* Included in South Australia.

† Goods destined for overseas countries are largely transferred from one State to another for transhipment to the overseas country. For 1909 and the subsequent years such goods are, in this table, shown against the State from which they were finally despatched from the Commonwealth. The exports from New South Wales and Victoria—the States in which transshipments are chiefly made—are thus inflated by the inclusion of goods consigned from other States. Owing to the discontinuance of the records of interstate trade from the 13th September, 1910, adjustment on account of transshipments can no longer be made. Taking the annual average of the transshipments recorded during the years 1907, 1908, and 1909, the New South Wales figures include exports of other States amounting to £3,036,572 net, per annum, and Victoria £1,033,714, which were originally despatched as follows:—From Queensland, £1,376,484; South Australia, £1,018,362; Western Australia, £884; and Tasmania, £1,639,426. The great difference between the value of exports from Tasmania during the year 1901 and subsequent years is due to the fact that in the former year goods despatched from Tasmania for transhipment in other States were recorded as overseas exports from Tasmania, whereas in the later years they are included, for the most part, as exports from New South Wales and Victoria.

* Owing to the failure to record as Overseas Imports, goods received in one State of the Commonwealth for transhipment to another State thereof, it has been estimated that the value of Imports given in this table is understated by the following amounts:—1901, £2,121,600; 1902, £1,546,924; 1903, £1,024,211.

† Does not include the value of Stores shipped in Australian Ports on board overseas ships. The value of Ships' Stores was in 1908, £875,966; 1907, £908,807; 1906, £1,106,106; 1905, £1,071,677; 1904, £1,081,130; 1911, £1,238,446; and in 1912, £1,437,093.

* Preliminary figures, subject to revision.

NOTE.—The altered balance of trade in the years 1912 and 1913 is due mainly to loans raised in London. From 1st July, 1911 to 30th December, 1913, £21,039,450 was added to the amount of Public Debt held abroad.

Imports and Exports.

* The figures given in this Summary represent the gross exports from each State, i.e., the whole of the goods shipped overseas direct from each State. Owing to the abandonment by the Customs Department in September, 1910, of the records of Inter-State trade, it is no longer possible to make any adjustment on account of goods transferred from one State to another for transhipment to an overseas country. † Included in South Australia.

Section IV.—Finance.

* Basis of Table

Miscellaneous.

No. 68.—CHANGE IN STANDARD OF LIVING IN AUSTRALIA.

Increased Consumption of Commodities per Head, 1903 to 1912.—The following table shows for a number of commodities in common use—(i.) The average annual consumption per head of the population in each successive five-yearly period from 1903-7 to 1908-12, as well as in the years 1911 and 1912 separately and (ii.) the ratios for the average annual consumption per head in each such period, compared with the average in 1911 alone (consumption in 1911 = 1000). In order to shew the general effect of the change in the consumption of all commodities taken together, index numbers have been computed for each period. These index numbers are shown in the last line of the table.*

Increase in Saving Banks Deposits.—The figures given in the preceding paragraph show that, in spite of the increase in prices and cost of living in recent years, the average consumption of certain articles of common use has increased. This points to the inference that the purchasing power of the community has tended to increase at a greater rate than the increase in prices. This inference is corroborated by returns regarding depositors in Savings Banks.

The following table shows for each successive quinquennial period from 1903-7 to 1908-12, and for the years 1911 and 1912 separately (i.) the average number of savings bank depositors per 1000 of the population, the average amount of deposit, and the average amount of deposit per head of population, and (ii.) the ratios of each of these averages for each quinquennial period, taking the averages in 1911 as base (= 1000).

Australia, Increase in Average Number of Savings Banks Depositors and Amount of Deposit, 1903 to 1912.

PARTICULARS.	Single Year.							
	1903-7	1904-8	1905-9	1906-10	1907-11	1908-12	1911

Depositors per 1000 of Population	No.	286	296	306	317	330	339	362
Average Amount of Deposit	£	32,130	32,660	33,413	34,330	35,320	36,362	37,122
Deposits per Head of Population	£	9.196	9.663	10.228	10.880	11.646	12.329	13.420
								14.417*
RATIO OF AVERAGE ANNUAL INCREASE (AVERAGES FOR 1911 = 1000)								
Depositors per 1000 of Population	No.	790	818	845	876	912	936	1,000
Average Amount of Deposit	£	965	880	900	925	951	979	1,000
Deposits per Head of Population	£	685	720	762	811	868	919	1,000
								1,074

* On the 30th June, 1912, the corresponding figures were:—Depositors per 1000 of Population, 405; Average Amount of Deposit, £38,803; Deposits per Head of Population, £15.72.

Although the necessary statistical data are not available for demonstration, the undoubted increase during recent years in the number of places of amusement, accompanied by increased prices and sustained attendance at the metropolitan theatres, confirms the evidence provided by the figures in the preceding tables of the increased purchasing power and higher standard of living enjoyed by the people.

No. 69.—NUMBER OF INCOME-TAXPAYERS AND AMOUNT OF NET INCOME IN VICTORIA, 1894—1911, based upon Victorian Income Tax Returns, also Index Numbers of Incomes and Wages in Victoria for same period.

Year in which Income was Earned.	Distriet Taxpayers Paying Tax in following Year.	Total Net Income for Year.	Average Net Income per Taxpayer for Year.	Index Number Taking 1911 Income as 1,000	Index Number of Wages in Victoria, taking 1911 as 1,000, (a).
