DEPT. OF CENSUS & STATISTICS

PRODUCTION SUMMARY NO. 9 : ELECTRICAL APPLIANCES (a) AUSTRALIA : JUNE 1973

Annual figures are derived from the recorded monthly production and are subject to revision. This summary contains seasonally adjusted statistics of refrigerators (electric and gas) on page 2. In the seasonal adjustment, account has been taken not only of normal seasonal factors but also of "trading-day" effects (arising from the varying numbers of Sundays, Mondays, Tuesdays, etc. in the month) and the influence of Easter and Australia Day which may, in successive years, affect figures for different months. The seasonally adjusted figures have been revised following annual reanalysis. Details of the methods used in seasonally adjusting this and other series are given in "Seasonally Adjusted Indicators, 1973" (Ref. No. 1.10).
