SUMMARY

OF

AUSTRALIAN FINANCIAL STATISTICS,

FOR THE YEARS

1922-23 to 1932-33.

PREPARED UNDER INSTRUCTIONS FROM
THE HONORABLE THE TREASURER,

BY

E. T. MCPHEE,
COMMONWEALTH STATISTICIAN.

By Authority :

L. F. JOHNSTON, COMMONWEALTH GOVERNMENT PRINTER, CANBERRA.
(Wholly set up and printed in Australia.)

AUSTRALIAN FINANCIAL STATISTICS.

PREFACE.

The present Bulletin, which is the twenty-fourth of its series, furnishes a summary of the leading financial statistics of Australia as far as practicable up to the 30th June, 1933.

In the tables relating to Public Debt and interest payable thereon, loans raised by the Commonwealth for the States have been included as debt of the respective States and not as a debt of the Commonwealth. On the other hand, debts taken over by the Commonwealth from South Australia on account of the Port Augusta-Oodnadatta Railway and of the Northern Territory are now included with the "Debt on Account of the Commonwealth." Such amounts, therefore, are counted once only. Particulars of the short-term debts of the Commonwealth and of each State from 30th September, 1929, to 31st March, 1934, have been included in this issue. The tables relating to Public Debt are, generally, given in a form which, it is hoped, will be somewhat clearer than that in which they were published in earlier issues. The publication in this Bulletin of details of the expenditure of the several Commonwealth Departments has been discontinued. Such information, however, will be included in the *Official Year-Book* as hitherto.

The rates per head of population as published in previous issues of this Bulletin for the years 1921 and later have been amended on the basis of the population adjusted on account of the results of the 1933 Census.

I take this opportunity of expressing my thanks to officers of the Commonwealth Treasury, to the Statisticians of the different States, and to the Banks and Life Assurance Corporations for the valuable assistance rendered by them in supplying the data for the compilation of much of the matter contained in this Bulletin.

I am especially indebted to Mr. E. R. Toms, the officer in charge of Financial Statistics in the Bureau, upon whom has devolved the duty of compiling these data, of preparing the material for the Printer, and of seeing the Bulletin through the Press.

E. T. MCPHEE,
Commonwealth Statistician.

(a) The figures herein represent the aggregate amount of public debt maturing in London, £ sterling, and in New York, dollars, as noted in Table 50, without adjustment on account of currency clauses (see the notes under the heading "Currency Clauses" in Table 50). Particulars for debt maturing in Australia have been adjusted on account of emissions by the Commonwealth in respect of Soldier Loan and Government Loan, and differ on that account from figures given in some of the earlier issues of this publication.

No. 73.—Cash Reserves Ratios.

The following table shows the percentages of cash on liabilities "at call" and "total liabilities," respectively, for the Commonwealth Bank and the Other Cheque-paying Banks. The data on which the percentages are calculated relate throughout to business within Australia.

Commonwealth Bank.—Cash reserves comprise coin, bullion and Australian notes. "Call" liabilities comprise deposits not bearing interest and (from and including the June quarter of 1925) advances due to other banks. The latter item is assumed to be approximately equivalent to the cash with Commonwealth Bank of the Other Cheque-paying Banks which is included in their quarterly statements with Australian Notes.

In interpreting the percentages it should be noted that the Commonwealth Savings Bank was not created a separate department of the Commonwealth Bank until the 9th June, 1928. Savings Bank deposits are included in the total liabilities of the Commonwealth Bank up to this date, but, obviously, did not come into "call" liabilities.

Other Cheque-paying Banks.—Cash reserves comprise coin, bullion and Australian notes and cash with the Commonwealth Bank, while "call" liabilities include deposits not bearing interest and notes in circulation. In computing the percentages in this table particulars relating to the Rural Bank of New South Wales have been excluded.

No. 74.—Rates of Advances, and Advances and Securities to Total Deposits.

The percentages of advances, and of advances and securities on total deposits, respectively, for the Commonwealth Bank, the Other Cheque-paying Banks, and for all Cheque-paying Banks, are shown in the following table. The data on which the percentages are based relate only to business within Australia.

For the Commonwealth Bank and Other Cheque-paying Banks "Advances" are represented by the item "Discounts, overdrafts, and all other assets (not including contingent assets)," which are combined with "Government and Municipal Securities" (including short-term loans in Australia) under the heading "Advances and Securities." "Deposits" include deposits of all kinds except those of Other Cheque-paying Banks with the Commonwealth Bank, i.e., "Cash with Commonwealth Bank," "Savings Bank Deposits" with the Commonwealth Bank, and "Advances and Securities" from these deposits are included prior to the separation of the Savings Bank business from the general business of the present Banking Department on 9th June, 1928.

In computing the percentages in this table, particulars relating to the Rural Bank of New South Wales have been excluded.
