

BUILDING STATISTICS : NORTHERN TERRITORY MARCH QUARTER 1978

INQUIRIES

If you want to know more about these statistics ring Mr Max Sybaczynski on Canberra 526067 or Mr Mike Scott on Darwin 802719, or write to Information Services, ABS, P.O. Box 10, Belconnen, A.C.T. 2616.

For copies of this publication contact Information Services, Canberra 526627 or Darwin Office.

EXPLANATORY NOTES

Scope and coverage

The statistics relate to building structures, and exclude railways, roads, bridges, earthworks, and other non-building construction. Renovations, repairs and maintenance are excluded.

2. Statistics of building approvals are compiled from:

- (a) Permits granted by government authorities
- (b) Contracts let or day labour work approved by Australian government and semi-government authorities.

3. Statistics of building operations are compiled from returns obtained from:

- (a) Contract (including speculative) builders and those engaged in alterations and additions,
- (b) Owner-builders, and
- (c) Government or semi-government authorities.

Details for owner-builders cover only those areas subject to building control by the local government authority. Details obtained from government authorities, and contract and speculative builders refer to all areas.

4. The collection covers all new dwellings, new other building jobs valued at \$10,000 and over, and alterations and additions (both to dwellings and other buildings) valued at \$10,000 and over. New dwellings are shown separately from alterations and additions to dwellings. For other building, new work and alterations and additions are shown combined together.

Definitions

5. A Dwelling is classified as either a 'House' or an 'Other Dwelling'.

(a) A 'House' is defined as a building which has been designed or adapted so that its prime purpose is to be a single self-contained dwelling unit (i.e. includes bathing and cooking facilities), which is completely detached from other buildings, and occupies (except in such cases as dwellings built for employees or families of the owner or lessee of the land) a separate titled block of land.

(b) An 'Other Dwelling' is defined as a self-contained dwelling unit other than a house as defined in (a) above. These include flats, home units, semi-detached dwellings, villa units, town houses, etc.

Non-self-contained dwelling units such as might be found in motels, hostels, and institutions, are not included as dwellings and the value of this building is included in the appropriate category of other building. Temporary or makeshift dwellings are excluded from building statistics.

6. (a) *Commenced*: A building is regarded as having been commenced when expenditure on building work is first reported.

(b) *Completed*: A building is regarded as having been completed when it is reported as completed or in the case of owner-builders is reported as completed or substantially completed and occupied.

(c) *Under Construction*: A building is regarded as being under construction at the end of a period if it has been commenced but has not been completed and work on it has not been abandoned.

(d) *Contractor-built houses*: Those erected under contract, or in anticipation of sale or rental.

- (e) *Owner-built houses* : Those erected by an owner (other than a recognised builder) or under his direction without the services of a contractor responsible for the whole job.
- (f) *Value of Building Approved, Commenced, Completed, or Under Construction* represents the estimated value of the whole job when completed, *excluding* the value of the land on which the job is carried out.
- (g) *Value of Building Work Done* represents the estimated value of the building work actually carried out during the period.
- (h) *Value of Building Work Yet To be Done* is the estimated value of work remaining to be done on building jobs under construction at the end of the period.

Building classification

7. *Private and Government* : A building job is classified, as 'private' or 'government' according to ownership at date of commencement.

8. Building is classified according to the function it is intended to serve. A building which is ancillary to other buildings or forms part of a group of related buildings is classified according to the function of the group as a whole.

Examples of the types of individual building jobs included under each main functional heading are shown in the following list :

- . *Hotels, etc.* Includes motels, hostels, boarding houses and guest houses.
- . *Shops.* Includes cafes, restaurants, retail markets and showrooms. Shops classified as government include government owned shop buildings for leasing.
- . *Factories.* Includes abattoirs, brickworks, power houses, printing offices and government workshops.
- . *Offices.* Includes banks, post offices and council chambers.

- . *Other business premises.* Includes service stations, bus depots, wholesale stores, telephone exchanges, television stations and studios, and warehouses.

- . *Education.* Includes schools, colleges, kindergartens, reference libraries and universities.

- . *Religion.* Includes churches, church halls, convents, seminaries and theological colleges.

- . *Health.* Includes ambulance stations, baby health clinics, convalescent homes, hospitals, nurses' quarters and sanatoria.

- . *Entertainment and recreation.* Includes clubs, gymnasiums, public halls, squash courts and theatres.

- . *Miscellaneous.* Includes homes for aged, law courts, defence buildings, museums, orphanages, police stations and reformatories.
