

INQUIRIES

If you want to know more about these statistics ring Mr Cyril Rees on Canberra 625558 or our State office or write to Information Services, Australian Bureau of Statistics, P.O. Box 10, Belconnen, A.C.T. 2616.

PRODUCTION SUMMARY NO. 13 : BUILDING FITTINGS AUSTRALIA : JANUARY 1977

Annual figures shown in this publication are derived by aggregating monthly production and relate to production during the year ended 30 June. They may differ from annual manufacturing census figures relating to the census year which, in the case of businesses unable to report on a June year basis, include details in respect of substitute accounting periods.

As from July 1975 production statistics exclude production of single establishment manufacturing enterprises employing less than four persons and production of establishments predominantly engaged in non-manufacturing activities but which may carry on, in a minor way, some manufacturing.

However, except for a few commodities, the effect on production levels and movements is marginal. An indication of the approximate magnitude of the break in comparability may be obtained by comparing annual 1974-75 data which are shown in this publication on both the old and the new basis.

(a) Having at least one hotplate and one oven separately heated. (b) Total rating in excess of 10 amps but not more than 15kW. (c) Total rating not exceeding 10 amps. (d) Designed to allow simultaneous, grilling below and boiling above the heating unit, but without an oven. (e) Gas stoves and ranges, upright or elevated (with oven) and wall ovens - excludes cooking tops, hotplates, stoves, etc. (f) Insulated on at least 3 sides. (g) Excludes small spirit burners other than gravity fed. (h) Code numbers 661.19; 662.49, 09, 29. (i) Includes natural gas. (j) Excludes natural gas. (k) Not available for publication. (l) Excludes the production of certain small producers. See explanatory notes on page 1.
