Check Paper Status

The review process has been completed and the Technical Program Committee has made its decisions on acceptance and rejection of submitted papers. Authors can view the status of their papers by going to the [online paper submission and review system](#) and logging in with their paper ID and email address.

If you have submitted a paper to Interspeech 2008, you can check its status via [this link](#).

To login, you will need the Paper ID that was emailed to you in the paper submission confirmation email after the successful upload of a paper to the Interspeech 2008 online submission system.
