MAIN FEATURES

Depositors' balances increased by \$191 million (0.4 per cent) in October 1986 to \$44,122 million. After excluding the opening balances of new banks at the time of their transfer from the non-bank sector (see Explanatory Note 4), the increase since October 1985 was \$3,996 million (10.1 per cent).

In seasonally adjusted terms depositors' balances increased by \$274 million (0.6 per cent) to \$44,436 million in October 1986.

Housing loans outstanding increased during October 1986 by \$525 million (1.9 per cent) bringing the total to \$27,494 million.

Seasonal adjustment

3. Details of the methods used in seasonally adjusting depositors' balances (Table 2) and other series are available on request.

New Banks

4. The statistics include new savings banks from the month in which they commenced banking business. Some new banks commenced business with depositors' balances and assets transferred from previous operations as non-bank financial institutions. For this reason care should be exercised in interpreting monthly and annual movements in individual series. To date three new banks have commenced with existing depositors' balances and assets—

Advance Bank Australia Limited	Jun. 1985
National Mutual Royal Savings Bank Limited	Feb. 1986
