EXPLANATORY NOTES

Introduction

This publication is compiled from statements furnished under the *Financial Corporations Act 1974*. It presents statistics on the financial operations, assets, selected liabilities and interest rates of those corporations registered under the Act which are categorised as finance companies.

- Details of the scope and coverage of these statistics are provided in the July 1985 issue of this publication.
- The population for finance companies may vary from month to month due to:
 - registration of new corporations;
 - change in category; and
 - deletion of corporations no longer registrable.

Particular care should therefore be taken in interpreting individual month-to-month movements.

Presentation

4. Tables 1 to 3 continue the monthly series which commenced in July 1976. Prior to June 1984 all the series in Tables 1 to 3 exclude finance companies with assets not exceeding \$5 million (details for these finance companies are contained in the publication *Financial Corporations Statistics, Australia* (5617.0), of which the final issue was for May 1984). Tables 4 to 6 present, from June 1984, data on State dissections of finance lease receivables and loan outstandings and maturity dissections of selected liabilities and assets. Table 7 continues the monthly series on interest rates which commenced in June 1984.

Data items

5. Data items are reported in accordance with the directions contained in the Schedule to the *Financial Corporations (Statistics) Regulations*. It should be noted that, unless otherwise specified in the directions, finance companies have been requested to value their assets and liabilities on the basis used in their latest audited accounts.

Statistical period

6. While the statistics are described as being for a statistical period (month/quarter) it should be noted that some finance companies have accounting periods which do not correspond exactly to the statistical period and their figures are used without adjustment.

Comparability

7. Because of differences in size and classification criteria, the statistics in this publication are not directly comparable with statistics for finance companies in the publications *Finance Companies, Australia* (5614.0), of which the final issue was for December 1984, and *Finance Companies: Assets, Liabilities, Income and Expenditure, Australia* (5616.0).

Revisions

8. This publication incorporates revisions made to statistics for previous periods.
