EXPLANATORY NOTES

This bulletin contains figures of registrations of new motor vehicles and of motor vehicles on register.

REGISTRATIONS OF NEW MOTOR VEHICLES

2. Figures of registrations of new motor vehicles for the month of July, 1966 are shown in tables 1, 2 and 6 to 15. Cumulative figures for the current year to date are set out in tables 3 to 5 and all tables show some comparative figures for earlier periods.
 3. Monthly statistics in much the same form as shown in this bulletin are available since July, 1951, except for motor cycles which are only available from January, 1953. These figures have been compiled in collaboration with Deputy Commonwealth Statisticians from data made available by the registration authorities in the States and Territories.
 4. Details of registrations of new motor vehicles are shown separately for the metropolitan area of each State. In Western Australia, "metropolitan" means the metropolitan traffic area of Perth; for all other States, it means the metropolitan statistical area as defined for statistical purposes i.e. the capital cities. In the Australian Capital Territory, all registrations are shown as metropolitan. In the Northern Territory, registrations are shown as extra-metropolitan.
 5. In these statistics, "registrations" means registrations processed by the motor vehicle registration authorities in the States and Territories during the period. Occasionally, in some States, registrations of new motor vehicles are not recorded in the statistics until some time after registration. In Western Australia, registrations effected each month outside the metropolitan traffic area of Perth are included in the figures for the following month.
 6. The figures include Commonwealth-owned new vehicles other than those belonging to the defence services.
 7. In these statistics, registrations are grouped into eleven major types of vehicles. These, with description of some of the vehicles included in each major type, are listed below.

8. In Tables 6 to 13, separate details for motor cars, station wagons, ambulances and hearses, utilities, panel vans, trucks, other truck-types and omnibuses are shown classified according to make and R.A.C. rated horsepower. For motor cars, separate particulars for (i) sedans and (ii) open cars, sports cars, convertibles, etc., are shown also. For utilities, panel vans, trucks, other truck-types and omnibuses, diesel-engined vehicles are separately identified. In table 14, motor cycles are classified according to make. Fractions of R.A.C. horsepower are omitted; for example, an R.A.C. rating of 20.9 h.p. is recorded as 20 h.p.

9. In Queensland, most other truck-types are included with trucks.

MOTOR VEHICLES ON REGISTER

10. Figures of motor vehicles on register for periods up to April, 1966 are shown in tables 16-19.

11. Whilst different concepts of what constitutes "motor vehicles on register" at a particular point of time may be appropriate for different purposes, for the purpose of obtaining uniform statistics for all States and Territories, it is necessary to adopt a common concept of what constitutes motor vehicles on register at a particular date. In this series, the Bureau has adopted the concept of motor vehicles on register at a particular date being -

- (i) vehicles whose fees were paid up at that date, in respect of that date; and,
- (ii) vehicles whose fees were not paid up at that date but subsequently were paid retrospectively to that date (or to an earlier date);

and excluding all vehicles whose fees were not subsequently paid up in respect of the particular date, even though at that date their registrations may not have been formally terminated.

12. The figures are broadly comparable throughout the periods shown. Censuses of motor vehicles were taken at 31st December, 1955 and 31st December, 1962 and figures for the inter-censal period are estimates based on these census figures. Figures for dates after December, 1962 are based only on the December, 1962 census figures, and are compiled by the Bureau from data supplied by the various registration authorities.

13. In table 16, figures are shown for all motor vehicles (excluding tractors, trailers, caravans, plant and equipment, etc.). A dissection of this total into three component groups of types of vehicles, viz. motor cars and station wagons combined; utilities, panel vans, trucks, other truck-types and omnibuses combined; and motor cycles is shown in tables 17-19.

14. The figures of motor vehicles on register include all Commonwealth-owned vehicles other than those belonging to the defence services.

15. Figures for all periods after December, 1962, are subject to revision. Figures for Queensland after December, 1963 and South Australia after December, 1962 are interim series and will be replaced at a future date.
