Deputy Commonwealth Statistician

EXPLANATORY NOTES

This bulletin presents the final results from the Census of Retail Establishments and Selected Service Establishments conducted for the year ended 30 June 1974 for Victoria. Separate bulletins presenting similar details are published for Australia and each State and Territory. Some results of the census were published previously in Preliminary Statement ref. 11.7. Some of the figures in that statement have been revised in this bulletin.

2. The 1973-74 census was the seventh in the series of Censuses of Retail Establishments undertaken in Australia. Previous censuses were conducted in 1948, 1949, 1953, 1957, 1962 and 1969. The 1973-74 Retail Census differed from the previous censuses both in scope and in data content. It was conducted primarily to provide census data to enable a new sample of retail establishments to be selected for the Surveys of Retail Establishments following the 1973-74 Retail Census. These surveys which are conducted each month and each quarter throughout Australia are the means by which estimates of the movements in the value of retail sales are obtained regularly during the period between censuses.

3. The scope of the 1973-74 Retail Census and the data collected in the census, were limited to the scope and data required for the surveys. For this reason, bread and milk vendors, footwear repairers, motion picture theatres and laundries and dry cleaners were not included in the 1973-74 Retail Census although they were included in the scope of the previous census taken in 1968-69. Similarly questions relating to purchases, stocks, capital expenditure, etc. which were included on the 1968-69 census forms were not included on the 1973-74 census forms.

4. The previous Retail Census taken for the year ended 30 June 1969 was conducted as part of the first Integrated Economic Censuses which covered also Censuses of Wholesale, Mining, Manufacturing, Electricity and Gas Production and Distribution. These censuses were conducted on an integrated basis in 1968-69 in order to increase substantially the usefulness and comparability of economic statistics collected and published by the Bureau. Information was collected for the first time using a common framework of reporting units and data concepts and in accordance with a standard industrial classification. As a result the statistics covered by the censuses were provided with no overlaps or gaps in scope and in such a way that aggregates for economic data such as value added, employment, wages and salaries, fixed capital expenditure and stocks could be obtained on a consistent basis for all sectors of the economy covered by the censuses. For a more detailed description of the Integrated Economic Censuses reference should be made to chapter 31 of the Official Year Book of Australia No. 56 of 1970.

5. Because of the greater number of data items for which information was collected in the 1968-69 Retail Census the number of tables produced and published and the contents of tables were considerably greater than for the 1973-74 Retail Census. The next Retail Census to be conducted as part of the Integrated Economic Censuses which will provide similar published data to that for 1968-69 will be taken for the year ended 30 June 1980.

Scope of the 1973-74 Retail Census

6. The census included in its scope all establishments classified to Retail Trade (Sub-division 48 of the Australian Standard Industrial Classification (Preliminary Edition) 1969 Vol. 1) with the exception of bread and milk vendors and footwear repairers. In addition the census included service establishments classified as cafes and restaurants, licensed hotels, motels and wine saloons, licensed clubs and hairdressers and beauty salons. The census also included separately located ancillary units such as head offices, storage and transport depots, with twenty or more employees.

7. Sales by door to door salesmen (of all kinds including independent bread and milk vendors), independent van salesmen and occasional stall holders were not included in the census. Details of sales were not collected from organisations operating vending machines on the premises of other businesses. Refreshment rooms and kiosks located on railway stations and conducted by the Railway Authority were not included in the census.

8. The definition of retail trade adopted in the 1973-74 Retail Census was the same as that used in previous retail censuses i.e. the sale of new and used goods to the final consumer for household and personal purposes. To conform with this definition, sales of building materials, timber, commercial refrigerators and freezers, agricultural machinery and implements, agricultural tractors, construction and earthmoving machinery and equipment were not treated as retail sales. For the same reason and because most retailers have difficulty in providing separate details of the value of retail and wholesale sales of builders' hardware and building supplies, grain, feed and fertilisers and agricultural supplies, business machines and equipment, these commodity items also, as in previous censuses, were not treated as retail sales. These items were however collected separately on census forms to ensure that details of their sales were not included under any other commodity group, and are included in the census tabulations with wholesale sales.

9. In supplying details of their sales retailers were requested to include cash and credit sales made during the year and to state their sales on a cash selling price basis.

10. Duplication of census data may have occurred in some cases where repair work e.g. motor vehicle repairs, was contracted out by retail establishments to specialist repair establishments.

Coverage

11. Census forms were forwarded to all establishments within the scope of the census that were included in the Central Integrated Register of Business Units maintained by the Bureau.

12. The census covered establishments which were operating at 30 June 1974. In general establishments which operated for part of the year only, or were involved in a change of ownership, were included only if they had been operating for more than two months at that date. All establishments of multi establishment enterprises in operation at 30 June 1974 were included whether they operated for the whole or any part of the year.

Classification by Industry

13. In the 1973-74 Retail Census units (mainly shops) for which statistics were collected were defined and classified on the same basis as in the 1968-69 Retail Census using the Australian Standard Industrial Classification (Preliminary Edition) 1969 Vol.1 (ASIC). The classification sets out the standard rules for identifying the census units (e.g. the establishments) and for coding them to the industries of the classification.

