(a) Excludes defence forces, at home or abroad. Estimated total employment is based on Pay-Roll Tax returns and records of Government employment. Figures from June, 1943 (factories, July, 1948) subject to revision. (b) Includes employees of Australian Government authorities (Commonwealth, State and Local) on services such as railways, tramways, post office, education, police, public works, &c., as well as administrative employees. (c) Previously included new Australians temporarily employed by Defence Authorities; these numbers 300 in October, 1950, are still included in total employment. (d) Includes Education, Health, Hotels and Restaurants, other Professional and Personal Services (except female-private domestic). (e) Figures for June, 1949, showed some of the effect of the Australia-wide black coal dispute (27th June to 15th August).

AVERAGE WEEKLY TOTAL WAGES PAID AND AVERAGE EARNINGS.

The following figures are derived from employment and wages recorded on Pay-Roll Tax returns (which cover approximately 80 per cent. of total employment) and from estimates of the unrecorded balance. Pay of members of the armed forces is not included. The figures are not seasonally adjusted. A seasonally adjusted monthly index of average weekly wage earnings is published on page 2.

Period.	New South Wales (a)	Victoria.	Queensland.	South Australia (b)	Western Australia.	Tasmania.	Australia.

TRADE UNION UNEMPLOYMENT RETURNS.

The only regular records of unemployment available in comparable form over a considerable period are the quarterly percentages reported by trade unions to the Commonwealth Statistician. The membership of the reporting unions consists predominantly of males, and represents at present about 55 per cent. of the total trade union membership and between 25 and 30 per cent. of all wage and salary earners. For some States the returns are a more representative sample than for others. This table, therefore, should not be read as indicating the relative degree of unemployment amongst unionists in the individual States but as an indication of trend of unemployment as reported by secretaries of trade unions.

EXPORT PRICE INDEXES.

These index-numbers are compiled from the prices of 20 commodities which constitute at present about 80 per cent. of all exports. For some metals and for wheat (since July, 1945) the index of prices is deduced from average value of current sales or shipments and hence shows some irregularity.

SIMPLE AGGREGATIVE INDEX: FIXED WEIGHTS.

In this index the prices of the commodities are multiplied by the average annual exports (production in the case of gold) during the three years 1933-34 to 1935-36.

(Base of each Section: Average 3 years ended June, 1939 = 1,000.)

Period.	All Groups

(a) Silver, copper, tin, zinc, lead. (b) Beef, lamb, mutton, pork. (c) Sultanas, lemons, currants. (d) Cattle hides, calf skins. (e) Percentage distribution of base aggregate for "All Groups (including Gold)"—applicable from 1936-37. (f) Percentage distribution of base aggregate for "All Groups (excluding Gold)"—applicable from 1936-37. (g) Nominal. (h) Nominal, pending new agreement. (i) Revised on a more representative basis. Effect of this revision on the "All Groups" index is insignificant.

For meaning of symbols *, †, see page 1.

EXPORT PRICE INDEXES—continued.

MONTH-TO-MONTH INDEX: CHANGING WEIGHTS.

The index-numbers in the preceding table, while they indicate satisfactorily the general trend of the market, take no account of the relative quantities actually sold at the different prices ruling during each month. In consequence the index-numbers do not give an adequate indication of the significance of the price movements as they actually affected current sales. This is shown more accurately by the index-numbers (including gold) in the following table, in the computation of which the "quantity-multipliers" are changed each month. The index-numbers are designed solely for comparisons of current prices with those of the corresponding months, or periods of months, of the preceding year.

(Base: Weighted Average Price level in corresponding months of preceding year = 1,000.)

Month.	Month stated compared with same month of preceding year.	Period of trade year ending in month stated compared with same period of preceding year.

WHOLESALE PRICE INDEX.

BASIC MATERIALS AND FOODSTUFFS.

The construction of this new index has been made possible by the collection of new data on prices and consumption. Both in contents and methods of computation it differs from the Melbourne Index of General Wholesale Prices. The price quotations have in the main been obtained directly from manufacturers and dealers, and, with a few important exceptions, from Melbourne sources. Apart from home-produced building materials, coal and one or two minor commodities, however, the price movements may be taken as representative of fluctuations in wholesale prices of basic materials in most Australian markets. The weighting system adopted is based on average annual consumption during the years 1928-29 to 1934-35 inclusive.

(Base: Average 3 years ended June, 1939 = 1,000.)

Period.	Basic Materials.							Food-stuffs and Tobacco.	Basic Materials and Foodstuffs.		
	Metals and Coal.	Oils, Fats and Waxes.	Textiles.	Chemicals.	Rubber and Hides.	Building Materials.	Total.		Goods principally Imported. (a)	Goods principally Home Produced.	Total All Groups.

(a) Recomputed from the original base 1937 = 100, as published in the *Monthly Bulletin of Statistics* of the Statistical Office of the United Nations. Base: Average three years ended December, 1939 = 1,000. (b) Year ended December following. (c) "Sensitive Series" prior to July, 1947; thereafter "General Purpose Series", on base year ended August, 1939 = 1,000.

