EXPLANATORY NOTES

This Bulletin contains figures of Registrations of New Motor Vehicles and of Motor Vehicles on Register.

REGISTRATIONS OF NEW MOTOR VEHICLES

2. Figures of Registrations of New Motor Vehicles for the month of January, 1965, are shown in Tables 1-15. For purposes of comparison, figures for some earlier periods are also shown in some tables.
3. In these statistics, "registrations" means registrations passed through the Motor Vehicle Registration Authorities in the States and Territories during the period. Occasionally, in some States, registrations of new motor vehicles effected in branch offices are not recorded in the statistics until some time after registration. In Western Australia, each month extra-metropolitan registrations are incorporated in the tabulations for the month following.
4. Metropolitan registrations are shown separately. In Western Australia "metropolitan" means the Metropolitan Traffic Area of Perth; for all other States it means the Metropolitan Statistical Area as defined for statistical purposes i.e. the capital cities. In the Australian Capital Territory, all registrations are shown as metropolitan. In the Northern Territory registrations are shown as extra-metropolitan.
5. The figures include new vehicles owned by the Commonwealth Government other than those belonging to the Defence Services.
6. For all new motor vehicles (excluding motor cycles), the analysis relates to make, horsepower and type of vehicle registered. Motor cycles are shown according to make of vehicle. Motor Cars are classified according to whether they are (1) sedans or (2) tourers, sports cars, convertibles, etc. All other vehicles are classified as listed below. Diesel-powered vehicles are shown separately from petrol-driven vehicles. All figures for horsepower are shown in terms of R.A.C. rating in whole numbers. For example, an R.A.C. rating of 17.9 h.p. is recorded as 17 h.p.
7. Monthly statistics of registrations of new motor vehicles are available in the detail provided in this Bulletin from July, 1951. These figures have been compiled in collaboration with Deputy Commonwealth Statisticians from data made available by the Registration Authorities in the States and Territories. Corresponding particulars for motor cycles are not available for periods prior to January, 1953.
8. In these statistics registrations are classified according to eleven major types of vehicles as set out below. Examples are given of vehicles for which the classification may not be indicated explicitly by the brief description used for "major type". Three-wheeled vehicles are classified according to type of body.

<u>MOTOR CAR</u>	Closed Sports Convertible Coupe	Hard Top Open Sports Roadster Saloon	Sedan Sedan Coupe Sports Sedan Tourer
<u>STATION WAGON</u>	Estate Car	Station Sedan	Ranch Wagon
<u>AMBULANCE AND HEARSE</u>

MOTOR VEHICLES ON REGISTER

9. Figures of numbers of Motor Vehicles on Register for periods up to September 1964 are shown in tables 16-19. These series have replaced the previous series which were last published in the bulletin of Registrations of New Motor Vehicles, 1963.

10. The previous series were based on figures compiled by the Motor Vehicle Registration Authorities in each of the States and Territories. Investigations in connexion with the Census of Motor Vehicles, 1962, revealed that a considerable diversity of methods of compilation, systems of classification etc. existed with the various registration authorities, and that the concepts of what constitutes "motor vehicles on register" at a particular point of time vary between authorities. For these reasons the previous series were not comparable for the various States and Territories.

11. Whilst different concepts may be appropriate for different purposes, for the purpose of obtaining uniform statistics for all States and Territories it is necessary to adopt a common concept of what constitutes Motor Vehicles on Register at a particular date. In the present series the Bureau has adopted the concept of Motor Vehicles on Register at a particular date being all vehicles whose registration or licence fees are paid up in respect of that date, i.e. the aim is to cover:

- (i) Vehicles whose fees were paid up at that date, in respect of that date; and,
- (ii) Vehicles whose fees were not paid up at that date but subsequently were paid retrospectively to that date (or to an earlier date);

and to exclude all vehicles whose fees were not subsequently paid up in respect of the particular date, even though at that date their registrations may not have been formally terminated.

12. The present series of figures are broadly comparable throughout the periods shown. Figures for December, 1955 and December, 1962 are derived from Censuses of Motor Vehicles taken in respect of 31st December, 1955 and 31st December, 1962 respectively. Figures for the inter-censal period are estimates based on Census figures. Figures for dates after December, 1962 are based on the December, 1962 Census figures, and are compiled by the Bureau from data supplied by the various registration authorities.

13. In Table 16 figures are shown for all Motor Vehicles (excluding Tractors, Trailers, Caravans, Plant and Equipment etc.). A dissection of this total into three component groups of types of vehicles, viz. Motor Cars and Station Wagons combined, Utilities, Panel Vans, Trucks and Omnibuses combined, and Motor Cycles is shown in Tables 17-19.

14. The figures of Motor Vehicles on Register include all Commonwealth-owned vehicles other than those belonging to the Defence Services.

15. Figures for all periods after December, 1962, are subject to revision.

16. Figures for Queensland and South Australia for periods after December, 1962, are interim series and will be replaced at a future date.