14. The structure of the ASIC comprises four levels. The broadest of these is the Division level, which relates to wide categories such as 'Manufacturing', 'Wholesale and Retail Trade'. The structure may be illustrated by the following example. A retail establishment mainly engaged in retailing fresh fruit and vegetables would be classified to:

Division F	:	Wholesale and Retail Trade
Sub-division 48	:	Retail Trade
Group 482	:	Food Stores
Class 4824	:	Fruit and Vegetable Stores

15. Each ASIC class is defined in terms of a specified range of economic activities designated as primary to it. (Retailing of fruit and vegetables shown in the above example is primary to class 4824). Similarly each ASIC group is defined in terms of the economic activities designated as primary to the classes within that group and so on. An establishment which is engaged mainly in economic activities primary to a particular class has been classified to that class whether or not that establishment is also engaged in other secondary activities. It should be noted that all dealers in motor vehicles, boats and caravans, either selling at wholesale or retail have been classified as retail establishments. However establishments whose predominant activity is selling new tyres, tubes, batteries or new motor vehicle parts or accessories at wholesale are classified as wholesale establishments.

The Census Forms

16. Three types of census forms were used for the 1973-74 Retail Census - a general census form (RC1) and two special forms (RC2 and RC3). Form RC2 was designed for motor vehicle dealers, garages, service stations, etc. and Form RC3 for licensed hotels, motels, restaurants, licensed clubs and hairdressers. These special forms were designed to facilitate reporting by these types of establishments.

Commodity Statistics

17. The commodity items included in this bulletin are those described on the census forms for which retail sales were reported by establishments located in Victoria and generally apart from the detailed motor commodity items, are those for which quarterly estimates of the value of retail sales are obtained during the period between censuses by means of sample surveys of retail establishments.

Size Statistics

18. Industry statistics of retail establishments and selected service establishments included in the census, and which operated for the whole of the census year, are classified by retail sales size and by turnover size.

Area Statistics

19. Tables 3 and 14 in this bulletin show statistical information for geographical areas smaller than Statistical Divisions. Table 3 shows details of numbers of establishments, employment - males, females, persons - wages and salaries and retail sales by Local Government Areas as constituted at 30 June 1974. Table 14 shows commodity details by Statistical Retail Areas. These areas are constituted by either large individual or groups of small contiguous Local Government Areas and are used for Retail Census purposes only to enable the publication of census results which would otherwise have to be withheld to avoid disclosure of confidential information.

20. Conversely Local Government Areas have been split to constitute separate Statistical Retail Areas if warranted by size, e.g. City of Melbourne or for other special considerations, e.g. Geelong Statistical District. The City of Melbourne has been divided in two Statistical Retail Areas:

- (a) Inner City Area bounded by the centres of Flinders, Spring, Latrobe and Spencer Streets, (S.R.A. 2000).
- (b) Remainder of City Area (S.R.A. 2001), which is bounded by the external boundaries of the present City of Melbourne.

The Geelong Statistical District has been delineated for statistical purposes and comprises the L.G.A.'s of Geelong City (S.R.A. 2101), Geelong West City and Newtown City (S.R.A. 2102) and the urban and/or inner parts of the L.G.A.'s of the Shires of Bannockburn, Bellarine, Corio and South Barwon (S.R.A. 2103), with the remaining parts of these shires being included in S.R.A. 2105, which is outside the boundaries of the Geelong Statistical District. Attention is also drawn to changes in the boundaries of Statistical Divisions and, hence, Statistical Retail Areas, which were instituted as from 1 July 1974, following the revision of regional boundaries by the Victorian Government. Direct comparison with the 1968-69 Retail Census results may not, therefore, be possible at the Statistical Retail Area level. However, the Melbourne Statistical Division has not been affected by these changes.

Comparison with 1968-69 Retail Census Results

21. Comparisons of the results of the 1968-69 and 1973-74 Retail Censuses have not been made because of the changes which have occurred in the scope and coverage of establishments in the two censuses and because generally 1968-69 census data are not available in a form suitable for producing comparable tables.

22. In the 1968-69 census where ownership of an establishment changed hands during the census year and separate returns were received from the current and previous proprietors, both returns were included in the census. In the 1973-74 Retail Census however, establishments which operated for part of the census year were included in the census only if they had operated for at least two months of the census year and were still operating at 30 June 1974. It is not possible to change the 1968-69 census data to the same basis as that used in the 1973-74 Census.

Definitions

23. Definitions of items included in this bulletin are:

Number of establishments: The number of retail and selected service establishments which operated at 30 June 1974. These relate to establishments as such and do not include separately located administrative offices and ancillary units.

Persons employed, male, female, persons: Working proprietors at 30 June 1974 and employees (including part time) on the pay roll of the last pay period in June 1974. Persons employed do not include unpaid helpers. The figures include those working at separately located administrative offices and ancillary units where these offices or units reported employment of twenty or more persons.

Wages and Salaries: The wages and salaries of all employees of the establishments including those working at separately located administrative offices and ancillary units (employing twenty or more persons). Drawings of working proprietors are not included.