For meaning of symbol — see page 1.

SECURITY PRICE INDEXES.

In comparing movements in the three sets of index-numbers on this and the following page, attention should be paid to differences in the methods by which they have been constructed, and in the nature of the companies and the types of shares included in each index. These are outlined in the footnotes to the tables.

(Base: Average 3 years ended June, 1939 = 1,000.)

Period.	New South Wales: Ordinary Shares. (a)

(a) Compiled by the New South Wales Government Statistician. The index-numbers are based on the prices of the ordinary shares of companies (excluding banking companies) whose business is conducted wholly or largely in New South Wales. They represent unweighted averages of the mean monthly prices per £1 of paid-up capital. Adjustments are made where capital is written off or bonus shares issued. Recomputed from original base, par values.

(b) These shares relate to leading companies and do not include bank shares or mining shares.

SECURITY PRICE INDEXES—continued.

(a) Compiled by the Stock Exchange of Melbourne. The index-numbers of bank shares and silver-lead shares represent averages (weighted by paid-up capital, with adjustment in the case of bank shares) of the mean monthly prices on the Melbourne Stock Exchange. The preference share index-numbers are based on the reciprocals of average yields. Recomputed from original base, May, 1926.

(b) Compiled by the Queensland Bureau of Industry. The index-numbers are based on the prices of the ordinary shares of 21 representative Queensland companies, and the preference shares of three companies whose ordinary shares are inactive. The index-numbers represent unweighted averages. Mean monthly values are used. Recomputed from original base, April, 1928.

RETAIL PRICE AND WAGE-RATE INDEXES.

In the tables on this and the following page the index-numbers have been recomputed uniformly to the base average 3 years ended June, 1939 = 1,000 in order to facilitate comparisons with other data. The absolute index-numbers differ, in consequence, from those appearing in other publications of the Bureau.

(Base : Average 3 years ended June, 1939 = 1,000.)

(a) Weighted Average Six Capitals or Six States average 3 years ended June, 1939 = 1,000. (b) Payable as from 1st August.
(c) None declared, but Federal rates followed to a large extent. (d) Payable as from 21st July. (e) Payable as from 1st November.
(f) Payable as from 31st October. (g) Payable as from 24th October. (h) Payable as from 1st February.
(i) Payable as from 30th January. (j) Payable as from 31st January. (k) Payable as from 1st May. (l) Payable as from 31st July.
(m) Payable as from 30th October. (n) Payable as from 23rd October. (o) The rates quoted do not apply for the whole of the quarter. New rates will operate from December, 1950.

PRIMARY PRODUCTION PRICE INDEXES.

The annual index-numbers in the following table have been recomputed to the base average 3 years ended June, 1939 = 1,000 from the revised series published in *Production Bulletin*, Part II. They are based in general on prices realized in the principal markets of Australia.

The monthly index-numbers (based on the nearest equivalent wholesale price quotations) are intended progressively to forecast the point which the annual index-numbers will eventually reach, and so provide a preliminary figure for the latest full year pending the completion of the annual census of production. The preliminary index-numbers will be revised as each production census is completed.

(Base : Average 3 years ended June, 1939 = 1,000.)

(a) Excludes suburbs of Hobart.

NOTE.—The National Security (Building Control) Regulations, which operated from 5th December, 1940, placed the granting of building permits for new buildings or alterations costing more than £5,000 under the control of the Commonwealth Treasurer. Various amending regulations made the control more stringent. On 19th June, 1942, the control passed to the Department for War Organization of Industry, after which date only alterations costing less than £25 could be made without consent. From 31st August, 1945, when control passed to the Department of Works and Housing, consent was not necessary for the erection of a dwelling house costing less than £1,200 or for repairs and alterations to a residential building costing less than £150 in any financial year. As from 1st November, 1945, the Commonwealth Government relinquished control over building permits and delegated its powers under National Security Regulations to the States until State legislation had been introduced. This action has been taken in all States except Tasmania, which discontinued control over building permits from 31st December, 1946. The "value of permits" shown above relates to the value of building permits issued by local government authorities and not to approvals granted under the Regulations. The values shown exclude in general, air raid shelters and alterations for protection against air raids.

GOVERNMENT RAILWAYS : FREIGHT, PASSENGERS AND REVENUE.

The following table shows statistics of freight and passengers carried and of revenue earned on the five Mainland State Railways to the end of June, 1947. From July, 1947, particulars relate to all State and Commonwealth Railway Systems.

The daily average number of passenger-journeys is obtained by dividing the monthly totals by the *total* number of days in the month.

Period.	Freight Carried		Passenger-Journeys.	Gross Revenue.	Net Revenue.
	Net Ton Miles.	Average haul per ton.			
	Daily Average. '000.	Miles.	Daily Average. '000.	Per Month. £'000.	Per Month. £'000.
1936-37	12,820	125.9	1,028	3,407	886

WHOLESALE TRADE.

