PREFACE

Particulars of registrations of new motor vehicles (including Commonwealth-owned vehicles and excluding motor cycles) for the month of September, 1951 are shown in the tables which follow. Details include the make and horse-power of new motor vehicles registered in each State, the Australian Capital Territory and the Commonwealth (excluding Northern Territory).

Separate registrations of trailers or any other vehicle without an engine are also excluded.

For various reasons the totals may not agree in all cases with those compiled by the registration authorities in each State but the differences will be small and of no significant acc. For all States the tabulations include all registrations of new vehicles which passed through the Central Registration Authority up to and including the last day of the month. In regard to Western Australia all metropolitan (Perth) registrations of new vehicles during the month are included, but the majority of country registrations arrive at the central office too late for inclusion in the tabulations for the month to which they refer and are incorporated in the tabulations for the month following.
