EXPLANATORY NOTES

1. This publication contains preliminary estimates of the number of new dwelling units approved in September 1985. These figures are subject to revision, which is expected to be minor, when processing of relevant data is completed. Final figures, together with details of other building work approved, will be released within the next few weeks in Building Approvals, New South Wales, September 1985 (Catalogue No. 8731.1).

2. Statistics of building work approved are compiled from:

- (a) Permits issued by local government authorities in areas subject to building control by those authorities; and

- (b) Contracts let or day labour work authorised by Commonwealth, State, semi-government and local government authorities.

3. Major building activity which takes place in areas not subject to the normal administrative approval processes (eg. buildings on remote mine sites) is also included.

4. For more details of the definitions etc used in this statistical series refer to the explanatory notes of Catalogue No. 8731.1 mentioned in paragraph 1.
