EXPLANATORY NOTES

This bulletin contains figures of registrations of new motor vehicles and of motor vehicles on register.

REGISTRATIONS OF NEW MOTOR VEHICLES

2. Figures of registrations of new motor vehicles for the year ended 31 December 1967 are shown in tables 1 to 17. For purposes of comparison, figures for some earlier periods are also shown in certain tables.

3. The figures include new Commonwealth-owned vehicles other than those belonging to the defence services.

4. In these statistics, registrations are grouped into eleven major types of vehicles. These, with descriptions of some of the vehicles included in each major type, are listed below.

5. In tables 7 to 14, separate details for motor cars, station wagons, ambulances and hearses, utilities, panel vans, trucks, other truck-types and omnibuses are shown classified according to make and R.A.C. rated horsepower. Fractions of R.A.C. horsepower are omitted; for example, an R.A.C. rating of 20.9 hp is recorded as 20 hp. For motor cars, separate particulars are shown also for (i) sedans and (ii) open cars, sports cars, convertibles, etc. For utilities, panel vans, trucks, other truck-types and omnibuses, diesel-engined vehicles are separately identified. In table 15, motor cycles are classified according to make.

6. In Queensland, most other truck-types are included with trucks.

7. Monthly statistics in much the same form as shown in this bulletin are available since July 1951, except for motor cycles which are only available from January 1953. These figures have been compiled in collaboration with Deputy Commonwealth Statisticians from data made available by the registration authorities in the States and Territories.

8. Capital city registrations in each State refer to vehicles whose owners' addresses are located within the capital city statistical division as defined for 1966 population census purposes. All registrations in the Australian Capital Territory are shown as "capital city". The figures shown for 1966 as "capital city" in States other than Western Australia relate to the metropolitan statistical area as it was defined for statistical purposes; in Western Australia they refer to the metropolitan traffic area of Perth.

9. In these statistics, "registrations" means registrations processed by the motor vehicle registration authorities in the States and Territories during the period. Occasionally, in some States, registrations of new motor vehicles are not recorded in the statistics until some time after registration.

10. The annual figures for Western Australia included in tables 1-16 of this bulletin are based on monthly figures which, for areas outside the Perth Statistical Division, refer to registrations effected in the previous month. Thus, while registrations in the Perth Statistical Division refer to the calendar year 1967, registrations in other areas of the State refer to the period December 1966 to November 1967. Commencing with January 1968, the basis for compiling detailed monthly figures for Western Australia has been changed to include all registrations in the month in which they were effected. As a consequence of this new procedure, Western Australian and Australian figures for earlier years (including 1967) have been amended in respect of vehicle type only. Table 17, page 40, sets out in the format of table 3, revised annual totals for Western Australia and Australia on the new compiling basis. No revisions were necessary to the figures for other States and the Territories.

MOTOR VEHICLES ON REGISTER

11. Figures of motor vehicles on register for periods up to September 1967 are shown in tables 18-21.

12. Whilst different concepts of what constitutes "motor vehicles on register" at a particular point of time may be appropriate for different purposes, for the purpose of obtaining uniform statistics for all States and Territories, it is necessary to adopt a common concept of what constitutes motor vehicles on register at a particular date. In this series, the Bureau has adopted the concept of motor vehicles on register at a particular date being -

- (i) vehicles whose fees were paid up at that date, in respect of that date; and,
- (ii) vehicles whose fees were not paid up at that date but subsequently were paid retrospectively to that date (or to an earlier date);

and excluding all vehicles whose fees were not subsequently paid up in respect of that particular date, even though at that date their registrations may not have been formally terminated.

13. The figures are broadly comparable throughout the periods shown. Censuses of motor vehicles were taken at 31 December 1955 and 31 December 1962 and figures for the inter-censal period are estimates based on these census figures. Figures for dates after December 1962 are based only on the December 1962 census figures, and are compiled by the Bureau from data supplied by the various registration authorities.

14. In table 18, figures are shown for all motor vehicles (excluding tractors, trailers, caravans, plant and equipment, etc.). A dissection of this total into three component groups of types of vehicles, viz. motor cars and station wagons combined; utilities, panel vans, trucks, other truck-types and omnibuses combined; and motor cycles is shown in tables 19-21.

15. The figures of motor vehicles on register include all Commonwealth-owned vehicles other than those belonging to the defence services.

16. Figures for all periods after December 1962, are subject to revision.
