EXPLANATORY NOTES

Introduction

The information shown in this publication for wine is obtained directly from winemakers by means of a mail collection. The brandy sales figures shown represent quantities on which excise duty was paid, i.e. the quantity of brandy released for sale. This publication also shows details of stocks of unfermented grape juice classified according to end use.

Scope and coverage

- The information on wine relates to wineries with wine sales of 250,000 litres or more in the previous financial year. These wineries account for approximately 97% of total wine sales.
- These figures include all sales by winemakers (within the scope of the collection) with the exception of exports, sales for ships' stores, sales of imported wine and brandy and inter-winery sales, the latter exclusion being necessary to avoid duplication in the published figures.
- Some cases of under-reporting of sales to non-winemakers were found in the 1981 coverage review. Details for winemakers involved have been included in the series from July 1981 onwards and past data back to July 1980 have been revised to provide a basis for future comparisons.
- All data are collected on an Australia-wide basis only and State figures are therefore not available.

- This publication contains seasonally adjusted figures for selected sales series. It should be noted that seasonally adjusted figures still include random influences e.g. strikes, abnormal weather. Details of the methods used in adjusting these series are given in *Seasonally Adjusted Indicators, Australia* (1308.0).

Related publications

- Current publications produced by the ABS are listed in the *Catalogue of Publications, Australia* (1101.0). The ABS also issues, on Tuesdays and Fridays, a *Publications Advice* (1105.0) which lists publications to be released in the next few days. The Catalogue and Publications Advice are available from any ABS office.

Symbols and other usages

- break in continuity of series (where a line is drawn between two consecutive figures in the same column)
 - n.y.a. not yet available
 - n.p. not available for separate publication (but included in totals where applicable).
- Where figures have been rounded, discrepancies may occur between sums of the component items and totals.
