

The Australian National University
Public Lecture

logical distress

Problems of Community Mental Health

Wednesday 22 April at 7.45 pm

Dr Christopher Tennant, Prince Henry
Hospital, University of New South Wales
**Social Epidemiology of Psychiatric
Disorders**

Dr Gavin Andrews, Prince Henry Hospital,
University of New South Wales
Who should be treated for what by whom?

What is happening to mental health?

*Are Psychiatric Disorders increasing?
How does life style affect community
Health?*

*Are there any policies concerning
community mental health? If so, what
are they? Are they working? How can
they be improved?*

Wednesday 29 April at 7.45 pm

Dr Malcolm Whyte, Alcohol and Drug
Dependence Unit, Capital Territory
Health Commission

**Life style and drug use as correlates of
physical and mental health**

Dr Robin Winkler, University of
Western Australia

**A critical view of community mental
health**

A panel of four experts in the field of
community mental health will examine
these questions and others in this four
lecture series. Each lecture will be
followed by general discussion. There
will be a short coffee break between
lectures.
