EXPLANATORY NOTES

Introduction

This publication presents detailed statistics for hotels and accommodation establishments compiled from the census of retail establishments and selected service establishments conducted for the year ended 30 June 1980 (referred to hereafter as the 1979-80 retail census). Similar publications are being published for each State and the Northern Territory. A separate hotels and accommodation publication will not be published for the Australian Capital Territory although some information on this topic will be included in the publication *Census of Retail Establishments and Selected Service Establishments* (8622.8).

2. The 1979-80 retail census was the eighth retail census since 1948 and the third conducted throughout Australia as part of the ABS programme of integrated economic data collections. For a detailed description of the objectives of Integrated Economic Data Collections, reference should be made to Chapter 31 of *Official Year Book of the Commonwealth of Australia, No. 56, 1970*.

3. The period covered by the census was, in general, the twelve months ended 30 June 1980. Where businesses were unable to supply information on this basis a substitute accounting period was accepted.

Scope

4. Data in this publication are in respect of establishments classified to the Australian Standard Industrial Classification (ASIC-1978 Edition) Classes 9232—Hotels, etc. (mainly drinking places) and 9233—Accommodation. In addition, Table 7 includes accommodation takings by establishments classified to other ASIC classes included in the 1979-80 retail census.

5. In accordance with the ASIC the basic unit in respect of which statistics are collected in integrated economic censuses is, in general, a unit covering all the operations carried on under the ownership of one enterprise (business) at a single physical location (e.g. an individual hotel or motel). This unit is referred to as an establishment. An accommodation establishment is thus one predominantly engaged in providing accommodation, but the data collected for it cover all activities carried out by the enterprise at the location.

6. The statistics also include data relating to separately located administrative offices and ancillary units (e.g. head offices, repair and maintenance workshops, storage units and transport units) serving the establishment and forming part of the enterprise which owns and operates the establishment.

Coverage

7. The aim of the census was, in general, to include all establishments that operated at any time during the year ended 30 June 1980. However, establishments which ceased operations during the year or commenced operations during the last two months of the year are included in census results only if their contribution to statistical aggregates is significant.

8. It is possible that some types of accommodation establishments may not have been fully covered. Accommodation establishments not holding liquor licences, e.g. guest houses and hostels, have been excluded from previous economic censuses and coverage may be deficient for these types of establishments.

Definitions

Establishment Types

9. The classification of establishments into the various types set out in this publication was based on the following:

Establishments providing tourist accommodation.

Comprises hotels, motels etc. and caravan parks which provide predominantly short term accommodation (i.e. for periods of less than 2 months) available to the general public. Hotels, motels, etc. must have breakfast available in some form for guests, and caravan parks must provide powered sites for caravans (or on-site vans), and toilet, shower and laundry facilities for guests.

Establishments providing other accommodation.

Comprises establishments mainly engaged in providing long term accommodation (i.e. for continuous periods of two months or more) or in providing short term accommodation except tourist accommodation as defined above.

Licensed hotels. Includes all establishments which are licensed to operate a public bar, and also provide accommodation.

Motels, etc. Includes all motels, private hotels, guest houses and boarding houses except those licensed to operate a public bar.

Establishments not providing accommodation.

Includes those establishments in ASIC class 9232—Hotels, etc. (mainly drinking places) which do not provide accommodation.

With facilities. Indicates a bath or shower and toilet in most guest rooms.

Data Items

10. The information shown in the tables for the various items defined below (except those which specifically refer to the end of June 1980) relates to all establishments included in the census, i.e. establishments which operated at any time during the year.

Establishments at 30 June. The number of hotels and accommodation establishments which were operating at 30 June 1980. Separately located administrative offices and ancillary units are excluded.

Persons employed. Working proprietors and working partners at the end of June 1980 and employees (both full time and part time) on the payroll at the last pay period in June 1980, including those working at separately located administrative offices and ancillary units. Unpaid helpers are excluded.

Wages and Salaries. The wages and salaries of all employees of the establishment, including those working at separately located administrative offices and ancillary units. Drawings of working proprietors are excluded.

Takings from Accommodation. Refers to revenue received from the provision of short term and long term accommodation at the establishment. Where meals and accommodation were a combined charge an estimated dissection was obtained. Payments of rental and storage fees paid to caravan parks for the keeping of private vans in parks are included in takings from accommodation.

Turnover. Comprises takings from meals and accommodation, sales of goods, other operating revenue (e.g. from provision of services such as hairdressing, laundry and dry cleaning) and rent, leasing and hiring revenue. Receipts from interest, royalties, dividends and the sale of fixed tangible assets are excluded.

