What statistics are available?

Statistics covering almost every field of economic and social activity are collected and processed by ABS.

In what form are they available?

- as publications—the ABS produces over 1600 monthly, quarterly and annual publications each year. Most of these publications are free. A complete list of publications produced is contained in the *Catalogue of Publications, Australia* (1101 0) which is available free on request from any office of ABS.
- on magnetic tape, microfiche, computer printout, etc.—some statistics are available in these forms to meet the special needs of users.
- in unpublished form—for practical reasons the ABS does not publish all its available statistics. A wide range of statistics is available on request in unpublished form.
