* Prior to the 1st April, 1908, all passengers on board overseas vessels were, at the first port of call, counted as "arrivals," and all passengers on board at the last port of clearance within the Commonwealth were counted as "departures." This method was abandoned on the date mentioned, and a new method substituted in its stead, under which only passengers who land at an Australian port are counted as "arrivals," and only passengers who join vessels at an Australian port are counted as "departures." The previous method unduly augmented Australian migration figures by the inclusion of through passengers who did not join or leave vessels at any Australian port.
