EXPLANATORY NOTES

Introduction

This publication contains information on government revenue collected on imported goods, in the form of customs duty, and on goods manufactured in Australia, in the form of excise duty. In addition some information is provided on export duty paid on coal and uranium exports and primage duty paid on imported goods. Statistics for 1980-81 are preliminary and subject to revision.

Source of data

2. Details of customs, primage and export duty payable are compiled by the ABS from documentation submitted by importers, exporters or their agents to the Bureau of Customs.

3. Details of excise duty payable are compiled by the ABS from documentation submitted by Australian manufacturers to the Bureau of Customs. Further details on, or copies of, the Customs Excise Tariff are available from the Bureau of Customs in Canberra or State Customs houses.

Statistical period

4. The statistical month for the statistics in this publication is the month in which documents were passed by the Bureau of Customs for processing by the ABS. For customs duty this may not be the month of arrival in Australia of the imported goods or the month in which duty was actually paid. Similarly, for excise duty this may not be the month in which the goods were manufactured or the month in which the duty was actually paid.

Description of terms

5. *Customs duty:* Duty paid under the *Customs Tariff Act 1966* on imported goods entering Australia for home consumption. Duty is paid either on arrival of the goods in Australia or, if the goods are stored in a Customs approved bonded warehouse, upon clearance from the warehouse.

6. *Excise duty:* Duty paid under the *Excise Act 1975* on certain goods manufactured in Australia.

7. *Primage duty:* An ad valorem duty imposed in addition to the normal rates of duty on specified imported goods.

8. *Export Duty:* Duty levied on a few specific export commodities to be paid prior to exportation, or as the Collector of Customs determines. (Currently, coal and uranium attract export duty, see tables 10 and 11.)

9. *Refunds and drawbacks:* A claim for refund of duty arises in most cases because goods on which duty has been paid are subsequently granted by-law admission. Claims can also arise because of goods being damaged during shipment, short-shipment of goods (i.e. the expected shipment on which duty was paid was larger than the actual shipment), or where an importer overestimates the duty payable and is subsequently re-imbursed. A claim for drawback arises when goods on which duty has been collected are subsequently exported or re-exported.

10. *State:* The State details shown in this publication refer to the State in which the relevant documents were lodged with the Bureau of Customs i.e. they represent the State in which duty was paid and refer to amounts collected in each State. It is important to note that excise duty levied on a particular commodity may have been paid in a State other than the State in which the commodity was consumed. *For these reasons State figures shown should not be taken as an accurate measure of consumption or usage in that State.*

11. *Quantity:* Quantities shown in this publication are those quantities of imported and locally manufactured goods which attract duty. Quantities for 'duty free' items are excluded.

12. *Petroleum credits:* Australian government departments, most Commonwealth authorities and all diplomatic missions can claim a refund of the duty paid on certain petroleum products. As details of these refunds are not available to the ABS, *refunds and drawbacks* statistics on petroleum products contained in this publication are understated and net revenue statistics overstated, on this account.

Special returns system

13. More detailed and/or timely import clearance statistics for individual commodity items are available through subscription to the pre-paid Overseas Trade Special Return Service. Subscribers to this service can obtain by post, computer-produced special returns according to a limited number of formats, for a charge consistent with the level of detail required. Special returns are available on a monthly or less frequent basis and application forms are available from the Overseas Trade Section in Canberra, or from each State office of the ABS.

(a) Excludes export duty. See paragraph 8 of Explanatory notes. (b) Since monthly excise revenue statistics are compiled from documents lodged with the Bureau of Customs during the month in question, delays in receiving documents can cause apparent sharp increases or decreases in monthly revenue data. Delays in the receipt of documents relating to petroleum products for February 1981 and the subsequent inclusion of these documents in March 1981 have resulted in a large decrease in recorded total excise revenue for February 1981 and a large increase in recorded March 1981 revenue.
