MAIN FEATURES

Registrations of new motor vehicles (excluding motor cycles, tractors, plant and equipment etc.), during 1985-86 (612,214) fell by 9.3% when compared with 1984-85 (674,830). The number of registrations during 1984-85 was the highest recorded in a single year.

Registrations of new motor cars and station wagons during 1985-86 was 476,488. This is 6.7% less than in 1984-85 (510,893). Registrations of other vehicles (excluding motor cycles, tractors, plant and equipment etc.) during 1985-86 (135,726) fell by 17.2% when compared with 1984-85 (163,937).

EXPLANATORY NOTES

Introduction

This publication contains detailed information regarding registrations of new motor vehicles and includes particulars of motor cars and station wagons, utilities and panel vans classified by make and tare; rigid and articulated trucks by make and gross vehicle mass / gross combination mass; and other truck type vehicles, buses and motor cycles by make. Registrations of vehicles (including motor cycles) classified by motive power are also included. Details of registrations of new tractors, trailers, caravans and plant and equipment are also included, as are particulars of motor vehicles on register. The ABS also publishes preliminary figures on new motor vehicle registrations each month in *Registrations of New Motor Vehicles, Australia, Preliminary* (9301.0). (See paragraph 10—Related publications).

Scope and coverage

2. Motor vehicle registration statistics are obtained from data made available by the various State and Territory motor vehicle registration authorities and reflect the information as recorded in registration documents.

3. In these statistics *registrations* mean registrations processed by the motor vehicle registration authorities in the States and Territories during the period. In New South Wales, South Australia, Tasmania and the Australian Capital Territory the figures shown depart little

from actual registrations during the period. In the other States and the Northern Territory, advice of some registrations is often not received by the central motor vehicle registration authority until some time after the actual date of registration. For this reason a considerable number of registrations processed in a month actually relate to vehicles registered prior to that month.

4. The amount of data that can be published, particularly at the Australian level, is restricted to what is included in motor registry files. For example, details of cubic capacity are not recorded in all States and, consequently, classification of vehicles according to engine size is not possible.

5. The statistics include vehicles with diplomatic and consular plates and State and Commonwealth Government owned vehicles other than those belonging to the defence services.

6. Recreation vehicles such as trail bikes and sand dune buggies intended for use in public places are required to be registered in Victoria and Queensland. Particulars of these registrations are regarded as outside the scope of new motor vehicle registration statistics.

7. Vehicles such as tractors (particularly the agricultural types), plant and equipment, and motor vehicles used solely on farms, etc., and not used on public roads are not required to be registered and these are also excluded from the statistics.

Seasonal adjustment

8. Original and seasonally adjusted registrations of new motor vehicles are shown in Table 1. The two component series 'Motor cars and station wagons' and 'Other vehicles' are each adjusted separately, and the adjusted figures for total registrations are obtained by adding together the two component series. Details of the methods used in seasonally adjusting these statistics, are available on request.

Classification by area

9. In all States, *capital city* registrations refer to vehicles for which the address of the registered owner is located within the capital city statistical division. These statistical divisions are re-defined from time to time

usually as the result of information available from periodic censuses of population and housing. All registrations in the Australian Capital Territory are included under 'Capital cities' while those in the Northern Territory are included under 'Other areas'.
