIMINARY)

INQUIRIES

If you want to know more about these statistics ring Mr Vit Zorin on Canberra 525341, or our State office, or write to Information Services, ABS, P.O. Box 10, Belconnen, A.C.T. 2616.

For copies of this publication contact Information Services, Canberra 526627 or State offices.

This publication contains preliminary crop and fruit statistics for the year ended 31 March 1979, together with comparative information for earlier years. Final and more detailed statistics will be published in a series of publications intended for release later in the year and during the early part of 1980.

The statistics in this publication are derived from the annual Agricultural Census, conducted at 31 March, which collects commodity data from establishments (previously called holdings) with agricultural activity throughout Australia. In the past three years the ABS has been gradually excluding from the statistics, establishments whose contribution to agricultural production is small. While this has reduced the number of establishments appearing in publications the effect on statistics of production of major commodities is minimal. Statistics of minor commodities normally associated with smaller scale operations may be affected to a greater extent.

Related publications

Cereal Grains: Estimates of Area Sown, Australia (7305.0)

Symbols and other usages

- n.a. not available
- n.y.a. not yet available
- p. preliminary - figure or series subject to revision
- n.p. not available for separate publication (but included in totals where applicable)
- nil or less than half the final digit shown

Where figures have been rounded, discrepancies may occur between sums of the component items and totals.

R. J. CAMERON
Australian Statistician