Retail Sales. Total value of retail sales of goods recorded on census forms excluding the value of sales of commodity items as set out in paragraph 8 above.

Wholesale Sales: Value of wholesale sales made by retail and selected service establishments to other retailers, institutions or other businesses. Also includes retail sales of commodity items referred to in paragraph 8 above.

Other Operating Revenue: Operating revenue other than the value of retail and wholesale sales, such as repair and service revenue, hiring of consumer goods, takings from meals and accommodation, hairdressing, commission and other income except rent, interest, royalties, dividends and sales of fixed tangible assets.

Turnover: Sales of goods (retail and wholesale) and all other operating revenue.

Authority

24. The census was conducted under the authority of the Census and Statistics Act 1905-1973 under the terms of which all returns supplied must be treated as strictly confidential, and disclosure of information shown on individual returns is prohibited. Consequently in the tables set out in this bulletin, figures for some categories are either grouped with figures for other categories or withheld from publication in order to avoid disclosure of confidential information.

The following symbols, where shown in tables, mean:

.. Nil or less than \$500

n.e.c. Not elsewhere classified

Any discrepancies between totals, and sums of components in tables are due to rounding.

TABLE 12: NUMBER OF ESTABLISHMENTS AND VALUE OF
RETAIL SALES BY COMMODITY ITEM - 1973-74
VICTORIA

Commodity item	Number (a) of Establishments	Value \$'000
Groceries, other food items, etc.		
Groceries	8,259	613,671
Fresh meat	3,294	278,288
Confectionery, ice cream, soft drinks, etc.	10,188	146,429
Other food (b)	10,195	255,693
Beer, wine and spirits, cigarettes, etc.		
Beer, wine and spirits	2,837	416,103
Cigarettes and other tobacco products	13,362	148,295
Fabrics, clothing and footwear		
Clothing and drapery	5,971	617,949
Footwear	1,696	100,420
Hardware		
Domestic hardware, china, glassware, jewellery, watches and clocks (incl. garden equipment) (c)	3,308	147,770
Household appliances		
Radioes, radiograms, tape recorders, television sets and accessories, musical instruments, records, sheet music, etc.	1,713	124,570
Domestic refrigerators and freezers, washing machines, stoves, household heating appliances and other household appliances (incl. bottled liquid petroleum gas)	1,401	153,461
Furniture and floor coverings		
Furniture, mattresses, blinds, etc. incl. installation and repairs	1,203	134,105
Floor coverings, carpets, linoleum, etc. incl. laying of floor coverings	1,061	92,855
Miscellaneous		
Cosmetics, perfumes, toilet preparations	4,264	87,712
Prescription and patent medicines and therapeutic appliances	2,001	102,690
Books, stationery, newspapers, etc.	3,470	134,724
Goods not included above (d)	6,874	202,142
Motor vehicles, petrol, boats, caravans, etc.		
New motor vehicles, new and used motor cycles, boats and caravans	1,163	581,131
Used motor vehicles	1,342	333,641
New and used parts and accessories, petrol, oils, tyres, batteries, etc.	5,259	436,816
<u>Total retail sales</u>		<u>5,112,665</u>

For footnotes, see following page.

TABLE 12 : NUMBER OF ESTABLISHMENTS AND VALUE OF
RETAIL SALES BY COMMODITY ITEM - Continued

VICTORIA

- (a) Many establishments showed takings in more than one commodity item. Accordingly the sum of the number of establishments showing sales for individual items will exceed the total number of retail and selected service establishments.
- (b) Includes fresh fruit and vegetables, bread, cakes and pastry, fish (fresh or cooked), chips, hamburgers and cooked chicken.
- (c) Excludes basic building materials, builders' hardware and supplies such as tools of trade, paint, etc.
- (d) Includes photographic equipment and supplies, sporting goods, bicycles, toys, antiques, disposal and second hand goods, cut flowers, garden seeds, shrubs, travel goods and brief cases, etc.

TABLE 13: NUMBER OF ESTABLISHMENTS AND VALUE OF
OTHER OPERATING REVENUE - 1973-74
VICTORIA

Item of other operating revenue	Number (a) of Establishments	Value
		\$'000
Repair and service revenue		
Household electrical appliance repairs	863	18,710
Motor vehicle repairs, panel beating, tyre retreading	5,410	227,650
Other repairs	1,349	12,476
Other revenue		
Hiring or leasing household appliances, etc. and other consumer goods	516	7,329
Takings from meals (b)	3,523	155,462
Takings from accommodation	1,202	27,771
Takings from hairdressing	2,936	36,672
Other income	3,391	26,831
<u>Total other operating revenue</u>		513,701

- (a) Many establishments showed takings in more than one item of other operating revenue. Accordingly the sum of the number of establishments showing sales for individual items will exceed the total number of retail and selected service establishments reporting other operating revenue.
- (b) Excludes take away meals, which are included in commodity item 'other food', table 12. Excludes takings from beer, wine and spirits served with meals; these takings are included in commodity item "beer, wine and spirits," table 12.