An indication of fluctuations in the value of wholesale trade is given by the returns made under the Sales Tax Acts. The returns do not relate to all wholesale trade, and exclude sales of vendors trading only in exempt goods. They do not necessarily cover a constant proportion of all trade. The effects of legislation and administrative changes on the recorded values of taxable and exempt goods respectively are somewhat uncertain, but total recorded sales are affected in smaller degree. Insufficient information is available to enable adjustments to be made to the crude figures on this account. Monthly totals are compiled on a basis comparable with the monthly averages for preceding years.

In Australia, including imports, are taxable. The list of exemptions was extended as from 13.12/38; 26.9/39; and restricted as from 3.6/40; 22.11/40; 30.10/41. As from 1.5/42, 3.7/43, 21.7/43, 8.9/44 there was a partial restoration of former exemptions. As from 13.9/45, 10.4/46, 15.1/46, 20.9/47, 9.9/48 and 8.9/49 other former exemptions were restored and additional exemptions granted.

For meaning of symbols . . . , † see page 1.

RETAIL TRADE.

Statistics of retail sales are collected in three States but are available for publication in only two, namely, New South Wales and Queensland. In New South Wales the Retail Traders' Association Research Bureau, in co-operation with the Commonwealth Bank, collects returns from a number of large Sydney stores. In Queensland returns are collected by the Bureau of Industry from twelve large department stores in Brisbane and their branches in country towns. It is uncertain to what extent the department store figures are representative of all retail trade.

(a) Bank of Adelaide, Bank of Australasia, Bank of New South Wales, Commercial Bank of Australia Ltd., Commercial Banking Company of Sydney Ltd., English, Scottish and Australian Bank Ltd., National Bank of Australasia Ltd., Queensland National Bank Ltd. (in voluntary liquidation) and Union Bank of Australia Ltd. Averages of liabilities and assets on Mondays in period until December, 1949, thereafter averages of liabilities and assets on Wednesday. (b) Excludes unincorporated deposit stock. (c) Excludes Treasury Bills. (d) Figures for this and following periods are not strictly comparable with those for previous periods owing to exclusion from advances of bills receivable and minor miscellaneous assets. (e) Technical adjustments in the method of compiling advances and deposits were made by two banks from January, 1949, and by another from July, 1949. The effect was to reduce both deposits and advances by approximately £9,000,000 in January, 1949, and £2,600,000 in July, 1949.

For meaning of symbols —, — see page 1.

NINE TRADING BANKS. (a)—continued.

(Excludes Commonwealth Bank)

Ratio of Assets and Liabilities to Total Deposits (b) Within Australia.

(%)

Period	Percentages of various categories of assets to total deposits					Percentage Non-interest bearing to Total Deposits
	Cash in Australia	Cash + Treasury Bills	Advances	Advances + Government and Municipal Securities in Australia (c)	Special Accounts with Commonwealth Bank.

(a) Compiled from returns lodged under *Banking Act 1945*. Averages of four or five weeks ended on last Monday in period to December, 1946; thereafter averages of four or five weeks ended on last Wednesday. (b) Ten months ended June, 1946. (c) Includes Rural Department of Rural and Industries Bank of Western Australia for July, 1946, and following months. (d) See footnote (d) on previous page. (e) Debits to Customers' Accounts relating to the transfer of accounts from the Queensland National Bank Ltd. (in voluntary liquidation) to the National Bank of Australasia Ltd. have been excluded from January, 1948.

For meaning of symbol — see page 1.

BANK CLEARINGS. (a)

Statistics of debits to customers' accounts were not available prior to September, 1945 (for September, 1945, onward see page 43). In their absence bank clearings form a useful index of the money-value of cheque payments. Since they do not include cheques deposited in the banks on which they are drawn, the figures are not exhaustive, and their comparability is sometimes impaired by the effects of banking amalgamations. Cheque clearings connected with the redemption or issue of Treasury Bills have been excluded from the following table, but adjustments have not been made for other sporadic transactions concerned with public finance.

(a) To avoid duplication the aggregate figures both the revenue and the expenditure of the States have been reduced by Treasury Grants to railway revenue as follows: New South Wales, 1939-50, \$1,250,000; 1950-51 estimate, \$800,000; South Australia, 1939-50, £3,218,000; 1950-51 estimate, £2,660,000; July-October, 1950-51, \$-844,000. On the other hand, the expenditure of the States has been increased for 1949-50 by the inclusion of those parts of the special grants from the Commonwealth, which related to the different States, in the special grant received in 1947-48, viz., South Australia £234,000, Western Australia £768,000 and Tasmania £262,000. (b) To avoid duplication of the special grants to the States for the purpose of the Commonwealth interest, &c., from undertakings outside the Budget. (c) To avoid duplication of the special grants to the States for the purpose of the Commonwealth interest on States' debts, special grants and coal strike emergency grant, also pay-roll tax payments by States to the Commonwealth.

are included. For meaning of symbol—see page I.

OVERSEA MIGRATION.(a)

Permanent migration refers to persons, other than Australian troops and their dependants, intending residence for one year or longer—in Australia in the case of arrivals, and abroad in the case of departures. Temporary migration refers to persons intending residence for shorter periods, together with Australian troops and dependants from July, 1947, onwards, irrespective of period.

Period.	Temporary.			Permanent.