Stocks—Opening and Closing. Stocks of goods for sale and foodstuffs etc. for the preparation of meals and refreshments, owned by the establishment, whether located at the establishment or elsewhere, valued on a balance sheet basis.

Purchases, Transfers In and Selected Expenses. Purchases of foodstuffs, liquor and other goods for resale, wrapping and packaging materials and electricity and other fuels; transfers in of goods etc. from other establishments of the same enterprise; charges for commission and subcontract work; repair and maintenance expenses; outward freight and cartage; motor vehicle running expenses; sales commission payments and rent, leasing and hiring expenses.

Value Added. Turnover plus increase (or less decrease) in the value of stocks, less purchases, transfers in and selected expenses.

NOTE: While value added is the basic measure of an industry's contribution to economic activity, it cannot be inferred that when wages and salaries are deducted from value added, the whole of the surplus is available for profit. There are many miscellaneous expenses (such as depreciation, workers' compensation insurance, other insurance, payroll tax, income tax, rates, advertising, interest on borrowed funds, bad debts and other sundry charges) which are not taken into account in arriving at value added.

Fixed Capital Expenditure Less Disposals. Outlay on new and second hand fixed tangible assets less disposals. Includes fixed capital expenditure on hotels and accommodation establishments not yet in operation.

Rooms, Units, Suites and Cabins. Refers to the maximum number of rooms, units, suites and cabins available at the establishment for accommodating paying guests or paying residents at 30 June 1980. Excludes on-site caravans.

Beds. Refers to beds normally in place for paying guests or paying residents. The figures may be regarded as a measure of accommodation capacity at 30 June 1980. Beds include divans normally used as beds, but exclude beds in on-site vans and all cots. Three-quarter beds are classified as single beds.

Powered and Unpowered Sites. Powered sites refers to the maximum number of sites with provision for connection to electric power supply which are available at caravan parks for accommodating paying guests at 30 June 1980. Powered sites occupied by on-site vans are included. Unpowered sites refers to the maximum number of sites with no provision for connection to electric supply, which are available at caravan parks for accommodating paying guests at 30 June 1980. Tent sites and sites used only at peak periods are included.

Related Publications

11. This publication is one of a series of 5 publications presenting final results for Australia from the 1979-80 retail census. The other 4 publications in the series are:

Census of Retail Establishments and Selected Service Establishments, Details of Operations by Industry Class, Australia, 1979-80 (8622.0) — Includes details by industry class, of numbers of establishments, persons employed by type of employment, wages and salaries, turnover by major component, stocks, purchases, transfers in and selected expenses, total floorspace and fixed capital expenditure by type of asset. Also includes some details for single establishment enterprises with turnover less than \$50,000.

Census of Retail Establishments and Selected Service Establishments, Commodity Sales and Service Takings, Australia, 1979-80 (8625.0) — Includes details of the sales of commodity items and revenue from other income items. (Not yet released.)

Census of Retail Establishments and Selected Service Establishments, Industry and Commodity Details by Size of Establishments, Australia, 1979-80 (8626.0) — Includes selected statistics by retail sales, turnover and employment size. (Not yet released.)

Census of Retail Establishments and Selected Service Establishments, Industry Concentration Statistics, Australia, 1979-80 (8627.0) — Provides measures of the extent to which large firms predominate in individual industries. (Not yet released.)

12. In addition to the publications listed above each State Office of the ABS will produce publications containing similar details for its own State together with an additional publication showing selected regional statistics. Some unpublished statistics for certain small areas within States (e.g. local government areas) are also available and can be obtained on request.

13. Other publications which may be of interest include:

Census of Tourist Accommodation Establishments, Australia, 1973-74 (8637.0). This publication provides information on the numbers of licensed hotels and motels, unlicensed motels, private hotels and guest houses, takings from accommodation, persons employed and wages and salaries. Data in this publication are comparable to tourist accommodation data from the 1979-80 retail census except for some minor differences in scope and in definitions of units and establishment types. Details of these differences may be obtained by reference to the Explanatory notes of the publications.

Tourist Accommodation, Australia (8635.0). This publication which has been issued quarterly since September Quarter 1975 includes numbers of establishments for hotels, motels and caravan parks showing occupancy rates, capacity and takings from accommodation.

14. Current publications produced by the ABS are listed in *Catalogue of Publications, Australia* (1101.0). The ABS also issues, on Tuesdays and Fridays, a *Publications Advice* (1105.0) which lists publications to be released in the next few days. The *Catalogue and Publications Advice* are available from any ABS office.
