

Copy.

Police Department.

19th April, 1939.

Memorandum for :

Constable ToalepaiAleipata.

Take notice.

Mr. Henry Kohlase of Mutiatele, has been attested as a member of Samoa Local Defence Force. He has been issued with a Rifle and Bayonet and other equipment.

You will accept from him at any time - radio messages to be sent to Apia. They should be addressed :

Admor Apia

or Police Apia.

Any messages that are sent to him by radio - or by any other means, you see that they are immediately delivered, wherever he may be. When the message has been delivered, you will radio to Admor Apia that the message has been delivered, stating the time and date and place it was delivered.

If Mr. Kohlase requires a foot messenger to run to Apia urgently, you will supply the messenger who will be paid for his services when he reaches Apia and delivers the message.

You will take precautions to have a good watch kept on the sea for any ships that may pass by day or night - you should also arrange for Samoans to inform you at once if ships are seen. You should then try and see them yourself and report them by radio - being careful to describe them fully, stating time and date - distance from the shore and the direction they are going.

Keep on the alert at all times.

(sgd.) A.L. Braisby

Inspector of Police.

Copy in Samoan attached to original.
