Reference No. 8.5

EXPORTS OF PRINCIPAL PRODUCTS OF AUSTRALIAN ORIGIN
BY COUNTRY OF CONSIGNMENT
THREE MONTHS ENDED SEPTEMBER 1974

This bulletin shows particulars of exports of principal products of Australian origin by country of consignment for the three months ended September 1973 and 1974.

2. **Basic documents.** The overseas trade statistics published in this bulletin have been compiled by the Australian Bureau of Statistics from copies of export entries submitted by exporters or their agents to the Department of Customs and Excise as required by the Customs Act.
3. **Period covered by the statistics.** Exports are recorded statistically in the month in which entries are passed by the Department of Customs and Excise. Normally this is within a few days of shipment but delays sometimes occur in the lodging of entries. The statistical month for Customs outputs (generally ports other than those at which the main Customs office in each State is located) closes on the 21st of each month.
4. **Valuation.** Goods sold to overseas buyers before export are valued at the Australian f.o.b. port of shipment equivalent of the actual price paid to the exporter. Goods shipped on consignment are valued at the Australian f.o.b. port of shipment equivalent of the price paid for similar goods of Australian origin in the principal markets of the country to which they are despatched for sale.
5. **Classification.** A complete description of the commodities included in this bulletin is contained in the Australian Export Commodity Classification. Copies of this classification, or extracts from it, can be obtained from offices of the Bureau in Canberra and in each capital city.
6. **Country of consignment.** This means the country to which goods were consigned at the time of export. Where the country of consignment is not determined at the time of export the goods are recorded as exported "For orders".
7. **Country of origin.** Goods of "Australian origin" are defined as goods, materials or articles which have been produced, manufactured or partly manufactured in Australia, except goods which were originally imported and have undergone only repair or minor operations such as blending, packaging, bottling, cleaning, sorting, husking and shelling which leave them essentially unchanged.
8. **Rounding.** Any discrepancies between totals and sums of components in tables are due to rounding.
9. **Current year figures.** Tables in this bulletin contain the year-to-date details of the current financial year compared with the corresponding period of the previous financial year. Statistics for the current financial year are subject to revision.
